MAYOR NICHOLS BROADCASTS APPEAL TO VOTERS.

On Monday night, October 11, the Mayor spoke by radio over Station WEEI on the subject "Why every citizen should vote."

LADIES AND GENTLEMEN OF THE RADIO AUDIENCE:

Nearly one half of the voters of the United States fail to perform their civic duties as electors, notwithstanding that we enjoy the best form of Republican government that the world has ever known, and that today the popular ballot controls approximately 90 per cent of the governments of the civilized nations of the earth.

The failure to grasp the principles of American citizenship was well tested at the last presidential election in the South, where Alabama cast only 13 per cent of its eligible vote, Georgia 11 per cent, Louisiana 12 per cent, Mississippi 12 per cent, and South Carolina only 6 per cent.

Three quarters of the members of the United States Senate today are elected by less than one third of the eligible citizenship of their respective states.

Ninety per cent of the total membership of the House of Representatives, comprising 435 Congressmen, is elected by less than one half of the eligible citizenship of their respective districts.

During the first century of our career in government by popular vote, American voters were the natural leaders. This country held the world record in voting efficiency. During the period 1880-1896, we made in five presidential elections a voting average of 80 per cent. That is to say, 80 per cent of the qualified electorate went to the polls and expressed the will of the Republic through the ballot.

Then our interest in the vote seemed to slacken. There began to develop an increasing stay-at-home vote. Finally, in 1920, less than half the qualified electors, male and female, went to the polls. The stay-at-home army exceeded in numbers the actual voters. In 1924 only a fraction over fifty per cent of the American electorate went to the polls. In other words, the American voting record has dropped to a 50 per cent basis.

Second in importance to waking up the stay-at-home voters is the naturalization of 6,200,000 foreign-born citizens of voting age. Patriotic efforts are being made to this end, but the movement should become national and have a broader and more earnest support. If dangerous propaganda is fomented against American institutions, it will best flourish in alien and unnaturalized citizenship. Therefore, aliens should become citizens and they should vote.

MAYOR'S APPEAL TO VOTERS.*(Continued from page 1665.)*

No better opportunity was ever presented than now to men, as well as women, to enjoy the voting franchise. It is my opinion that since women began to vote, there has been a much better interest displayed in the discussion of public questions and the selection of candidates for public office. We do well, however, to broaden this interest and thereby seek new ways through which we may give strength to our free institutions. Indifference breeds conditions which lead to weakness and corruption. Enthusiasm corrects such conditions. It is a good thing to be enthusiastic over your city, your state and your country. There is need of enthusiasm in peace, as well as in war. In fact, there is no peace if our concerns go wrong. It is a good thing to cultivate a healthy curiosity into the transaction of public business. It is really private business written large. Every personal act has a public side to it.

Intelligent study will destroy misunderstanding and lead to a real participation in elections. It will make us watchful to protect our rights. And watchfulness, by fixing attention on issues, will bring to the polls on election day full armies of voters who otherwise never would appear.

It is a matter for serious reflection whether our forefathers did not concern themselves more generally with public questions than we do at present. There was less to distract their attention and politics was an absorbing and serious topic. Nowadays there is a whirl of business and amusement. We leave a good many things for other people to attend to, among such things, politics. And yet politics is as well worth attending to as ever. It touches everywhere upon our private affairs.

Therefore, attend a little to politics. Join a political party. Drop around at the rallies. Listen in at the radio. Read the political news. Ask questions. Believe something, but don't believe all you hear. There are a good many people who don't tell the truth, and there are press agents. After this you will vote because you will want to vote.

In conclusion, permit me to thank Station WEEL and the Edison Company for its courtesy in making possible these radio talks upon voting. I feel that they will stimulate interest and prove of the highest practical value. I hope that all of you will listen in to other speakers who will continue these discussions. And now, ladies and gentlemen of the radio audience, I bid you good evening.

BELGIAN QUARTET AT PUBLIC LIBRARY.

The first Boston appearance of the Pro Arte Quartet of Belgium will occur in the Lecture Hall of the Boston Public Library next Sunday, October 17, at eight o'clock. The concert is given under the auspices of the Library of Congress, Washington, D. C., under the Elizabeth Sprague Coolidge Foundation.

The concert is open free to the public. The program will consist of Beethoven's Quartet in A Minor, No. 15, Op. 132; Gruenberg's "Four Indiscretions" for string quartet; Huybrechts' quartet ("Poeme") in one movement. The last composition was awarded the prize in the Ojai contest, 1926.

MAYOR REPLIES TO FINANCE COMMISSION.

Mayor Nichols announced on October 11 that he had replied to the report of the Finance Commission on the repair of schoolhouse furniture, and the reply follows:

REPORT TO MAYOR FROM SCHOOLHOUSE DEPARTMENT.

Referring to report of the Finance Commission on the repair of schoolhouse furniture, our Board has been making a thorough investigation of the statements therein contained, together with the facts underlying them, and has given considerable thought to the recommendations of the commission.

The Board submits the following report:

Recommendation No. 1. As this involves an important question of policy, the Board feels that consideration of the matter should be postponed until a full complement of members is in office, and therefore suggests that your Honor permit a delay pending the confirmation of a new schoolhouse commissioner.

Recommendations Nos. 2 and 3. As soon as the Board learned of the conditions set out in the report of the Finance Commission, it immediately arranged to stop payment of all bills presented where the work had been criticized, and found that in three cases bills under such conditions had been passed and paid. In every other case the bills had been refused approval by the inspectors, and the contractors notified to do their work over, according to specifications. The Board is now able to report to your Honor that the work done by the various contractors named in the report of the Finance Commission (including those jobs where bills had been paid) has been substantially completed to the satisfaction of the Board. We should add that the entire situation has been adjusted without any loss to the city and with satisfaction to the school authorities.

Recommendation No. 4. The Board has carefully considered the situation in the High School of Commerce, with reference to the character of service rendered by the assistant chief inspector, and begs to report to your Honor that it believes the following to be the facts:

The contractor did the work under the supervision of the assistant chief inspector, who upon its completion approved and passed the bills for payment, with the agreement on the part of the contractor that he should return and refinish portions of the furniture which had not been done satisfactorily. The Board believes that the assistant chief inspector erred grievously, first, in entering into any agreement with the contractor, and secondly, in approving the work and the bills under such conditions, and it feels that discipline in this case is necessary.

Therefore the Board has this day voted.

That the Board find Charles E. Cadigan, assistant chief inspector, grievously at fault in making an agreement outside of the specifications, without authority, with the contractor for work being done at the High School of Commerce, and in approving the work done therein and passing the bills for payment; and that said Assistant Chief Inspector Cadigan be suspended at the close of business.

Thursday, October 7, 1926, for a period of three weeks.

Respectfully yours,

F. E. SLATTERY,
Chairman.

The Schoolhouse Department notified the Mayor that they had taken the following action relative to Mr. Charles E. Cadigan, assistant chief inspector:

Under the provisions of chapter 31, section 43 of the General Laws, the Board of Schoolhouse Commissioners have this day notified Charles E. Cadigan, 356 Seaver street, Roxbury, Mass., assistant chief inspector of this department, of his suspension for three weeks to take effect at the close of business, Thursday, October 7, 1926, for the reason that the Board finds him grievously at fault in making an agreement outside of the specifications, without authority, with the contractor, for work to be done at the High School of Commerce and in approving the work done therein, and passing the bills for payment.

The Board has also notified said employee that under the law above quoted a hearing will be given by the Schoolhouse Commissioners at the public office of said commission, Room 1006, City Hall Annex, Court square, Boston, if so requested by him in writing within three days. Said hearing to be held at 11 a.m. Thursday, October 14, 1926.

Very truly yours,

F. E. SLATTERY,
Chairman.

PETER FANEUIL AT CITY HALL.

On October 7 a tableau was portrayed on the steps of City Hall, wherein Peter Faneuil, founder of Faneuil Hall and Faneuil Hall Markets, came to life on the occasion of the century celebration of Faneuil Hall Markets for an accounting of his legacy to the city to see how his institution has fared during this hundred years.

At this time, motion pictures were made of the visit for the motion picture production which is featuring the history of Faneuil Hall and Faneuil Hall Markets for educational and patriotic purposes.

After the visit to City Hall the scene shifted to a gathering of the marketmen and the public addressed by the portrayer of Peter Faneuil on the steps of Faneuil Hall Market at noon.

On behalf of Faneuil Hall Market Association, Mr. Fred H. Loveland, chairman, presided and addressed the audience.

The association issued a proclamation addressed to any and all marketmen of the Faneuil Hall Markets, which reads as follows:

THE COMMONWEALTH OF MASSACHUSETTS.
SUFFOLK, SS.

TO ANY AND ALL MARKETMEN OF THE FANEUIL HALL MARKETS, OLD AND NEW, OF THE TOWN OF BOSTON IN THE COUNTY OF SUFFOLK.

GREETING.

In the name of Peter Faneuil, you are hereby directed to notify and warn ye Marketmen of Faneuil Hall Markets, qualified to vote on and take part in all matters relating to the good and welfare of said Markets, to meet at the Court House of the Boston Fruit and

Produce Exchange, rooms 17-19 on Thursday, the seventh day of October next, at two o'clock in the afternoon, then and there to act on the following:

1. To meet Peter Faneuil in person, who after a century's absence has returned to see how Ye Markets have fared all these years.

2. To hear the report of your Nominating Committee on the six directors to be chosen.

3. To hear the first reading of a draft of By-Laws concerning the good and welfare of both Markets.

4. And to act upon any and all matters relating to the welfare of said market which may come before ye.

And ye are directed to serve this notice upon any and all Marketmen of your knowledge and kin in said Faneuil Hall Markets at once.

Hereof fail not, and make due return of this Notice with your own doings thereon to the Clerk of the Association at the time and place of meeting, as aforesaid.

Given under our hands this 5th day of October in the year of our Lord one thousand nine hundred and twenty-six.

FRED H. LOVELAND, *Chairman*.

A true copy, Attest:

ALTON E. BRIGGS, *Clerk*.

P. S. You are further directed to meet Peter Faneuil on the steps of the Quincy Market at high noon on said day to wit: October 7th, 1926.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester, and are bounded as follows:

A parcel of land, supposed to belong to the Boston Catholic Cemetery Association, bounded:

Northwesterly by Harvard street, ten and 7-100 feet; northeasterly by other land supposed to belong to said association, four hundred ninety-five and 63-100 feet; southeasterly by land supposed to belong to Meade and to The First National Bank of Boston, ten feet; and southwesterly by other land supposed to belong to said association, by two measurements, one and 83-100 feet and four hundred ninety-eight and 63-100 feet, containing forty-nine hundred and eighty square feet, more or less.

A parcel of land, supposed to belong to Mary Agnes Meade, bounded:

Southeasterly by Prairie street, five

feet; southwesterly by land supposed to belong to The First National Bank of Boston, one hundred feet, northwesterly by land supposed to belong to said association, five feet, and northeasterly by other land supposed to belong to said Meade, one hundred feet, containing five hundred square feet, more or less.

A parcel of land, supposed to belong to The First National Bank of Boston, City of Boston T. T., bounded:

Southeasterly by Prairie street, five feet; southwesterly by other land supposed to belong to said Bank, one hundred feet; northwesterly by land supposed to belong to said association, five feet, and northeasterly by land supposed to belong to Meade, one hundred feet, containing five hundred square feet, more or less.

The sewerage works to be constructed are as follows: 598 linear feet of 12-inch pipe sanitary sewer and 599 linear feet of 3-foot 3-inch circular concrete surface drain, in the above described premises, being private land from Harvard street to Prairie street.

Voted, That this Board determines that the undermentioned estates sustain damages by the taking of an easement for sewerage purposes in private land between Harvard street and Prairie street, Dorchester district, under the order of the Board of even date herewith, in the amounts hereinafter respectively set against them, and awards said amount therefor:

Boston Catholic Cemetery Association

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to

do the work with the department forces without advertising; additions to and deductions from contracts.

SCHOOLHOUSE DEPARTMENT.

Upon October 8 the Mayor approved a contract with Paul Caputo for building brick walls in Washington Irving School. A communication from F. E. Slattery of the Schoolhouse Department was as follows:

September 29, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—The Board of Schoolhouse Commissioners respectfully requests the approval of your Honor, under the provisions of chapter 486, section 30, of the Acts of 1909, to awarding a contract, without advertising, to Paul Caputo, 363 Hanover street, Boston, for building two 8-inch brick walls in an unassigned room in the Washington Irving School, Roslindale District, in the sum of \$2,295.

This work is to be done in the basement of the second unit of this school. The contract for erecting this second unit was awarded January 30, 1925. On November 23, 1925, the Superintendent of Public Schools requested that these walls be erected, but the former Board of Schoolhouse Commissioners did not take any action on the request. On August 4, 1926, the superintendent renewed his request that the work be done, as it will give the school two additional shops, besides storage space.

The Board desires to give this work to the contractor named, because he is the general contractor for the erection and completion of the third unit of this school building and is on the job with all his material and equipment, and as the School Committee would like to have the work done at once, the Board is of the opinion that this desire will best be met and the best interests of the city served by awarding to him the contract for the additional work.

The work includes the building of two 8-inch brick walls 30 feet long, 12 feet high, with one cross wall, also furnishing and erecting four doors, one counter with shelves, one metal-covered counter with shelves in electrical shop, pipe racks for storage purposes, setting up blackboards, and painting all work to correspond with the rest of the building.

The price named above has been checked by the department, and the Board considers it a fair one, and therefore asks your approval as set forth above.

Respectfully yours,

F. E. SLATTERY,
Chairman.

DAMAGES AWARDED.

Katherine Doonan and Sara V. Callahan have agreed to accept the sum of \$935.60 as full payment for all land taken from, all rights acquired in, and all damages occasioned to their estate on Walk Hill street by the widening and construction of said street under the order of the Street Commissioners and Mayor of July 7, 1925. This acceptance is made upon condition that any betterments assessed on said estate for the aforesaid improvement are to be assumed by the City of Boston.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of an extension of Pierpont road, West Roxbury district, as a highway, from Greateon road to Church street, bounded and described as follows:

An extension of the highway named Pierpont road is hereby laid out, from Greateon road to Church street, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken is bounded and described as follows:

Westerly by Greateon road, by two measurements, eleven and 44-100 feet and twenty-eight and 61-100 feet; northerly by the northerly line of said extension of Pierpont road as hereby laid out, eight hundred twenty-nine and 96-100 feet; easterly by Church street, forty and 16-100 feet, and southerly by the southerly line of said extension of Pierpont road as hereby laid out, eight hundred twenty-five and 26-100 feet.

Trees or structures standing upon or affixed to the aforesaid described land shall be removed therefrom within sixty days following a notice of the city's intention to enter said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Pierpont road, from Greateon road to Church street, as extended under this order, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Pierpont road, West Roxbury, Assessment Plan, June 16, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

REORGANIZING BUREAU OF FIRE PREVENTION.

Mayor Nichols announced on October 6 that he had arranged with Fire Commissioner Hultman for the appointment of Peter E. Walsh as Superintendent of the Fire Prevention Division of the Fire department.

This appointment is in line with the program which the Mayor is planning in connection with fire prevention work and comes in the nature of a reorganization of the work of the present Bureau of Fire Prevention, the License Division, and the Bureau of Building Survey and Inspecting Division of the Uniform Force by placing all of this work in a new division to be called the Fire Prevention Division.

Mr. Walsh was retired as chief of the Fire Department in 1922 on a pension, and upon the assumption of his new duties his pension will be suspended and he will be paid at the rate of \$4,000 per year.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Parkway avenue, bounded:

Southeasterly by Centre street, ten and 4-100 feet; southwesterly by another part of Parkway avenue, by two measurements, one hundred fifty-two and 88-100 feet and two hundred eighty-eight and 87-100 feet; westerly by West Roxbury Parkway, fourteen and 69-100 feet, and northeasterly by another part of Parkway avenue, by two measurements, three hundred one and 8-100 feet and one hundred fifty-three and 40-100 feet, containing forty-four hundred and eighty-one square feet, more or less.

The sewerage works to be constructed are as follows: 440 linear feet of 10-inch pipe sanitary sewer and 440 linear feet of 10-inch pipe surface drain in the above described premises, being part of the private way known as Parkway avenue, from Centre street to West Roxbury Parkway.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Parkway avenue, from Centre street to West Roxbury Parkway, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 709, Sewerage Works, Parkway Avenue, West Roxbury, September 16, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings, or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty

days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury and are bounded as follows:

A parcel of land, supposed to belong to owners unknown, being part of the private way known as Boxford terrace, bounded:

Northeasterly by Park street, ten feet; southeasterly by another part of Boxford terrace, two hundred thirteen and 9-100 feet; southwesterly by the southwesterly line of said Boxford terrace, ten feet; and northwesterly by another part of said Boxford terrace, two hundred twelve and 85-100 feet, containing twenty-one hundred and thirty square feet, more or less.

The sewerage works to be constructed are as follows: 225 linear feet of 10-inch pipe sanitary sewer and 220 linear feet of

10-inch pipe surface drain, in the above described premises, being part of the private way known as Boxford terrace, leading southwesterly from Park street for a distance of about 212 feet.

Betterments are to be assessed for the making of the aforesaid improvement.

This Board determines that no person sustains damages in his estate by the taking of an easement for sewerage purposes and the construction of sewerage works and awards no damages therefor.

Ordered, That this Board estimates that the lots of abutting land on the northwesterly side of Boxford terrace, now or formerly owned by Helen C. Fisher, and designated as Lot 1 on the plan hereinafter mentioned, and the lot of abutting land on the southeasterly side of Boxford terrace, now or formerly owned by Louise W. Delano, and designated as Lot 2 on said plan, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 700, Sewerage Works, Boxford Terrace, West Roxbury, August 12, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Russett road, West Roxbury district, as a highway, southeasterly from Schirmer road bounded and described as follows:

A highway named Russett road is hereby laid out, southeasterly from Schirmer road for a distance of approximately seven hundred and sixty-two feet, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northwesterly by Schirmer road, forty feet; northeasterly by the northeasterly line of said Russett road as hereby laid out, by two measurements, four hundred fifty-seven and 22-100 feet and two hundred ninety-eight and 39-100 feet; southeasterly by the southeasterly line of said Russett road as hereby laid out, forty-one and 13-100 feet; southwesterly by the southwesterly line of said Russett road as hereby laid out, by two measurements, three hundred nine and 88-100 feet and four hundred fifty-nine and 12-100 feet.

Trees or structures standing upon or affixed to the aforesaid described land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Russett road, southeasterly from Schirmer road for a distance of approximately seven hundred and sixty-two feet,

will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Russett Road, West Roxbury, Assessment Plan, June 14, 1926. CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

A surface drain of 12-inch earthen pipe and two catch-basins in Beacon street, between Charlesgate West and Back Bay Fens, in the Roxbury district, at an estimated cost of \$1,700.

A surface drain of 12-inch earthen pipe in Providence street, between a point 20 feet southwest of Church street and a point 120 feet southwest, in the city proper district, at an estimated cost of \$3,000.

A surface drain of 12-inch earthen pipe in Arlington street extension (east side), between St. James avenue and Columbus avenue, in the city proper district, at an estimated cost of \$4,000.

A sanitary sewer and surface drain of 10-inch earthen pipe in Commonwealth avenue (north side), between 600 feet west of Essex street and a point 200 feet easterly, in the Brighton district, at an estimated cost of \$1,750.

A sanitary sewer of 10-inch earthen pipe in Royal street, between Cambridge street and 47 feet northwesterly, and in Cambridge street (northwest side), from

Royal street 88 feet westerly, in the Brighton district, at an estimated cost of \$1,300.

A surface drain of 15-inch earthen pipe and ten catch-basins in Hillsdale street, between Adams street and a point 820 feet northwesterly, in the Dorchester district, at an estimated cost of \$3,500. Surface drain to be built between Adams and Richview streets.

A sanitary sewer and surface drain of 10-inch earthen pipe in West Roxbury Parkway, between Parkway avenue and a point 364 feet westerly and northerly, in the West Roxbury district, at an estimated cost of \$2,600.

A sanitary sewer of 10-inch earthen pipe in Baker street, between Centre street and Elmwood street, in the West Roxbury district, at an estimated cost of \$5,118.

A 1-foot 6-inch by 2-foot concrete sanitary sewer in Spring court, between Fellows street and end of court, in the Roxbury district, at an estimated cost of \$4,188.

A surface drain of 12-inch earthen pipe and three catch-basins in Dennison street, between Walnut avenue and a point 627 feet northwesterly, in the Roxbury district, at an estimated cost of \$7,664.

FINANCE COMMISSION REPORTS ON PUBLIC WORKS DEPARTMENT INVESTIGATION.

The Finance Commission has sent to the Mayor the following report, in brief:

Boston, October 11, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

SIR,—The Finance Commission calls your Honor's attention to the waste of city funds during the present year in various divisions of the Public Works Department.

The Finance Commission in the early part of the summer requested the Commissioner of Public Works to furnish it with a list of the contracts which had been awarded by his department during the present year without advertising. After some delay the list was furnished and a summary of it is attached hereto. The commission then investigated the circumstances under which the contracts were awarded and submits below the result of its findings. Summarized, the investigations disclosed:

1. Conscious evasion of the civil service laws of the Commonwealth by the employment of men through contractors on purely labor jobs, instead of drawing them from the civil service lists.

2. Unnecessary waste of money in employing labor through contractors and paying the contractors 15 per cent profit on labor and an insurance premium of 5 per cent.

3. Petty graft, where the city was charged for insurance on men when none was taken out.

4. The bestowing of "gift" contracts on specially selected contractors.

5. Permitting favorite contractors to make unconscionable profits.

The Finance Commission recommends:

1. That where a series of jobs of similar nature is to be performed, the total cost of which will amount to or exceed \$1,000, heads of departments be ordered to conform to the charter provisions and seek public competition by advertisement.

2. That the laws of the Commonwealth providing for the employment of labor from the civil service lists be adhered to.

3. That the question whether or not the provisions of the C. and R. Construction Company's contract for laying water pipes in Commonwealth avenue required the city to deduct the sum of \$8,558.13, paid to Warren Brothers Company for laying permanent pavement from the amount due the C. and R. Construction Company, be referred to the Law Department.

4. That the matter of charging the city under the McFaden contract for insurance which was never placed be referred to the Law Department for adjustment and to the District Attorney.

Respectfully submitted,

THE FINANCE COMMISSION,
by CHARLES L. CARR, *Chairman.*

THE MAYOR'S REPLY.

Upon receipt of the report the Mayor replied as follows:

The criticism of the Finance Commission seems to group itself under four heads, the McFaden contract, the Mc-

Culloch contract, the C. & R. Construction Company contract, and the so-called "gift" contracts.

McFaden Contract.—In this contract the work simply consisted of digging trenches in the street and backfilling the same. This work does not require any particular experience and, like all similar work, it was under inspection.

Concerning Insurance Premiums.—Mr. McFaden in some of his bills did charge for insurance but the department discovering no insurance had been taken out, some time ago withheld money to cover the amount charged improperly for insurance.

McCulloch Contract.—In the matter of hydrants or the McCulloch contract, all hydrants used in the City of Boston previous to 1924 and 1925 were made by the Public Works Department. Owing to the excessive demand for hydrants in the development of the suburban districts, it was impossible for the machine shop to assemble them as quickly as desired; hence in the latter part of 1925 the Commissioner of Public Works thought it advisable to have some of our style hydrants assembled in outside machine shops. Consequently a small order was given on three different occasions to the McCulloch Manufacturing Company, a first-class machine shop equipped with every improvement.

A comparison of the cost of hydrants outside the City of Boston is misleading because the Boston hydrant is specially designed, with a very large discharging capacity, composed of materials much heavier than any commercial hydrant on the market. Our hydrants have always received the highest commendation from the National Board of Fire Underwriters.

C. & R. Construction Company Contract.—This contract was signed July 7, 1925, and at that time I am informed that the Park Department notified the Public Works Department that as the area in which the work was to be done came within its jurisdiction, it insisted upon restoring the bitulithic pavement. Paragraph 135 of the contract, quoted by the Finance Commission, related only to the other pavements to be restored and which appeared in the items for which prices were asked or bid.

As to unadvertised contracts which the Finance Commission designedly described as "gift" contracts, this is a practice that has obtained in the Public Works Department for years. It is legal to award contracts under \$1,000 without advertising and the personality of contractors has varied with the successive administrations. For the most part these have been given out during emergencies. Before the Finance Commission directed attention to this, so far as possible the Public Works Department has merged these smaller contracts into larger contracts requiring advertisement.

Of course, there are times and occasions when matters arise where judgment has to be used in overcoming obstacles in construction and in taking care of emergencies but, after many years of experience in the Public Works Department, I consider at the present time there are less objectionable features connected with the department than for years past.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Mt. Bowdoin terrace, bounded:

Northeasterly by land hereinafter described as taken from Hattie B. Coyne, forty-four and 53-100 feet; southwesterly by another part of said terrace, two hundred nine and 42-100 feet; northwesterly by the same, six feet; northeasterly by the same, one hundred sixty-four and 97-100 feet; southeasterly by land hereinafter described as taken from Hattie B. Coyne, one and 73-100 feet, containing ten hundred and eighty-six square feet, more or less.

A parcel of land, supposed to belong to Hattie B. Coyne, bounded:

Southeasterly by easement taken by the City of Boston for sewerage purposes April 5, 1912, six feet; southwesterly by land hereinbefore described as taken from owners unknown (Mt. Bowdoin terrace), forty-four and 53-100 feet; northwesterly by the same, one and 73-100 feet; northeasterly by other land supposed to belong to said Coyne, forty-five and 3-100 feet, containing one hundred and seventy-two square feet, more or less.

The sewerage works to be constructed are as follows: 200 linear feet of 10-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Mt. Bowdoin terrace, and private land on said terrace.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on the northeasterly side of Mt. Bowdoin terrace, beginning at a point about 250 feet southeast of Eldon street and extending southeasterly for a distance of about 250 feet, and the lots of abutting land on the southwesterly side of Mt. Bowdoin terrace, beginning at a point about 280 feet southeast of Eldon street and extending southeasterly for a distance of about 170 feet, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 696, Sewerage Works, Mt. Bowdoin Terrace, Dorchester, July 2, 1926, William J. Sullivan, Chief Engineer, Street

Laying-Out Department," and on file in the office of said department.

FIRE DEPARTMENT ORDERS.

General Order No. 70.

I. REINSTATEMENT.

Ladderman John J. Leary of Ladder Company 1, who was suspended from duty in the Boston Fire Department, without pay, to take effect at 6 p. m. August 19, 1926, is hereby reinstated in the department to take effect at 8 a. m. Tuesday, October 12, 1926, and his pay is ordered remitted to him from 6 p. m. August 19, 1926.

II. TRANSFERS.

The following transfers are hereby announced to take effect at 8 a. m. Tuesday, October 12, 1926:

John J. Leary, from Ladder 1 to Engine 50; Daniel J. Foley, from Engine 50 to Ladder 1; John J. Francis, from Ladder 18 to Engine 49; Edward J. Welch, from Engine 49 to Ladder 18.

III. UNIFORM OVERCOATS.

The contract for uniform overcoats for the coming winter has been awarded to Donohue & Riordan, 182-186 Dudley street, to whom orders should be presented.

By order of Fire Commissioner Eugene C. Hultman.

DANIEL F. SENNOTT,
Chief of Department.

General Order No. 71.

I. INSTRUCTIONS IN TELEGRAPHY.

Schools for instruction in telegraphy will shortly be established in various district headquarters.

Six or eight men in a district to be detailed for instructions, the men to be selected by Lieutenant Dacey of the Fire Alarm Branch with the approval of the district chief in which district the school is operating, after visiting the stations in the district. In this way it will be possible to ascertain who may be interested in the subject and other qualifications noted. A surplus of pupils should be detailed to allow for absentees due to days off, shift of tours of duty, etc. An inspection of the telegraph instruments will also be made by Lieutenant Dacey during his visits to various houses.

Each instructor from the Fire Alarm Branch, Lieutenant Dacey and Mr. Reidy, to take two districts a day, and to continue in those districts until the majority of the men are qualified. For example, Lieutenant Dacey will be in District No. 1 every forenoon and in District No. 2 every afternoon, Mr. Reidy taking Districts No. 13 and 15. In case of fire the men in the class will respond on the apparatus and in that way be available for fire duty with their respective companies or with other companies.

It should, of course, be understood that no interference should be allowed with these classes, except an alarm of fire.

As soon as the school hereinbefore

described is put into operation, the present telegraph school at the Fire Alarm Station will be discontinued.

II. BOX DOOR INSPECTION CARDS.

A supply of box door inspection cards has been furnished to the various divisions, and the following instructions will govern their use.

The cards are to be distributed to district subdivisions. A card will be placed in each box by the member making inspection of box doors, and on each Monday and any other occasion when the doors are tested, the member making the test will write his name and date on the card in space provided. The card shall be left at the side of the inner box between the inside and outside shells.

Chief officers will inspect boxes at frequent intervals and will put their name and date in the space provided at the lower section of the card designated by the heading "Checked by."

These cards will be returned to Headquarters on the fifteenth of October, January, April, and July, and new cards will be placed in the boxes at that time.

III. FIRE-FIGHTING DEMONSTRATION.

The attention of the department is called to the fact that Foamite-Childs Corporation will conduct a demonstration of their equipment and products at 2 p. m. October 14, 1926 in the rear of 975 Massachusetts avenue, Roxbury. Members of the department who are off duty may attend the demonstration if they wish to do so.

By order of Fire Commissioner Eugene C. Hultman.

DANIEL F. SENNOTT,
Chief of Department.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as St. Peter street, bounded:

Northeasterly by Paul Gore street, eight feet; southeasterly by another part of St. Peter street, two hundred thirteen and 95-100 feet; southwesterly by the same, eight and 3-100 feet; and northwesterly by the same, two hundred and thirteen and 20-100 feet, containing seventeen hundred and nine square feet, more or less.

The sewerage works to be constructed are as follows: 200 linear feet of 10-inch pipe sanitary sewer, in the above described premises, being part of the private way known as St. Peter street, leading southwesterly from Paul Gore street for a distance of about 213 feet.

Betterments are to be assessed for the making of the aforesaid improvement.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Ordered, That this Board estimates that the lots of abutting land on both sides of St. Peter street, beginning at a point about 100 feet southwest of Paul Gore street and extending southwesterly for a distance of about 110 feet, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof of being shown on a plan marked "City of Boston, Plan No. 699, Sewerage Works, St. Peter Street, West Roxbury, August 12, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

Lot.	Amount.
1. Arthur T. McPherson.....	\$219 40
2. Arthur T. McPherson.....	230 00
Total	\$449 40

Voted, That this Board determines that the undermentioned person sustains damages in his estate by the taking of an easement for sewerage purposes in private land on Mt. Bowdoin terrace, Dorchester district, under an order of this Board, in the amount hereinafter mentioned, and awards said amount therefor: Hattie B. Coyne, 172 square feet, \$17.20.

POLICE DEPARTMENT ORDERS.

General Order No. 968.

BOSTON POLICE PARADE, DRESS PARADE, AND REVIEW, TUESDAY, OCTOBER 12, 1926.

General Instructions.

On Tuesday, October 12, 1926, the Boston Police Parade will take place at 9.50 a. m., sharp.

Every officer in the department, who is not sick, will either take part in the parade, go on street duty, or hold himself in readiness in his station house until the parade is over.

Division commanders will instruct all officers who are to take part in the parade, to present the very best possible appearance; trousers creased, buttons, badge and cap ornament polished, hair trimmed, face shaved and shoes shined; to refrain from chewing any substance; to preserve silence in the ranks; to pay no attention to greetings or remarks, friendly or otherwise, which may be made by spectators along the line, and at all times pay attention and show discipline, so that when any command is given it will be understood and immediately executed.

The regulation fall uniform, with dress coat, white standing collar, and white gloves, will be worn by members of the department participating in the parade, and also by officers on detail and on street duty in uniform.

It is desirable that members of the force who are veterans and who are entitled to wear decorations or insignia other than service buttons, members of the department Rifle Clubs who qualified as experts, sharpshooters and marksmen, and members who have been awarded the Scott Department medal, wear the same on breast of uniform coat in line with the police badge, while taking part in the parade.

Short-day men detailed to parade will be excused at 6 a. m. October 12, and they will report at station for first-half duty at 6.45 p. m. October 12.

After the parade is over, day men on route duty will remain on the street until relieved, at about 7 p. m. Long-day men will be governed by instructions from their commanders.

During the parade the officer in charge of each station will cover the routes on his division the best he can with the number of men left on the division. If additional men are needed in any station in an emergency, call Headquarters immediately.

During the absence of the patrol wagons from Divisions 2 and 3, if necessary, Division 2 will call Division 4's wagon and Division 3 will call Division 1's wagon. In case of accident, where more than one ambulance is needed, officers in charge of divisions will notify Headquarters, and they will immediately notify City Hospital and Haymarket Relief Hospital.

After the parade is dismissed on the Common each captain or officer in charge of a unit will be governed by the superintendent's orders relative to other details for the day.

Officers in command of the Riot Gun Companies will remain with the companies until each man has safely delivered his gun to the officers in patrol wagon of Division 16, which will be near the center gate, Charles street, Boston Common.

Division commanders, who are stationed a long distance from the parade formation point, will arrange for their men to ride in the street cars, paying fares and charge the same in their account.

Sergeant Comerford and twenty mounted patrolmen will ride at the head of the parade, riding ten abreast, except in Boylston street, between Arlington street and Park square, and in School street, where they will ride in column of fours.

Two mounted patrolmen from Division 20 will ride in rear of the parade.

Commanders of companies and units, as designated in General Order No. 963 of October 1 for the police parade, will report to Captain Lutz, on Dartmouth street, between Commonwealth avenue and Beacon street, not later than 9 a. m. Tuesday, October 12, 1926.

Details, as enumerated in Superintendent's Order of October 1, for the Riot Gun Companies, Motor Cycle Unit, Machine Gun Unit, and for Divisions 8 and 18, Division 20 Traffic Company No. 2, will report to Captain Lutz in Commonwealth avenue, south side, at Dartmouth street, at 8.45 a. m.

It is very important that the men detailed for these companies and units report on time and be carefully instructed as to which company or unit they are to report, so as there will be no confusion at the last moment.

The commanding officers of Divisions

8 and 18 will report at 8.45 a. m. with the designated number of men from their division, in Dartmouth street, at Commonwealth avenue, and when their companies are formed they will take their places in line with their respective battalions. The Riot Gun Companies and Thompson Submachine Gun Unit will assemble on Beacon street, corner of Dartmouth street.

Lieutenants and sergeants assigned to parade with companies and units other than their own, will report at time and place ordered for such company or unit.

Battalion commanders, Deputy Superintendents Thomas C. Evans, Forrest F. Hall, and Thomas F. Goode, with their adjutants, Lieutenants William H. Allen, Division 2, George H. Guard, Division 13, and Harry P. Burns, Division 5, will report to Captain Lutz on Dartmouth street, between Commonwealth avenue and Beacon street at 9 a. m. Tuesday, October 12, 1926, form their respective battalions in line, and see that their several companies are properly uniformed and equipped, after which each battalion commander will direct his adjutant to report to the regimental adjutant at 9.40 a. m. sharp.

Captains George W. Patterson and William W. Livingston, with Lieutenants Charles B. McCloskey and Edward H. Mullen, will report to Captain Lutz at 9.30 a. m. sharp, in Dartmouth street, corner of Marlborough street.

The color bearers and color guard will report at Police Headquarters to Sergt. George H. Bird, and be ready to leave at 9 a. m., October 12, 1926, for the formation point. Division 3 will furnish its patrol wagon to carry the colors, bearers and guard to the point of formation. After the parade is dismissed on the Common, the wagon driver will carry them back to Headquarters.

Line will be formed at 9.45 a. m., with right resting in Commonwealth avenue at Dartmouth street. The regiment will be turned over to Superintendent Michael H. Crowley, after which the parade will start at 9.50 a. m. sharp, over the following route:

Route of Parade.

Dartmouth street to south side of Commonwealth avenue, Arlington street to Boylston street, north side between Arlington street and Charles street, Tremont street to Temple place; Washington street to School street; Beacon street to Charles street to Boston Common.

The Mounted Unit, Motor Cycle Unit, Colt Machine Gun Unit and patrol wagons will enter the Common through center gate drive on Charles street, and take assigned posts in rear of the center battalion.

The parade will be reviewed at City Hall at 10.20 a. m., by His Honor the Mayor; at the State House at 10.25 a. m., by His Excellency the Governor, and after the dress parade on the Common, by the Hon. Herbert A. Wilson, Police Commissioner.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

General Order No. 970.

The resignation of Patrolman Samuel L. Holden of Division 6 having been presented, it is hereby accepted, to take

effect as of Monday, October 11, 1926, at 5.45 o'clock p. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

NEW FERRYBOAT LAUNCHED.

The following program was carried out in connection with the launching of the ferryboat "Daniel A. MacCormack" at Fore River, Quincy, at 11.30 a. m. on October 9, the Mayor and other city officials officiating.

1. Presiding—Past Commander Herbert D. Leary, Orient Heights Post No. 54, the American Legion.
2. Presentation—Harry E. D. Gould, General Superintendent, Bethlehem Shipbuilding Corporation, Ltd.
3. Address—John E. Carty, Division Engineer, Public Works Department.
4. Address—Past Commander Stephen C. Sullivan, Orient Heights Post.
5. Selection—Fort Banks Coast Artillery Band.
6. Address—City Councilor Timothy F. Donovan.
7. Invocation—Rev. Father John F. O'Brien, pastor St. John the Evangelist Church, Winthrop.
8. Address—Honorable Malcolm E. Nichols, Mayor of Boston, presenting the sponsor.
9. Sponsor—Mrs. Elizabeth MacCormack.
10. "The Star Spangled Banner"—Fort Banks Coast Artillery Band.

The late Daniel A. MacCormack enlisted for service in the World War in New York City, September, 1917; was later assigned to Officers' Training School at Camp Gordon, Georgia; went overseas as sergeant in April, 1918; landed in May and received a commission as second lieutenant; assigned to Company M, 327th Infantry.

In October, while on his way back from the front, he was transferred to Company L, 320th Infantry, and sent immediately back to the front. He met his death on October 11, 1918, while leading his men against a German machine gun nest in the Meuse Argonne. He was posthumously awarded citations for gallantry in action and was promoted to a first lieutenantcy eight days after his death.

THE METROPOLITAN DISTRICT WITH ITS 40 MUNICIPALITIES.

Consists in the most inclusive sense of 40 municipalities, including Boston, or 14 cities and 26 towns, all within 15 miles of the State House but not yet consolidated in one complete governmental system. The 7 cities in the first zone, *i. e.*, adjacent to Boston, are these, *viz.*, Cambridge, Chelsea, Everett, Newton, Quincy, Revere and Somerville; the 6 cities in the second zone, not adjacent, are Lynn, Malden, Medford, Melrose, Waltham and Woburn. The 6 adjacent towns are Brookline, Dedham, Milton, Needham, Watertown and Winthrop; the 20 other towns are Arlington, Belmont, Braintree, Canton, Cohasset, Dover, Hingham, Hull, Lexington, Nahant, Reading, Saugus, Stoneham, Swampscott, Wakefield, Wellesley, Weston, Westwood, Weymouth and Winchester. PROCEEDINGS OF CITY COUNCIL.

Monday, October 11, 1926.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President KEENE in the chair, and all the members present.

HOURS FOR OPENING OF THE POLLS.

The following was received:

City of Boston,
Office of the Mayor, October 11, 1926.
To the City Council.

Gentlemen,—There is no more solemn nonsense than the notion that fourteen hours of voting favor one set of party candidates at the expense of another set. It is merely the cherished illusion of extreme partisanship and should bear no influence with men elected without regard to partisanship.

It is argued plausibly that a larger vote might be polled in the course of fourteen hours than in a shorter period, but if so, a seventeen-hour voting day might have strong claims upon your attention as it would bring the closing hour to eleven o'clock, an hour symbolic of old times and of the magic of a party platform produced by a seven-year drought.

It is more likely that fourteen, or seventeen or even twenty-four voting hours would not increase the vote, inasmuch as the intelligent and wide-awake voters of this city are not necessarily dilatory in the exercise of their rights, as some partisans may assume. Late voting hours invite delay and thereby actually work against the polling of the largest vote. They needlessly multiply the burdens of nearly 2,500 men and women election officers and of approximately 1,500 police officers, who at best must work long hours under trying conditions.

Long voting hours are no help to police protection, to honest voting or straight counting. No city in Massachusetts makes its citizens vote for fourteen hours, and why should we?

Respectfully yours,
MALCOLM E. NICHOLS, Mayor.
Referred to the Executive Committee.

TRANSFER OF PREMISES TO FIRE DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, October 11, 1926.
To the Honorable the City Council.
Gentlemen,—Inclosed please find order transferring the premises at the corner of Harrison avenue and Plympton street from the care and custody of the Park Department of the City of Boston to the care and custody of the Fire Department.

Said premises were used as a gymnasium but are now no longer in use for that purpose and the Board of Park Commissioners have requested the transfer of this parcel to the custody of the Fire Department. The Fire Commissioner has requested also that this piece of property be transferred to the Fire Department as he needs it for storage purposes.

I recommend the passage of this order.
Respectfully yours,
MALCOLM E. NICHOLS, Mayor.

Ordered, That the premises belonging to the City of Boston situated on the southwesterly side of Plympton street at the corner of Harrison avenue in said Boston and containing about three thousand seven hundred and eighty-nine (3,789) square feet of land which is now in the care and custody of the Park Department of said city be and hereby is transferred to the care and custody of the Fire Department of the said City of Boston.
Referred to the Committee on Public Lands.

EXCHANGE OF LAND, WALLINGFORD ROAD.

The following was received:

City of Boston,
Office of the Mayor, October 11, 1926.
To the Honorable the City Council.
Gentlemen,—This order came before the City Council in substantially the form in which it now is in June, 1924, where two readings were had. The prior order authorized a conveyance to Harriet H. Waterman instead of Marion W. Smith who is now the record owner of the parcel which is to be given to the city for the conveyance of the land mentioned in the order. Both pieces of property are situated in Brighton on Wallingford road, adjacent to the Public Works Department yard in that division. For many years the Public Works Department, without authority in law, have been using the land now to be deeded to the city as a driveway. The owner desires very much to obtain some back land for the purpose of building garages for houses. She is willing to deed to the city the front land over which it has been illegally exercising a right of way and to accept the back land.

I recommend the passage of the accompanying order.

Respectfully yours,
MALCOLM E. NICHOLS, Mayor.

Ordered, That his Honor the Mayor be and he hereby is authorized in the name and behalf of the City of Boston to execute and deliver a deed to Marion W. Smith, her heirs and assigns of the following described parcel of land situated on Wallingford road, in that part of Boston called Brighton and bounded and described as follows:

Westerly by other land of the City of Boston, one hundred seventy-four (174) feet; northerly by other land of said City of Boston, sixty-eight (68) feet; easterly by land of said Marion W. Smith by three measurements, four and 60-100 (4.60) feet; thirty-nine and 80-100 (39.80) feet; and one hundred thirty-six and 31-100 (136.31) feet respectively, containing 6,258 square feet of land, more or less, as shown on a plan marked "plan of land on Wallingford road, Boston, Mass., Mrs. Marion Smith, owner," in exchange for the following described parcel of land situate on said Wallingford road and bounded and described as follows:

A certain triangular shaped parcel of land bounded southerly by land of said Marion W. Smith, twenty-one (21) feet; westerly by other land of the City of Boston one hundred two and 50-100 (102.50) feet and easterly by Wallingford road, one hundred (100) feet, containing 1,050 square feet of land, more or less, as shown on said plan which the said Marion W. Smith shall convey unto the said City of Boston simultaneously upon the conveyance by the city to the said Marion W. Smith of the parcel of land hereinbefore authorized to be conveyed to her. The deeds of the said conveyances by the City of Boston and the said Marion W. Smith are to be in form satisfactory to the Law Department.

Referred to the Committee on Public Lands.

Passed under suspension of the rule.

PAVING OF DIXWELL STREET.

Coun ENGLERT offered the following:
Ordered, That the Commissioner of Public Works be requested, through his Honor the

Mayor, to have Dixwell street, Ward 11, repaved with smooth paving.
Passed under suspension of the rule.

REPORTS OF COMMITTEE ON ORDINANCES.

Coun. RUBY, for the Committee on Ordinances, submitted reports as follows:

1. Report on message of Mayor and ordinance (referred September 16) abolishing the Conservation Bureau and establishing conservation division in Health Department—that same ought to pass.

The report was accepted, and the question came on the passage of the ordinance.

Coun. GUILD—Mr. President, I rise for information. Can the chairman of the committee tell me in more detail what the particular function of this branch of the Health Department is to be? As stated in the ordinance, it is, in very general language, to promote and conserve health, but I had rather imagined, perhaps foolishly, that that was the function of the Health Department any way, as it might be stated in general terms. So I am very anxious to know before voting on the ordinance what particular kind of work is contemplated under it. Therefore, I would like to ask the chairman of the committee, through the President, if he will give me information on that point.

Coun. RUBY—Mr. President, in answer to Coun. Guild, I wish to admit that I have been very ably assisted by Coun. Gilbody, who tells me that that Bureau is primarily at the present time interested in work being done about the Peter Bent Brigham Hospital in the line of study of cancerous disease, diphtheria and other such contagious diseases. To elaborate the matter somewhat further, I might say that the man who was doing most of this work died some months ago, Mr. Flattery. His death took away the greater part of the committee interested in that particular line of investigation. It was felt by the committee, therefore, that the suggestion embodied in this ordinance was a good one, and the committee voted unanimously that the ordinance ought to pass.

President KEENE—Has Coun. Ruby answered Coun. Guild's question?

Coun. GUILD—Mr. President, I am as yet unable to tell what the particular function of this Conservation Bureau is.

President KEENE—Will Coun. Ruby further enlighten Coun. Guild?

Coun. GUILD—What does it do?

Coun. RUBY—It is studying the problems connected with cancerous disease, diphtheria, typhoid fever and such diseases, in connection with the laboratory at the Peter Bent Brigham Hospital. If Coun. Guild needs further information, I will ask my good friend Coun. Gilbody to explain to him. I know that Coun. Gilbody is more familiar with the situation than I am, he having been a member of the previous Council which passed this ordinance.

Coun. GILBODY—Mr. President, I think the committee from Jamaica Plain (Coun. Guild) is satisfied now.

Coun. GUILD—Mr. President, I will not trouble Coun. Gilbody further.

Coun. HEFFERNAN—Mr. President, I move that the matter be laid upon the table for one week, so that the councilors who wish information in regard to this matter may be able to find out what it is all about. I think it is a new matter to most of the members, and I think if it is laid over for one week we can all have an opportunity to find out what the matter is all about.

Coun. GILBODY—Mr. President, I am satisfied. Modesty forbids my speaking before, but as the chairman of the committee has stated, the activities of this Bureau were, on the whole, carried on by Mr. M. Douglas Flattery, quite a prominent business man in Boston, who has since passed away, and it is now proposed to carry those activities on. The Bureau was established some four years ago, mainly to study possible cures of cancer, with some other activities along that line. There are no employees of any consequence connected with the Bureau. It is simply a question of carrying on this important work. Just last Mr. Flattery came to the Mayor and City Council and asked for \$10,000 or \$15,000 to build a laboratory in connection with the Peter Bent Brigham Hospital for the purpose of studying the action of cancer, experimenting on mice and other animals, with the object of bettering health conditions. Since the death of Mr. Flattery no well-situated citizen has been found to carry on the work, which I believe the Mayor feels should be carried on and can properly be carried on under the jurisdiction of the Health Department. I myself have thought that it might properly come under the jurisdiction of the City Council, but if they wanted to put it under the Health Department I, for one, was satisfied.

On motion of Coun. HEFFERNAN, the ordinance was assigned to the next meeting.

2. Report on message of Mayor and ordinance (referred October 4) concerning meal periods of members of Fire Department—that same ought to pass.

Report accepted. Said ordinance passed.

3. Report on message of Mayor and ordinance (referred October 4) increasing amounts in

bonds of City Treasurer and City Collector—that same ought to pass.

Report accepted; said ordinance passed.

INFORMATION ABOUT STREET PROGRAM.

Coun. WILSON—Mr. President, at the meeting of this body on September 20 I introduced an order calling for certain definite information with reference to the program, if any, being made in the 1926 million-dollar street program. At that time not a single street in Ward 17, in the street acceptance program, had been touched. The reply to that order came in last week, although too late in the meeting for me to make any reply. The information received, taken at its face value, may seem reasonable enough, but I am fast becoming convinced, so far as I am personally concerned, that, whatever reasons may be given and whatever comparative figures for previous years may be submitted, the street program in the City of Boston for the current year is proving a flat and dismal failure so far as the Dorchester district is concerned. As of the first of this month, out of the 1926 million-dollar appropriation, I understand that the Board of Street Commissioners have accepted and laid out and sent on to the Public Works Department, with the Mayor's signature, thirty-four streets. Out of those thirty-four streets I am informed that the Public Works Department had, as of the same date, made actual entry in just four cases. The budget for the year 1926, which was for eleven months of the fiscal year—a period that was so frequently pressed upon us when we passed the budget—showed an expenditure of \$653,902 in street acceptance work. The first eight months of this year, down to September 1, which is the most recent auditor's report available, showed an expenditure of only \$178,784. According to the report we received last week from the Mayor's office, in response to my order of September 20, we are told that this amount has been increased over a quarter of a million dollars in one month. I only hope that that is the fact, although, as I have stated, there is very little evidence of the fact in the ward from which I come, as yet. I may be alone in the sentiment, but I certainly feel very strongly that if there is any dead wood in the Public Works Department or any other department of the City of Boston it ought to be cleaned up, whether it hits the underbrush or the tall timber.

SIDEWALK ON LOUIS PRANG STREET.

Coun. ARNOLD offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Louis Prang street, from Huntington avenue to Evans way (both sides), Ward 4, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 3 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

SIDEWALK ON HUNTINGTON AVENUE.

Coun. ARNOLD offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Huntington avenue, north side, from Louis Prang street to Evans way, Ward 4, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 3 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

ACCEPTANCE OF LEAMINGTON ROAD.

Coun. DOWLING offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Leamington road, Ward 21, as a public highway.

Passed under suspension of the rule.

PAYMENT OF OFFICERS AT STATE ELECTION.

Coun. GILBODY offered the following:

Ordered, That the Board of Election Commissioners be requested, through his Honor the Mayor, to pay the wardens and clerks \$20 and the inspectors \$15 at the coming state election, November 2, 1926, also that his Honor the Mayor confer with the Police Commissioner and arrange to pay all police officers overtime for extra work in connection with said election.

Referred to the Executive Committee.

SIDEWALK ON NEPONSET AVENUE.

Coun. GILBODY offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Neponset avenue, east side,

from King square to Victory road, Ward 16, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 3 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

RECESS.

The Council voted at 2:32 p. m., on motion of Coun. BUSH, to take a recess subject to the call of the Chair.

The members reassembled in the Council Chamber and were called to order by President KEENE at 4:08 p. m.

REPORTS OF EXECUTIVE COMMITTEE.

Coun. DOWLING, for the Executive Committee, submitted reports as follows:

1. Report on order (referred today) raising pay of wardens and clerks on state election day to \$20 a day and that of inspectors to \$15.

It was voted by the Council, on motion of Coun. WILSON, that action on the order be postponed until after the report on the question of the length of time that the polls should be open had been considered.

Later in the session the latter report was presented, as follows:

The Executive Committee, to whom was referred the several orders and communications relative to the hours of opening and closing the polls at the coming state election, November 2, 1926, having considered the subject, respectfully report that it is the sense of the committee that the polls should be opened at 6 a. m. and closed at 8 p. m., and that the City Clerk be requested to draft the order calling the election in accordance with this report.

For the Committee,

FREDERIC E. DOWLING,

Chairman.

The question came on accepting the report.

Coun. PARKMAN—Mr. President, for purposes of the record, I wish to state that there was a minority of the committee that voted against this, the vote being 6 to 4, and that I was with the minority.

Coun. WRAGG—And I wish also to be so recorded, Mr. President.

Coun. GUILD—Mr. President, after listening to the remarks of various councilors in the meeting of the Executive Committee, at which this matter was debated, I entertain no delusions as to the outcome of the vote upon the matter. I know that the vote has been polled and that the order is going through, and that I am opposing it as a member of probably a small minority. But I cannot let this opportunity go by without recording my opposition to the order as it stands.

President KEENE—The Chair would make this suggestion. It appears that, if we debate this question at length today, it must also come up a week from today, when, as I understand it, the matter must come up, and will probably have full discussion, and I think there may be a question as to the advisability of discussing it fully on both occasions.

Coun. GUILD—Mr. President, to spare the Chair any embarrassment in the situation, and in order to expedite our meeting today, I will reserve my right in the matter of debate for next week.

President KEENE—The question is on the acceptance of the report, and the clerk will call the roll.

The clerk called Coun. Arnold's name.

Coun. ARNOLD—Mr. President, I thought I heard a member move to lay this matter on the table for one week.

President KEENE—No member was recognized by the Chair as making that motion.

Coun. ARNOLD—Mr. President, I would make that motion now, if it is not too late.

President KEENE—The clerk has started to call the roll.

Coun. DOWLING—Mr. President, I hope I am no more dense than anybody else, but I would like to have the report read once more.

(The report was read again.)

The report was accepted, and the recommendation adopted, yeas 15, nays 7.

Yeas—Coun. Bush, Donovan, Dowd, Englert, Fitzgerald, Freely, Gilbody, Green, Heffernan, Lynch, Mahoney, McGrath, McMahon, Ruby, Ward—15.

Nays—Coun. Arnold, Dowling, Guild, Keene, Parkman, Wilson, Wragg—7.

Coun. GILBODY—Mr. President, I trust that we will now go back to the order for increase of pay of election officers.

President KEENE—The Chair would state that it must be taken from the table.

Coun. GILBODY—Mr. President, I so move.

It was voted that the report of the committee recommending the passage of an order to increase the pay of election officers be taken from the table.

The report was accepted, and the question came on the passage of the order.

Coun. RUBY—Mr. President, I believe that the order is a very good one, by reason of the fact that I know personally that if the closing hour is going to be eight o'clock, it will be hard enough to get precinct and election officers to work on that day, even with increased pay. I know that

several of the precinct officers in my particular district called me on the phone, because of the fact that they are disturbed by the newspaper reports in regard to the matter. I have no doubt that most other members of the City Council have been called up in the same way. I know in my own district that when the papers set forth the possibility of the polls being open until eight o'clock the officers called up and said they would not work those additional hours but would resign. I think in order to ensure proper officials at the polling places, proper pay should be given to the men and women who will be selected, and I think the Election Department and the voters will be much better served if a proper increase of pay to election officers is given. I intend to vote in favor of the order.

The report was accepted, and the order was passed.

2. Report on proposed transfer (referred October 4) within Finance Commission Department appropriation from A-1, Permanent Employees, \$3,400, to G-2, Special Investigations, \$3,400, that the same ought to pass.

Report accepted; said order passed, yeas 22, nays 0.

3. Report on message from the Mayor (referred October 4) in reply to Council order of September 20 asking information as to names and locations of all streets actually laid out by the Board of Street Commissioners from the million dollars appropriated in 1926, and upon which street work has actually been commenced to date by the Public Works Department—that the same be placed on file.

Report accepted; said message placed on file.

INSTALLATION OF ARC LIGHT.

Coun. RUBY offered an order—That the Commissioner of Public Works be requested, through his Honor the Mayor, to arrange for the installation of an arc light in the yard of the Robert Treat Paine School, at the corner of Blue Hill avenue and Harvard street, Ward 14.

Passed under suspension of the rule.

PAVING OF STREETS.

Coun. RUBY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement the following streets in Ward 14:

Lawrence avenue, Fayston street, Creston street, Stanwood street, Intervale street, from Blue Hill avenue to Columbia road.

Passed under suspension of the rule.

ACCEPTANCE OF LINCOLN ROAD.

Coun. RUBY offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Lincoln road, Ward 14, as a public highway.

Passed under suspension of the rule.

FLASHING BEACON, SEAVER STREET AND HUMBOLDT AVENUE.

Coun. BUSH offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to install a flashing beacon at the junction of Seaver street and Humboldt avenue, Ward 12.

Passed under suspension of the rule.

ARC LAMP, PARKVIEW AND HUTCHINS STREET.

Coun. BUSH offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install an arc lamp at the corner of Parkview and Hutchins streets.

Passed under suspension of the rule.

ADDITIONAL ELECTRIC LIGHTS, WARD 12.

Coun. BUSH offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install additional electric lights on Rockland street, Dale street, Copeland street and Waverly street, Ward 12.

Passed under suspension of the rule.

GENERAL RECONSIDERATION.

On motion of Coun. McGRATH the Council refused a general reconsideration of all matters acted upon today.

Adjourned at 4.25 p. m., on motion of Coun. BUSH, to meet on Monday, October 18, 2 p. m.

CLERICAL SERVICE, STATE AND CITIES, NOVEMBER 6 AND NOVEMBER 20, 1926.

This is the regular examination for the clerical service of the state and of all cities and of such towns in the state as are classified under civil service. On November 6 the examination will be held in various centrally located cities. On November 20 the examination will be held in Boston, and all persons who reside within commuting distance will be notified for examination on this day. Certification may be made from the eligible lists established by this examination for office, institutional, or other positions of a similar nature at the discretion of the Commissioner of Civil Service. Special qualifications in bookkeeping, stenography, typewriting, cataloguing, filing, etc., and in foreign languages may be recognized by the commissioner in certifying persons for positions demanding such qualifications. Persons qualifying in the examination may have their names placed on the state list as well as on the list for the city or town in which they reside.

This examination will be given to file positions in all grades of the Clerical Service except Grade V (chief clerk, secretary). Positions for office boy at \$600 a year are also filled as a result of this examination. There are usually several positions open for office boys, and young men who are interested are urged to apply. All applicants will be given the same examination, and will be placed on the list in the order of marks received, and will be certified for any and all clerical positions in the order of standing on the list, unless in the opinion of the Commissioner of Civil Service the mark attained is lower than is proper for the particular position to be filled.

Applicants must be not less than sixteen years of age at the time of filing application.

All applicants will be marked on each subject of the examination, and will be given a general average on such marks according to the following schedule: Training and experience, 5 points; spelling, 2; letter writing, 2; arithmetic (multiplication, division and decimals), 1; arithmetic (problems), 1; word knowledge, 1; sentence meaning, 1; grammar, 1; reasoning, 1; total, 15.

Each applicant will be sent an "experience sheet" with proper instructions for stating his education, training and experience.

The passing mark for clerical examinations will be 65 per cent in general average.

The usual entrance salary for clerks ranges from \$720 to \$1,200 per year. For positions paying \$1,200 or more, only clerks who receive a mark of at least 65 per cent in experience will be certified.

Sample questions for clerks available.

SEALERS, DEPUTY SEALERS OF WEIGHTS AND MEASURES, NOVEMBER 19, 1926.

This examination is for the service of all cities in the state, and such towns as are classified under civil service. The salaries range from \$800 to \$1,600 per year.

The sealer of weights and measures is required to enforce the laws pertaining to weighing and measuring devices and to the giving of false or insufficient weight or measure; to the licensing of hawkers, pedlers and transient vendors; to wholesale milk containers, ice cream cans and molds, cranberry barrels and crates, standard boxes for farm produce, berry baskets and other containers used as measures; to the weights of bread and to the labeling of loaves of other than standard unit weight.

It is also his duty to test all weighing or measuring devices used for buying or selling, for public weighing, or for hire or reward, and to seal or condemn them in accordance with the results of his tests; also to investigate complaints and to prosecute violations of law when the evidence warrants such action. Pamphlets, including the General Laws relating to weights, measures, licenses, etc., and a Sealer's Manual, containing instructions for the inspection, testing and sealing of weighing and measuring devices, may be obtained upon request to the Director of Standards, 194 State House, after application for examination has been filed.

The subjects of examination with their respective weights will be as follows: Training and experience, 4; simple arithmetic, including simple percentage, decimals and the metric system, 2; report, 1; technical questions aimed to test applicants' knowledge of (a) the law governing the inspection of weights and measures; (b) the construction and types of mechanical weighing and measuring apparatus; (c) ability to present cases in court; (d) general knowledge of the duties of the position, 3; total, 10.

Successful applicants will also be required to file a certificate from a reputable physician as to their physical fitness for the position.

Preference granted under the law to disabled veterans is applicable to both examinations.

POLICE DEPARTMENT ORDERS

General Order No. 967.

A trial board consisting of Captains Goff, Perry and Kneeland, having heard by reference a complaint against Sergeant Michael J. Sullivan of Division 13, charging him with conduct unbecoming an officer, has reported to the commissioner a finding of not guilty. In accordance with which, it is hereby ordered that the complaint against the said Sergeant Michael J. Sullivan be dismissed.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

LAND-TAKING IN BOSTON PROPER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of an easement in land of the New York, New Haven & Hartford Railroad Company and the Boston & Albany Railroad Company under the Arlington Street Bridge, between Arlington square and Fayette street, for waterworks purposes, as follows:

A parcel of land, supposed to belong to the Boston & Albany Railroad (New York Central Railroad Company, Lessee), bounded:

Easterly by the easterly line of Arlington street, seventy-eight and 10-100 feet; southerly by land hereinafter described as taken from Boston & Providence Railroad (New York, New Haven & Hartford Railroad Company, Lessee), twenty-one and 34-100 feet; westerly by other land supposed to belong to said Railroad (Arlington street), seventy-seven feet, and northerly by the northerly line of location of said railroad, twenty and 97-100 feet, containing fifteen hundred and fifty-one square feet, more or less.

A parcel of land, supposed to belong to the Boston & Providence Railroad (New York, New Haven & Hartford Railroad Company, Lessee), bounded:

Northerly by land hereinbefore described as taken from Boston & Albany Railroad (New York Central Railroad Company, Lessee), twenty-one and 34-100 feet; easterly by land supposed to belong to Boston & Providence Railroad Corporation and by other land supposed to belong to the Boston & Providence Railroad, sixty-four and 70-100 feet; southerly by the southerly line of location of said railroad, twenty-one and 34-100 feet; and westerly by other land supposed to belong to said railroad, sixty-four and 70-100 feet, containing twelve hundred and ninety-four square feet, more or less.

The right and easement is taken to lay and maintain waterworks in the above described lands, subject to the right of the Boston & Albany Railroad and the Boston & Providence Railroad, to use the same for railroad purposes or for any other purposes except such as may injure or obstruct said works.

Said lands are shown on a plan marked "City of Boston, Arlington Street, Boston Proper, July 28, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

Voted, That this Board determines that no person sustains damages in his estate by the taking of an easement for waterworks purposes on Arlington street, Boston proper district, under the order of the Board, and awards no damages therefor.

CONFERENCE TO REDUCE FIRE HAZARDS FOR BOSTON.

Mayor Nichols conferred on October 11 with Fire Commissioner Hultman, A. M. Chandler representing the Chamber of Commerce, William H. Winkley representing the Board of Fire Underwriters and Arthur N. Maddison, president of the Boston Real Estate Exchange, on the subject of fire prevention. This conference was called by the Mayor as a feature of Fire Prevention Week, and is the first of conferences still to be held.

The Mayor stated that he desired to have the active support of the business,

real estate, and insurance people, as he deemed it of the utmost importance that all should work for the reduction of fire hazard and of fire rates.

Fire Commissioner Hultman outlined the problem from the point of view of the Fire Department, and a general discussion followed.

The suggestion that there be established an advisory board for the various organizations represented will probably be carried into effect in the immediate future.

On October 6 the Mayor announced that he had arranged with Fire Commissioner Hultman to have a moving picture reel, entitled "Fire Prevention" shown at the following theaters, at all performances:

Wednesday, October 6, Jamaica Theater, Hyde square; Thursday, October 7, Rivoli Theater, Dudley street; Friday, October 8, Dudley Theater, Washington street, opposite Ruggles street; Saturday, October 9, Shawmut Theater, Blue Hill Avenue.

This reel was obtained from New York by the International Association of Fire Chiefs.

LAND-TAKING IN HYDE PARK.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Hyde Park, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Foster street, bounded:

Northwesterly by Water street, six and 26-100 feet; northeasterly by another part of Foster street, four hundred and 65-100 feet; southeasterly by the same, six feet, and southwesterly by the same, three hundred ninety-eight and 86-100 feet, containing twenty-three hundred and ninety-nine square feet, more or less.

A parcel of land, owners unknown, being part of the private way known as Water street, bounded:

Southeasterly by Foster street, six and 26-100 feet; southwesterly by another part of Water street, eight and 33-100 feet; northwesterly by the same, six and 27-100 feet, and northeasterly by the same, eight and 35-100 feet, containing fifty square feet, more or less.

The sewerage works to be constructed are as follows: 400 linear feet of 10-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Foster street, leading southeasterly from Water street for a distance of about 400 feet and part

of the private way known as Water street, adjoining Foster street.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Foster street for a distance of about 410 feet southeasterly from Water street will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 702, Sewerage Works, Foster Street, Hyde Park, August 30, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

MAYOR WRITES COUNCIL CONCERNING LENGTH OF VOTING DAY.

Mayor Nichols on October 11 sent a letter to the City Council on the closing hours for Election Day as follows:

There is no more solemn nonsense than the notion that fourteen hours of voting favor one set of party candidates at the expense of another set. It is merely the cherished illusion of extreme partisanship and should bear no influence with men elected without regard to partisanship.

It is argued plausibly that a larger vote might be polled in the course of fourteen hours than in a shorter period, but if so, a seventeen-hour voting day might have strong claim upon your attention as it would bring the closing hour to eleven o'clock, an hour symbolic of old times and of the magic of a party platform produced by a seven-year drought.

It is more likely that fourteen, or seventeen or even twenty-four voting hours would not increase the vote, inasmuch as the intelligent and wide-awake voters of this city are not necessarily dilatory in the exercise of their rights, as some partisans may assume.

Late voting hours invite delay and thereby actually work against the polling of the largest vote. They needlessly multiply the burdens of nearly 2,500 men and women election officers and of approximately 1,500 police officers, who at best must work long hours under trying conditions.

Long voting hours are no help to police protection, to honest voting or straight counting. No city in Massachusetts makes its citizens vote for fourteen hours, and why should we?

BOSTON CHARTER CHANGES.

In 1854, 1885, 1909 and 1924 important changes in the original City Charter of 1821 were effected for the purpose of improving the methods and efficiency of the City Government. The revision of 1854 (Chap. 448, Stat. 1854) referred to the voters for acceptance, gave the Mayor a qualified veto over the action of the City Council, also the power of removal of appointed officials, besides providing for his election by a plurality instead of a majority vote. The amendments of 1885 (Chap. 266, Stat. 1885) were not submitted to the voters for approval. They transferred all the executive powers to the Mayor, prohibiting the City Council from interference with the executive and administrative business of the City. This was done in order to end the inefficiency resulting from an excessive number of joint committees, a municipal development conforming to the traditions of the outgrown town government.

The amendments of 1909 (Chap. 486, Stat. 1909) cut down the number and powers of the legislative branch of the government to a minimum, the Board of Aldermen (13 members) and the Common Council (75 members) being abolished. For these was substituted a single City Council of nine members to be elected at large for 3-year term. The Mayor's position was further strengthened by giving him a 4-year term, subject to recall at end of two years, but requiring a majority vote of the registered voters to make the recall effective. The Mayor's power over appointments was no longer subject to check by aldermen but by a State board, the Civil Service Commission and City elections were removed from all connection with national and State politics, no primaries nor caucuses being permitted, all candidates for office to be selected by means of nomination papers. The only question in this Act of 1909 which was submitted to the voters was contained in section 35, i. e., whether Plan 1 or Plan 2 should be adopted, the first providing for a term of two years for Mayor and a City Council of 36 members to be chosen in primaries. Plan 2, providing for City Council of 9 members, was adopted by a majority of 3,894.

Charter of 1909 amended later as follows: (1) By Chap. 437, Acts of 1910, exempting loans issued for Rapid Transit construction from the prohibition of the establishing of sinking funds, as contained in sec. 26. (2) Chap. 730, Acts of 1914, fixing date of annual municipal election on the sixth Tuesday after the state election instead of in the following January, as in sec. 32; changing the requirements as to signatures on nomination papers to 3,000 for Mayor and 2,000 for City Council and School Committee instead of 5,000 for all, as in sec. 53, also limiting the number of nomination papers issued to 300 for a candidate for Mayor and 200 for other candidates, referring to sec. 54. (3) Chap. 37, Special Acts of 1918, annulling the jurat at end of nomination papers. (4) Chap. 94, Special Acts of 1918, abolishing recall of Mayor and making him ineligible for re-election, i. e., establishing a single term of four years, but not prohibiting the election of any Mayor for other than consecutive terms. (5) Chap. 288, Acts of 1921, fixing date of the annual municipal election on the first Tuesday after

the second Monday in December, also making slight changes as to nominations. (6) Chap. 133, Acts of 1922, changing publication of list of City officials and employees to every second year from 1923. (7) Chap. 479, Acts of 1924, providing for biennial City elections (dating from Nov. 3, 1925); for borough or ward representation in City Council; for a fiscal year dating from Jan. 1 to Dec. 31, beginning in 1926, also a municipal year dating from the first Monday in January, to begin in 1926; for election of the five members of School Committee in 1925, the candidates receiving the two largest votes to hold office four years, the other three for two years and at the election in 1927 and thereafter the term for all to be four years.

The only amendment of 1924 subject to a referendum was the alternative of Plan 1 or Plan 2 as to the City Council. At the State election on Nov. 4 Plan 2 was adopted, providing for the election by each ward in 1925 and every second year thereafter of one councillor for 2-year term.

MAYORS OF BOSTON.

In its 103 years of existence as a city Boston has had 36 elected Mayors and five *ex-officio* Acting Mayors. Of the 36 men who have held the office for one year or more, six were elected for other than consecutive terms and 25 were re-elected one or more times. Those born within the present limits of Boston numbered 21; in towns near Boston, 8; in neighboring New England States, 5; in Ireland, 2. The Mayor longest in office was Mayor Curley who served 4 years ending Feb., 1918 and 3 years and 11 months, ending 1925. Next in length of service was Mayor Lincoln, serving 3 years ending 1860 and 4 years ending 1866. The first Mayor Quincy had the distinction of serving through six successive one-year terms ending 1828, and Mayor Fitzgerald also served six years but in tow separated terms. Those who served 4 years were Mayors Prince, O'Brien, Matthews, (third) Quincy, Hart and Peters. Mayor Collins was in office nearly 4 years, his death occurring 3½ months before his second term expired. Those serving 3 years were Mayors Otis, Eliot, Chapman (second) Quincy, Bigelow, Shurtleff and Cobb; 2 years, Mayors Wells, Lyman, Brimmer, Seaver, Smith, Rice, Wightman, Gaston, Pierce (22 months) and Hibbard; 1 year, Mayors Phillips, Armstrong, Davis, Norcross, Green, Palmer, Martin and Curtis. The five Acting Mayors were Chairmen (Board of Aldermen) Parker, Leavitt, Allen, Cutter and Whelton.

Mayor Otis was Speaker of Massachusetts House of Representatives, President of Senate, Representative in Congress also Senator before becoming Mayor. Mayor Armstrong was Lieutenant-Governor and at times Acting Governor before serving as Mayor. Mayors Rice and Gaston served 3 years and 1 year (respectively) as Governor after their terms as Mayor. Mayors Collins, Curley, Fitzgerald, Peters, Pierce and Rice have represented Boston in the lower house of Congress, Mayor Peters having also served as Assistant Secretary of the Treasury.

Ex-Mayor Curtis was appointed Police Commissioner in 1919 for term of five years but his service was terminated by his death in 1922. Ex-Mayor Quincy died in 1919, and Ex-Mayor Green in 1918. (See annual City Doc., *Municipal Register*, for full list of Mayors from 1822 to 1925, with place and date of birth, years of service and date of death.)

SETTLEMENT OF BOSTON, 1630.

Effected by Puritan colonists under Governor John Winthrop in the latter part of August, 1630. The name of the original settlement was changed to Boston from Trimountaine by order of the Court of Assistants on September 7 (O. S.), 1630. This date was moved forward by the New Style calendar in 1752 to Sept. 17, the recognized date of the founding of Boston. The name, Trimountaine, had been given because of the three peaks of the most prominent hill, afterward called Beacon Hill, much higher then than now. By the Indians the place was called Shawmut. The name, Boston, was derived from the English town of Boston in Lincolnshire, the home of some of the leading colonists and promoters of the enterprise.

MUNICIPAL YEAR.

From 1926 the municipal year begins on the first Monday in January, which falls on Jan. 4 in said year. This change is in accordance with the City Charter amendments of 1924.

UNDERGROUND RAPID TRANSIT IN BOSTON.

The Boston Transit Commission, consisting of five members, two appointed by the Governor and three by the Mayor, began its official existence, July 1, 1894, and ended it July 1, 1918, after seven extensions of the original term. It constructed, under the authority of Acts of the Legislature, the following subways and tunnels, the ownership of which is vested in the City of Boston, and all costs to be covered by revenue from same, not by taxation; Tremont Street Subway, from Broadway and Tremont St., South End, to North Station and from Boylston St., near Charles to Park St., 1.68 miles, opened to Park St. September 1, 1897, and to North Station on Sept. 3, 1898, costing with subsequent alterations, \$4,416,000, the first transportation subway in the United States; East Boston Tunnel, from Maverick square, E. Boston, under Boston Harbor and State St. to Scollay square, Boston Proper, 1.42 miles, opened December 30, 1904, costing \$3,336,000, the first all-concrete underwater transportation tunnel in the world; Washington Street Tunnel, from Ash st. opp. Nassau, South End, to Traverse st., near North Station, 1.16 miles, opened November 30, 1908, costing \$8,496,700 (including \$2,850,000 land damages; Cambridge Connection Subway, from under Park st. station of Tremont St. Subway to Grove st., near Cambridge Bridge, 0.47 miles, opened March 23, 1912, costing \$1,465,000; Boylston Street Subway from Commonwealth ave., near Kenmore st., Back Bay, to Tremont St. Subway, near Charles st., 1.5 miles, opened October 3, 1914, costing \$5,485,639; East Boston Tunnel Extension from Scollay square to North Russell st., 0.41 miles, opened March 18, 1916, approximate cost, \$2,523,000; Dorchester Tunnel, from Park st., Boston Proper, to Andrew square, South Boston, 2.26 miles, opened December 3, 1916, as far as South Station; on December 15, 1917, to Broadway, South Boston, and on June 29, 1918, to the Andrew Square terminal. Trains of four or six cars are run in the East Boston Tunnel, the Washington St. Tunnel, continuing on elevated track to Forest Hills, also in Dorchester Tunnel from Andrew sq., So. Boston, connecting with Cambridge Tunnel, to Harvard sq., Cambridge, while only single or double street-cars are run in the other tunnels and subways. Cost of Dorchester tunnel, \$11,016,700 to Jan. 31, 1925; of new Arlington Station extending under Boylston St., between Arlington and Berkeley, \$1,230,676; of East Boston Tunnel Alterations, Maverick sq., \$3,768,857.

Total gross debt on Feb. 1, 1925 for all subways and tunnels, \$42,096,700; against which a sinking fund of \$7,825,262 has been accumulated from the revenue, making the net debt \$34,271,438. The loans are payable mostly in 40 years from date of each (loans since 1911 payable in 45 years), annual interest averaging 3.8 per cent.

These underground ways, about nine miles in all with total of 1927 miles of single track, were leased to the Boston Elevated Railway Company (which furnished the equipment) for term of 25 years (except Tremont Street 20 years) at annual rental of $\frac{1}{2}$ to $\frac{4}{5}$ per cent of net cost (except East Boston Tunnel which was at $\frac{1}{3}$ of one per cent of all annual gross receipts of said company).

In accordance with Chapter 741, Acts of 1911, the various leases were extended to July 1, 1936, the rental to be $\frac{4}{5}$ per cent of net cost after expiration of the first-term leases.

By Chap. 185, Special Acts of 1918, the powers of the Transit Commission, whose term expired that year, were transferred to the Mayor, Commissioner of Public Works and City Treasurer, or such person or persons, not exceeding three, as the Mayor might appoint. By Chap. 3, Ordinances of 1918, the Transit Dept. was established as a regular City department, to be in charge of three commissioners.

By Chap. 480, Acts of 1923, the extension of the Dorchester Tunnel from Andrew Square about 1,300 feet south-erly was ordered, the proposed new railway location then coming to the surface 400 feet southeast of Dorchester Ave., thence continuing to Harrison Square; thence along the Shawmut Branch railroad to its termination at Blue Hill Ave. and River St., Mattapan.

Loans issued in 1924-25 for Dorchester Tunnel extension, \$300,000 and for Dorchester Rapid Transit, \$150,000.

AUTOMOBILE STATISTICS.

Registration of automobiles and licensing of operators in Massachusetts is in charge of the State Dept. of Public Works, Registrar of Motor Vehicles. In the 7 months to August 1, 1925, there were registered in Mass. 675,074 automobiles (584,234 passenger and 90,840 commercial inclu. trucks) an increase of 81,325 over 1924 registration for corresponding period. Chosen in 1915—Louis Agassiz, Francis Parkman, Rufus Choate, Charlotte Cushman—total, 4.

Chosen in 1920—William Thomas Green Morton, Alice Freeman Palmer. Five additional names every fifth year are to be selected and inscribed until the year 2000, when the 150 tablets in the colonnade will be complete.

If those who were natives or residents elsewhere in the State are added to the list, the following 7 names increase the total to 34 for Massachusetts or more than half the whole number, viz.: William Cullen Bryant, Jonathan Edwards, Mark Hopkins, Elias Howe, Eli Whitney, Maria Mitchell, Mary Lyon.

If all New England is included, 4 more names will bring up the total to 38 or 60.3 per cent of whole number chosen, these being Roger Williams, Henry Ward Beecher, Harriet Beecher Stowe, Emma Willard.

Estimated cost of omitted work, \$1,720; estimated cost of substituted work, \$1,420; estimated decrease in cost, \$300.

COLUMBUS DAY ADDRESS OF MAYOR MALCOLM E. NICHOLS.

Mayor Malcolm E. Nichols delivered the following address at the Columbus Day exercises on Boston Common, Tuesday, October 12, 1926:

Tradition makes Boston Common an appropriate place for exercises to commemorate the discovery of America by Christopher Columbus, the greatest explorer of all time. Yonder is the State House, symbol of law established and maintained by a free people. Facing us is the memorial to the martyrs of the Boston Massacre, symbol of the sacrifices made in founding the great nation of the Eastern Hemisphere. Yonder are the churches, with spires outstretched toward heaven, with a plea for God's blessings upon a religious people. Yonder again are the graves of the heroes of the Revolution sleeping in sacred soil. And all about us are mighty structures that tell us the progress of this nation in the arts of peace.

The strength of a people can best be measured by devotion to its ideals. When ideals fall the nation crumbles. But when a people holds fast to its ideals and continues in devotion to its heroes that people grows and flourishes and walks surely to a leadership among nations.

Great men of history have pointed the way to succeeding generations. In the hearts of such men the pursuit of knowledge has always been a great crusade. They have searched the heavens to bring all to a better understanding of the Almighty. They have uncovered the secrets of the soil and added riches to the common sum. With fire drawn from the clouds they have wrought magic in the annals of human accomplishment. They have dared the unknown terror of mighty waters that new opportunities might be unfolded for the good of humanity. Their achievements mark milestones in the advance of the human race.

Surely no explorer has contributed more to human progress than Columbus. Under his uplifted hand a new world arose from the sea, and presently mighty America appeared as the mightiest of all nations, ancient or modern, in the supremacy of resources, human achievements and unselfish leadership.

Yes, Christopher Columbus stands as the explorer beyond compare, who, of all great voyagers, contributed most to the treasure box of Father Time. Yet here in America there is nothing on the maps or substantially in the names of the foremost cities to indicate that Christopher Columbus was the real author, under God, of all the blessings that have poured on America since 1492.

If Americus Vespucci has been given the honor of the name of the newly

EXTRA WORK UNDER CONTRACT.

J. C. Coleman & Sons Company have been directed to perform the following extra work under the contract for laying bitulithic pavement in Tremont street, from Stuart street to bridge over Boston & Albany Railroad. Although this is in addition to the work contemplated in the original contract, it is incidental thereto. Items ordered: Reset edge-stone and lay bitulithic pavement on a concrete base in Broadway, between Tremont street and Fayette street. Prices to be paid the same as those bid for similar work in the contract. Estimated cost, \$2,000. Excavate below sub-

grade, refill with gravel and roll the area in Tremont street, between Warrenton street and Broadway in front of Hotel Commodore. To be paid for by force account. Estimated cost, \$900. Estimated cost of extra work (total), \$2,900.

Nicola Di Bartolomeo and Company have been directed to perform the following extra work under the contract for laying and relaying water pipes in Arborview road, Cedar street, Clarendon park, Cypress street, Summer street, Walworth street, Winchester road and Dana avenue. Items ordered: Plugging old service pipes and hauling inspector's shanty. Estimated cost of extra work, \$20.

PROPOSAL FOR TRAFFIC RELIEF.

Mayor Nichols on October 21 sent the following communication to the Board of Street Commissioners:

Boston, October 21, 1926.

BOARD OF STREET COMMISSIONERS, City Hall Annex, Boston, Mass.

DEAR SIR,—I am in receipt of a statement on street traffic in Boston, which I transmit to you for your official consideration.

This statement was prepared by Mr. William Stanley Parker, a member of the Boston City Planning Board and was forwarded to me by the members of that Board. Accompanying the statement is a photostat "of study for reversal of flow of traffic on Washington street and related changes in other one-way streets."

I have discussed this plan with Mr. Parker, and in the opinion that it contains much valuable suggestion, I am giving it widespread publicity so that it may be subjected to careful study by all persons interested in the problem of our street traffic.

In fact, it seems to me of sufficient importance for you to set it down at your early convenience for a public hearing and such subsequent action as may seem appropriate.

Very truly yours,

MALCOLM E. NICHOLS, Mayor.

STREET TRAFFIC IN BOSTON.

The street layout of Boston is the most serious difficulty that traffic has to contend with. Certain minor and some major corrections of this difficulty have been made, some are in process, and others doubtless will be undertaken in the future. But the streets we have must be used to their utmost efficiency in order, so far as possible, to offset their unfortunate layout.

The principal fault in the present use of our streets is the *weaving of parallel traffic lanes*. It will always be necessary to arrange for traffic flowing in a given direction to cross the various lanes of traffic having a general direction at right angles to it. It is not necessary or desirable for lanes of traffic having generally parallel trends, moving to and from the same general terminal districts, to cross each other in the process. This is a serious fault existing in the present use of Boston's streets, as evidenced by the following instances.

Beacon Street.—From Park street, through School street, traffic moves only towards Washington street. Outbound traffic seeking to use Beacon street is forced up Park street at the head of which it crosses the inbound Beacon street traffic.

Adams Square.—All northbound traffic on Washington street at this point crosses the southbound Washington street lanes which have to turn to the left into Devonshire street.

Bedford Street at Church Green.—Bedford street traffic moves in a westerly direction, substantially parallel to Summer street. Traffic on Summer street must make a left turn, across the opposing lanes, to get to Bedford street.

Bromfield, Winter and West Streets.—Traffic from downtown going south and west must find its way to Tremont street or else weave through Chauncy, Kingston, Lincoln and South streets to Essex or Kneeland street and so on to its destination. Tremont street is the more popular route, for with all its difficulties it is generally found or believed to be easier. Much of this traffic, however, is appar-

ently southbound traffic, not westbound. Nearly half the southbound traffic on Tremont street does not turn into Boylston street but keeps straight on, and half of that continues on across Stuart street and out Tremont street or Shawmut avenue.

The traffic of Bromfield, Winter and West streets constitutes about three quarters of the Tremont street southbound traffic and in order to reach the west side of Tremont street it crosses the two main northbound lanes of traffic in the city,—Washington street and the northbound Tremont street lanes.

Temple Place.—Similarly, traffic using Temple place is forced to take a zigzag path to Summer street and apparently constitutes a large portion of the traffic that turns from Washington street into Summer. In the process it seriously overloads Washington street for one block with traffic that ought to have made a single right angle cross.

Scollay Square.—Traffic seeking or leaving the State street district via Court and Cambridge streets is forced down Cornhill and up Court street, thus crossing itself at the top of Cornhill.

The Cause.—The cause of all the above conditions, except on Beacon street and Scollay square, is the use of Washington street as a one-way street northbound. This should be reversed and made southbound. It is not enough, however, to do this, for as soon as it is done it appears evident that many other important one-way streets must likewise be reversed in order to work effectively. As at present arranged the two main northbound routes in the city—Tremont street and Washington street—are immediately adjacent. Normally, one-way streets alternate in direction, and it appears to be this grouping of northbound traffic lanes that causes the difficulty. The plan submitted herewith shows the suggested directions of traffic and indicates by the solid arrows the streets that would remain as at present, and by dotted arrows the new directions that would be the reverse of the present rule. On this plan it will be seen that the north and south through routes alternate as follows,—Tremont street south, Tremont street north, Washington street south, and Kingston-Devonshire streets north.

The more important changes are as follows:

Devonshire street now balances the Washington street traffic and must be reversed so as to balance in a similar way the reversed flow of Washington street. This eliminates the difficulty at Adams square and simplifies the situation at State street since Devonshire street and Exchange street will both flow north.

Kingston street at Summer street is the continuation of Devonshire street. This must be reversed and so give a new continuous northbound route from Albany street and Kneeland street to Adams square.

Winter street should be reversed and made the major eastbound route direct to Summer street, thus obviating the zigzag now resulting from the use of Temple place. With the change of Winter street, the key street, the other parallel streets are necessarily and correspondingly reversed. This makes West street eastbound to Bedford street which thus will flow naturally into the eastbound lanes of Summer street, and supplement Winter street for eastbound traffic.

School street should be a west or out-bound route and so lead naturally into the out-bound lanes of Beacon street which

should be one-way westbound between Tremont street and Park street. This will divert inbound Beacon street traffic naturally by a right-hand turn down Park street to Tremont street where it can turn either way on Tremont street and take Winter or Bromfield streets if it seeks to reach Summer street or Franklin street.

Court street from Tremont street to Washington street should be eastbound. This will help to relieve inbound traffic on widened Cambridge and Court streets, giving it immediate access to both Tremont street and Washington street. Outbound traffic seeking Cambridge street from the Post Office square region can reach it via Devonshire or Exchange streets, Washington street and Brattle and Hanover streets.

A further result of this change will be to stop the tendency of out-bound traffic over the hill via Mt. Vernon street. This is not a desirable route. It is a steep hill with the heavy Charles street traffic at the foot of it, and with a dangerous stop on a steep grade. It is also a district through which general traffic should be led only as a last resort. Its use developed on account of the inability to use School and Beacon streets and the difficulty of using Court and Cambridge streets during the process of widening. Cambridge street can now take the traffic and Mt. Vernon street should be relieved. Reversing Ashburton place will provide for the circling of traffic at this point.

This change will greatly help the situation at the corner of Court street and Tremont street by removing a considerable cross current that now goes through Pemberton square to Mt. Vernon street.

There are, of course, other possibilities such as making Essex street one-way west, and Beach street one-way east. This would facilitate traffic between the South Station and Boylston street and simplify the traffic situation at the corner of Boylston street and Washington street. There may be other minor changes outside the district treated in this plan but the changes shown and referred to cover the essentials of the proposed plan.

It will be seen that this plan corrects all the undesirable weaving of parallel lanes noted above, at Park and Beacon streets, at Adams square, at Scollay square, at Church green, and the three left-hand turns into Tremont street from Bromfield, Winter and West streets.

The traffic of the retail district will be able to circulate on a basis of right-hand turns, instead of left-hand turns as at present, and to develop a general circular trend—in Boylston and Tremont streets and out Washington and Stuart streets—without returning on itself as it has to do at present.

The down-town traffic southbound will use Washington street and greatly relieve the streets between Washington and Tremont streets and also will relieve Tremont street of about half its southbound traffic, permitting a substantial increase in the northbound Tremont street lanes which will carry part of the present Washington street traffic. At present on Tremont street the northbound traffic is only about one half as great as the southbound. If this condition is reversed the northbound lanes can take up half the present Washington street traffic, and the balance can be diverted to Kingston street whose present southbound traffic will use Washington street.

Traffic counts taken by the Chamber of Commerce Traffic Committee clearly indicate the conditions outlined and the

logic of the new plan suggested, in the area between Bromfield street and Stuart street.

No change so drastic as this should be undertaken without the fullest consideration by the public and careful study by the different business groups concerned with our traffic problem. The plan has been discussed with the Board of Street Commissioners and at their suggestion is made public so that it may receive thorough study and discussion to the end that the Board of Street Commissioners may receive the benefit of all possible suggestions of value bearing upon this vitally important problem.

ON CONTRACT WORK.

The Mayor has issued the following circular letter:

CITY OF BOSTON.

MAYOR'S OFFICE, October 5, 1926.

To Heads of All Departments.

GENTLEMEN,—I find that a practice has grown up relative to contract work, and more particularly in connection with the starting of operations on the part of the contractor, before the contract is signed by all parties in interest.

With a view to the development of proper legal procedure for work to be done or purchases to be made, you are directed to protect the city's interests by complying in full with the following directions:

"No work is to be started by any contractor, notwithstanding the award of contract to him, until all of the necessary signatures to the contract are attached.

"All necessary additions to contracts are to be legally prepared with the signatures thereto, before the work upon such additions is commenced. The only exception to be allowed will be in a case of extreme emergency requiring immediate action, such action to be promptly followed by the necessary written authority with all signatures attached.

"All extensions of time that may become necessary to alter the completion date of the contract should be executed a sufficient time in advance of the required completion date to allow for the written extension to be signed by all the parties in interest, including the surety. The experience of this office indicates that the Mayor's signature for extensions has been frequently requested long after the date specified in the contract for completion. It is apparent that in the interim there is no written authority in effect, and in the event of any difficulty arising in the meantime there is a possibility that the surety might deny liability."

It is the purpose of this notice to emphasize the importance of proper procedure under all contracts made with the city. You are, therefore, instructed to inform all employees, having to do with the making or carrying on of contracts, of the foregoing instructions, in order that both the contractor and the city should be legally protected at all times.

Very truly yours,

MALCOLM E. NICHOLS,
Mayor

FOR LEGISLATION.

The Mayor has issued the following circular letter:

CITY OF BOSTON.

MAYOR'S OFFICE, October 14, 1926.

To Heads of All Departments.

GENTLEMEN,—You are hereby directed to submit in writing, *without delay*, to Frank S. Deland, Corporation Counsel, 11 Beacon street, Boston, Mass., whatever matters you may have in mind which may become the subject of legislation at the incoming session of the Legislature.

Very truly yours,

MALCOLM E. NICHOLS,
Mayor

LAND-TAKING IN HYDE PARK.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Hyde Park and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Tyler street, bounded:

Northwesterly by another part of Tyler street, six feet; northeasterly by the same, seventy-seven feet; southeasterly by the same, six feet; and southwesterly by the same, seventy-seven feet, containing four hundred sixty-two square feet, more or less.

The sewerage works to be constructed are as follows: 95 linear feet of 10-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Tyler street, southeasterly from Loring street for a distance of about 77 feet.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on the southwesterly side of Tyler street for a distance of approximately one hundred feet southeasterly from Loring street, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 707, Sewerage Works, Tyler Street, Hyde Park, August 8, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

ORDERS OF ADDITION.

SCHOOLHOUSE DEPARTMENT.

The Mayor has approved the issuance of an order of addition, in the sum of \$1,342, to the contract of Matthew Cummings Company for the erection and completion of the Shurtleff District School.

This amount is required to cover the cost of granite sidewalks, of which 2,684 square feet are to be laid on Vale and Ninth streets, South Boston.

ADDRESS OF MAYOR NICHOLS.

(Continued from page 1689.)

discovered country, listen to the words of the great historian, John Fiske, who truly says:

"If the great Genoese sailor has not had full justice done him on the map, he will forever rank as the most illustrious explorer of all time. His voyage in 1492 was a scientific triumph of the first order; and in view of its historic consequences it must be called the most important event since the birth of Christ."

Balboa opened up the Pacific Ocean, Magellan found a route around South America via the straits that bear his name. It is probable that the Norsemen visited our continent long before the great Columbus. But Balboa, Magellan and the Cabots are now at best but names dimly appearing to the distant gaze, while the name of Christopher Columbus is spread before the four corners of the earth.

In our busy lives we are apt to dismiss a great man by recalling to our minds merely the great event associated with his name. Yet the life of every great man carries lessons that should enrich the character of men who study it and guide them helpfully in their own lives. Christopher Columbus is no exception to this fact, for his life and character offer the deepest lessons and the widest experiences to the makers of history and the makers of men.

Born of simple Genoese parents he was filled from his earliest days with the spirit of adventure that led him to voyage over seas but little known, when the perils of nature were matched by almost legalized piracy in the Mediterranean Sea. A voyage then meant a contest with the sea and a battle with the pirates, yet Columbus never hesitated.

It was as yet the twilight of geographic knowledge in an age when fear rode on the prow of every ship and turned back all but those with nerves of steel. The fame of Portuguese discoverers drew the young Columbus to Lisbon and the year 1470 found this man in all the vigor of his young manhood drinking in the tales of the navigators of those days. Their tales gripped his mind and finally dominated his will, until Columbus determined that he would be the explorer to find the fabled passage to India, that some of the adventurous navigators felt could be found by sailing westward.

To us in the living present, the idea of finding land by sailing west is so familiar that only by placing our minds amidst the surroundings of the fifteenth century can we appreciate the extraordinary merits of this first conception and the matchless courage of those who first dared the passage. The circumference of the earth was then unknown and the extent of the ocean had never been tested, nor the possibility of its passage; not even were the laws of specific gravity or central gravitations understood by the men of those days, things which are self-evident to us of the present day, by which, granting the rotundity of the earth, the possibility of rounding it would be clear. Indeed, the more credulous believed that out beyond the pillars of Hercules, which separated Spain from Africa, the hand of Satan would engulf the sailor who ventured upon the sea of darkness.

The picture of Columbus at the Courts of Portugal and Spain, especially that where he kneels at the feet of Ferdinand and Isabella, is fixed in the minds of us all. Year after year Columbus begged and suffered the pains of poverty and taunting ridicule. It took eighteen years to win the assent of those who finally furnished him the opportunity of starting on his fateful voyage, and this great discoverer was fifty-seven years of age when he sighted the western shore.

Almost every lap of the waves that washed his boats has been portrayed, the mutinous crew, gray days without a glimpse of land, nothing ahead but the sea, always the sea. Yet Columbus, by sheer will power, dominated the crew until the cry of land and victory rang in their ears. Only a man of great faith in his theory, faith in his wavering compass and above all faith in a Supreme Being, could have endured this awful trial.

The voyage terminated on October 12, 1492. Columbus had presented a new continent to his adopted country. Yet Columbus the man had not changed. He remained the simple explorer. His character was still further to be tested, for within a few years he was to experience the fate of many another who had served his king all too well.

His humane treatment of the natives of the new country, in strong contrast to that shown by later explorers, his sense of justice in his dealings with the Indians, and his firmness with the greedy members of his crews are characteristic. But above all it was faith and courage that gave Columbus his place in history.

It was faith in the ultimate triumph of right over wrong that sustained Columbus in the persecutions of his later life when the ingratitude of a monarch sent him from San Domingo in chains. Commemoration is a splendid thing, but emulation is far better. Let us now resolve to develop in ourselves those fine qualities with which Columbus was so richly endowed.

America, today, moves at a rapid pace. Her life is complicated. Her governmental affairs touch the world. Her business ramifications reach into all countries. Her religious life quickens the hearts of all. Yet today, as never before, she needs leaders, men of affairs, men of sound judgment, men of character, men of strong will, men of justice and honor, men of vision and capacity, all strongly exemplified in the life, career and personality of Christopher Columbus. He persevered. So must we.

We need explorers today even as did the world in the fifteenth century. We need men of extraordinary initiative, men who will devote their lives to the common welfare. We need men who will explore this frail body of ours to discover the cause of the diseases that lay us low, and who will search for the antidote in the laboratories of our greatest cities. We need men who will fight bigotry, and with calmness combat the counsels of weakness and despair. We need men who will investigate the cause of misunderstandings between nations to the end that there may be found a way to drive war from the hearts of men, and give welcome to that "peace which surpasseth all understanding." We need men who will examine

the philosophy of life and find the rules that will enable us to live on terms of mutual respect and good will.

The life of Columbus places before us many valuable lessons. We may view them casually as we are inclined to view the most common and yet the most priceless things in the world. We may accept them with reverence and make them a part of our everyday life. The world is as full of opportunity today as it ever was if we will but summon the will to accept it.

As citizens and as a nation the world is ours if we but choose, not a world from which we take the greatest advantages for ourselves, but a world in which it shall be our high privilege to bestow under the hand of the Almighty the greatest good upon our fellow men.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do the work with the department forces without advertising; additions to and deductions from contracts.

PUBLIC WORKS DEPARTMENT (Paving Service).

Upon October 14 the Mayor approved a contract with the Hemenway Company, Inc., for the construction of artificial sidewalks. A communication from J. H. Sullivan of the Public Works Department was as follows:

Boston, October 11, 1926.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to the Hemenway Company, Inc., 10 Tremont street, Boston, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

J. H. SULLIVAN,
Commissioner of Public Works.

Upon October 16 the Mayor approved a contract with the Miller Contracting Company for the construction of artificial sidewalks. A communication from J. H. Sullivan of the Public Works Department was as follows:

Boston, October 14, 1926.

To the Mayor of Boston:

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Miller Contracting Company, 804 Washington street, Dorchester, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

J. H. SULLIVAN,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

Upon October 14 the Mayor approved a contract with the Taylor, Symonds Company for furnishing the Institutions Department seersucker cloth for spreads and other cloth. A communication from Charles E. Thornton, Acting Superintendent of the Supply Department was as follows:

Boston, October 8, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully

requested to award a contract, without publicly advertising for same, to Taylor, Symonds Company for furnishing to the Institutions Department, Long Island, 2,017 yards 62-inch white seersucker for spreads at 43½ cents per yard and 1,000 yards of Otis check at 18½ cents per yard.

Quotations were asked for the various dry goods concerns and the following prices received:

Taylor, Symonds Company, seersucker, 43½ cents per yard; Otis check, 18½ cents per yard; Farley, Harvey Company, seersucker, 55 cents per yard; Otis check, 19½ cents per yard; D. F. Holland Linen Company, seersucker, 47½ cents per yard; Otis check, no bid; Sparrow-Chisholm Company, seersucker, 45 cents per yard; Otis check, 18½ cents per yard.

In totalling up the bids it was discovered that the lowest bid, which was submitted by Taylor, Symonds Company, would aggregate \$1,059.90.

In view of the fact that the amount was over \$1,000, permission asked for above is requested.

Respectfully yours,

CHARLES E. THORNTON,
Acting Superintendent of Supplies.

Upon October 19 the Mayor approved a contract with the Linscott Motor Company for one Reo truck for the Water Department. A communication from Herbert S. Frost of the Supply Department was as follows:

Boston, October 19, 1926.

HON. MALCOLM E. NICHOLS,

ELEVATED ROAD TRUSTEES REPLY TO MAYOR RELATIVE TO BOYLSTON STREET SUBWAY EXTENSION.

The Mayor has received the following communication from the Boston Elevated Railway Offices of the Public Trustees, Park Square Building, 31 St. James avenue.

BOSTON, October 14, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—In my letter of October 4, acknowledging your letter of September 30, relative to the extension of the Boylston street subway at Governor square, I advised you that your communication would be carefully considered by the Elevated Trustees before any reply was made. This has already been done. The trustees are not unmindful that a recommendation, or even a suggestion, from the Mayor of Boston, relating to transportation, is entitled to serious and careful consideration.

You criticize the Elevated Trustees for having failed to execute a lease with the City of Boston for the extension of the Boylston street subway, as authorized by the Legislature in 1925. Some months after the passage of that act the Transit Commissioners presented to the trustees a plan of subway extension at Governor square.

The estimated cost of this extension, as shown by the plan, was more than five million dollars. Under the terms of the act it would be built by the City of Boston, and leased to the Elevated Railway Company at a rental sufficient to pay interest upon the investment and provide a sinking fund which at the end of a specified term would be sufficient to pay the entire cost to the city for the construction of the extension. The interest and the sinking fund would be a part of the operating cost of the road, and therefore would be paid wholly by the car riders.

When this matter came up for hearing before the committee of the Legislature in 1925 our Board of Trustees, through its general counsel, Mr. Barnum, made a vigorous protest against the entire cost being imposed upon the passengers of the railway. We suggested to the committee that the cost ought to be apportioned so that not more than one third of it would fall upon the Elevated, and made the suggestion that the cost should be apportioned in the following manner: One third to the railway, one third to general taxation, and one third to real property directly benefited by the improvement. I am advised that our general counsel further stated that the trustees would not feel like approving the lease if the entire burden of the cost was to be borne by our car riders. The Legislature, however, saw fit to disregard our request.

It is true that chapter 341 of the Acts of 1925, which authorized this extension, is in line with previous acts authorizing the construction of subways in the City of Boston. Nevertheless the trustees have always vigorously protested against the unjust method of requiring passengers in street cars to pay the entire cost of subways through which they travel. This rule does not apply to any other class of travel. The streets of Boston over which automobiles travel are built and maintained through general taxation, but those who ride in the cars of

the Elevated Railway are required to build ways underneath the streets, at an expense of about five million dollars to the mile.

The subways already constructed which are in use today by the Elevated cost more than forty-eight million dollars, to which will be added ten million dollars more upon the completion of the Shawmut Branch extension. You can well understand that the payment of interest on sixty million dollars, together with provision for a sinking fund which will ultimately reimburse the city for the entire cost, is adding a large burden to operating expenses, which must be borne by those who use the Elevated cars.

We have already reached the point where we cannot assume further burdens of this character and maintain present car rates. The surplus earnings of the Elevated for the year ending June, 1926, amount to \$22,000; for the year ending June, 1925, to \$20,000, and for the year ending June, 1924, there was neither loss nor gain in the operation of the road. If we assume that the cost of the Boylston street extension would be five million dollars, the interest and sinking fund requirements would amount to at least \$250,000 which would become a part of operating expense, and very likely cause a deficit in the operation of the road, and require an increase in fares.

From the figures I have already given you you can readily understand that if the surplus earnings of the Elevated do not increase in the years to come, an increase in subway rentals is going to cause a deficit which must be met by an increase in fares, which would be most unfortunate from every point of view. These are some of the reasons why the trustees are not willing at the present time to commit themselves to an increase in annual operating expenses.

In your letter you refer to the gross receipts of the Elevated Railway in 1918 and for the year ending June, 1926, by which it appears that the gross receipts in 1918 were some nineteen million dollars, and at the close of the year ending June, 1926, they were something like thirty-five million dollars. This substantial increase did not come about through an increase in business, but by reason of an increase in the rate of fares. The fact is, the Elevated did not carry as many passengers in 1925 as were carried in 1917, which was the last full year that the road was operated by private management. In 1917 the Elevated carried 381,000,000 passengers, and in 1925, 365,000,000. The increase from a five cent to a ten cent fare is the reason for the increase in gross receipts, and is not due to an increase in the number of passengers carried.

You appear to assume that with this increase in gross receipts we ought to be able to meet the added expense of subway extensions. Permit me to call to your attention the tremendous increase in the cost of operation in the last eight years. The wages paid by the company in 1918, which was the last year of private ownership, amounted in round numbers to nine million dollars, and in the year 1926 wages had increased to more than seventeen and one-half million dollars. In other words, we are now paying in wages nearly twice as much as we paid in 1918. In 1918 taxes amounted to \$905,000 and in 1926 to

\$1,819,000. In 1918 subway rentals were \$991,551 and in 1926 they were \$2,214,000.

The total operating expenses in 1918 were in round numbers fourteen million dollars and in 1926 they were twenty-five million dollars; and you must bear in mind that in 1918 the company had a deficit of nearly a million dollars, whereas there was no deficit in 1926, but a surplus of some twenty odd thousand dollars. The trustees cannot be held responsible for the increase in wages, subway rentals or taxes. The wages paid by the company are determined through a method of arbitration which was in force when the trustees came into control of the company, and by its terms is likely to continue in force for many years to come.

Subway rentals are determined by the terms of the contracts which the company has entered into with the city and the Commonwealth, and we must pay taxes legally imposed by city, state and nation. Dividends on the stock, which are in the nature of rent, are fixed by the Public Control Act. Interest on bonds must be paid according to the terms of the bonds. These items which I have enumerated amount to about eighty-three per cent of the gross revenue of the company, which leaves about seventeen per cent of gross revenue over which the trustees have more or less control and in regard to which they are exercising the most rigid economy.

No one questions that there is serious traffic congestion in Governor square, but it is also true that there is traffic congestion in other parts of metropolitan Boston. It can hardly be claimed, however, that the Elevated is responsible for the traffic congestion at Governor square.

Ten years ago, in 1916, the total Elevated car units passing through the square in both directions between 6 a. m. and 11 p. m. was 1,666. In 1926 the total number during the same hours had increased only to 2,032. It appeared by the traffic count made by the Boston Chamber of Commerce on April 14 of the present year, at Governor square, between 8 a. m. and 6 p. m., there passed in both directions 57,750 vehicles, forty-five per cent of which carried only one passenger.

In other words, during ten hours of the day there passed through Governor square nearly 60,000 vehicles as against 2,000 car units in seventeen hours of the day. It is the increase in the use of automobiles and not in Elevated cars that has caused this congestion. Now, is it quite fair that the entire cost of attempting to remedy the situation should be placed upon the people who ride in the Elevated cars, and that no part of it should be borne by the public responsible for the congestion?

Suppose the subway were extended, and the two thousand odd units of the Elevated were operated underneath the surface of the street, to what extent would that remedy the congestion? The fifty-seven odd thousand automobiles that now pass through the square would continue to pass, and would be augmented each year by possibly four or five thousand more. This is bound to come with the ever increasing use of the automobile. This brings us back to the real issue, which is, are the Elevated Trustees justified in agreeing to place a burden of more than five million dollars on their car riders, in the hope that it will to a limited extent diminish congestion in Governor square?

In your letter you use the following language: "Let me ask you a blunt question. Is it because your company is unwilling to undertake any further rapid transit extensions until the settlement of public control by the Legislature?" I cannot but feel that the statistics I have given are a conclusive answer to your question. The question of extension of public control has nothing whatever to do with the attitude of the trustees relative to subway extensions.

We fully appreciate the effort you are making to improve transportation facilities in metropolitan Boston, and it is the desire of the trustees to co-operate with you as far as they can consistent with their official duty as they see it. No one doubts that the extension of subways in certain localities would go a long way toward improving rapid transit facilities, and, as you say, such facilities are vital to the welfare of this community, but it is entirely evident that the extensions contemplated by you and by the Planning Board cannot be made as called for, at the expense of that part of our people who travel in Elevated cars.

It is self-evident that subway construction already completed has added millions upon millions to the value of real estate in Boston—undoubtedly more than the amount that the subways have cost. It is apparent that the increase of vehicular use of the streets calls for the expenditure of further millions, but it is equally apparent that until there has been adopted a different method of meeting the cost of construction of subways, either through general taxation or by assessment of betterments upon those directly benefited, there can be no substantial advance in subway extension.

Very truly yours,

SAMUEL L. POWERS,
Chairman.

KOSCIUSZKO STATUE FOR PUBLIC GARDEN.

By direction of Mayor Nichols the Board of Park Commissioners has designated a site on the Boylston street mall of the Public Garden, midway between Church and Arlington streets, for the erection of a statue to Tadeusz Kosciuszko, the famous Polish general and statesman, who came to America in 1776 and served under General Washington.

In making this announcement, his Honor the Mayor stated that Monday, October 18, marked the 150th anniversary of General Kosciuszko's entrance into the American army during the critical days of our country.

The life and public services of this great citizen should forever be held dear in all our hearts. As a patriot, soldier, statesman and friend he was one of the most human and lovable of men.

Since the days when General Kosciuszko offered his sword to America, many thousands of his countrymen have come to these shores. By honesty and thrift they have made themselves good citizens.

America values her citizens of Polish descent. Indeed, America is the traditional friend of Poland. By their love of liberty the two nations are united today in friendship as they were one hundred and fifty years ago. Boston is proud to pay tribute to the memory of the great Kosciuszko.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Hazleton street, bounded:

Northwesterly by Harvard street, eleven and 31-100 feet; northerly by another part of Hazleton street, by two measurements, one hundred forty-seven and 16-100 feet and one hundred and thirty-three feet; again northwesterly by the same, sixteen feet; northeasterly by Westmore road, eight and 92-100 feet; southeasterly by another part of Hazleton street, twenty-three and 39-100 feet; and southerly by the same, by two measurements, one hundred thirty-six and 61-100 feet and one hundred fifty-four and 7-100 feet, containing twenty-four hundred and forty-one square feet, more or less.

The sewerage works to be constructed are as follows: 60 linear feet of 8-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Hazleton street, from Harvard street to Westmore road.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Hazleton street, from Harvard street to Westmore road, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount herein-after respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 704, Sewerage Works, Hazleton Street, Dorchester, September 9, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

LAND-TAKING IN HYDE PARK.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees,

buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Hyde Park and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Ruskin road, bounded:

Southeasterly by Blake street, six and 27-100 feet; southwesterly by another part of Ruskin road, two hundred

ninety-three and 10-100 feet; northwesterly by the same, six feet; and northeasterly by the same, two hundred ninety-one and 29-100 feet, containing seventeen hundred and fifty-three square feet, more or less.

The sewerage works to be constructed are as follows: 289 linear feet of 10-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Ruskin road, leading northwesterly from Blake street for a distance of about 293 feet.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Ruskin road for a distance of about 310 feet northwesterly from Blake street, excluding the lots at the corners of Blake street and Ruskin road, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 701, Sewerage Works, Ruskin Road, Hyde Park, August 27, 1926, William J. ORDER REVOKED.

The Mayor has approved the following order of the Board of Street Commissioners:

Whereas, An order of the Board of Street Commissioners, approved by the Mayor July 2, 1925, and recorded in the Registry of Deeds July 16, 1925, provided for the construction of the following sewerage works: Bellevue terrace, West Roxbury district, 200 linear feet of 10-inch pipe sanitary sewer; and

Whereas, The Public Works Department has informed this Board that public necessity and convenience do not require the construction of the aforesaid sewerage works because of the building of a sanitary sewer in said Bellevue terrace by private owners and the release of the same to the city; it is

Ordered, That so much of the aforesaid order of July 2, 1925, as provides for the construction of a sanitary sewer in said Bellevue terrace be, and the same hereby is, revoked, and the assessment liens created thereby cancelled.

CLAIMS ALLOWED.

Upon recommendation of the Corporation Counsel the Mayor has approved the claim of Frank M. Sheldon, 239 Causeway street, in the sum of \$26.75, as compensation for damage to automobile by obstruction of ice in highway on Huntington avenue, at corner of Gainsborough street, March 7, 1926.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of Arcadia terrace, Dorchester district, as a highway, southerly from Arcadia street, bounded and described as follows:

A highway named Arcadia terrace is hereby laid out, southerly from Arcadia street for a distance of approximately one hundred and fifty feet, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northerly by Arcadia street, twenty-five feet; easterly by the easterly line of said Arcadia terrace as hereby laid out, one hundred and fifty feet; southerly by the southerly line of said Arcadia terrace as hereby laid out, twenty-five feet; and westerly by the westerly line of said Arcadia terrace as hereby laid out, one hundred and fifty feet.

Trees or structures standing upon or affixed to the aforesaid described land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Arcadia terrace for a distance of approximately one hundred and fifty feet southerly from Arcadia street, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Arcadia Terrace, Dorchester, August 18, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

CLERICAL SERVICE, STATE AND CITIES, NOVEMBER 6 AND NOVEMBER 20, 1926.

This is the regular examination for the clerical service of the state and of all cities and of such towns in the state as are classified under civil service. On November 6 the examination will be held in various centrally located cities. On November 20 the examination will be held in Boston, and all persons who reside within commuting distance will be notified for examination on this day. Certification may be made from the eligible lists established by this examination for office, institutional, or other positions of a similar nature at the discretion of the Commissioner of Civil Service. Special qualifications in bookkeeping, stenography, typewriting, cataloguing, filing, etc., and in foreign languages may be recognized by the commissioner in certifying persons for positions demanding such qualifications. Persons qualifying in the examination may have their names placed on the state list as well as on the list for the city or town in which they reside.

This examination will be given to fill positions in all grades of the Clerical Service except Grade V (chief clerk, secretary). Positions for office boy at \$600 a year are also filled as a result of this examination. There are usually several positions open for office boys, and young men who are interested are urged to apply. All applicants will be given the same examination, and will be placed on the list in the order of marks received, and will be certified for any and all clerical positions in the order of standing on the list, unless in the opinion of the Commissioner of Civil Service the mark attained is lower than is proper for the particular position to be filled.

Applicants must be not less than sixteen years of age at the time of filing application.

All applicants will be marked on each subject of the examination, and will be given a general average on such marks according to the following schedule: Training and experience, 5 points; spelling, 2; letter writing, 2; arithmetic (multiplication, division and decimals), 1; arithmetic (problems), 1; word knowledge, 1; sentence meaning, 1; grammar, 1; reasoning, 1; total, 15.

Each applicant will be sent an "experience sheet" with proper instructions for stating his education, training and experience.

The passing mark for clerical examinations will be 65 per cent in general average.

The usual entrance salary for clerks ranges from \$720 to \$1,200 per year. For positions paying \$1,200 or more, only clerks who receive a mark of at least 65 per cent in experience will be certified.

Sample questions for clerks available.

SEALERS, DEPUTY SEALERS OF WEIGHTS AND MEASURES, NOVEMBER 19, 1926.

This examination is for the service of all cities in the state, and such towns as are classified under civil service. The salaries range from \$800 to \$1,600 per year.

The sealer of weights and measures is required to enforce the laws pertaining to weighing and measuring devices and to the giving of false or insufficient weight or measure; to the licensing of hawkers, peddlers and transient vendors; to wholesale milk containers, ice cream cans and molds, cranberry barrels and crates, standard boxes for farm produce, berry baskets and other containers used as measures; to the weights of bread and to the labeling of loaves of other than standard unit weight.

It is also his duty to test all weighing or measuring devices used for buying or selling, for public weighing, or for hire or reward, and to seal or condemn them in accordance with the results of his tests; also to investigate complaints and to prosecute violations of law when the evidence warrants such action. Pamphlets, including the General Laws relating to weights, measures, licenses, etc., and a Sealer's Manual, containing instructions for the inspection, testing and sealing of weighing and measuring devices, may be obtained upon request to the Director of Standards, 194 State House, after application for examination has been filed.

The subjects of examination with their respective weights will be as follows: Training and experience, 4; simple arithmetic, including simple percentage, decimals and the metric system, 2; report, 1; technical questions aimed to test applicants' knowledge of (a) the law governing the inspection of weights and measures; (b) the construction and types of mechanical weighing and measuring apparatus; (c) ability to present cases in court; (d) general knowledge of the duties of the position, 3; total, 10.

Successful applicants will also be required to file a certificate from a reputable physician as to their physical fitness for the position.

Preference granted under the law to disabled veterans is applicable to both examinations.

STATE EXAMINERS OF ELECTRICIANS—EX- AMINATIONS, 1926.

Examinations will be held at the following points and on following dates:

Fall River, Tuesday, November 9; Boston, Thursday, November 11; New Bedford, Tuesday, December 7; Worcester, Thursday, December 9.

Rules for Examination.

All examinations shall be given in English.

Applicants for Class B or journeyman's certificate must be at least eighteen years of age and have had two years' practical experience, or the equivalent, in the installation of wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Applicants for Class A or master's certificate must be at least twenty-one years of age and have had at least two years' experience in the business of installing wires, conduits, apparatus, fixtures and other appliances for carrying or using

electricity for light, heat or power purposes.

Examinations shall consist of applicant's knowledge of the national electrical code and practical electrical work.

All persons desiring to be examined, either for a master or journeyman certificate shall have application on file at least ten days previous to the date of such examination.

Applicants for examination will be required to obtain at least 70 per cent in order to obtain a certificate.

Applicants who fail to obtain the required 70 per cent will not be entitled to re-examination until a period of three months has elapsed, and those who received less than 50 per cent, or who failed on the practical demonstration, will not be re-examined for a period of six months.

Any person found referring to notes or books, or misbehaving during an examination, will be debarred from that examination.

Notice will be sent to applicants for certificates when and where examination will be held, and only those so notified will be examined on that day.

MASSACHUSETTS BAY COLONY.

The first chartered colony in New England, charter granted by Charles I on March 4, 1629. About a year before, a patent had been granted to six prominent men of Dorchester, west of England, among whom was Capt. John Endicott. He sailed in June, 1628, with a party of 50 or 60 persons, arriving in September and settling at Naunkeag, afterward named Salem. In the spring of 1629, the Bay Company fitted out three ships conveying about 400 persons and arriving at Salem in June. Endicott sent a small party to effect a settlement on the Bay in Mishawum, afterward named by the settlers Charlestown, the first town in New England to assume the town polity, Plymouth and Salem being governed by a Governor and Council. Endicott was appointed in London as the first resident Governor on April 20, 1629. The Massachusetts Bay Company was reorganized in London on Oct. 20, 1629, when John Winthrop was chosen as Governor. He arrived at Salem on June 12, 1630, soon proceeded to Charlestown with a large following and finding that place unsuitable, finally settled in Boston. Winthrop served 13 years as Governor in four different periods ending in 1649 and Endicott 15 years at various times ending in 1665. Other governors were Thomas Dudley, Richard Bellingham, John Haynes, Henry Vane, John Leverett and Simon Bradstreet, the latter serving 12 years until 1692 when the Bay Colony and the Plymouth Colony were merged, becoming the Royal Province of Massachusetts Bay, which existed 82 years to 1774, the governors being appointed by the King.

COMMUNICATION FROM FINANCE COMMISSION.

The Finance Commission on October 15 sent the following communication to the Mayor:

BOSTON, October 15, 1926.

HON. MALCOLM E. NICHOLS, Mayor.

SIR,—On June 21, 1926, the School Committee created the office of sanitary inspector under its Director of School Hygiene, and on September 20, 1926, approved the appointment by transfer from the Health Department to this position of John M. Sullivan, brother of a member of the School Committee.

The Finance Commission finds that this office was illegally created, that it was unnecessary, and that the choice of the incumbent was an act of nepotism.

The duties of the office are to discover, analyze and prescribe the remedy for unsanitary conditions in the schools. So far as these duties relate to the care and cleanliness of the schools, they duplicate the work of the Schoolhouse Custodian, his subordinates and other officials who are subject to the jurisdiction of the School Committee. So far as they relate to repairs and alterations to improve sanitary conditions, they are a part of the functions of the Schoolhouse Department and its inspectors.

The School Committee may legally appoint an official to perform duties relating to care and cleanliness of school buildings, but under its own rules he must be a member of the force of the Schoolhouse Custodian. The School Committee has no authority to appoint an official to perform the other duties described. Under the statute these duties have been conferred exclusively upon the Schoolhouse Department. Chapter 473 of the Acts of 1901 withdrew from the School Committee and other existing authorities the duties of erecting, altering, repairing and furnishing school buildings, created the Schoolhouse Commission and placed these duties on this department alone. Therefore this office of sanitary inspector is illegal. This conclusion is based on the opinion of the City Law Department, given at the request of the Finance Commission. A copy of this opinion is hereto annexed.

Even if the School Committee had the legal right to create this office, it is absolutely unnecessary. Matters requiring repairs and alterations are under the care of the force of inspectors of the Schoolhouse Department. The rules of the School Committee provide that the Schoolhouse Custodian shall be its executive officer "in all matters relating to the care and custody of land and buildings used for school purposes."

They empower him to supervise the local schoolhouse custodians and to make sure that their work is properly done. They also require that principals and teachers in charge of buildings "shall see that the rules and regulations for the government of custodians and matrons, their assistants and other employees are enforced." They require school physicians to "report to the Director of Medical Inspection in writing any unsanitary conditions they may discover in their respective schools."

The commission adopts with approval the first paragraph of the report on this subject of Assistant Superintendent Snow, made to the Board of Superintendents under date of January 7, 1926:

"It would seem as if our present force of schoolhouse custodians, teachers, principals, school physicians, and nurses, not to mention parents who are stirred to

protest by what their children say of undesirable conditions at school—should, if watchful, be sufficient to discover and report any unsanitary conditions that threaten the health of our children or our teachers. Alertness in this respect is a fundamental duty of every member of the groups mentioned, and high technical attainment is not required to perceive and criticize such conditions."

After the new office was created no public notice was given that the place was to be filled and no request was made of the Civil Service Commission to hold a competitive examination. Only one application for this position was received, that being from Mr. John M. Sullivan. He alone was considered and was given the job.

Testifying before the Finance Commission, the newly appointed Director of School Hygiene admitted that one inspector could not cover all the city schools and expressed the hope that other inspectors would be appointed. Thus the creation of this office is undoubtedly the first step in the creation of a new division.

Schools should be maintained in the best possible condition for the health of the pupils. If the School Committee is of the opinion that any of its employees are at fault, the remedy lies in its own hands. If it believes that the inspectors of the Schoolhouse Department are evading their responsibilities, it should appeal to the Schoolhouse Commissioners and, if necessary, to your Honor. The remedy is not in duplicating the work of existing officials or departments.

The Finance Commission recommends:

1. That your Honor notify the School Committee that it is illegally maintaining the office of sanitary inspector.
2. That the auditor be notified to decline to approve further payments of salary to the incumbent of this illegal office.

Respectfully submitted,

THE FINANCE COMMISSION,
by CHARLES L. CARR,
Chairman.

THE MAYOR MAKES REPLY.

Upon receipt of the above communication the Mayor made the following reply:

BOSTON, October 16, 1926.

THE FINANCE COMMISSION OF THE CITY OF BOSTON, CHARLES L. CARR, Chairman, 11 Beacon Street, Boston, Mass.

DEAR SIR,—I beg to acknowledge receipt of your communication under date of October 15, 1926, relative to the office of sanitary inspector maintained by the School Committee, and I suggest that your findings in this matter be addressed directly to the School Committee and to the City Auditor.

Sincerely yours,

MALCOLM E. NICHOLS, Mayor.

ADDITIONS TO CONTRACT.

PARK DEPARTMENT.

R. A. Bossi Company have been ordered to make the following changes in the contract for repairs to Overlook Building, Franklin Park, signed August 3, 1926:

(1) Lay new floor of American Lit-o-Silo, or equal, according to the manufacturers' printed directions, on the entire floor of the police officers' toilet room, and the sum of \$95.70 will be added to contract price.

(2) Remove existing concrete floor in both the men's and women's public toilet rooms between the rear wall and the front line of the water-closet partitions and lay a new four (4) inch concrete floor with granolithic finish one (1) inch thick over said area instead of patching existing floor as called for in the contract, and the sum of \$184 will be added to contract price.

(3) Remove the existing concrete floor from the location of the new urinals in men's toilet room to three (3) feet outside of the urinals and lay new four (4) inch concrete floor with one (1) inch granolithic finish instead of patching same as called for in the contract, and the sum of \$42 will be added to contract price.

(4) Furnish and set complete a window size 2 feet by 4 feet 8 inches in officers' toilet room just above the lavatory, and the sum of \$36 will be added to contract price.

(5) Repair rotted wood shoe and studs in partition in the rear of the new urinals in men's toilet room, and the sum of \$22 will be added to contract price.

(6) Furnish and install eight eighteen (18) inch porcelain urinals instead of eight (8) twenty-four (24) inch urinals as specified for urinals in the contract, and the sum of \$56 will be deducted from contract price.

(7) Furnish and install complete marble frontal ten (10) inches high with marble cap over the new urinals in men's toilet room, and the sum of \$147.50 will be added to contract price.

(8) Furnish and install complete in police officers' toilet room, one (1) eighteen (18) inch porcelain stall urinal with Royal flush valve. Make all connections with cold water supply and soil pipe. Make side partitions for urinal space of Vermont unfading green slate forty-eight (48) inches wide and seven (7) feet high. Make back partitions thirty (30) inches wide and seven (7) feet high of Vermont unfading green slate, and the sum of \$291.50 will be added to contract price.

(9) Omit pair of doors and frame in partition of men's toilet room and make partition solid where opening is called for. Partition is to be constructed where opening is shown of two (2) by four (4) studs and seven-eighths ($\frac{7}{8}$) inch North Carolina sheathing. Leave present door to men's toilet room as at present, instead of cutting new opening and installing pair of transom doors and frame complete as called for in the contract. Leave outside easterly door to basement as at present instead of altering same by making the transom bar and sash movable as called for in the contract, and the sum of \$78 will be deducted from contract price.

Additions.—Laying new floor in police officers' toilet room, \$95.70; laying new concrete floor in water-closet compartments of toilet rooms, \$184; constructing new concrete floor in front of urinals in men's toilet room, \$42; furnishing and setting window in officers' toilet room, \$36; repairing studs, etc., in men's toilet room, \$22; furnishing and installing marble frontal tap over urinals, \$147.50; furnishing and installing porcelain stall urinal complete, \$291.50. Total addition, \$818.70.

Deductions.—Furnishing and installing eight eighteen (18) inch porcelain urinals instead of eight twenty-four (24) inch urinals, \$56; changing doors and frames, \$78. Total deduction, \$134. Net addition, \$918.70 minus \$134 equals \$684.70. Contract price, \$7,750; addition as per this order, \$684.70; contract as standing, \$8,434.70.

EVASION OF PAYMENT OF TUITION CHARGES.

The following communication was received:

The Finance Commission of the City of Boston, 11 Beacon Street, Boston, Mass.

July 16, 1925.

To the School Committee,
15 Beacon Street,
Boston.

Gentlemen:

The Boston Teachers' College is supported by the city of Boston for the education and training of high school graduates for positions as teachers in the city of Boston. It offers a free course of instruction to pupils who are residents of Boston. A fee, however, is established each year by the School Committee, chargeable to those students residing outside the city limits.

In October, 1925, an investigation was undertaken by the Finance Commission to determine the residences of the student body, for the purpose of ascertaining if any of the students were living outside of the city of Boston and were evading the payment of their tuition fees by giving a Boston address. In the course of the investigation it was discovered that, through an oversight of someone connected with the School Department, no bills for tuition had been sent to those non-resident pupils who were taking the A. M. course. Bills were therefore sent to the City Collector on or about December 5, 1925, and these bills have been paid.

After a personal interview with Mr. Alexander Sullivan, Business Manager of the School Committee, and Mr. Kennedy, Dean of the Teachers' College, each student at the Boston Teachers' College was instructed to fill out a card, giving name, present address, date of birth and name of parent or guardian. Upon receipt of these cards properly filled out, 800 in number, the information was checked in the office of the Commission. There were about 200 cases where it was necessary to make further investigation. A questionnaire, a copy of which is attached hereto, was prepared and distributed to these 200 pupils and upon return of the answers these lists were again checked, with the result that about 21 cases appeared to be non-residents. These cases were called to the attention of the Business Manager and bills were immediately rendered, and pupils upon failure to pay were excluded from the school. In some cases where the parents had formerly lived in Boston but had recently moved away, tuition charges were suspended by the School Committee upon the promise of the parents to return to the city. In other cases, where the parents lived outside

Boston, but the pupils were living with relatives in Boston, a sworn statement was accepted by the school authorities to the effect that the pupil was making her home in Boston. The validity of these statements has always been questioned by the Finance Commission, because the facts clearly showed that the pupils were here with relatives for the purpose of getting a free education. Why the distinction was made the Commission never could understand, but it believes it unfair to make a young woman from Revere pay, while a young woman from New York was allowed to file a sworn statement.

In some other cases pupils living outside Boston for many years, who persisted in giving false information as to their addresses, were penalized by the School Committee by an order directing the Superintendent to withhold their diplomas for a period of six months after graduation.

The most outstanding case of deceit coming to the attention of the Finance Commission was that of a pupil giving an address from South Boston. When asked to call at the office of the Commission to check up some statements which appeared to be at variance, her mother called instead and told a representative of the Commission that while her daughter stated upon the questionnaire that her father was dead, he really was not dead, but the daughter had been told to say that he was. The mother continued her story by explaining that the father was dead to her and her child; that she was living with a sister in South Boston and had been living there for many years and that she supported herself and her daughter by dressmaking. Her statements being contrary to the facts which the Finance Commission had in its possession, she was asked to appear before the Commission to make her statement under oath. She appeared, but declined to take an oath. Upon being instructed as to the powers of the Finance Commission, she was finally sworn and then told a story which was entirely at variance with her first statement. Her husband was not dead, she had not been living apart from him, but they were living in a city outside of Boston and owned their home jointly. Her daughter, as well as her other children, were living with their father and mother and the daughter was attending the Teachers' College without payment of tuition. As a result of the investigation there was paid into the city treasury the sum of \$529.03 for her three years' tuition in the Boston Teachers' College. Altogether there was paid into the city treasury by these non-resident pupils the sum of \$4,234.45 since last December. The Commission believes from evidence obtained during the investigation that such schools as the Trade School, the High School of Commerce, the Mechanic Arts High School, the Clerical High School, and other schools furnishing specialized features, as well as the Boys' and Girls' Public Latin Schools and the Teachers' College, have many non-resident pupils attending without the payment of tuition.

The Commission suggests, to protect the interests of the city, that the masters of these special high and normal schools be instructed to require the filling out by the pupils of cards giving the name of the student, the present address and that of April 1; the names of the

fathers and mothers, their present addresses and their addresses of April 1; and the school from which the pupil was graduated prior to entering the high or normal school. The card should also have printed in clear type a warning that any false statement made by the pupil would be considered sufficient cause for dismissal from the school.

The Commission also wishes to call the attention of the School Committee to the present system of rendering bills for tuition. The school authorities depend upon the City Collector to furnish information as to the non-payment of these bills. This produces a condition whereby the school authorities are often in ignorance as to who has paid and who has not paid. The Commission suggests that some arrangement should be made with the City Collector whereby the school authorities will be notified monthly of all unpaid bills for tuition. If this is done the school authorities will be able to check the payment more accurately and exclude from the schools those non-residents who have not paid their bills.

The Commission desires to record the fact that the Dean of the Boston Teachers' College and the Business Manager, as well as Miss Paylor, his assistant, were most cooperative in assisting the Commission.

Respectfully submitted,

THE FINANCE COMMISSION.

By Charles L. Carr,
Chairman.

In connection with the foregoing, and in reply thereto, the Business Manager submitted the following:

To the School Committee:

Anticipating your consideration of the report of the Finance Commission of the City of Boston with reference to non-resident pupils in the Teachers College of the City of Boston and certain recommendations made therein, I am submitting the following information:

Your Committee is already aware of the facts relative to non-residents in the Teachers College who conspired with their parents and others to evade tuition charges.

The delay in sending the bills for those non-resident pupils who were taking the A. M. course was due to some complications between two offices reporting to the Business Manager. The office of the Business Manager made several requests before it secured the information with regard to these students. The pledges to pay tuition were finally received the first part of December. I understand that there are no such students this year.

With reference to the Commission's statements that sworn statements are accepted by the school authorities to the effect that pupils are making their homes in Boston—it is true that such sworn statements are accepted after they are checked up through the Attendance Department. No permits have been granted to pupils where the facts clearly show that the pupils were here with relatives for the purpose of getting a free education in Boston.

In making this criticism the Finance Commission picks out two cases—a young woman from Revere and a young woman from New York. The young woman from Revere was compelled to pay tuition because she was a bonafide non-resident, while the young woman from New York

was granted a permit to attend school free of tuition charges because she is residing permanently in Boston with her uncle. The pupil is also of age and has the right to live in any city or town where she may decide to reside permanently.

On April 22, 1925, long before the Finance Commission thought of making any investigations of non-resident pupils, I addressed the Superintendent of Schools and informed him that many cases of non-resident pupils would have been discovered if pupils had been required to state the actual residence of the parents on one of the record cards. The suggestion was made that the next time this card is being printed that provision be made for the residences of parents and guardians as well as of pupils. Pending the reprint of the card and following the suggestion made by me, the Superintendent on September 16, 1925 sent out a communication (Superintendent's Circular No. 5) to head masters of high schools, requesting them to use Card 137 for the purpose of getting residential identification of the parents and guardians of pupils. Whether or not the instructions in this circular letter have been followed by all principals I am not prepared to state, but I do know that Mr. Kennedy, the Dean of the Teachers College followed such instructions carefully.

While I believe that it is extremely hard to find cases of non-residents who have conspired with others to evade tuition charges, it is evident that the questionnaire prepared by the Finance Commission has had very good results in the Teachers College in discovering a number of non-residents. In consequence, I have sent out a circular letter to principals of Teachers College, Latin and High Schools and Boston Clerical School, requesting them to use this questionnaire, check up all suspicious cases and refer them immediately to my office for decision. A copy of the circular letter and the questionnaire referred to is appended.

There may be many other cases that have not been discovered by the Finance Commission, where the pupils are clever enough not to be caught by any questionnaire. The only positive check that can be had on non-residents or those who have acquired a residence in Boston for the purpose of evading tuition charges is an investigation of all addresses of parents and pupils. This is a task of great magnitude calling for the expenditure of a large sum to paid investigators.

The Commission also suggests that some arrangement be made with the City Collector whereby this office shall be notified monthly of all unpaid bills for tuition. This office has made repeated requests to the City Collector's Office for such monthly reports, but each time the request has been refused on the ground that the pressure of business in the Collector's Office does not admit of monthly reports to departments. In consequence, and shortly after the date on which bills are scheduled for payment, the City Collector's Office is addressed and requested to furnish information on all bills for tuition remaining unpaid as at the close of business on a certain date in the office of the Collector. On receipt of this information, parents and guardians of pupils are notified that unless bills are paid promptly, pupils will be excluded from further attendance at the schools. Such exclusion has been put into effect on many occasions and in nearly all in-

stances tuition charges have been paid. It is the function of the City Collector's Office and the City Law Department to collect bills for unpaid tuition charges where pupils have left school.

Inasmuch as the information set forth in the preceding paragraphs is complete, I am suggesting that it be transmitted to the Finance Commission by the Secretary, together with the circular letter and questionnaire prepared by the Business Manager for use in the schools mentioned.

Respectfully submitted,

Alexander M. Sullivan
Business Manager.

The communication from the Finance Commission was placed on file, the report of the Business Manager accepted, and a copy ordered transmitted to the Finance Commission.

The Board adjourned.

Attest:

ELLEN M. CRONIN,
Secretary.

APPOINTMENT OF ASSISTANT CASHIER IN TREASURY DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, October 13, 1926.
To the Honorable the City Council.

Gentlemen,—Teachers and all other employees under the direction and control of the School Committee are now being paid by check monthly. The number of employees, including teachers, is in excess of five thousand, which at the present time requires on the part of the treasurer the signing of five thousand checks or more to meet the School Committee pay roll, which entails the consumption of a great deal of time which might properly be devoted by the treasurer to other duties connected with his office. If provision is made for the bond of an assistant cashier for the faithful performance of his duties, he may be permitted to sign checks to meet the School Committee pay roll and the treasurer will be relieved of the work which may be properly performed by a subordinate and the city's interest will be properly protected by the treasurer's bond and the treasurer will be protected by the bond required to be furnished by the assistant cashier.

I therefore recommend for your favorable consideration the passage of the accompanying ordinance.

Respectfully yours,
MALCOLM E. NICHOLS, Mayor.

An Ordinance Concerning the Treasury Department.

The treasurer may appoint an assistant cashier who shall furnish a bond in the penal sum of ten thousand dollars to the treasurer as obligee, with sureties satisfactory to the mayor, for the faithful performance of his duties for the safe custody of money and other property entrusted to him. The assistant cashier may in addition to such other duties as the treasurer may require him to perform sign, in the name and behalf of the treasurer, if countersigned by said assistant cashier, all checks which may be required for the payment of the pay rolls of the school committee.

Referred to the Committee on Ordinances.

TAKING OF SHAWMUT BRANCH.

The following was received:

City of Boston,
Office of the Mayor, October 13, 1926.
To the City Council.

Gentlemen,—I transmit herewith a communication from the Transit Department in reply to your order of July 19, 1926, in relation to the "conditions under which the New York, New Haven & Hartford Railroad sold the so-called Shawmut Branch for a rapid transit system, particularly with reference to any provision being made for continuous transportation facilities to the South Station from Fields Corner, Shawmut, Ashmont and Cedar Grove.

Very respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Transit Department, October 11, 1926.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—I return herewith the following order of the City Council passed July 19, 1926: Ordered, That the Transit Commission be requested through his Honor the Mayor to submit to the City Council forthwith a copy of the terms and conditions under which the New York, New Haven & Hartford Railway sold the so-called Shawmut Branch for a rapid transit system, particularly with reference to any provision being made for continuous transportation facilities to the South Station from Fields Corner, Shawmut, Ashmont and Cedar Grove.

This property was not sold by the New York, New Haven & Hartford Railroad, but was taken in fee by eminent domain under the provisions of chapter 79 of the General Laws.

Yours respectfully,
T. F. SULLIVAN,
Chairman.

Placed on file.

ACCEPTANCE OF ELDRIDGE STREET.

The following was received:

City of Boston,
Office of the Mayor, October 15, 1926.
To the City Council.

Gentlemen,—I transmit herewith a communication from the Street Laying-Out Department, in reply to your order of September 20, in relation to the acceptance of Eldridge street, Ward 18, from Metropolitan avenue to Dale street.

Very truly yours,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Street Laying-Out Department,
October 15, 1926.

Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—Replying to the order of the Honorable the City Council, relating to the acceptance of Eldridge street, Ward 18, from Dale street to Metropolitan avenue.

This street is about 700 feet long, 40 feet wide and about 75 per cent built upon. The roadway is in rough condition but passable. The estimated cost of construction would be about \$18,000.

In the opinion of the Board this street should be accepted as soon as possible, but not until some others in the same district which are practically impassable are first taken care of.

Respectfully,
For the Board of Street Commissioners,
THOMAS J. HURLEY,
Chairman.

Placed on file.

POLITICAL ACTIVITIES OF POLICEMEN.

The following was received:

City of Boston,
Office of the Mayor, October 15, 1926.
To the City Council.

Gentlemen,—I transmit herewith a communication from the Police Department in reply to your order of August 2, in relation to allowing members of the police force to attend political rallies and sign nomination papers for candidates for political office, and also to allowing members of that department time off to vote on election days.

Very truly yours,
MALCOLM E. NICHOLS, Mayor.

October 11, 1926.

Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Mayor Nichols,—I am in receipt of two communications from you under date of October 9, one with reference to a request from the City Council to allow members of the Police Department time off to vote on election days, and in answer to this communication I would say that the granting of this request is unnecessary inasmuch as I have long since issued orders that police officers should always have sufficient time to vote on primary and election days and no complaints on this subject have reached me.

In answer to the other communication from the City Council to change the rules of the Police Department to allow members of the police force to attend political rallies and to sign nomination papers for candidates for political office I would say that there has been a long established rule in this department which forbids members of the police force to attend political rallies or to take any part in politics except to vote on primary and election days. This rule, both wise in its creation and enforcement, was established for the purpose of holding the members of the Police Department aloof from political entangle-

ments and has worked well for many years. I can see no reason or necessity that the same should be changed at this time.

Yours respectfully,
HERBERT A. WILSON,
Police Commissioner.

Referred, on motion of Coun. WARD, to the Executive Committee.

APPROPRIATION FOR DORCHESTER COURTHOUSE.

The following was received:

City of Boston,
Office of the Mayor, October 18, 1926.
To the City Council.

Gentlemen,—I am advised by the Superintendent of Public Buildings that an additional appropriation of \$15,000 will be required for the completion of the new Dorchester District Courthouse. This additional appropriation is required because of the fact that subsequent to the award of the original contract an additional taking of land was made for the purpose of enlarging the site and improving the general surroundings of the building. Following this additional taking, a change was made in the location of the courthouse in order that the new building might be properly situated in accordance with the size of the lot. This change in location has resulted in extra grading and driveway expense. It has also been necessary because of the increased size of the lot to erect extra retaining walls and to construct granolithic sidewalks along Tremlett street. All of this work has been necessary in order that the courthouse building might have proper surroundings and background. There is available at the present time in the special fund "Sales of City Property" a sufficient sum to cover the additional amount required. I submit herewith a transfer order providing for the transfer of the necessary amount from this special fund and respectfully recommend adoption of the order by your honorable body.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Sales of City Property, Special Fund, \$15,000, to the appropriation for Courthouse, Dorchester, \$15,000.

The communication was declared referred to the Executive Committee.

Later in the session Coun. WILSON said: Mr. President, I merely want to rise at this time to make reference to the order, if it was an order, placed before the body earlier in the session, to provide \$15,000 for further work on the Dorchester Courthouse. I understand that the communication and order were declared referred to the Executive Committee. I don't know how long the meeting of the Executive Committee may last today, but I am rather pessimistic about its being short, and I may not be here when the Executive Committee makes its report. Therefore, I would like to state my position on the matter at this time. I understand that that order, as I say, is to be considered by the Executive Committee. I would like to state personally that I would like to see that order to provide \$15,000 additional laid over to the next meeting, if we do not get back here in session after the Executive Committee meeting before I leave. The feeling I have in the matter is that, as I am informed, the work on the Dorchester Courthouse is by no means finished. So far as furnishings are concerned, they have been practically simply pecking at it. There has been talk, too, of an automobile yard, in connection with which it may be desirable to have concrete or stone work, a place where cars of attorneys, court attendants and others may be placed, keeping them off Washington street. There is that question that may have to be considered of parking space near the Dorchester Courthouse, similar to the space provided near the Malden District Court. So I think this would be an excellent time, now that \$15,000 more is being asked for the Dorchester Courthouse, to really check up and find out what is needed there in the way of improvements, additions and furnishings, so that before the year is over we may know where we stand, and not have this continual pecking away at an important job of this sort.

President KEENE—The Executive Committee will take due notice.

CONGRESS STREET BRIDGE.

The following was received:

City of Boston,
Office of the Mayor, October 18, 1926.
To the City Council.
Gentlemen,—I submit herewith an order

providing for the acceptance of chapter 157 of the Acts of 1926, entitled "An Act to Authorize the City of Boston to Incur Indebtedness for the Construction of a New Congress Street Bridge."

On October 4, 1926, the foregoing order was read once and passed, yeas 20, nays 0.

The order was given its second and final reading and passage, yeas 21, nays 0.

PURCHASE OF FIRE APPARATUS.

On motion of Coun. DOWD it was voted that the following be taken from the table:

5. Message and communication submitting payments for purchase of fire apparatus.

6. Message and communication relative to date of acceptance of fire apparatus.

On motion of Coun. DOWD it was voted that Nos. 5 and 6 be referred to the Executive Committee.

CONSERVATION BUREAU.

On motion of Coun. RUBY, it was voted to take up assignment for today, No. 4 on the calendar, viz.:

4. An Ordinance Concerning the Conservation Bureau.

Be it ordained by the City Council of Boston as follows:

Section 1. The conservation bureau created pursuant to section 5, chapter eighteen of the revised ordinances of nineteen hundred and twenty-five is hereby abolished.

Section 2. The health commissioner shall establish in addition to the other divisions of the health department a conservation division for the purpose of conserving life and promoting public health. The scope and character of the work to be done by the conservation division shall be determined by the health commissioner, with the approval of the mayor.

Temporary and permanent employees necessary to carry on the work of the conservation division shall be appointed and their compensation fixed in the same manner as other employees of the health department and their compensation and other expenses of the conservation division paid from appropriations available for the purpose in the same manner as other expenses of the health department.

The question came on the passage of the ordinance.

Coun. GUILD—Mr. President, I believe I am opposed to the passage of the ordinance in its present form. I indicated my objection somewhat at the last meeting of the Council, when I arose for information and asked what it was all about. It seems to me that the ordinance should state specifically what the scope and character of the work to be done by the Conservation Bureau is to be, rather than making a statement in general terms which might apply to the general work of the Health Department. At the last meeting the learned chairman of the committee, with the assistance of another member of the committee, indicated that at the hearing of the proposed ordinance, it was proposed that the scope of this Conservation Bureau should be a study of cancer and other contagious diseases. I therefore move that the ordinance be amended by striking out the words "the scope and character of the work to be done by the Conservation Division shall be determined by the Health Commissioner with the approval of the Mayor," and inserting in place thereof these words: "the scope and character of the work to be done by the Conservation Division shall be the study of conditions and problems of cancer and contagious diseases."

The amendment was declared adopted. Coun. RUBY doubted the vote and asked for the yeas and nays.

The amendment was adopted, yeas 18, nays 3.

Yeas—Coun. Arnold, Bush, Donovan, Dowd, Dowling, Englert, Fitzgerald, Freeley, Gilbody, Guild, Heffernan, Keene, Lynch, Mahoney, McGrath, McMahon, Ward, Wilson—18.

Nays—Coun. Parkman, Ruby, Wrage—3. It was voted, on motion of Coun. RUBY, that No. 4, as amended, be assigned to the next meeting of the Council.

MAYOR'S ATTENDANCE REQUESTED.

Coun. HEFFERNAN offered an order—That under the provisions of section 7 of chapter 486 of the Acts of 1909 and acts in amendment thereof and in addition thereto, the Mayor of Boston be requested to attend a meeting of the City Council on October 25, 1926, for the purposes of publicly answering personally or through department heads the following questions:

1. Has the request of the City Council under date of October 4, 1926, relative to employment of 150 men for a period of sixty days been acted on?

2. If the answer to the foregoing question is in the affirmative, state what action has been taken.

3. State what funds are available under this year's budget for employment of laborers in the Public Works Department for the balance of the year.

4. State the number of employees in the Street Cleaning Department and Paving Division on January 1, 1926; on October 1, 1926, and January 1, 1925; also showing what districts said men are assigned to.

5. State all amounts expended for street cleaning during this year, giving in detail the districts in which said work was done.

Referred to the Executive Committee.

BUILDING LINE FOR BEACON STREET, BRIGHTON.

Coun. DOWLING offered the following: Ordered, That the Board of Street Commissioners be requested to consider the advisability of establishing a building line on the northerly side of Beacon street, in the Brighton district, between Ayr road and Sutherland road, to conform with the present set-back of the buildings on said Beacon street, in the Brighton district, between Ayr road and Sutherland road, to conform with the present set-back of the buildings on said Beacon street.

Passed under suspension of the rule.

INVESTIGATION OF BOSTON ELEVATED SERVICE.

Coun. DONOVAN offered the following: Ordered, That his Honor the Mayor be requested to have an investigation conducted of the service of the Boston Elevated Rail-

way throughout the City of Boston, and particularly in the East Boston district, where it is apparent that the car riders are not receiving adequate service.

Passed under suspension of the rule.

STUDY OF TRAFFIC SITUATION.

Coun. WARD offered the following: Ordered, That his Honor the Mayor be requested to appoint a committee of traffic experts to study the traffic situation in Boston, and to report at once a program for traffic relief in the interests of the public and of the city.

Coun. WARD—Mr. President, I believe that order deals with a question that is brought before the people every day in the week. That question is, what are we going to do with our traffic in this city? It is a serious problem, Mr. President. I recently made a point of driving from Scollay square up to Massachusetts avenue, and it took me approximately thirty minutes for a distance of less than three miles. It might be recorded in the minutes, for the information of the Mayor, that the average automobile driver, driving through this city, can make an average of only four miles an hour.

The order was passed under suspension of the rule.

CALL FOR STATE ELECTION.

Coun. GILBODY offered the following: Ordered, That meetings of the citizens of this city, qualified to vote for state officers, be held at the several polling places designated for the purpose by the Board of Election Commissioners, on Tuesday, the second day of November, 1926, to give in their votes for governor, lieutenant-governor, state secretary, state treasurer, state auditor, attorney-general, senator in Congress, representatives in Congress, councilors, senators in the General Court, representatives in the General Court, district attorney, and sheriff; also to give in their votes "yes" or "no" in answer to the following questions:

1. Shall an amendment to the constitution which authorizes the General Court to establish in any corporate town containing more than six thousand inhabitants a form of town government providing for town meetings limited to such inhabitants of the town as may be elected for the purpose, which received in a joint session of the two houses held May 29, 1924, 189 votes in the affirmative and 40 in the negative, and at a joint session of the two Houses held March 18, 1925, received 262 votes in the affirmative and 4 in the negative, be approved?

2. Shall a law which amends existing law by striking out the provisions that veterans who pass civil service examinations shall be placed upon the eligible lists above all other applicants, that disabled veterans shall be placed ahead of all other veterans, and that disabled veterans shall be appointed and employed in preference to all other persons; and by providing in place thereof, that five points shall be added to the mark of veterans who pass such examinations, and ten points to the mark of disabled veterans, which law was disapproved in the Senate by a vote of 0 in the affirmative and 34 in the negative, and in the House of Representatives by a vote of 11 in the affirmative and 181 in the negative, be approved?

The polls at said meetings shall be opened at six o'clock a. m. and closed at eight o'clock p. m.

Ordered, That the City Clerk be directed to give notice of said meetings according to law. Referred to the Executive Committee.

SUSPENSION OF CERTAIN SECTIONS OF CHAPTER 54.

Coun. GILBODY offered the following: Ordered, That the provisions of sections 55, 56 and 57 of chapter 54 of the General Laws be and hereby are suspended and made inapplicable as to the several questions to be voted upon at the state election to be held on November 2, 1926.

Referred to the Executive Committee.

OVERTIME TO EMPLOYEES OF ELECTION DEPARTMENT.

Coun. GILBODY offered the following: Ordered, That his Honor the Mayor request the Election Commissioners to pay overtime to all employees of Election Department in connection with extra work necessary in the coming state election, November 2. Referred to the Executive Committee.

ARC LIGHT ON CRAWFORD STREET.

Coun. BUSH offered the following:
Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to arrange for the installation of an arc light at a point midway between Nos. 99 and 111 Crawford street, Ward 12.
Passed under suspension of the rule.

RECESS.

On motion of Coun. ENGLERT, the Council voted, at 2.40 p. m., to take a recess subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by President Keene at 3.57 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. DOWLING, for the Executive Committee, submitted the following:

1. Report on the order providing for the state election (referred today)—that the same ought to pass.

The question came on accepting the report and passing the order.

Coun. DOWD—Mr. President, I move that that lie over for five minutes until the members of the Council are all present.

President KEENE—The Chair will say there are only three absent. Coun. Wilson stated earlier in the session that he would probably not be present later in the meeting.

Coun. HEFFERNAN—Mr. President, I move that the City Messenger be sent for to get the other members.

President KEENE—I will say that I am now ringing for him.

(The three absent members were presently in attendance.)

The report was accepted, and the election order was passed.

2. Report on the order (referred today) that the provisions of sections 55, 56 and 57 of chapter 54 of the General Law be and hereby are suspended and made inapplicable as to the several questions to be voted upon at the state election to be held on November 2, 1926—that the same ought to pass.

Report accepted, and the order was passed.

3. Report on order (referred today) that the Mayor be requested to attend a meeting of the Executive Committee, etc.—that the same ought to pass.

Report accepted, said order passed.

4. Report on No. 6 on the calendar (taken from the table and referred earlier in the session), being message and communication relative to date of acceptance of fire apparatus—that the same be placed on file.

Report accepted; said message and communication placed on file.

5. Report on No. 5 on the calendar (taken from the table earlier in the session and referred to the committee) being message and communication submitting payment for purchase of fire apparatus—that said message and communication be placed on file.

6. Report on order (referred today) that the Mayor request the Election Commissioners to pay overtime to all employees of the Election Department in connection with extra work necessary in the coming state election, November 2—that the same ought to pass.

Report accepted; said order passed.

PAYMENT OF AID TO SOLDIERS AND SAILORS.

Coun. GILBODY, for the Committee on Soldiers' Relief, submitted report recommending passage of order for payment of aid to soldiers and sailors and their families in the City of Boston for the month of October, 1926.
Passed under suspension of the rule.

PARKMAN FUND APPROPRIATION.

Coun. GUILD, for the Committee on Parkman Fund, submitted a report on message of the Mayor, with accompanying order (referred October 4), appropriating \$128,500 for various purposes from said fund—that the same ought to pass.

Report accepted; said order passed, yeas 20, nays 0.

ACCEPTANCE OF CEYLON STREET.

Coun. RUBY offered the following:
Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Ceylon street, from Quincy street to Columbia road, as a public highway.
Passed under suspension of the rule.

ACCEPTANCE OF LYNNVILLE TERRACE, WARD 14.

Coun. RUBY offered an order—
Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Lynnville terrace, Ward 14, as a public highway.
Passed under suspension of the rule.

ACCEPTANCE OF HOMES AVENUE.

Coun. McMAHON offered an order—
Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Homes avenue, from Juliette street to Adams street, Ward 15, as a public highway.

Passed under suspension of the rule.

GENERAL RECONSIDERATION.

On motion of Coun. McGRATH, the Council refused a general reconsideration of all action taken today.

Adjourned at 4.10 p. m., on motion of Coun. BUSH, to meet on Monday, October 25, at 2 p. m.

CITY OF BOSTON.

FIRE DEPARTMENT.

PROPOSALS FOR REPAIRS TO FIREBOAT ENGINE 47.

The Fire Commissioner of the City of Boston invites sealed proposals for repairs to Fireboat Engine 47, East Boston. A bond of a surety company will be required in the sum of 35 per cent of the proposal to secure the full performance of the contract and the full protection of the city. Forms of proposals may be obtained at the office of the Fire Commissioner, 60 Bristol street. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Fireboat Engine 47," and left at office of the Fire Commissioner before 12 m., Thursday, October 28, 1926, with a certified check for \$1,000, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor, previous to the time named for opening the bids. If the price of any item appears to the commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

EUGENE C. HULTMAN,

Fire Commissioner.

Boston, October 20, 1926.

(Oct. 23.)

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR OFFAL WAGON BODIES

The Supply Department of the City of Boston invites proposals for furnishing the Sanitary Service, Public Works Department, the following:

ORDER OF ADDITION.

SCHOOLHOUSE DEPARTMENT.

The Mayor has approved the issuance of an order of addition, in the sum of \$1,723.02, to the contract of R. J. Connolly for moving eight portable school buildings.

This amount is required to cover the cost of replacing old sills, rebuilding roof trusses and rebuilding ceiling sections, which were found on moving to be decayed and defective.

MAYOR NICHOLS SEEKS ELEVATED ACTION AT GOVERNOR SQUARE.

Mayor Nichols has addressed the following communication to the Elevated trustees anent the subway extension at Governor square:

October 25, 1926.

HON. SAMUEL L. POWERS, *Chairman of Board of Trustees*, Boston Elevated Railway Company, Park Square Building, Boston, Massachusetts.

DEAR SIR,—Your answer to my letter states that the question of public control has nothing to do with the attitude of your Board of Trustees relative to subway extensions. My query to you was directed to the attitude of your company whose contracts for the lease of the Governor square extension for a period beyond that of public control would at this time require the consent of the directors of the Elevated. If I am to assume that the company, meaning the directors as well as the trustees, is not unwilling to undertake any further rapid transit extensions before a settlement of public control by the Legislature, the question is much simplified. It seems that the Elevated will consider a further extension of rapid transit without waiting for a consideration of the question of public control, and that the extension at Governor square merely depends upon the financial plan.

You do not doubt that there is serious traffic congestion at Governor square, but your letter somewhat softens its seriousness by the truthful statement that there is traffic congestion in other parts of Metropolitan Boston. This I do not view as a dismissal of the importance of the Governor square problem, because I do not think you really intend to dismiss it. Permit me, however, again to present it as of first rate importance, not only as a traffic problem, but as the only one provided with a legislative remedy awaiting acceptance.

Until the Boylston Street Subway beyond Kenmore Station at Governor square is extended, the very purpose for which the subway was built cannot be fulfilled. The Boylston Street Subway was designed for the operation of long trains. With the present operation of single, or even two or three car units crossing each other at grade, a very wasteful and inefficient method of operation is provided.

You say it cannot be claimed that the Elevated is responsible for the motor traffic congestion in Governor square. It is indeed true that automobile traffic is an important factor contributing to the deplorable condition of affairs existing at that point. It is also true that the extension of the subway will not entirely obviate traffic congestion in Governor square. But the primary reason for the extension is to improve rapid transit service.

Undoubtedly there will be less interference with automobile traffic if the

MAYOR NAMES WOMAN ELECTION COMMISSIONER.

Mayor Nichols has announced the appointment of Mrs. Nina M. Gevalt, of 52 Park street, West Roxbury, as a Republican member of the Board of Elections. In making this announcement Mayor Nichols said:

"Mrs. Gevalt's appointment is the first instance where a woman has been named as a member of this important tribunal. This position by law is one which must go to a member of the Republican Party, and I believe the selection of Mrs. Gevalt is in well deserved recognition, not only of her ability and activity in the Republican Party, but generally of the increasing interest displayed by women of all parties in public affairs.

"Upon Mrs. Gevalt's confirmation by the Department of Civil Service and Registration I shall name as permanent chairman of the Board the present Acting Chairman Frank Seiberlich."

Mrs. Gevalt is the wife of Frederick G. Gevalt. The vacancy to which she is appointed was created by the death of Melancthon W. Burlen, member of and chairman of the board for many years. Mrs. Gevalt is active in many women's organizations. She is a member of the Republican Committee of Ward 20, and

a member of the Board of Overseers of Public Welfare, to which Mayor Nichols appointed her a short time ago.

NAMES DEPUTY PARK COMMISSIONER.

Mayor Nichols on October 29 announced the appointment of Joseph G. Maier, of 33 Lakeville place, Jamaica Plain, as Deputy Park Commissioner, to fill the vacancy created by the appointment of William P. Long as chairman of the Park Department.

Mr. Maier was born in Boston on June 26, 1890, and has been a resident of Jamaica Plain for nearly thirty years. He is married. Educated in the Boston public schools and Burdett College. One of the founders of Ashton-DeVeer Company, wholesale distributors of automobile equipment, and at present vice president and treasurer.

Mr. Maier served in the World War for a period of thirteen months, and was one of eight to pass a competitive examination and sent to Fortress Munroe, Va., United States Heavy Artillery School. After graduation and receiving commission as lieutenant was assigned back to the school as instructor in the technical department.

SUBWAY EXTENSION.

(Continued from page 1725.)

incline at Governor square is abolished, but the present need is to provide for the 67,000 car riders who pass this incline daily, reasonable service which will at the same time appreciably relieve the congestion at crowded stations through the Boylston street and Tremont street subways. "Adequate service" not only becomes a hollow mockery in the Boylston and Tremont street subways, but due to resultant congestion in connecting lines is no longer a fact in many parts of the system. The obligation to make reasonable provisions for adequate service will be discharged only by constructing this extension without further delay.

You have presented a formidable array of figures, but it does not seem to me that they entirely dispose of the case. I am not convinced in the first place that the interest and Sinking Fund requirements, amounting as you estimate to \$250,000, constitute an additional burden to that extent. Is it not obvious that operating economies will measurably offset this estimated cost? Secondly, as to the ability of the Elevated to carry such an additional burden, together with its effect on your annual balance sheet, it appears to me that the surplus earnings you quote, amounting to \$22,000 in 1926 and \$20,000 in 1925, do not accurately reflect the real surplus earnings of the road.

Your pamphlet entitled "Co-operation," issued in August, 1926, shows that \$14,000,000 has been expended for cars and buses since 1919. I have been informed that \$12,000,000 of this sum has been taken from the depreciation account. As the depreciation allowance during these years has amounted to \$17,000,000, I think it a fair question to ask if your depreciation allowance has not been considerably more than is required to meet the true depreciation purposes, and, if so, does not your depreciation account work unfairly against an undertaking of extreme public necessity like that at Governor square? The fact that the number of your car riders shows no substantial decrease in all these years is a surprising tribute to the vitality of street railways, and should not be taken as a discouraging but as a very encouraging sign.

If the lease for the Boylston Street Subway extension were signed now, it would take at least three years before its completion and before any additional subway rentals would be required. During this period of three years, according to your present standard of figuring depreciation, there would be \$7,500,000 at least added to that item. In this time would not the Elevated, with new rolling stock and car shops and improved power plants, be in such condition that it should reasonably expect to meet rentals from amounts now charged to depreciation? To emphasize this, I note that in 1918 the depreciation charged was \$352,670, while for the year ending June, 1926, it was \$2,533,733.15, an increase of over 600 per cent.

Perhaps we are not as far apart in this matter as it may seem. Much of the discussion up to this time concerning rapid transit has put the cart before the horse. We have talked more about extending the period of public control and less about utilizing the means at hand for relieving street car traffic in a badly congested section. As a consequence, an impression has arisen that there is to be no more consideration of rapid transit

until after the more general question of public control is disposed of. I am of the opinion that your letter corrects this misapprehension.

Two commissions are at work under legislative authority to report upon transit improvements. Still, of what use is any comprehensive plan, if the simple plan already provided for cannot be carried out first? Would it not be wise for you to give serious consideration to the Governor Square Act as a public necessity, and proceed promptly to set forth in further detail the policy to be pursued by the road in the apportionment of its revenues by way of throwing further light upon matters which seem to me are not clearly understood, especially in the item of depreciation?

I am grateful to you for your readiness to co-operate in this matter, and it seems to me that the Elevated trustees as a public board have the great responsibility of doing whatever ought to be done to meet obstacles. It is then the duty of the Elevated trustees as well as the city to represent the public in ministering to the needs of transportation, and accordingly the Elevated should assume the duty of making a more complete presentation of its case.

You have spoken of my criticising the Board of Trustees, but I am not conscious that I have employed any language that could justly be called criticism, but I am sure that none of it could be construed as unfriendly. Please do not think that this letter is written in any spirit other than the desire to work with you in a sincere effort to bring about an urgently needed public improvement.

Very truly yours,

MALCOLM E. NICHOLS,
Mayor.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works, to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Summer street, bounded:

Northwesterly by another part of said street, eight feet; northeasterly by the same, two hundred and fifty feet; southeasterly by the same, eight feet; and southwesterly by the same, two hundred and fifty feet, containing two thousand square feet, more or less.

The sewerage works to be constructed

are as follows: 250 linear feet of 10-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Summer street, leading southeasterly from Autumn street for a distance of about 250 feet.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Summer street, southeasterly from Autumn street, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 689, Sewerage Works, Summer Street, West Roxbury, July 16, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

NAVY DAY PROCLAMATION BY MAYOR.

Mayor Nichols issued the following statement on October 22, relative to the observance of Navy Day, October 27, 1926:

Pursuant to the establishment of a commendable custom approved by the President and observed throughout the land, I recommend to the citizens of Boston a most generous observance of Navy Day, Wednesday, October 27.

A fitting observance of the day will tend to promote a better understanding of our naval service, its glorious history and traditions, its value and necessity to the nation's commercial welfare. The naval service is a form of national insurance to protect the merchant marine, the future development of which is essential to our economic independence.

On that day I strongly recommend a conspicuous display of the national colors, and a visit to our Navy Yard, to which the public is cordially invited.

I would urge that every assistance be given to our children in the schools to review the historic deeds of the long line of naval heroes who, ashore and afloat, have passed unsullied to posterity the flag of the Stars and Stripes, and that in recalling the great names that have made glorious the history of our American Navy, we would do well to recall that of Theodore Roosevelt, the latter-day apostle of navy preparedness, whose birthday is coincident with that of this observance.

In the language of the late Senator George Frisbie Hoar: "The fairest vision on which these eyes ever rested was the flag of my country in a foreign port. Beautiful as a flower to those who love it, terrible as a meteor to those who hate, it is the symbol of the power, and the glory, and the honor, of more than one hundred millions of Americans."

LAND-TAKING IN BRIGHTON.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston, formerly Brighton and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Dickinson road, bounded:

Northeasterly by Washington street, eleven and 8-100 feet; southeasterly by another part of Dickinson road, two hundred forty-two and 87-100 feet; southwesterly by easement taken by the City of Boston for sewerage purposes June 27, 1899, ten and 1-100 feet; and northwesterly by another part of Dickinson road, two hundred thirty-eight and 64-100 feet; containing twenty-four hundred and seven square feet, more or less.

A parcel of land, owners unknown, being part of the private way known as Dickinson road, bounded:

Northeasterly by easement taken by the City of Boston for sewerage purposes June 27, 1899, ten and 1-100 feet; southeasterly by another part of Dickinson road, one hundred eighty and 45-100 feet; southwesterly by land supposed to belong to Robert C. Jones, ten and 5-100 feet; and northwesterly by another part of Dickinson road, one hundred seventy-eight and 86-100 feet, containing seventeen hundred and ninety-six square feet, more or less.

The sewerage works to be constructed are as follows: 420 linear feet of 10-inch pipe sanitary sewer and 400 linear feet of 10-inch pipe surface drain in the above described premises, being parts of the private way known as Dickinson road.

This Board determines that no person sustains damages in his estate by the taking of an easement for sewerage purposes and the construction of sewerage works in said Dickinson road and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Dickinson road, excluding the

lots at the westerly and easterly corners of Washington street and Dickinson road, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 706, Sewerage Works, Dickinson road, Brighton, September 11, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

AUTHORITY TO DO WORK.

The Mayor has granted the Public Works Department authority to construct Arcadia terrace, Dorchester, southerly from Arcadia street for 150 feet, with department forces, without advertising, the estimated cost for labor and material being \$2,500.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Lasell street, bounded:

Northeasterly by La Grange street, eight and 63-100 feet; southeasterly by another part of Lasell street, two hundred thirty and 8-100 feet; southwesterly by the same, eight and 12-100 feet; and northwesterly by the same, two hundred thirty and 29-100 feet, containing eighteen hundred and forty-one square feet, more or less.

The sewerage works to be constructed are as follows: 200 linear feet of 10-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Lasell street, leading southwesterly from La Grange street for a distance of about 230 feet.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lot of abutting land on the north-westerly side of Lasell street, now or formerly owned by Harold E. and Marie D. Roby, and designated as Lot 1 on the plan hereinafter mentioned, and the lots of abutting land on the southeasterly side of Lasell street, now or formerly owned by Anna L. McLean, Albert W. Perkins and Thomas F. Daly, and designated as Lots 2, 3, and 4 on said plan, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 710 Sewerage Works, Lasell street, West Roxbury, September 18, 1926, William J. Sullivan, Chief Engineer, street Laying-Out Department," and on file in the office of said department.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do the work with the department forces without advertising; additions to and deductions from contracts.

PUBLIC WORKS DEPARTMENT (Paving Service).

Upon October 22 the Mayor approved a contract with Hyman J. Atkins for the construction of artificial sidewalks. A communication from J. H. Sullivan of the Public Works Department was as follows:

BOSTON, October 19, 1926.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Hyman J. Atkins, Wilmington, Mass., is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

J. H. SULLIVAN,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

Upon October 22 the Mayor approved a contract with the Wyllis-Overland, Inc., for the purchase of Whippet motor cars and sedans for the Public Works Department. A communication from Herbert S. Frost of the Public Works Department was as follows:

BOSTON, October 19, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—The Commissioner of Public Works, at various times during the last few months, has made requisition upon this department for Whippet motor cars and Overland sedans. After long experience with Ford cars, he finds that they do not give the service in his department that is required. The repairs to the Fords have been costly, and after investigation by his employees, it was determined that the best interests of the department would be served by a change to some other low priced car. As a result of this investigation he requested me to purchase Whippet cars and Overland sedans, upon various dates. All of these purchases were under \$1,000 each, but the City Auditor is of the opinion that they should have been combined in contracts or the Mayor's permission should have been given to make these purchases without advertising, in accordance with chapter 30 of the City Charter. This has resulted in the City Auditor withholding payment until your permission has been received to ratify these purchases.

You are therefore respectfully requested to ratify the purchase of nine Whippet motor cars and two Overland sedans at a total cost of \$8,210 less a credit of \$458 on four Ford sedans turned in. The reason for seeking your permission, without advertising, is that these cars are the types required by the Commissioner of Public Works, and being made and controlled by the same company, no advantage would be gained through advertising.

Very truly yours,

HERBERT S. FROST,
Superintendent of Supplies.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

BOSTON SANATORIUM.

Thomas F. Connor has been ordered to make the following addition to his contract for work at the day camp for painting outside of the day camp building three coats, pure lead and oil, colors to be selected by the superintendent. Original amount of contract, \$2,845; addition No. 1, \$750; total, \$3,595.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston, formerly Dorchester, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Menton street, bounded:

Westerly by Standard street, six and 6-100 feet; northerly by another part of Menton street, two hundred and one feet; easterly by the same, six feet; and southerly by the same, two hundred and 17-100 feet, containing twelve hundred and three square feet, more or less.

The sewerage works to be constructed are as follows: 220 linear feet of 10-inch pipe sanitary sewer in the above described premises, being part of the private way known as Menton street leading easterly from Standard street for a distance of about 200 feet.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board determines that the lots of abutting land on the northerly side of Menton street, between Standard street and Groveland street, and designated as Lots 1, 2 and 3 on the plan hereinafter mentioned, and the lots of abutting land on the southerly side of Menton street, between Standard street and Groveland street, and designated as Lots 4 and 5 on said plan, will receive benefit or advantage, beyond the general advantage to all real estate in said city from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 708, Sewerage Works, Menton street, Dorchester, September 10, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

MAYOR REPLIES TO FINANCE COMMISSION ON REPORT.

The Mayor has addressed the following communication to the Finance Commission:

BOSTON, October 26, 1926.

THE FINANCE COMMISSION, 11 Beacon Street, Boston, Mass.

DEAR SIRs,—I beg to acknowledge receipt of your report under date of October 25 which deals with certain contracts made by the Public Works Department for work and materials in three of its divisions.

The Finance Commission says:

1. That the Lockwood Company is successor of the Murray Engineering Company which went out of existence October, 1925, and owed a trust company about \$45,000. I cannot see that this calls for any comment as it refers to a matter in which the city has no concern whatsoever.

2. Your report deals with the locating and repair of a floating screen by the Lockwood Company, which you say was constructed at an exorbitant cost. As this work was done in 1923 and 1924, your report on this matter is stated only as an opinion, and is apparently two years late. I am sorry not to have known it sooner.

3. Your report speaks about the bills on file running from March, 1923, to December 1, 1925. This matter also goes quite a way into ancient history, and also carries my regrets.

4. Your reports states that the Lockwood Company succeeded to the job in 1926, and has been paid two bills dated January 27 and June 14 of this year, in the sum of \$1,618. You call attention to the fact that one bill was just below the statutory \$1,000 limit. What purpose this statement serves I do not know. The items which make up this bill, however, are on file, were examined by you and do not indicate any irregularity even though they fall below the \$1,000 limit.

5. Your report complains about the items which go to make up the \$1,618, of which the labor bill was \$1,248, and a motor boat bill for \$240. No answer is necessary to the labor bill because you do not complain of the labor bill as being excessive. You do complain of the bill of \$240 for the boat because your engineer cannot understand the use of a motor boat twelve days on this work. On this point, the Commissioner of Public Works assures me that the number of days is not unreasonable, and the price per day is not excessive, and on this point I prefer the judgment of the Commissioner of Public Works to that of your engineer.

6. You indicate that the price of \$1,618 for repairing and locating the dump screen in the opinion of your engineer is excessive. In the opinion of the Commissioner of Public Works this is not excessive, because it amounted to the cumulative work of two distinct jobs five months apart.

7. You state that the work was absolutely unsupervised and unchecked by the city authorities. The Public Works Commissioner states to me that this statement is untrue. The foreman in charge has been in the employ of the city for thirty-five years, and is a responsible man. The keeping of records was simple and involved only five or six men. If he kept such a record in his head rather than on paper it would not be surprising, as foremen are

not expert bookkeepers. I think, however, that a record ought to have been preserved in writing.

8. You call attention in this report, as in a prior report, to the practice of employing workmen through contractors as illegal. You are in error in this matter. This kind of employment has been in practice in the City of Boston for many years. Employment of this nature has been the subject within a few months of conferences between the Civil Service Commission, Public Works Commissioner, City Treasurer, and the Corporation Counsel, and the advantages and objections to it were freely discussed.

Men are being employed in this manner with the full knowledge of the Civil Service Commission under an understanding with the commission that further conferences with it are to take place when convenient.

In support of the foregoing, permit me to cite from your own report in which you state that one man supplied at the pumping station has worked under this kind of a contract for approximately ten years. In further reference to this matter you state that the city force should be increased by application to the Civil Service Commission. This amounts merely to advice for the benefit of the Civil Service Commission. In the Ferry and Sewer Service of the city you admit that records of time are kept of the men hired, but you find that the records were of doubtful accuracy. In the entire transaction, the matter does not concern the employment of more than twenty men at one time in all divisions. I think that this criticism has already been fully answered.

9. You complained because the records of the Lockwood Company were not satisfactory to you, and I think that complaint better be lodged with the Lockwood Company as the city has nothing to do with their records.

10. The Finance Commission states that it has reported to the Civil Service Commission the specific instances already found of the practice which, in error, it terms illegal, of hiring labor from contractors and is convinced that in this specific case further payments will not be approved. This statement indicates that the Finance Commission does not understand the scope of its duties under the City Charter.

I am advised by the Corporation Counsel that your report to the Civil Service Commission of what you erroneously deem to be an illegal practice is clearly a violation of the powers conferred upon you by statute. Furthermore, you appear to have made a recommendation to the Civil Service Commission which you are convinced will be followed. Not only is this recommendation beyond the scope of your powers, but if abruptly carried out would seriously interfere with work of the utmost importance now under contract. It would summarily change conditions of years standing which have been and now are subject to conferences between the city and the Civil Service Commission.

You suggest that the Mayor issue an order forbidding what you term an illegal practice. Of course, the Mayor will issue no such order, but will continue the conferences already carried on with the Civil Service Commission.

Sincerely yours,

MALCOLM E. NICHOLS, Mayor.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying-out and construction of Stellman road, West Roxbury district, as a highway, southeasterly from Washington street, bounded and described as follows:

A highway named Stellman road is hereby laid out southeasterly from Wash-

ington street for a distance of approximately 884 feet, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northwesterly by Washington street, forty feet; northeasterly by the northeasterly line of said Stellman road as hereby laid out, one hundred twenty-seven and 31-100 feet; northerly by the

northerly line of said Stellman road as hereby laid out, seven hundred fifty-eight and 49-100 feet; southeasterly by the southeasterly line of said Stellman road as hereby laid out, forty-four and 58-100 feet; southerly by the southerly line of said Stellman road as hereby laid out, seven hundred forty-six and 67-100 feet; and southwesterly by the southwesterly line of said Stellman road as hereby laid out, one hundred thirty-five and 16-100 feet.

Trees or structures standing upon or affixed to the aforesaid described land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Stellman road will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Stellman Road, West Roxbury, Assessment Plan, July 27, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of Stellman road, West Roxbury district, as a highway, southeasterly from Washington street for a distance of approximately 884 feet, under the order of this Board, and awards no damages therefor.

POLICE DEPARTMENT ORDERS.

General Order No. 977.

The Superintendent of Police is hereby directed to make the following details for duty at the state election in this city on Tuesday, November 2, 1926.

1. Three patrolmen for duty in the office of the Board of Election Commissioners, City Hall Annex, on arrival of ballots for state election at about 11.30 o'clock a. m., Monday, November 1, 1926, such detail to continue until all ballots cast at the election have been returned.

2. An officer of rank above that of sergeant for duty at the City Hall Annex, to supervise the police detail for motor trucks, from 3 o'clock a. m. Tuesday, November 2, until relieved, and a patrolman, from 8 o'clock p. m. on the same date, until relieved, for duty at the same place, to keep clear the approaches to the office of the Board of Election Commissioners for motor vehicles returning from the polling places with ballot boxes, etc.

3. The necessary number of patrolmen from the several police divisions to attend the several polling places in this city on State Election Day, to preserve order and protect voters in the full exercise of their rights.

4. Twenty-three sergeants, one to a motor vehicle, to report at the office of the Board of Election Commissioners in ample season to be prepared to leave that office for their respective destinations, according to the following schedule, in such vehicle with ballot boxes, ballots, etc., and deliver such ballot boxes, ballots, etc., to the police officer detailed in each precinct.

7. Commanding officers are to take notice that it is of the greatest importance, also, that the patrolmen herein detailed report at the polling places in the various precincts promptly according to schedule.

Failure for any reason of an officer to be on hand at a polling place at the appointed time delays the sergeant in the motor vehicle in his delivery of the ballot boxes, ballots, etc., and interferes, as is plainly seen, with the balance of the delivery schedule.

8. This detail of patrolmen at the various precincts will continue until the ballots are counted and the results declared. The officers are then to bring the ballots and returns to the Election Commissioners' office.

9. Cards with the ward and precinct number and location of voting booth printed thereon have been forwarded to the several police divisions, on which the division commander will write the name, the division number and the number of the officer detailed at the time stated on the morning of November 2, at the voting booth of each respective precinct on his division. This card, to be given to the officer so detailed at the voting booth, will be retained in his possession until delivered by him to an employee of the Board of Election Commissioners, who will arrive accompanying a sergeant on motor vehicle from the Election Commissioners' office on the morning of November 2, with ballot boxes, ballots, etc., as hereinbefore stated. This card,

when returned by such employee to the office of the Election Commissioners will be its receipt that the ballot boxes, ballots, etc., have arrived at their proper destination.

10. On receipt by the patrolman from the sergeant, detailed on motor vehicle, as herein provided, of registering ballot box, voting lists and such other documents as may have been received from the Election Commissioners, the patrolman detailed at polling place will deliver same to the warden or clerk of the precinct allowing no person to take or handle them before such delivery, and hand the key of the registering ballot box to the warden. On delivery of the ballots to the warden, the patrolman will take from him a receipt for the ballots, which receipt will be returned to the Election Commissioners.

11. After the warden has opened the box and allowed the election officers and the public to see that it is empty, the box is to be again locked and the key given to the patrolman who is to retain it until after the polls have closed, except that, at the request of the warden, the patrolman may allow him to open the box for the purpose of pressing down the ballots, in order to make room for more ballots after which the patrolman will see that the box is again locked, and the key returned to the police officer.

12. The patrolman will obtain from the warden copies of poster, which will be sent to the latter, in relation to smoking and the use of liquor in polling places, and post same in conspicuous places where they may be easily read. Tacks will be sent for the purpose.

13. The warden will deliver to the patrolman detailed at the polling place for his use at that place a copy of the descriptive voting list, which must be returned to the warden at the close of the polls.

14. When the polls are opened, the patrolman will mark in the place indicated on the tag attached to the key the figures which the register shows before any ballots are cast.

15. At 8 p. m. Tuesday, November 2, when the polls close, one sergeant will report in each of the twenty-two wards (excepting Ward 1, East Boston, for which two sergeants and two motor trucks are provided), to meet motor vehicle at last point of morning distribution; thence to proceed to each of the several precincts in his respective ward, and receive registering ballot box (which must be locked) and key thereof, voting lists envelope, signed by the warden and other election officers, receipts for ballots, unused ballot envelope (containing unused and spoiled ballots), stamps for marking spoiled ballots, receipts for ballots and check lists, carry them to the Election Commissioners' office and deliver same to some member of the Board of Election Commissioners.

16. When the polls are closed, the patrolman will mark on the same tag the figures which the register shows after all ballots have been cast. He will then hand the key to the warden, who will open the box and take out all the ballots to be sorted and counted. The warden will then cause the voting lists, including the list used by the police officer, to be sealed up in an envelope and the envelope certified by the signatures of himself and the other election officers, and the same returned to the Election Commissioners, as described in section 15 of this order. The patrolman will not allow this envelope to be put into the ballot box. The sergeant who will report on motor vehicle,

will keep it about his person until delivery at the office of the Election Commissioners. The unused and spoiled ballots are then to be put in the envelope for unused ballots, and the envelope sealed and certified.

17. When returning from polls, all motor vehicles must drive to the easterly side of City Hall Annex, Court square, where ballot boxes will be conveyed by chute to the basement.

18. It is important that the patrolman sees that the voting lists envelope is signed by the warden, clerk and all the inspectors. The patrolman will also see that the special book for signatures of voters is returned in the registering ballot box.

19. In case a patrolman is detailed to relieve another after the close of the polls, the commanding officer will see that he is instructed as to the duty of bringing the official returns, the box of ballots cast, and the press return to the Election Commissioners' office as soon as they are delivered to him by the election officers.

20. When the ballots have all been counted, the ballots thus counted, tally sheets and nothing else, shall be placed by the warden in the leatheroid box for that purpose, which must be sealed up and signed by all the election officers. The patrolman will particularly see that this box is properly sealed up and that all the election officers have signed their names to the certificate on the box. The patrolman will then bring the box, official return, record book, press return, and stamps for marking defective ballots to the City Hall Annex, Court square, and deliver same to the Election Commissioners. The patrolman is directed not to allow the official return or record book to be placed in the leatheroid box.

21. While the polls remain open, an officer of rank will visit the polling places in each division at stated intervals, to be designated by the captain, and in case of any disturbance will report the fact to the commanding officer of the station house without delay. If additional men are needed beyond the number available in that division, the officer in charge will communicate immediately with Headquarters.

22. Attention is called to the fact that the polls at the state election on Tuesday, November 2, shall open at 6 o'clock a. m. and close at 8 o'clock p. m.

23. Commanding officers of divisions will see that the officers detailed for duty on State Election Day are furnished with a copy of the circular issued by the Board of Election Commissioners, entitled: "Instructions to Police Officers on . . . Election Days."

24. Officers concerned will take notice that the counting of ballots will be done on two tables. At one table two inspectors will do the counting, with two inspectors watching, and at the other table two inspectors will do the counting, with the warden and clerk watching.

NOTES.

1. The following paragraph is included in the letter of instructions to the Police Commissioner from the Board of Election Commissioners regarding the police detail for State Election Day:

"May we ask that attention be called to the last paragraph of the circular 'Instructions to Police Officers on . . . Election Days' which reads 'The Police officer is directed not to allow the official return or record book to be placed in the leatheroid box.'"

"At the Primary held September 14,

the official return and record book were placed in with the ballots, . . . in some twenty odd instances."

That there may be no repetition of this occurrence in any of the precincts of this city at the state election, it is thought advisable that the officer of rank who will visit the polling places in each division (provided for in section 21 of this order), shall at an appropriate time, call to the attention of the police officer and of the warden on duty at the polls that the official return and record book are not to be placed in the leatheroid box.

The officer going to the office of the Board of Election Commissioners with the leatheroid box, after the counting of the ballots, will take with him, in a separate package, the official return and record book, which he will safely deliver to the Election Commissioners with the leatheroid box, as provided in section 20 of this order.

2. Refreshments, consisting of coffee and sandwiches, will be provided by the Board of Election Commissioners at its office, for the officers detailed to report at that place on the morning of November 2.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Colorado street, bounded:

Northeasterly by another part of Colorado street, nine and 46-100 feet; southerly by the same, thirty-two and 73-100 feet; southeasterly by the same, eighty-one and 38-100 feet; easterly by the same, thirty feet; southeasterly by the same, one hundred thirty and 31-100 feet; southwesterly by the same, eight feet; northwesterly by the same, one hundred and twenty-eight feet; westerly by the same, thirty feet; northwesterly by the northwesterly line of said Colorado street, eighty-six feet; and northerly by another part of Colorado street, thirty feet, containing twenty-one hundred and ninety-four square feet, more or less.

A parcel of land, owners unknown, being parts of the private ways known as Colorado street and Messinger street, bounded:

Southeasterly by easement taken by the City of Boston for sewerage purposes, July 6, 1923, eight and 64-100 feet; southerly by another part of Colorado street and by another part of Messinger street, thirty-one and 92-100 feet; southwesterly by another part of Messinger street, one hundred and thirty feet; northwesterly by the same, six feet; northeasterly by the same, one hundred twenty-seven and 58-100 feet; and northerly by the same and by another part of Colorado street, thirty-five and 71-100 feet; containing nine hundred and seventy-six square feet, more or less.

The sewerage works to be constructed are as follows:

In Messinger street, 150 linear feet of 10-inch pipe sanitary sewer; in Colorado street, 275 linear feet of 10-inch pipe sanitary sewer.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on the northwesterly side of Colorado street for a distance of approximately 320 feet southwesterly from Messinger street, excluding the three lots within a distance of sixty feet from Messinger street; the lots of abutting land on the southeasterly side of Colorado street for a distance of approximately 320 feet southwesterly from Messinger street; the lots of abutting land on the southerly and easterly corners

of Alabama and Messinger streets, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked, "City of Boston, Plan No. 705, Sewerage Works, Colorado street, Messinger street, Dorchester, September 7, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

LAND-TAKING IN CITY PROPER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the discontinuance, as a highway, of Burbank street, Boston proper district, running southeasterly from Buckingham street, bounded and described as follows:

The highway named Burbank street is hereby discontinued.

Said highway as hereby discontinued is bounded:

Northwesterly by Buckingham street, seventeen and 50-100 feet; northeasterly by the northeasterly line of said Burbark street as it existed previous to this discontinuance, one hundred two and 86-100 feet; again northwesterly by the northwesterly line of said Burbark street as it existed previous to this discontinuance, seventy-nine and 27-100 feet; again northeasterly by the northeasterly line of said Burbark street as it existed previous to this discontinuance, nineteen and 35-100 feet; southeasterly by the southeasterly line of said Burbark street as it existed previous to this discontinuance, eighty and 54-100 feet; again northeasterly by the northeasterly line of said Burbark street as it existed previous to this discontinuance, sixty and 40-100 feet; again southeasterly by the southeasterly line of said Burbark street as it existed previous to the discontinuance, twenty-one and 88-100 feet; and southwesterly by the southwesterly line of said Burbark street as it existed previous to this discontinuance, one hundred ninety-five and 42-100 feet.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the discontinuance of Burbank street, Boston proper, as a highway, under the order of this Board and awards no damages therefor.

FINANCE COMMISSION REPORT.

The Mayor has received the following report from the Finance Commission.

Boston, October 25, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

SIR,—The Finance Commission submits herewith a further report on the waste incurred by the Public Works Department in hiring labor from and letting unadvertised contracts to favored contractors.

The favored contractor in this case is the Lockwood Company. This company is owned and controlled by Thomas F. Curley who, although he held no office in the corporation, testified before the commission, "I am the company." The principal assets of this company are the favor of city officials and the control of a few workmen, who for years have worked on city jobs. This company renders practically no service except to furnish workmen when required, and makes its profits from their toil and at the expense of the city.

The Lockwood Company is the successor of the Murray Engineering Company, which likewise was controlled by Mr. Curley, and held a similar position to the Lockwood Company under the last administration, and obtained similar favors from city officials. The Murray Engineering Company was enjoined from doing business in October, 1925. When it ceased to operate it was insolvent and owed a trust company in Boston about \$45,000.

The operations of the Lockwood Company described in this report are (1) the locating and repairing of a floating screen surrounding the rubbish dump in Charlestown at an exorbitant cost, and (2) the furnishing of workmen to the Public Works Department in the Ferry Service and in the Sewer Service, at the pumping station, contrary to the civil service laws.

The floating screen in question as shown by the bills submitted was originally installed and presumably built around the dumping place in Charlestown, during 1923-1924, by the Murray Engineering Company, to whose privileges the Lockwood Company later succeeded. The purpose of the screen was to prevent paper and other rubbish from floating off into the Mystic river. It was built in sections about twenty feet long, each section consisting of three logs, or pieces of timber, fastened together and carrying a frame work to which was attached a vertical fence of wire netting about three feet high. The wire netting was ordinary small wire screen, with meshes about three inches in diameter, such as is ordinarily used for protecting chicken yards.

From the bills on file, it appears that the Murray Engineering Company was paid for work on this dump screen the total sum of \$3,811.25. It is to be noted that three of these bills are just under \$1,000, which is the limit for unadvertised contracts, and that the bills of December 31, 1924, if added together would reach the sum of \$1,840.25, a sum in excess of the statutory limit.

The Lockwood Company succeeded to the job in 1926. The work alleged to have been done by this company during the present year, as shown by two bills dated January 27 and June 14, consisted of repairing the screen and pushing it out into the river, as required when the dump extended further into the river, and furnishing a small quantity of materials. For this work and materials the Lock-

wood Company has been paid a total of \$1,618. In this case also one of the bills was for an amount just below the statutory \$1,000 limit. No contract was made; labor was charged by the hour. It therefore appears that nearly the whole cost of \$1,618 was for the labor and the use of a motor boat to move and anchor the screen and to install 600 feet of wire mesh fabric.

After an examination of the premises and the structure, it is difficult to understand the necessity for the use of a motor boat for any such number of days. The situation is such that the screen can be drawn in to the shore and left high and dry by the falling of the tide. The only apparent use for a boat is for the releasing and replacing of the moorings. There were no records or receipts to show the number of days it was used, and in the opinion of the engineer of the Finance Commission there was nothing to require the use of the boat for twelve days during the period covered by the bills. Moreover, the boat cost the contractor only \$10 a day, although the city was charged \$20.

The engineer of the Finance Commission, after consultation with various experts in carpentry work, estimated that the cost per linear foot for constructing the dump screen in question, including material and fittings, should not have exceeded \$1.50. On this basis the total cost of constructing a dump screen 626 feet long would be only \$939, while the city was charged \$1,618 for repairing and locating alone.

Investigation shows that this work was absolutely unsupervised and unchecked by the city authorities. The foreman of the Charlestown district yard kept no record of the number of men, of their time, or of the materials used. He approved the bills rendered by the company, although he could produce before the Finance Commission no records and displayed no knowledge or information which justified him in so doing.

To verify the charges made against the city, both for work at the dump and for furnishing labor generally, the commission called for the records of the Lockwood Company. It found that this company had no books of accounts, no time sheets and no pay rolls. It could furnish no evidence to substantiate the charges made to the city.

The commission found that the activities of this contractor were financed by the Trust Company above referred to. The contractor assigned all its contracts with the city to this trust company, and when it needed money for its weekly payments to employees filed with the trust company a pay roll, which consisted of the names of the men employed and the amount due each man. It was thereupon furnished the required money, on giving its promissory note indorsed by Mr. T. F. Curley.

The commission caused the total payments to the Lockwood Company by the bank to be compared with the total charges made to the city and found that at that time the city had been charged about \$1,000 more than the payments made by the bank.

The Finance Commission has reported to the Civil Service Commission the specific instances already found of this practice of hiring labor from contractors and is convinced that in these specific cases further payments will not be approved. If your Honor, on whom the responsibility primarily lies, will issue an order forbidding this practice and giving notice that punishment will follow

if the practice is continued, the commission is convinced that it will cease.

The commission recommends:

1. That no further work be given to the Lockwood Company.

2. That steps be taken to bring home to city officials the impropriety as well as the illegality of the practices referred to in this report and in the report of October 11, 1926.

Respectfully submitted,

THE FINANCE COMMISSION,
by CHARLES L. CARR,
Chairman.

FIRE DEPARTMENT ORDERS.

General Order No. 73.

I. RETIREMENTS.

The following retirement, which took effect at 8 a. m. Friday, October 15, 1926, is hereby announced:

Capt. Charles C. Springer of Engine Company 14. Captain Springer was appointed to this department on November 4, 1882, and was made a permanent member on January 16, 1886. He was promoted to the rank of lieutenant on April 6, 1900, and to captain on June 9, 1909.

The following retirements are hereby announced to become effective at 8 a. m. Friday, October 22, 1926:

Lieut. Fred S. Young of Engine Company 4. Lieutenant Young was appointed to this department on December 24, 1897. He was promoted to engineer on July 29, 1904, and to lieutenant on September 16, 1919.

Engineer Daniel M. Cranitch of Engine Company 40. Engineer Cranitch was appointed to this department on December 20, 1889. He was promoted to engineer on January 11, 1901.

These members leave the department, after many years of faithful service, with the best wishes of their former associates.

II. NAVY DAY.

The Fire Commissioner is in receipt of the following letter from Rear Admiral Philip Andrews, U. S. N., commandant, First Naval District, which is published for the information of the department:

October 19, 1926.

FIRE COMMISSIONER EUGENE C. HULTMAN, 60 Bristol Street, Boston.

DEAR COMMISSIONER,—The Navy League, with the approval of the Navy Department and with the approval of the President, is again planning to observe Navy Day on October 27, the anniversary birthday of the late President Roosevelt.

I take pleasure in personally inviting you and the members of the Boston Fire Department to visit the Boston Navy Yard on October 27, Navy Day, to view the exhibits and exercises that will be held for the information and entertainment of our guests.

Very sincerely yours,

PHILIP ANDREWS,
Rear Admiral, U. S. Navy,
Commandant.

By order of Fire Commissioner Eugene C. Hultman.

HENRY A. FOX,
Acting Chief of Department.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Ormond street, bounded:

Southerly by easement taken by the City of Boston for sewerage purposes, June 30, 1926, eight and 41-100 feet; westerly by another part of Ormond street, by five measurements, one hundred twenty-nine and 98-100 feet, one hundred thirty-six and 29-100 feet, one hundred ninety-three and 34-100 feet, one hundred ninety-two and 26-100 feet, and two hundred twenty-three and 43-100 feet; north-westerly by the same, eight feet; easterly by the same, two hundred and twenty-four feet, one hundred and ninety-four feet and one hundred ninety-one and 11-100 feet; northerly by the same, sixteen feet; easterly by passageway, ten and 3-100 feet; southerly by another part of Ormond street, sixteen feet; and easterly by the same, by two measurements, one hundred thirty-three and 85-100 feet and one hundred and thirty-four feet, containing seventy-two hundred and five square feet, more or less.

A parcel of land, owners unknown, being part of passageway, bounded:

Westerly by Ormond street, ten and 3-100 feet; northerly by the northerly line of said passageway, by two measurements, one hundred thirty-one and 31-100 feet and one hundred twenty-eight and 48-100 feet; easterly by Goodale road, ten and 23-100 feet; and southerly by the southerly line of said passageway, by two measurements, one hundred thirty-one and 43-100 feet and one hundred thirty-one and 31-100 feet: containing twenty-six hundred and thirteen square feet, more or less.

The sewerage works to be constructed are as follows:

In Ormond street, between Byers road and Outlook road, 870 linear feet of 10-inch pipe sanitary sewer; in passageway, between Ormond street and Goodale road, 160 linear feet of 10-inch pipe sanitary sewer and 186 linear feet of 10-inch pipe surface drain.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on the easterly side of Ormond street, from Byers road to passageway hereinbefore described; the lots of abutting land on the easterly side of Ormond street for a distance of approximately 120 feet southerly from

said passageway; the lots of abutting land on the westerly side of Ormond street, from Byers road to Outlook road, excluding the lot at the northwesterly corner of Ormond street and Outlook road; and the lots of abutting land at the northerly and southerly corners of Goodale road and passageway hereinbefore described, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 703, Sewerage Works, Ormond street, Dorchester, August 26, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

LAND-TAKING IN ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of an extension of Bynner street, Roxbury and West Roxbury districts, as a highway, from South Huntington avenue to Jamaica way.

An extension of the highway named Bynner street is hereby laid out, from South Huntington avenue to Jamaica way, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Easterly by South Huntington avenue, by two measurements, ninety-nine and 90-100 feet on a curve of sixteen hundred eighty-nine and 51-100 feet radius and seventy-seven and 9-100 feet; south-westerly by the southwesterly line of said extension of said Bynner street as hereby laid out, one hundred and 51-100 feet on a curve of eighty and 54-100 feet radius; southerly by the southerly line of said extension of said Bynner street as hereby laid out, by four measurements, one hundred forty-seven and 20-100 feet on a curve of eight hundred seventy-six and 41-100 feet radius, eighty and 83-100 feet, two hundred eighty-three and 44-100

feet on a curve of eight hundred sixty-five and 88-100 feet radius and seventeen and 2-100 feet; southeasterly by the southeasterly line of said extension of said Bynner street as hereby laid out, thirty-three and 31-100 feet on a curve of twenty feet radius; westerly by Jamaica way, by two measurements, thirty-one and 86-100 feet on a curve of seven hundred seventy-eight and 91-100 feet radius and sixty-two and 87-100 feet on a curve of three hundred forty feet radius; northeasterly by the northeasterly line of said extension of said Bynner street as hereby laid out, thirty-four and 4-100 feet on a curve of twenty feet radius; northerly by the northerly line of said extension of said Bynner street as hereby laid out, by six measurements, seventeen and 2-100 feet, two hundred sixty-seven and 8-100 feet on a curve of eight hundred fifteen and 88-100 feet radius, eighty and 83-100 feet, sixty-nine and 61-100 feet on a curve of nine hundred and twenty-six and 41-100 feet radius, thirty-five feet and fifty and 1-100 feet on a curved line; and north-westerly by the northwesterly line of said extension of said Bynner street as hereby laid out, sixty-three and 57-100 feet on a curve of forty-four and 26-100 feet radius.

Trees or structures standing upon or affixed to the aforesaid described land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Bynner street, from South Huntington avenue to Jamaica way, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Bynner street, Roxbury and West Roxbury Assessment Plan, August 23, 1926, William J. ANNUAL REPORT OF THE BUSINESS MANAGER

The Annual Report of the Business Manager for the financial year, 1925, being School Document No. 1, 1926, was presented.

In this connection, the Business Manager presented the following communication:

To the School Committee of the City of Boston:

I am transmitting herewith the annual report of the Business Manager on the cost of public school education in the City of Boston for the financial year 1925. This report, in addition to setting forth the cost of maintenance of the school system in great detail, and showing the budget and appropriation orders for the current year for all school purposes, carries the following items of interest. From the report as a basis, the cost of any activity within a school or district may be readily ascertained.

a. Table showing the appropriating power for maintenance of the school system for the fifteen-year period beginning with 1916 and ending with 1930.

b. By City Charter amendment the expenditures for the year for which this report is made, viz., 1925, cover an eleven-month period instead of the usual twelve-month period.

c. The cost of maintenance for a period of ten years, including alterations and repairs to school buildings.

d. The expenditures over a period of ten years for lands, plans and construction of school buildings.

e. The results obtained by the employment of an engineer.

f. Report and other information on the salvaging of books.

g. The purchase of athletic materials for high schools and the elimination of coaches and teacher managers as purchasing agents.

Reference to this report and to the report for the preceding year shows the extraordinary savings that have been effected by the procedure adopted in the last two years by the organization under control of the Business Manager.

The procedure referred to in the preceding paragraph that has prevented unnecessary expenditures, which, in a ten-year period, beginning with the year 1924, would amount to at least eight hundred thousand dollars, is briefly set forth as follows:

1. The elimination of lump-sum purchasing, one total for a schedule of supplies or equipment without regard to detailed costs of the various items involved in the schedule, giving dealers the opportunity to bid on the items in which they specialize and on which they offer quotations. Lump-sum bidding, without giving information to show the costs of the various items, stifles real competition and is economically indefensible.

2. The adoption of modern purchase procedure, carrying with it the purchase of total requirements whenever and wherever possible.

3. Engineering control of the use and consumption of fuel, light and power in all school buildings.

4. The rebinding of school books that it is advisable to continue in use.

5. Reduction in weights of paper, taking into consideration the use to which the material is to be put, and the elimination of a heavy weight of a good quality paper which eventually finds its way into waste baskets.

6. Insistence that principals, teachers and other employees interest themselves in the economical use of books, equipment, supplies and electric current throughout the school system.

The elimination of unnecessary expenditures, through effective control, and the adoption of up-to-date methods, which, as stated, would in a ten-year period amount to at least eight hundred thousand dollars, is a defense to such criticism as has been or may be made of school ex-

pensitures under the control of the Business Manager. The cooperation of all employees is being sought to the end that waste of school materials and supplies be eliminated.

The office of the Business Manager has the confidence of the business world. It has no preferred or favored list of bidders on supplies and equipment. Dealers are given full information on request as to how and why they lost the business, if their bids have not been accepted.

The information submitted in this communication is of necessity made as brief as possible; greater details as to how these extraordinary savings have been brought about, may be found in the reports of the Business Manager.

It is needless to add that efforts will be made each year to attain even greater results than those already obtained. Progress is impeded only when the executive or head of a department, or those associated with him, believe that all that can be accomplished has been accomplished.

Very truly yours,

Alexander M. Sullivan,
Business Manager.

The report of the Business Manager was accepted and the communication placed on file.

In this connection, the Chairman, on behalf of the School Committee, commended the Business Manager on the efficient administration of his office as indicated by the report which he now presents.

PAYMENT OF TEACHERS BY CHECK

The Chairman announced that in compliance with the wishes of the School Committee and the Superintendent, the City Treasurer has made arrangements to pay all teachers and members of the supervising staff by checks monthly, commencing tomorrow, Tuesday, Sept. 28, 1926.

The checks for the entire school or district will be delivered to the respective principals at the main building of the district on a given day each month.

It is felt that this arrangement will be a protection to the teachers.

The Chairman, on behalf of the School Committee, expressed appreciation of the co-operation of the City Treasurer and his staff in bringing about this very desirable change in the method of paying School Committee employees.

The Board adjourned.

Attest:

ELLEN M. CRONIN,
Secretary.

Under the Immigration Restriction Law of 1921, the number of aliens admissible was limited to 3 per cent of the foreign-born residents as shown by U. S. Census of 1910. The total of immigrant aliens admitted in year ending June 30, 1924 was 706,896 and of emigrant aliens leaving, 76,789. By the law of 1924 immigration was further restricted to 2 per cent of foreign-born persons in U. S. as shown by Census of 1890, reducing the annual quota to 164,666 in years 1924 to 1927.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

The Massachusetts Civil Service Commission announce examinations for desirable positions open in the Boston and Metropolitan districts as follows:

CLERICAL SERVICE, STATE AND CITIES,
NOVEMBER 6 AND NOVEMBER 20, 1926.

This is the regular examination for the clerical service of the state and of all cities and of such towns in the state as are classified under civil service. On November 6 the examination will be held in various centrally located cities. On November 20 the examination will be held in Boston, and all persons who reside within commuting distance will be notified for examination on this day. Certification may be made from the eligible lists established by this examination for office, institutional, or other positions of a similar nature at the discretion of the Commissioner of Civil Service. Special qualifications in bookkeeping, stenography, typewriting, cataloguing, filing, etc., and in foreign languages may be recognized by the commissioner in certifying persons for positions demanding such qualifications. Persons qualifying in the examination may have their names placed on the state list as well as on the list for the city or town in which they reside.

This examination will be given to fill positions in all grades of the Clerical Service except Grade V (chief clerk, secretary). Positions for office boy at \$600 a year are also filled as a result of this examination. There are usually several positions open for office boys, and young men who are interested are urged to apply. All applicants will be given the same examination, and will be placed on the list in the order of marks received, and will be certified for any and all clerical positions in the order of standing on the list, unless in the opinion of the Commissioner of Civil Service the mark attained is lower than is proper for the particular position to be filled.

Applicants must be not less than sixteen years of age at the time of filing application.

All applicants will be marked on each subject of the examination, and will be given a general average on such marks according to the following schedule: Training and experience, 5 points; spelling, 2; letter writing, 2; arithmetic (multiplication, division and decimals), 1; arithmetic (problems), 1; word knowledge, 1; sentence meaning, 1; grammar, 1; reasoning, 1; total, 15.

Each applicant will be sent an "experience sheet" with proper instructions for stating his education, training and experience.

The passing mark for clerical examinations will be 65 per cent in general average.

The usual entrance salary for clerks ranges from \$720 to \$1,200 per year. For positions paying \$1,200 or more, only clerks who receive a mark of at least 65 per cent in experience will be certified.

Sample questions for clerks available.

SEALERS, DEPUTY SEALERS OF WEIGHTS AND MEASURES, NOVEMBER 19, 1926.

A NEW SERVICE INAUGURATED.

There are few, if any, agencies which have a more direct bearing upon the physical plan of the City of Boston than the zoning law which appears upon our statute books as chapter 488 of the Acts of 1924, together with amendments adopted in 1925 and 1926.

Under the provisions of this law the development of business, industrial and residential areas is directed, the character of uses in each defined, the height of buildings controlled and the area of occupancy or the proportion of the lot to be built upon regulated in accordance with proper standards of light and air.

Provision for flexibility in the plan is made through the establishment of a Board of Zoning Adjustment (section 20) to which has been delegated by the Legislature the authority to change the boundary lines of the zoning districts under certain given conditions.

The Board of Zoning Adjustment has adopted the practice of meeting regularly on the first Friday of each month, at which time public hearings are held in Room 30, City Hall, upon petitions for boundary line changes.

Inasmuch as this is a branch of municipal service which affects every owner of property within the city limits and every citizen, the *City Record* has made arrangements with the Board of Zoning Adjustment to publish in the issue preceding the regular monthly meeting, beginning with the current number, the calendar of public hearings, setting forth the area involved in each petition and the hour set for the hearing.

PETITIONS ALLOWED.

The Mayor has approved the following petitions received from the Board of Street Commissioners:

Edison Company, Nightingale street, Ward 14, erect and remove one pole.

New England Telephone and Telegraph Company and Edison Company, Lenox street, Ward 9, joint owner, nine existing poles.

Robert F. Brown, 398 Hyde Park avenue, Ward 19, 1,000 gallons of gasoline.

New England Bedding Company, 570 East First street, Ward 6, acetylene and oxygen.

Walnut Park repair shop, 3050 Washington street, Ward 11, acetylene and oxygen.

Joseph A. Power, 214 Centre street, Ward 11, acetylene and oxygen.

John F. Gray, 15 Lewis street, Ward 1, acetylene and oxygen.

George W. Ellis Company, Inc., 771 Shawmut avenue, Ward 9, acetylene and oxygen.

MAYORS OF BOSTON.

In its 103 years of existence as a city Boston has had 36 elected Mayors and five *ex-officio* Acting Mayors. Of the 36 men who have held the office for one year or more, six were elected for other than consecutive terms and 25 were re-elected one or more times. Those born within the present limits of Boston numbered 21; in towns near Boston, 8; in neighboring New England States, 5; in Ireland, 2. The Mayor longest in office was Mayor Curley who served 4 years ending Feb., 1918 and 3 years and 11 months, ending 1925. Next in length of service was Mayor Lincoln, serving 3 years ending 1860 and 4 years ending 1866. The first Mayor Quincy had the distinction of serving through six successive one-year terms ending 1823, and Mayor Fitzgerald also served six years but in two separated terms. Those who served 4 years were Mayors Prince, O'Brien, Matthews, (third) Quincy, Hart and Peters. Mayor Collins was in office nearly 4 years, his death occurring 3½ months before his second term expired. Those serving 3 years were Mayors Otis, Eliot, Chapman (second) Quincy, Bigelow, Shurtleff and Cobb; 2 years, Mayors Wells, Lyman, Brimmer, Seaver, Smith, Rice, Wightman, Gaston, Pierce (22 months) and Hibbard; 1 year, Mayors Phillips, Armstrong, Davis, Norcross, Green, Palmer, Martin and Curtis. The five Acting Mayors were Chairmen (Board of Aldermen) Parker, Leavitt, Allen, Cutter and Whelton.

Mayor Otis was Speaker of Massachusetts House of Representatives, President of Senate, Representative in Congress also Senator before becoming Mayor. Mayor Armstrong was Lieutenant-Governor and at times Acting Governor before serving as Mayor. Mayors Rice and Gaston served 3 years and 1 year (respectively) as Governor after their terms as Mayor. Mayors Collins, Curley, Fitzgerald, Peters, Pierce and Rice have represented Boston in the lower house of Congress, Mayor Peters having also served as Assistant Secretary of the Treasury.

Ex-Mayor Curtis was appointed Police Commissioner in 1919 for term of five years but his service was terminated by his death in 1922. Ex-Mayor Quincy died in 1919, and Ex-Mayor Green in 1918. (See annual City Doc., *Municipal Register*, for full list of Mayors from

1822 to 1925, with place and date of birth, years of service and date of death.)

UNDERGROUND RAPID TRANSIT IN BOSTON.

The Boston Transit Commission, consisting of five members, two appointed by the Governor and three by the Mayor, began its official existence, July 1, 1894, and ended it July 1, 1918, after seven extensions of the original term. It constructed, under the authority of Acts of the Legislature, the following subways and tunnels, the ownership of which is vested in the City of Boston, and all costs to be covered by revenue from same, not by taxation; Tremont Street Subway, from Broadway and Tremont St., South End, to North Station and from Boylston St., near Charles to Park St., 1.68 miles, opened to Park St. September 1, 1897, and to North Station on Sept. 3, 1898, costing with subsequent alterations, \$4,416,000, the first transportation subway in the United States; East Boston Tunnel, from Maverick square, E. Boston, under Boston Harbor and State St. to Scollay square, Boston Proper, 1.42 miles, opened December 30, 1904, costing \$3,336,000, the first all-concrete underwater transportation tunnel in the world; Washington Street Tunnel, from Ash st. opp. Nassau, South End, to Traverse st., near North Station, 1.16 miles, opened November 30, 1908, costing \$8,496,700 (including \$2,850,000 land damages; Cambridge Connection Subway, from under Park st. station of Tremont St. Subway to Grove st., near Cambridge Bridge, 0.47 miles, opened March 23, 1912, costing \$1,465,000; Boylston Street Subway from Commonwealth ave., near Kenmore st., Back Bay, to Tremont St. Subway, near Charles st., 1.5 miles, opened October 3, 1914, costing \$5,485,639; East Boston Tunnel Extension from Scollay square to North Russell st., 0.41 miles, opened March 18, 1916, approximate cost, \$2,523,000; Dorchester Tunnel, from Park st., Boston Proper, to Andrew square, South Boston, 2.26 miles, opened December 3, 1916, as far as South Station; on December 15, 1917, to Broadway, South Boston, and on June 29, 1918, to the Andrew Square terminal. Trains of four or six cars are run in the East Boston Tunnel, the Washington St. Tunnel, continuing on elevated track to Forest Hills, also in Dorchester Tunnel from Andrew sq., So. Boston, connecting with Cambridge Tunnel, to Harvard sq., Cambridge, while only single or double street-cars are run in the other tunnels and subways. Cost of Dorchester tunnel, \$11,016,700 to Jan. 31, 1925; of new Arlington Station extending under Boylston St., between Arlington and Berkeley, \$1,230,676; of East Boston Tunnel Alterations, Maverick sq., \$3,768,857.

Total gross debt on Feb. 1, 1925 for all subways and tunnels, \$42,096,700; against which a sinking fund of \$7,825,262 has been accumulated from the revenue, making the net debt \$34,271,438. The loans are payable mostly in 40 years from date of each (loans since 1911 payable in 45 years), annual interest averaging 3.8 per cent.

These underground ways, about nine miles in all with total of 19.27 miles of single track, were leased to the Boston Elevated Railway Company (which furnished the equipment) for term of 25 years (except Tremont Street 20 years) at annual rental of $4\frac{1}{2}$ to $4\frac{3}{4}$ per cent of net cost (except East Boston Tunnel which was at $\frac{3}{4}$ of one per cent of all annual gross receipts of said company).

In accordance with Chapter 741, Acts of 1911, the various leases were extended to July 1, 1936, the rental to be $4\frac{1}{2}$ per cent of net cost after expiration of the first-term leases.

By Chap. 185, Special Acts of 1918, the powers of the Transit Commission, whose term expired that year, were transferred to the Mayor, Commissioner of Public Works and City Treasurer, or such person or persons, not exceeding three, as the Mayor might appoint. By Chap. 3, Ordinances of 1918, the Transit Dept. was established as a regular City department, to be in charge of three commissioners.

By Chap. 480, Acts of 1923, the extension of the Dorchester Tunnel from Andrew Square about 1,300 feet southerly was ordered, the proposed new railway location then coming to the surface 400 feet southeast of Dorchester Ave., thence continuing to Harrison Square; thence along the Shawmut Branch railroad to its termination at Blue Hill Ave. and River St., Mattapan.

Loans issued in 1924-25 for Dorchester Tunnel extension, \$300,000 and for Dorchester Rapid Transit, \$150,000.

AUTOMOBILE STATISTICS.

Registration of automobiles and licensing of operators in Massachusetts is in charge of the State Dept. of Public Works, Registrar of Motor Vehicles. In the 7 months to August 1, 1925, there were registered in Mass. 675,074 automobiles (584,234 passenger and 90,840 commercial incl. trucks) an increase of 81,325 over 1924 registration for corresponding period. Fees collected in 1925 to Aug. 1, amounted to \$8,213,697 or \$1,060,759 more than in 1924. Motorcycles registered, 8,939 or 308 less than in 1924. Reported (unofficially) owned in Boston alone in 1924, passenger cars, 68,154 and commercial, 16,033 or a total of 84,187. Increase of passenger autos in 1925 about 18 per cent.

In the year ending Nov. 30, 1924 the total Mass. registration was 683,093 or 105,210 more than in 1923; persons licensed to operate, 620,439 or 83,620 more; licenses suspended and revoked, 14,154 or 2,541 more; persons killed, 709; injured, 19,579; total collisions, 24,924, of which 11,542 were of autos against autos, 11,190 of autos against pedestrians; chief causes, overspeeding and inattention; in Boston alone, 128 killed (18 more than in 1923) and 3,737 injured. In 8 months ending Aug. 1, 1925, the fatalities averaged 53 monthly or 6 less than in 1924.

According to U. S. Census Bureau the deaths from automobile accidents in 58 principal cities of United States during calendar year 1924 numbered 5,030 or 122 more than in 1923. This represents a death rate of 19.0 per 100,000 population. Highest death rate in Paterson, N. J., 34.8; lowest in New Bedford, Mass., 9.8. Number of deaths in calendar year from said cause: New York, 1,001; Chicago, 560; Detroit, 303; Los Angeles, 287; Philadelphia, 263; Cleveland, 220; St. Louis, 186; Pittsburgh, 185; Boston, 142.

The automobile industry, begun in 1896 with a production of 25 cars, now ranks third in value of products, textiles and iron and steel manufactures exceeding. In 1924 the production was 3,243,-

285 passenger cars and 374,317 trucks, all valued (wholesale) at \$2,328,066,004. Adding the output of parts, tires and accessories, \$1,500,535,000, the total value is \$3,828,601,004. Total fees paid by owners in U. S. in 1923, 188,970,992, about 90 per cent of same being used for highway improvement.

More than half the American producers are located in five states of the Middle West, viz., Mich., Ohio, Ill., Ind., Wis. Makers of passenger cars, 90; of trucks, etc., 147; number of dealers, 48,138; capital invested, \$1,691,050,112; number of factory employees, 329,563; wages and salaries paid in 1924, \$547,215,700; estimated consumption of gasoline in U. S. in year 1924 was 7,780,625,085 gallons; estimated number of worn-out autos scrapped in 1923 was 1,010,525.

Total exports of automobiles and parts of, from United States in year ending Dec. 31, 1924, amounted in value to \$232,789,638, including 151,386 passenger cars (\$112,537,644) and 27,497 trucks and commercial autos \$19,385,057).

According to the world census of automobiles by Automotive Division, Bureau of Commerce, in 1924 the total was 21,264,752, of which 17,591,981 or 83 per cent were in United States.

NATIVES AND CITIZENS OF BOSTON AND VICINITY HONORED IN HALL OF FAME.

In the American Hall of Fame, New York City, dedicated in 1901, are inscribed, on bronze tablets the names of 56 eminent men and 7 distinguished women deemed worthy of the highest honor on account of their services and attainments. Of the 63 individuals thus selected (up to 1920 inclusive) by an electorate of 100 leading Americans, 27 were natives or for some time citizens of Boston or vicinity. The names of the latter are as follows:

Chosen in 1900—John Adams, Benjamin Franklin, William Ellery Channing, Ralph Waldo Emerson, Daniel Webster, Henry Wadsworth Longfellow, Horace Mann, Nathaniel Hawthorne, George Peabody, Samuel Finley Breese Morse, Joseph Story, Asa Gray, Gilbert Stuart—total, 13.

Chosen in 1905—John Quincy Adams, James Russell Lowell, John Greenleaf Whittier—total, 3.

Chosen in 1910—Edgar Allan Poe, Oliver Wendell Holmes, George Bancroft, John Lothrop Motley, Phillips Brooks—total, 5.

Chosen in 1915—Louis Agassiz, Francis Parkman, Rufus Choate, Charlotte Cushman—total, 4.

Chosen in 1920—William Thomas Green Morton, Alice Freeman Palmer. Five additional names every fifth year are to be selected and inscribed until the year 2000, when the 150 tablets in the colonnade will be complete.

If those who were natives or residents elsewhere in the State are added to the list, the following 7 names increase the total to 34 for Massachusetts or more than half the whole number, viz.: William Cullen Bryant, Jonathan Edwards, Mark Hopkins, Elias Howe, Eli Whitney, Maria Mitchell, Mary Lyon.

If all New England is included, 4 more names will bring up the total to 38 or 60.3 per cent of whole number chosen, these being Roger Williams, Henry Ward Beecher, Harriet Beecher Stowe, Emma Willard.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquees, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts; also information relative to Mt. Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Fire Department Headquarters, 60 Bristol street, for all information relative to the erection of poles, the building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 906, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

POLICE RETIREMENT.

Mayor Nichols on October 27 announced his approval of the retirement on one half pay for age limit of the following from service in the Police Department. These men will be placed on the pension roll and allowed one half of the compensation rate received by them at the time of retirement:

Lieut. Thomas Keane, Lieut. Daniel F. Eagan, Lieut. John F. Dobbyn, Lieut. Henry J. Walkins, Patrolman Hugh E. O'Donnell, Patrolman Winfield S. Wallace, Patrolman Jeffrey J. O'Connell, Patrolman Charles E. Carboo.

MAYOR REPLIES TO FINANCE COMMISSION.

On October 29 the Mayor addressed the following letter to the Finance Commission:

THE FINANCE COMMISSION OF THE CITY OF BOSTON, 11 Beacon Street, Boston, Mass.

DEAR SIRs,—I am in receipt, under even date, of your communication, in which you make reply to me upon three points in my letter to you wherein I informed you that you had proceeded beyond the powers conferred upon you by law.

First. To substantiate your statement that hiring laborers through contractors is illegal, you transmit to me a copy of the letter you sent to the Civil Service Commission and its reply thereto which you say seems to you a complete substantiation of your original statement. Your letter to the Civil Service Commission bears the date of October 27 and the letter of the commission to you bears the date of October 28. This correspondence has, therefore, been set up since my reply to strengthen your position in this matter.

The reply of the Civil Service Commission to you deals only with labor and not with work and materials and, therefore, indicates that your presentation of this case to the commission was not sufficiently complete for them to express an opinion which would be of value in this particular case.

I note that the commission in its letter says that the hiring of workmen through contractors is illegal, but I beg to call your attention to the fact that these contracts are for work and material, and that there is sufficient elasticity in the powers of the Civil Service Commission to permit this work, if in its opinion the city is not attempting to evade the spirit of the civil service law.

Thus the submission of belated correspondence to me is so far from being a substantiation of your charges that it shows utterly that you are in error, as I stated to you.

Second. To substantiate your statement that the work on the dump screen was unsupervised and unchecked you send me portions of the testimony of the two city employees on whom the duty of supervision devolved. It is the first time that you have placed at my disposal any testimony that you have taken at your hearings. Indeed, it is a most difficult matter to obtain from you information which you have collected. You have frequently kept records of value in the commission so long that it has been impossible to make reply to you when your criticisms were published. The testimony that you give me from Mr. Gillespie, the supervisor of this work, is of no value in substantiating your statement inasmuch as he says that he relied upon the approval of the items by Mr. Green, the foreman of the district. MAYOR'S REPLY.

(Continued from page 1753.)

testimony of Mr. Green, as submitted to me by you, would not for one moment be seriously considered in any court. At best, it proves, what I freely conceded to be true in my letter to you, that the district foreman is not an expert book-keeper.

Had you asked him, you would have found that he did keep written memoranda of his work for the purpose of refreshing his memory, and that the memoranda which he kept of the half dozen men employed and of the \$130 worth of trucking and materials were retained and used by him for comparison with the bills, which he subsequently approved.

Under your skillful questioning you obtained answers merely satisfactory to you, and you carefully avoided the obtaining of any information which would indicate the honest desire of an old employee to account for the work in his charge.

All the testimony which you sent to me simply indicates your desire to avoid having the witness say that he kept records; but Mr. Green states that he fully knew what the details meant and that he would be willing to take oath as to the correctness of the itemized bills which contain his signature and are on file at the City Auditor's office.

Now, I ask you, on the strength of the testimony which you have collected and on further testimony which it is possible for you to have if you desire to have it, is it a fair way to misrepresent a faithful city employee of thirty-seven years' standing and against whom no charge of negligence heretofore has been made, especially in a matter that any grammar school boy could easily keep in his head?

Third. You say you cannot agree with the interpretation of the powers of the Finance Commission as I have stated them, and to substantiate your position you rely upon the opinion of the Attorney General given in November, 1917. In this opinion the Attorney General says that he thinks it is inappropriate for you to furnish the District Attorney with a copy of any report made by you under the provisions of the charter unless it seems to you that a crime may have been committed.

I see nothing in this opinion to justify your present course, but I see everything in the opinion to condemn it as improper and high-handed. For the first time in many years you have had access to the opinions of the Law Department. In this matter, however, you did not seek the opinion of the Law Department which you have in other matters accepted as sufficient. Instead, you proceeded unfortunately elsewhere.

Had you sought the opinion of the Corporation Counsel you would have obtained it freely, with my permission. Permit me now to quote from the opinion of the Corporation Counsel rendered to me under date of October 26 prior to the writing of my reply to you, as follows:

"Under the statute creating the Finance Commission, it is specifically required that the commission report all its investigations from time to time to the Mayor, the City Council, the Governor and the General Court. Their report to the Civil Service Commission of what they deem to be an illegal practice was clearly a violation of the powers conferred upon them by statute. It is needless to say that the Finance Commission is really an investigating and not an administrative body."

You say that in the present case the Finance Commission made no formal report to the Civil Service Commission. In refutation of this, permit me to quote from your letter to me where on page 6 you state:

"The Finance Commission has reported to the Civil Service Commission the specific instances already found of this illegal practice of hiring laborers from contractors and that in these specific cases payments would not be approved."

I said that it appeared from your letter that you had not only proceeded beyond your powers, but, furthermore, it appeared that you have made to the Civil Service Commission a recommendation which if abruptly carried out would seriously interfere with work of the utmost importance now under contract. Your letter to the Civil Service Commission in its allusion to the conference between your representatives and the Civil Service Commission and your statement that you are convinced that in specific cases further payments will not be approved are to be taken together as clear evidence that you sought to interfere with the administrative work of the City of Boston.

In conclusion, therefore, I submit to you the following recommendations:

1. That when you call before you any official or employee of the City of Boston you promptly notify the Mayor of your action, and, prior to the drafting of any report, that you submit to me copies of the testimony taken at your hearing.

2. That you refrain in the future from making any report or any recommendation of any kind whatsoever except to the Mayor, the City Council, the Governor, or the General Court, in compliance with law as construed in the opinion of the Attorney General, quoted by you, and the Corporation Counsel of the City of Boston.

3. That no testimony be taken by your commission from officials or employees of the City of Boston without providing for their proper protection by having present in their behalf a representative of the Law Department of the city.

Respectfully yours,

MALCOLM E. NICHOLS, Mayor.

The Finance Commission addressed the following letter to the Mayor:

October 29, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

SIR,—It is the Finance Commission's opinion that only three points in your Honor's letter of October 26, 1926, require answer. One is the question of the legality of hiring workmen through contractors. The second is whether or not the work of the Lockwood Company on the dump screen in Charlestown was unchecked and unsupervised. The third relates to the scope of the powers of the Finance Commission.

To substantiate its statement that hiring laborers through contractors is illegal, the commission annexes hereto a copy of the letter of the Finance Commission to the Civil Service Commission and of its reply thereto, which seem to the commission a complete substantiation of its original statement.

To substantiate its statement that the work on the dump screen was unsupervised and unchecked, the Finance Commission annexes hereto portions of the

testimony of the two city employees on whom this duty of supervision devolved. The whole testimony is at your Honor's disposal. Mr. Gillespie, supervisor of the Sanitary and Street Cleaning Service, testified that he depended upon the approval of Mr. Green, the foreman of the Charlestown district, and on his approval of the bills. Mr. Green, the foreman in charge, in turn relied on Mr. Gillespie. Although it was Mr. Green's duty to check up the time spent on the job, he did not even know it was a time job, but understood it was a contract job for a specified price. In summing up his testimony, he was asked, "Mr. Green, as far as your testimony goes it is this; you were under the impression this job of the Lockwood Company was a lump sum contract and there was nobody placed in charge of it by the city to check up the number of men employed on the job. Is that right?" He answered, "As far as I know." He was further asked, "As a matter of fact you just approved the bill when it came in without any check of it?" and he answered, "Well—yes, mostly."

The commission cannot agree with the interpretation of its powers which your Honor has given. It is true that the statute directs that the Finance Commission shall report directly to the Governor, the General Court, the Mayor and the City Council. It does not, however, forbid the commission to address others. In the present case the Finance Commission made no formal report to the Civil Service Commission, but asked its opinion on the question of the legality of hiring laborers and machinists through contractors, and called the attention of the chairman of the Civil Service Commission to the facts. The Finance Commission holds that where it finds improper conduct on the part of any city official or employee it is not only at liberty, but under the duty, to communicate the facts found to the authority which has the power to punish or remedy the evil. In this matter it relies on the opinion of the Attorney General, given in November, 1917, in relation to a similar matter, namely, the bringing of facts to the attention of the District Attorney. The following is a quotation from that opinion:

"There is nothing in the provisions of section 18 of chapter 486 of the Acts of 1909 which requires or authorizes you to report to the District Attorney the result of investigations conducted by the commission. While there is nothing within its terms prohibiting you from furnishing the District Attorney with a copy of any report made by you under its provisions, I think such action on your part would be inappropriate. On the other hand, if your investigation discloses evidence which seems to show that a crime may have been committed, I think it proper for you, if indeed it is not your duty, to bring to the attention of the official having the duty of the prosecution of such crime the facts disclosed by your investigation, and any evidence in relation thereto in your possession. Obviously, it is not for you to suggest or request any action that the District Attorney should take in relation to the information furnished him. It is for him to determine what action the evidence requires."

Every communication which the Finance Commission has made officially to the Civil Service Commission is well within the provisions of this opinion.

Respectfully submitted,

PUBLIC WORKS DEPARTMENT (Paving Service).

Upon November 3 the Mayor approved a contract with Samuel J. Tomasello for laying artificial stone sidewalks in Rossmore road, Sunset street and Ellington street. The proposal of the lowest bidder, Martino De Matteo, has been rejected for the reason that he has so much work on hand that he will be unable to start this job this year, while Mr. Tomasello is able

to start at once. Bids, opened October 29, were as follows:

Samuel J. Tomasello, \$9,424.45; Martino De Matteo, \$9,409.40; Joseph A. Singarella, \$10,330.75; J. C. Coleman & Sons Company, \$10,910.40.

Upon November 3 the Mayor approved a contract with J. J. McCarthy & Co. for artificial stone sidewalks in Ashmont street, south side, from Carruth street to Adams street. Bids, opened October 22, were as follows:

J. J. McCarthy & Co., \$3,861.25; S. J. Tomasello, \$3,909.45; H. F. Malley, \$3,962.35; Charles Capone, \$4,036.30; J. A. Singarella, \$4,297.60; M. DeMatteo, \$4,573.60.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Upon November 3 the Mayor approved a contract with D. Vozzella for sewerage works in Lubec, Webster, Marginal streets and outlet in Commonwealth Dock, East Boston. Bids, opened October 28, were as follows:

SCHOOLHOUSE DEPARTMENT.

Upon November 1 the Mayor approved a contract with the National Theatre Supply Company for furnishing and installing picture projection equipment in the Memorial High and East Boston High Schools. There was but one bid received, as follows:

East Boston High School, \$1,592.25; Memorial High School, \$1,528.

This bid did not comply with the terms of the advertisement, and was rejected.

The equipment supplied by this concern is satisfactory, and the Board believes that no better price can be obtained by re-advertising. The Board has therefore voted, subject to the approval of the Mayor, to award the contract, without re-advertising, under the provisions of section 30, chapter 486 of the Acts of 1909, to National Theatre Supply Company, 67 Church street, in the total amount of \$3,120.25.

LAND-TAKING IN CITY PROPER.

The Mayor has approved the order of the Board of Street Commissioners for a public improvement consisting of the taking of an easement in land of the Boston & Albany Railroad Company over and above the tracks of said company, for the alteration of the present bridge by which Tremont street passes over the Boston & Albany Railroad at Arlington square, and the taking of a parcel of land of said company for the extension of the northerly abutment of said bridge, for the purpose of widening said Tremont street; substantially as shown on a plan in the office of this Board.

Ordered, That this Board, having passed the order of notice relating to the public improvement hereinafter described, and having caused a copy of said order to be published September 24, 25, 27 and 28, 1926, in the Boston *Globe* and the Boston *Transcript*, two daily newspapers published in the City of Boston, and having given the public hearing, notice of which was given in said order, and being of the opinion that public convenience so requires, does hereby order the making, in said city of the public improvement, shown on a plan, marked "City of Boston, Tremont Street, Boston Proper, September 15, 1924, William J. Sullivan, Chief Engineer, Street Laying-Out Department," deposited in the office of the Street Laying-Out Department of said city, and named, bounded and described as follows:

The highway named Tremont street is hereby widened at Chandler street, and ordered constructed.

For the making of the aforesaid improvement an easement for street purposes to widen the present bridge by which Tremont street passes over the Boston & Albany Railroad at Chandler street is taken over and above the tracks of the said railroad in the following described land of said railroad.

Southeasterly by the northwesterly line of said Tremont street as it existed previous to this order of widening, by two measurements, thirty-one and 30-100 feet and twenty-two and 30-100 feet; southwesterly by Chandler street and by land now or formerly of the Boston & Providence Railroad Corporation, by three measurements, thirteen and 40-100 feet, twenty-three and 50-100 feet and forty-four and 50-100 feet; northwesterly by the northwesterly line of said Tremont street as widened under this order, seventy-three and 20-100 feet; northeasterly by land hereinafter described as taken from the Boston & Albany Railroad, thirty-four and 37-100 feet; northwesterly by the same, 50-100 feet; and northeasterly by the southwesterly line of the present bridge abutment, twenty feet, containing thirty-three hundred and forty square feet, more or less.

For the making of the aforesaid improvement an easement for street purposes to extend the northerly abutment of the present bridge by which Tremont street passes over the Boston & Albany Railroad at Chandler street is taken in the following described land of said railroad.

Southwesterly by other land of said railroad, thirty-five and 23-100 feet; westerly by the same, two feet; northwesterly by the same, four and 60-100 feet; northeasterly by the same, thirty-two and 10-100 feet; and southeasterly by the northwesterly line of the present bridge abutment and by other land of said railroad, six and 50-100 feet, contain-

ing two hundred and two square feet, more or less.

Southeasterly by the northwesterly line of Tremont street, four and 18-100 feet; southwesterly by land hereinbefore described as taken from said railroad, two and 84-100 feet; northwesterly by other land of said railroad, four and 32-100 feet; and northeasterly by the same, two and 75-100 feet, containing eight square feet, more or less.

Said Tremont street as hereby widened is bounded:

Southeasterly by the northwesterly line of said Tremont street as it existed previous to this order of widening, by two measurements, thirty-one and 30-100 and twenty-two and 30-100 feet; southwesterly by Chandler street and by another part of Tremont street, by three measurements, thirteen and 40-100 feet, twenty-three and 50-100 feet and forty-four and 50-100 feet; northwesterly by the northwesterly line of said Tremont street as hereby widened, seventy-three and 20-100 feet; again southwesterly by the southwesterly line of said Tremont street as hereby widened, 86-100 feet; westerly by the westerly line of said Tremont street as hereby widened, two feet; northwesterly by the northwesterly line of said Tremont street as hereby widened, eight and 92-100 feet; northeasterly by the northeasterly line of said Tremont street as hereby widened, two and 75-100 feet; southeasterly by the northwesterly line of said Tremont street as it existed previous to this order of widening, four and 18-100 feet; northeasterly by another part of Tremont street, twenty-nine and 20-100 feet; easterly by the same, six feet; and northeasterly by the same, twenty feet, containing thirty-five hundred and fifty square feet, more or less.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the widening and construction of Tremont street, Boston Proper district, as a highway, at Chandler street, under the order of the Board of even date herewith, and awards no damages therefor.

Items ordered: Set edgestone and lay artificial stone sidewalks in southerly side of Whitford street at Kittredge street for a distance of about 45 feet. Prices to be paid the same as those bid for similar work in the contract. Estimated cost of extra work, \$125.

Piatelli & Andreade have been directed to perform the following extra work under the contract for laying and relaying water pipes in Morris street, Brighton; Fuller street and Milton avenue, Dorchester. Items ordered: Burning out 12-inch pipe joints, removing salvaged 14-inch pipe and hauling inspector's shanty. Estimated cost of extra work, \$30.

CONTRACT CANCELED.

The Mayor has approved the following action taken in cancellation of contract.

Whereas, N. DiBartolomeo Company had a written contract with the City of Boston, made by the Public Works Department with the approval of the Mayor, dated August 3, 1926, for sewerage works in Bowdoin street, city proper; and

Whereas, After said contract was executed and preparations were made by the contractor to do the work, by putting on a shanty, digging test pits, preparing lumber, sheathing, backfilling, repaving, moving stock on and off the job, cleaning up, and other incidental work, for which work and expense he has submitted a bill for payment to the Public Works Department; and

Whereas, It was discovered that there was an uncharted sewer, built by the state, of which the City of Boston had no record, and was unable to determine that said sewer existed; and

Whereas, Said sewer already existing served the purpose and there was no necessity for the new sewer; now

Therefore, It is hereby mutually agreed that upon the payment of the expenses that the contractor was put to, plus 15 per cent profit on labor, namely, four hundred seventy dollars and 71 cents (\$470.71), that said contract be and the same is hereby canceled and that the contractor will release the city from all claims and demands on account of said contract.

OLD MATERIAL SALE.

The Public Works Department has been granted permission to sell, after public advertisement, a quantity of old iron and other unnecessary materials now at the Sewer Service yard on Albany street, which will not exceed \$500 in value.

CIRCULAR LETTERS ISSUED.

MAYOR'S OFFICE,
BOSTON, October 25, 1926.

TO HEADS OF ALL DEPARTMENTS.

GENTLEMEN,—The Salvation Army will inaugurate its annual appeal today at City Hall for funds to aid in continuing its splendid work.

In the spirit of co-operation which I know exists among employees of the city, you are earnestly requested to distribute the inclosed circulars among the employees of your department, and when ready to make report, submit it to Mr. George H. Johnson, Room 25, City Hall.

Very truly yours,

MALCOLM E. NICHOLS, *Mayor*.

MAYOR'S OFFICE,
BOSTON, October 26, 1926.

TO THE HEADS OF ALL DEPARTMENTS.

GENTLEMEN,—Your attention is directed to the necessity of submitting, without delay, requests for transfers of appropriations that may be necessary to close the accounts for the financial year 1926, in sufficient time to submit them to the City Council for their action, in keeping with the principles of the segregated budget.

I am anxious that you continue to exercise all economies consistent with good service to the citizens in order that there may be amounts available in the appropriations under your control.

After making the necessary estimates of liabilities for the balance of the year, department heads should be in a position to forecast probable unexpended balances of their appropriations.

Very truly yours,

MALCOLM E. NICHOLS, *Mayor*.

MAYOR'S OFFICE,
BOSTON, October 28, 1926.

TO THE HEADS OF ALL DEPARTMENTS.

GENTLEMEN,—You are hereby directed to grant leave of absence without loss of pay to all employees of your department who are veterans of the Civil, Spanish or World Wars who participate in the Armistice Day parade on the morning of November 11, 1926.

Very truly yours,

MALCOLM E. NICHOLS, *Mayor*.

FIRE DEPARTMENT ORDERS.

General Order No. 74.

I. CARDS FOR CHECKING DOOR TESTS.

In view of the many inquiries which have been received concerning the cards for checking door tests the following is published for the information of the department:

Tests should be made and cards placed in the following: All street boxes and such other boxes as may be accessible to the public; this includes schoolhouse and other private boxes located on the outside of the building when accessible.

When doors are tested care should be taken to note any defect. Keyless doors should open easily and the bell should operate freely. Doors with glass key guards should have glass renewed at time of test, the tester to carry a supply of glasses with him.

In testing the latest type of door with shutter on face of door the shutter should be pulled down to see if spring is serviceable.

All defects should be immediately reported by telephone to Fire Alarm Office, paper covering same to follow through channels.

II. YOUNG MEN'S CHRISTIAN ASSOCIATION.

One of the members of the department called the attention of the Fire Commissioner to the fact that the Young Men's Christian Association offered to certain classes of employees of the city a reduction in rates, and asked the Fire Commissioner to ask if such privileges would be extended to the members of the Boston Fire Department.

The Fire Commissioner took the matter up with the officers of the Young Men's Christian Association and has been advised as follows:

"I am writing to inform you that at a meeting of the directors of the Huntington Avenue Branch of the Boston Association, held last night, they unanimously voted to grant the request in your letter of September 9 and allow members of the Fire Department of Boston one half rate on physical services from this time on.

"Members of the Fire Department will purchase membership in the association at the regular rate of \$5 per year and will be granted one half rates on physical privileges.

"The action of our Board means that a fireman who is over twenty-six years of age can secure the full gymnasium and natatorium privileges for \$13.50 per year. The rate is given on the folder as \$22, \$5 of which is for membership affiliation and the balance of \$17 covers the physical services. One half of this rate being \$8.50 and added to the \$5 membership fee makes a total of \$13.50."

Folders defining the fees for various services are distributed with this order.

By order of Fire Commissioner E. C. Hultman.

HENRY A. FOX,
Acting Chief of Department.

POLICE DEPARTMENT ORDERS.

General Order No. 978.

The resignation of Patrolman Richard J. Flanagan of Division 14 having been presented, it is hereby accepted, to take effect as of Wednesday, October 27, 1926, at 7.45 o'clock a. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

General Order No. 979.

As the time for the state election approaches, there are certain facts which I desire to call to the attention of the department. As many questions will undoubtedly arise on election day which will have to be answered by the officers who are assigned to the various precincts, I am setting forth in this General Order a few salient facts with which I trust the department will make itself thoroughly acquainted, in order that there may be no confusion and misunderstandings around the polling places on election day.

A voter, while outside the voting place, may be approached and asked to vote

for a particular candidate for office, provided the voter is willing to stop and listen to the person making the request. The police, however, should not allow any one to persist in accosting a voter who apparently does not desire to be so accosted. If the situation should arise that, because of the size of the crowd of persons stopping and soliciting votes, the path of voters to the polls is obstructed and blocked, then the police should disperse the crowd and arrest any one who persists thereafter in accosting voters.

Only precinct officers are allowed to speak to voters within the guard rail in the voting place and then only to answer questions that the voters may put to them.

A voter may be accosted and have particular names on a sample ballot, posted on the outside of the guard rail or on the outside of a polling booth, pointed out to him, provided the voter is willing to have the names so pointed out and does not object to the delay occasioned thereby, and provided, also, that it does not cause the gathering of a crowd which obstructs and blocks the path of the voter to the polls.

No automobiles or other vehicles decorated with banners of a candidate for political office are allowed within one hundred and fifty feet of a polling place, except that automobiles or other vehicles actively engaged in carrying voters to and from the polling places may draw up to the entrance of the polling places and discharge their passengers. After the passengers have been discharged, the vehicles shall then withdraw to a distance of one hundred and fifty feet where they may wait until called to the entrance of the polling places to take away from the polling places voters who have just finished casting their votes and desire to be taken away from said polling places.

No party worker, nor any person actively working for a candidate for political office, shall wear a button, badge or card showing the picture and name of a candidate for political office, in the polling place or within one hundred and fifty feet thereof.

"REPEATERS" AND PERSONS VOTING ON NAMES OF OTHERS WHO ARE CONFINED TO HOSPITALS BY REASON OF SICKNESS.

Officers should be particularly vigilant for "repeaters," so called.

Police officers on duty at the polls, particularly those to whom the "descriptive list" is entrusted, should be alert when persons present themselves for ballots.

The name, age and height of a person, together with other information, are stated on the "descriptive list" to prevent irregularities in voting, and the police by careful reference to this list will perform useful service.

The names of persons confined by reason of illness at hospitals are sent to the commanding officers of divisions, which include the respective wards and precincts within which these persons reside. These names are furnished to the officer on duty at the polling places. Special attention should be paid to these names to see that no improper attempt is made to vote on them.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Greenmount street, Dorchester district, as a highway, from Dorchester avenue to Pleasant street, bounded and described as follows:

A highway named Greenmount street is hereby laid out, from Dorchester avenue to Pleasant street, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Easterly by Dorchester avenue, twenty-one and 62-100 feet; southerly by the southerly line of said Greenmount street as hereby laid out, by two measurements, one hundred eight and 71-100 feet and three hundred twenty-five and 56-100 feet; westerly by Pleasant street, twenty-three and 36-100 feet; and northerly by the northerly line of said Greenmount street as hereby laid out, by two measurements, one hundred fifty-eight and 94-100 feet and two hundred sixty-six and 53-100 feet.

Trees or structures standing upon or affixed to the aforesaid described land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Greenmount street, from Dorchester avenue to Pleasant street, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Greenmount street, Dorchester, Assessment Plan, August 17, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

PROCEEDINGS OF CITY COUNCIL.

Monday, October 25, 1926.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President KEENE in the chair. Absent, Coun. Gilbody.

After calling to order, President KEENE called Coun. FITZGERALD to the chair.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the City Council, the following appointments for the term ending April 30, 1927, were received:

Weighter of Coal: Frances S. Coris, 134-140 Ballou avenue, Dorchester.

Weighter of Goods: Robert M. D'Unger, 92 Egerton road, Arlington; Richard Hurley, 173 Paris street, East Boston.

Severally laid over for a week, under the law.

CLEANING OF STREETS, WARD 9.

The following was received:

City of Boston,

Office of the Mayor, October 20, 1926.

To the City Council.

Gentlemen,—I transmit herewith a communication from the Public Works Department in reply to your order of October 4, in relation to cleaning the main thoroughfares and side streets in Ward 9.

Very respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,

Public Works Department, October 16, 1926.
To the Honorable the Mayor.

I return order of the City Council relative to the cleaning of the streets in Ward 9, and state that the main thoroughfares are cleaned three times per week, and the side streets once a week. Furthermore, many of these streets are cleaned daily and push cart men are located at the prominent intersections and squares and, in addition, rubbish boxes are scattered throughout the ward.

There is no doubt but that this section is pretty well cared for; but if there are any specific complaints in regard to having the streets cleaned, they will be taken care of upon notification.

Yours respectfully,
J. H. SULLIVAN,
Commissioner of Public Works.

Placed on file.

LEASING OF DORCHESTER COURT.

The following was received:

City of Boston,

Office of the Mayor, October 25, 1926.
To the City Council.

Gentlemen,—I transmit herewith a communication from the Public Buildings Department in reply to your order of October 4, 1926, in relation to the advisability of leasing the old Juvenile Court, at the corner of Arcadia and Adams streets, Dorchester, to the Baby Clinic of said district.

Respectfully yours,
MALCOLM E. NICHOLS, Mayor.

City of Boston,

Public Buildings Department,
October 11, 1926.

Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—Replying to the inclosed order of the City Council, that the Superintendent of Public Buildings be requested, through his Honor the Mayor, to consider the possibility of leasing the old Juvenile Court, at the corner of Arcadia and Adams streets, Dorchester, I wish to say that the court has not vacated this building up to the present time and probably will not for a few months. Until such time as they do, there will be no available space in the building.

Respectfully yours,
JOHN P. ENGLERT,
Superintendent of Public Buildings.

Placed on file.

TREATMENT OF INJURED POLICEMEN AND FIREMEN.

The following was received:

City of Boston,

Office of the Mayor, October 25, 1926.
To the City Council.

Gentlemen,—I transmit herewith a communication from the Board of Trustees of the Boston City Hospital in reply to your order of October 4, 1926, in relation to providing a sufficient sum of money to be used for the proper care and treatment of policemen and firemen who are injured or maimed while in the performance of their duty.

Very respectfully,
MALCOLM E. NICHOLS, Mayor.

The Boston City Hospital,
Boston, October 15, 1926.

Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Mr. Mayor,—We have received through your office an order of the City Council, a copy of which is attached. This order was presented at a meeting of the Board of Trustees held today.

The trustees feel that policemen and firemen who are injured or maimed while in the performance of their duty have always been given proper care and treatment at this hospital, and those on the dangerously ill list have been furnished with special nurses and private rooms; so that the trustees would greatly appreciate your Honor's opinion as to what is desired in this order of the City Council.

Yours respectfully,

JOSEPH P. MANNING,
President, Board of Trustees.

Placed on file.

APPROPRIATION FOR EMPLOYMENT BUREAU.

The following was received:

City of Boston,

Office of the Mayor, October 25, 1926.
To the City Council.

Gentlemen,—I am advised by the Director of the Employment Bureau that the appropriation voted by your honorable body in the early part of the year will be practically exhausted on or before the middle of next month. In view of this fact, I deem it advisable at this time to recommend that an additional appropriation of \$3,500 be voted by your honorable body so as to permit the continuance of this Bureau during the winter months. I accordingly submit herewith an order providing for such an appropriation and respectfully recommend its adoption by your honorable body.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

Ordered, That a sum not in excess of \$3,500 be and hereby is appropriated to be expended by the Municipal Employment Bureau, under the direction of the Mayor, in the prosecution of its duties, said sum to be charged to the Reserve Fund.

Referred to the Executive Committee.

OPINION OF CORPORATION COUNSEL IN RE CLOSING OF POLLS.

The following was received:

City of Boston,

Office of the City Clerk, October 25, 1926.

Gentlemen,—I submit herewith for your information and for the records, a copy of an opinion furnished to the Mayor by the Corporation Counsel deciding that the action of the City Council in calling an election and fixing the hours for opening and closing the polls is not subject to the approval or veto of the Mayor.

Respectfully,

JAMES DONOVAN,
City Clerk.

City of Boston,

Law Department, August 13, 1926.

Hon. Malcolm E. Nichols,

Mayor of Boston:

Dear Sir,—You have asked me to advise you whether or not the City Council has the right by law to fix the hours for the opening and closing of the polls on election day and whether if such power resides in the Council, you have the right of approval or veto of such action.

The provisions of law pertaining to the opening and closing of the polls at the State Primary are contained in section 43 of chapter 53 of the General Laws and are as follows:

"The polls at every state primary shall be open during such hours, not less than nine in cities or towns, as may be designated by the aldermen in cities, and in towns by by-law or vote, or, in default of such by-law or vote, by the selectmen."

Section 1 of chapter 50 of the General Laws provides:

"Terms used in chapters fifty to fifty-seven, inclusive, shall be construed as follows, unless a contrary intention clearly appears,—

"Aldermen" or "board of aldermen" shall include the election commissioners of Boston and the election commission of Lowell, as to all matters coming within the scope of their powers and duties, and as to such matters shall not apply to the city council of either city."

If, then, the matter of issuing warrants for the holding of primaries and the fixing of hours for opening and closing the polls for primaries is within the scope of the powers and duties of the Election Commissioners of the City of Boston, as given them by the Legislature, then, clearly, the reference to "aldermen" in section 43 of chapter 53 of the General Laws must be construed as meaning the Election Commissioners of the City of Boston.

By section 4 of chapter 449 of the Acts of 1895 the Board of Election Commissioners are given all the powers and duties conferred by law upon the former Board of Registrars of Voters, and generally to supervise and hold primaries and elections, except the power and duty of giving notice of elections, and fixing the days and hours of holding the same. By virtue of this authority the Election Commissioners of the City of Boston are the ones to fix the hours of opening and closing the polls for primaries instead of the City Council, for in accordance with section 1 of chapter 50 of the General Laws, quoted hereinbefore, the Election Commissioners are to be understood instead of the Board of Aldermen or its successor, the City Council, in all matters contained in chapters 50-57, inclusive, of the General Laws, provided that these matters come within the scope of their powers and duties.

A difficult situation is presented, however, as regards the fixing of the hours for opening and closing the polls at elections, for the power so to do is expressly taken from the Board of Election Commissioners by the provisions of section 4 of chapter 449 of the Acts of 1895. This power has always been in the Board of Aldermen, beginning with 1884, chapter 299, section 2, down to the present section 63 of chapter 54 of the General Laws. The word "aldermen" as contained in section 63 cannot be construed as meaning Election Commissioners,

as stated in section 1 of chapter 50 of the General Laws, because of the fact that the jurisdiction over designating the hours for opening and closing the polls at elections has been expressly placed without the scope of their powers and duties. See section 4 of chapter 449 of the Acts of 1895.

In my opinion, therefore, the City Council, the successor of the Board of Aldermen, has the authority to designate the hours for the opening and closing of polls on election days.

The next question presented is whether the order of the City Council, fixing the hours for opening and closing the polls at elections, must be submitted to your Honor for approval or veto. In my opinion your Honor has no jurisdiction in the premises to either approve or veto the order of the City Council.

Section 63 of chapter 54 of the General Laws is in part as follows:

"Election of state officers and city officers shall be called by the aldermen, and the city clerk shall, under their direction, cause notice of such elections to be printed in one or more newspapers published in such city and to be conspicuously posted in the office of the city clerk; and in Boston, in at least four daily newspapers, published therein. Such notices shall be in lieu of the notices or warrants for election required in any city by special statute."

In my opinion the City Council, when acting under section 63, is not acting as a branch of the city government but is acting as the agent of the Legislature with authority delegated by the Legislature to act for it. It will be observed that by section 63 the City Clerk is required to do certain things under the direction of the City Council and that no mention is made of the Mayor or the City Charter, or the requirement that the action of the City Council shall be subject to the approval of the Mayor. The power given to the Council under section 63 is similar to that power given to the City Council under chapter 630 of the Acts of 1914 to make a division of the territory of Boston into wards. See *Fitzgerald v. Mayor of Boston*, 220 Mass. 503. In that case the Mayor of the City of Boston refused to approve or veto the order of the City Council dividing the city into wards, which was submitted to him for action after its passage by the City Council. Mr. Chief Justice Rugg in that case said:

"The General Court declared in 1914 that there should be a new division of the territory of the City of Boston into wards. It might have made the division itself. That was a legislative matter within its constitutional powers. But it decided to impose that duty upon the members of the City Council of the City of Boston; in substance it constituted them its committee and delegated to them its authority to this end."

The writ of certiorari brought by the petitioner to quash the action of the City Council in making its division of the city into wards was denied. The fact that the Mayor refused to either approve or veto the order of the City Council under this statute was presented to the court and direct reference made to section 4 of chapter 486 of the Acts of 1909 (Amended City Charter), which provides that every appropriation, ordinance, order, resolve and vote of the City Council, except votes relating to its own internal affairs, shall be presented to the Mayor, who shall make or cause to be made a written record of the time and place of presentation, and it shall be in force if he approves the same within fifteen days after it shall have been presented to him, and if the same is not returned by him with his objections thereto in writing within said period of fifteen days. If within said period said appropriation, ordinance, order, resolution or vote is returned by the Mayor to the City Council by filing the same with the City Clerk with his objections thereto, the same shall be void.

In my judgment the City Council when fixing the hours for the opening and closing of polls at elections is speaking for the Legislature as its representative, and is not acting in the capacity of city councilors under the City Charter, and your Honor cannot interfere with the discretion of the City Council. To do otherwise would be placing your Honor in the position where the City Council would be unable to carry out the mandate of the Legislature, as contained in section 63 of chapter 54 of the General Laws, wherein the City Clerk is required to do certain things under the direction of the City Council. If the Legislature intended that your Honor's approval should be necessary, it would have clearly stated so, as has always been the case where the Legislature requires the joint action of the City Council and the Mayor. See, for instance, sections 56 and 58 of chapter 54 of the General Laws, wherein certain powers pertaining to referendum measures to be placed upon the ballot are given to the City Council, subject, however, to the approval of the Mayor.

Very truly yours,

FRANK S. DELAND, Corporation Counsel.

The pay roll of the Registry of Deeds from September 20, 1926, to October 16, 1926, inclusive, for \$12,982.03 was received and approved.

CONFIRMATION OF EXECUTIVE APPOINTMENTS.

Chairman FITZGERALD, under unfinished business, called up Nos. 1 and 2 on the calendar, viz.: Action on appointments submitted by the Mayor, October 18, 1926, viz.:

1. Thomas F. Wombolt, Augustus P. D'Arcy, Arthur J. Sullivan, Arthur Glass, Joseph M. Levi, Jr., Thomas Abruzzo, John S. Grady, Clifford C. Barton, Edward A. Roach, Joseph Stasio, John E. Downing, Charles W. Duran, John A. McMeniman, and Sidney J. Sheinfeld, to be Constables.

2. Charles E. Preble, to be a Weigher of Goods. The question came on confirmation. Committee, Coun. Bush and Englert. Whole number of ballots 19, yeas 19, nays 0, and the appointments were confirmed.

CONSERVATION BUREAU.

Chairman FITZGERALD called up assignment No. 3 on the calendar, viz.:

3. An Ordinance Concerning the Conservation Bureau.

Be it ordained by the City Council of Boston, as follows:

Section 1. The conservation bureau created pursuant to section five, chapter eighteen of the revised ordinances of nineteen hundred and twenty-five is hereby abolished.

Section 2. The health commissioner shall establish in addition to the other divisions of the health department a conservation division for the purpose of conserving life and promoting public health. The scope and character of the work to be done by the conservation division shall be determined by the health commissioner, with the approval of the mayor. Temporary and permanent employees necessary to carry on the work of the conservation division shall be appointed and their compensation fixed in the same manner as other employees of the health department and their compensation and other expenses of the conservation division paid from appropriations available for the purpose in the same manner as other expenses of the health department.

On October 18, 1926, the ordinance was amended by striking out the words inclosed in brackets in the tenth, eleventh and twelfth lines and inserting in place thereof the word's "the study of conditions and problems of cancer and contagious diseases."

The ordinance as amended was passed.

PERAMBULATION OF BOUNDARIES.

Coun. PARKMAN submitted the following:

The special committee appointed to examine the lines and bound marks between the City of Boston and the cities of Revere, Everett, Somerville and Newton, and the towns of Brookline, Dedham and Milton, respectfully report that they have attended to the duty with which they were charged and have examined and verified with the committees appointed by the said cities and towns the several boundaries and bound marks in the existing boundary lines, and submit herewith descriptions of the same for record.

McMAHON offered an order—That the Commissioner of Public Works make a sidewalk along Clayton street, Greenwich to Dickens streets, both sides, Ward 15, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed, under suspension of the rule.

DATA ON STREET WORK.

Coun. WILSON offered the following:

That the Commissioner of Public Works, through his Honor the Mayor, furnish to the City Council in writing:

(1.) A complete list of streets in the City of Boston laid out by the Board of Street Commissioners in 1925, which have been filed with the Public Works Department and completed in 1926.

(2.) A complete list of streets in the City of Boston, laid out by the Board of Street Commissioners in 1926, which have been filed with the Public Works Department and further ordered that the Commissioner of Public Works specify in the case of each street in each of said two lists,

(a.) The name of the street.

(b.) The city ward in which located.

(c.) The estimated cost of the street.

(d.) The date of the order received by the Public Works Department from the Mayor's office laying out the street.

(e.) The progress, if any, as of November 1, 1926, made in sewer work, viz., whether in the case of the particular street a contract for sewer work has been let, and the sewer work all or in part completed.

(f.) The progress, if any, as of November 1, 1926, made in pavement or surface work on the particular street, viz., whether a contract for surfacing work has been let and the pavement or surface work all or in part completed.

(g.) The name of the contractor or firm to whom the sewer contract in each contract has been let and the name of the contractor or firm to whom the pavement or surface work has been let.

Referred to the Executive Committee.

INFORMATION ABOUT STREET CONTRACTS.

Coun. WILSON offered an order—That the Corporation Counsel of the City of Boston advise the City Council with reference to street contracts let out by the Public Works Department, what, if any, valid, legal objection there may be to the inclusion of a penalty provision in such contracts which will insure completion of work by the contractor in each case within reasonable time limits.

Passed under suspension of the rule.

RECESS.

On motion of Coun. HEFFERNAN the Council voted at 2.35 p. m. to take a recess subject to the call of the Chair. The Council reassembled in the Council Chamber and were called to order by Chairman Fitzgerald at 4.45 p. m.

An invitation was received from the Eagle Hill Improvement Association of East Boston to the Council to be present at a public hearing to be held at the new East Boston High School, Friday, October 29, at 7.30 p. m. in regard to the substitution of buses for car service on Lexington street line.

Referred to the Committee on Jitneys.

EXECUTIVE COMMITTEE REPORTS.

Coun. DOWLING, for the Executive Committee, submitted the following reports:

1. Report on communication from Mayor and letter from Police Department (referred October 18) in regard to allowing members of police force to attend political rallies and sign nomination papers—that same be placed on file.

Report accepted; said communication placed on file.

2. Report on preambles and resolution (referred today) that council is opposed to amendment curtailing rights of veterans in service of Commonwealth—that same ought to pass.

The report was accepted, and the question came on the passage of the preambles and the resolution.

Coun. RUBY—Mr. President and members of the Council, speaking upon this resolution, too often are we anxious to forget certain things that have been done or certain sacrifices made by people called upon to do so not only for themselves but for us. I am advocating the passage of this resolution not because I am a veteran. I don't say that with any feeling of pride, because no one can have any feeling of pride in making a statement of that kind. I was also in the service of our country, but not in a way that would make me eligible to join a Legion or Veteran Post. I do believe, however, that those who did not have that privilege and opportunity should always be mindful of the tremendous sacrifices that the boys made for us, for our country. I believe that the Veterans' Preference Act that we have in Massachusetts today does not work as a detriment to cities, towns or state, and does not work as a handicap to any department thereof. The Veterans' Preference Act, as I understand, simply gives to the veteran who successfully passes a civil service examination the opportunity of being preferred before the ordinary citizen who is fortunate enough to pass that same examination.

There is a referendum that will be on the ballot on November 2 worded in such a way that, I believe, the majority of the people who vote on the particular amendment embodied in it may be misdirected so as to vote yes, thereby being of the opinion that they are voting in favor of retaining the original Veterans Preference Act. I just want to take the time to read the amendment as it will appear on the ballot, known as Question No. 2:

"Shall a law which amends existing law by striking out the provisions that veterans who pass civil service examinations shall be placed upon the eligible lists above all other applicants, that disabled veterans shall be placed ahead of all other veterans, and that disabled veterans shall be appointed and employed in preference to all other persons; and by providing in place thereof, that five points shall be added to the mark of veterans who pass such examinations, and ten points to the mark of disabled veterans, which was disapproved in the Senate by a vote of zero in the affirmative and thirty-four in the negative, and in the House of Representatives by a vote of 11 in the affirmative and 181 in the negative, be approved?"

From a casual reading of this most of the voters on Tuesday next would be lead to believe that by voting "Yes" they will be voting to retain the Veterans' Preference Act, whereas in reality, in order to defeat this amendment, the proper vote should be "No." We know that on 90 per cent or more of referendum questions on the ballot the voters vote on the yes end, and that such questions have usually been carried, not because in all instances that represented the wish of the constituent people of the state, but because the "yes" happened to be nearer to the top and the voter who was disinclined to look into the question itself, would be inclined to vote yes and let it go at that. This is a question upon which we have a right to take a stand. We are memorializing nobody. There are some of us who might be opposed to memorializing the Legislature or the Federal Government, but on this particular proposition, in taking a stand in opposition to the amendment, we are simply indicating to the constituents of our particular district that we believe the veteran is entitled to the consideration he is getting today. It has been said to me, "Why should the young boy, who was not eligible to enlist at the time of the war be now forced to pay the penalty that would result to him by the retention of this act?" I say to you, gentlemen, that where the hardship will come on one of the two, I believe it should be on that boy rather than on the veteran of the World War. There should be no detriment to the veteran because of that act. I believe for the next few years, until the veteran has been rehabilitated, the sacrifices he has made cannot be compensated by this simple act of the Legislature. The veterans of Foreign Wars, who are leading the fight in opposition to the amendment, have not the money or the facilities that the proponents of the amendment have, and I believe, therefore, that is no reason why we should not now aid them at this step in their fight. I think it is our duty as public servants to help an organization of this kind where they need our help, when their request is reasonable, and I therefore respectfully ask that this resolution be adopted.

Coun. McGRATH—Mr. President, in explanation of my stand let me say this to the Chair, and through the Chair to the other members of this body. Since the first of this year I have been consistently opposed to the Council stepping outside its prerogatives, whether in dealing with the Mexican or the Irish situation, or with a resolution of this kind. We were elected here to serve as members of the city government. I can well appreciate that later this speech may be used against me in campaigns, but I am speaking sincerely in the matter when I take the position I do, and not against the veterans. Therefore, if that is to be the result, I am prepared to accept it. While I know the resolution will go through, I do wish to voice my objection, from this standpoint. The Massachusetts Legislature, the body that has been instrumental in placing this measure before the voters, has given to the people of this state the right to vote as to whether they want to accept the act or not. In this body we are not concerned as to whether the people are going to be for or against it, and I say that for us to take any such action as is proposed here today is an insult to the intelligent voters of our state and of our city, who have elected us to the offices we here hold. If they showed wisdom when they selected us, we don't need to instruct them how to vote later. If they were wrong in selecting us, our attitude will show whether that was so. But one week from tomorrow this question is to come fairly and squarely before the people on the ballot, to be voted upon by people who know how to read and to think. The person who votes must be a citizen of the United States, must be able to read and write the English language, and each person who votes will read that question and vote according to the dictates of his own intelligence. When we anticipate that action we are only insulting their intelligence. I say to you, sir, that if we are to continue week after week to introduce orders and resolutions of this sort, resolutions and orders that place members here in an embarrassing position, it is not a fair thing to do, and we will simply make ourselves a laughing stock by always instructing the other fellow how to think and to act on questions

coming before him for decision. There is enough criticism always rightfully directed towards us upon matters coming properly within our jurisdiction without our going outside of our duties, and I say that it is enough for us to attend to our own business without interfering with the affairs of the Federal or state government or others. It is about time that we attended, gentlemen, to the duties of the city government itself.

Coun. GUILD—Mr. President, it seems to me the excuse which has been offered this body for passing this resolution is not sufficient to warrant the body in its official capacity in taking cognizance of the matter which the resolution sets forth. I am quite agreeable to the proposition that it behooves each one of us in our personal capacity to have an opinion on that subject which will appear on the ballot on November 2, but I am very far from acceding to the proposition that it behooves this body in its official capacity to take any notice of it whatever. It has been stated to us that the facilities of those interested on one side of the question for putting forth their views upon the matter are less than the facilities of those on the other side of the question. That is equivalent to asking this body to make itself an instrument of propaganda for one side or the other of a question that is before the voters. I cannot see that anybody has a right to ask this body to do that thing. It has been said that this is not memorializing anybody, when as a matter of fact it is memorializing everybody, if we should pass a resolution of this sort. It is memorializing the general public. So when it is said that we are not memorializing anybody that must be taken as meaning that it is not memorializing anybody in particular, but that we are memorializing everybody in general. It is not a part of the duty of this body to instruct voters as to how they should vote or to interpret the ballot to them, and I sincerely hope the members of the body will not overstep the bounds of propriety simply because this is a matter which appeals to individual members as a way in which they may continue to hold the friendship of a large body of veterans.

Coun. DOWLING—Mr. President, I am a veteran of the Spanish War, and I was a candidate for anything the government wanted me to do during the World War. I applied for service in a particular branch of the army forces where my own experience led me to feel that I would be able to render service, and I served without compensation during the war as a draft officer in my own district. And that service was not pleasant, was not easy. I am going to vote for anything that the veterans want, when the question comes before me on the ballot. I am with the veterans and belong to a veteran post, because of my service during the Spanish War. But I do not propose to lend myself to such a silly asinine thing as memorializing the citizens of the city on this question. I don't think that we ought to force ourselves into the question, at all, and I don't think it would be brought up except for political reasons. I think the veterans appreciate that. So, while on election day I am going to vote to give the veterans all they ask for, I am going to vote against this resolution at this time.

Coun. ARNOLD—Mr. President, I move that the resolution be laid upon the table.

Coun. RUBY—Mr. President, I rise for unanimous consent to make a statement.

Coun. DOWLING—I object, Mr. President. Chairman FITZGERALD—Objection being made, the question now comes on the motion to lay on the table.

The motion to lay the resolution on the table was declared carried. Coun. RUBY doubted the vote and asked for the yeas and nays.

The motion to lay on the table was lost, yeas 5, nays 15:

Yeas—Coun. Arnold, Dowling, Guild, McGrath, Wilson—5.

Nays—Coun. Bush, Donovan, Dowd, Englert, Fitzgerald, Freeley, Green, Heffernan, Keene, Lynch, Mahoney, McMahon, Ruby, Ward, Wragg—15.

The preambles and resolutions were declared passed.

Coun. GUILD doubted the vote and asked for the yeas and nays.

The preambles and resolutions were passed, yeas 15, nays 5:

Yeas—Coun. Bush, Donovan, Dowd, Englert, Fitzgerald, Freeley, Green, Heffernan, Keene, Lynch, Mahoney, McMahon, Ruby, Ward, Wragg—15.

Nays—Coun. Arnold, Dowling, Guild, McGrath, Wilson—5.

3. Report on message of Mayor and orders (referred today) authorizing various transfers within departmental appropriations—that same ought to pass.

The report was accepted, and the question came on the passage of the order.

Coun. HEFFERNAN—Mr. President, I assume that my opposition is hopeless, but I personally want to go on record against the \$15,000 transfer in the Sanitary Division which is one of the items making up these present orders. I move that that be removed from the rest of the items and laid on the table. The reason why I make that motion is that, as I understand it, a requisition has already been made on the Civil Service for fifty chauffeurs in the Public Works Department. Deliveries have been made or are to be made in the immediate future of trucks bought for snow removal in the City of Boston. The Public Works Commissioner himself tells us that this is to be used for contractors

helping on city works. I am opposed to contractors helping on city work, where city men are doing the work and where additional men can be procured to help out if necessary. I say that the Mayor can send to the Civil Service and get men and have the work done better and cheaper than by paying political contractors, in that way paying political debts. I think this work should be done by the city itself. I move that that item lie on the table.

Coun. WILSON—Mr. Chairman, I second the motion.

The motion to lay the \$15,000 item on the table was declared lost. Coun. Heffernan doubted the vote and asked for the yeas and nays. The motion to lay the \$15,000 item on the table was lost, yeas 9, nays 10:

Yeas—Coun. Donovan, Dowd, Englert, Fitzgerald, Heffernan, Lynch, Mahoney, McGrath, Wilson—9.

Nays—Coun. Arnold, Bush, Dowling, Freeley, Green, Guild, Keene, McMahon, Ruby, Wragg—10.

The several orders as reported were passed, yeas 17, nays 2:

Yeas—Coun. Arnold, Bush, Donovan, Dowd, Dowling, Englert, Fitzgerald, Freeley, Green, Guild, Keene, Lynch, Mahoney, McGrath, McMahon, Ruby, Wragg—17.

Nays—Coun. Heffernan, Wilson—2.

4. Report on order (referred today) that the Budget Commissioner be requested to submit to the Council a schedule of wages paid to policemen and firemen in the ten largest cities in United States, also schedule of pensions—that same ought to pass.

Report accepted; said order passed.

5. Report on order (referred today) asking the Commissioner of Public Works to furnish a complete list of streets in the City of Boston laid out in 1925 and completed in 1926—that same ought to pass.

Report accepted; said order passed.

6. Report on message from Mayor and order (referred October 18) to accept chapter 157 of Acts of 1926 authorizing the city to incur indebtedness for construction of new Congress Street Bridge—that same ought to pass.

Report accepted; said order passed.

PUBLIC LANDS REPORT.

Coun. McGRATH for the Committee on Public Lands, submitted report on message of Mayor and order for conveyance to Children's Friend Society of certain land on Rutland street (referred October 4, 1926) recommending passage of order in accompanying new draft, viz.:

Whereas, The City of Boston, acting through and by its Board of Street Commissioners, in December 11, 1925, did take for schoolhouse purposes the land hereinafter described; and

Whereas, An award of thirty thousand dollars was made to the Boston Children's Friend Society for any and all damages, costs or compensation in any way growing out of said taking; and

Whereas, Said award was never paid to the Boston Children's Friend Society or any person or persons acting in its behalf; and

Whereas, Said society desires to purchase said property for the minimum amount of thirty thousand dollars to be paid by giving the said City of Boston a release and discharge from any and all claims for damages, costs or compensation resulting from said taking; and

Whereas, The School Committee by orders dated April 5 and April 20, 1926, and the Board of Schoolhouse Commissioners by order dated April 8, 1926, declared that the land hereinafter described was no longer required for school purposes or any other public purposes.

Ordered, That his Honor the Mayor in the name and behalf of the City of Boston be and he hereby is duly authorized to convey by an instrument in writing to the said Boston Children's Friend Society the following described parcels of land with the buildings thereon for the minimum amount of thirty thousand dollars, the same to be paid by a release and discharge in writing from the said Boston Children's Friend Society of all claims for damages, costs or compensation growing out of the taking on December 11, 1925, and upon the receipt from said Boston Children's Friend Society of an agreement in writing for the termination of all litigation now pending between the said Boston Children's Friend Society and the City of Boston, growing out of said taking, by the entry of suitable decrees and judgments terminating said litigation without costs, all of said instruments to be satisfactory in form to the Law Department.

1. A certain parcel of land situated in Boston aforesaid and bounded as follows, to wit: Beginning at a point in the southwesterly side of Rutland street distant two hundred and forty-five feet northwesterly from Suffolk street and from said point running southwesterly, ninety feet and six inches by a line parallel with said Suffolk street to a passageway; thence running northwesterly one hundred and ten feet and six inches by said passageway; thence running northeasterly ninety feet and six inches by a line parallel with said Suffolk street to said Rutland street; thence running southeasterly one hundred and ten feet and six inches by said Rutland street to the point of beginning, containing ten thousand square feet.

2. A certain parcel of land situated in Boston aforesaid and bounded as follows, to wit: Beginning at a point on the southwesterly side of Rutland street distant three hundred and eighty-five feet and six inches northwesterly from Suffolk street, and from said point running northwesterly twenty feet by said Rutland street; thence running southwesterly ninety feet and six inches to a passageway by a line parallel with said Suffolk street; thence running southeasterly twenty feet by said passageway; thence running northeasterly ninety feet and six inches to the point of beginning on said Rutland street by a line parallel with said Suffolk street, and containing one thousand eight hundred and ten square feet of land.

3. A certain parcel of land lying in Boston aforesaid and bounded as follows, to wit: Beginning at a point in the southwesterly side of Rutland street distant three hundred fifty-five feet and six inches northwesterly from Suffolk street and from said point running southwesterly ninety feet and six inches by a line parallel with said Suffolk street to a passageway; thence running northwesterly thirty feet by said passageway; thence running northeasterly ninety feet and six inches by a line parallel with said Suffolk street to said Rutland street; thence running southeasterly by said Rutland street thirty feet to the point of beginning, containing twenty-seven hundred and fifteen square feet of land.

Being the same premises described in said taking as made by the Board of Street Commissioners on December 11, 1925, as set forth by instrument recorded with Suffolk Registry of Deeds, Book 4752, page 525.

The report was accepted, and the question came on the passage of the order in the new draft.

Coun. McGRATH—Mr. President, a week or two ago this order was introduced by the Mayor, and the full Committee on Public Lands held a meeting upon it. It seems that for years there have been two societies in the South End doing settlement work, one for young men and a Children's Friend Society, now gone out of existence. There were certain provisions made when that land was first bought by this society, concessions being made by the City of Boston to the society. Some few years ago the School Committee of Boston, by right of eminent domain, took this land, and that abrogated the special right they had. The present Schoolhouse Commission, whom we called before us, found that they didn't need this land, and therefore it should revert to the society that had formerly owned it, also giving back the rights that were abrogated when it was taken by right of eminent domain. The City of Boston had paid \$30,000 for the fee, for school purposes, and under this order the society will pay back the same amount, \$30,000, and be given back the original land that was obtained from the city before the school action wiped it out. It is just a technicality, as far as that goes.

The order was read once and passed, yeas 18, nays 0.

ORDINANCE REPORTS.

Coun. RUBY, for the Committee on Ordinances, submitted reports as follows:

1. Report on ordinance (referred October 18) in regard to assistant cashier in Treasury Department,—that same ought to pass.

Report accepted; said ordinance passed

2. Report on ordinance (referred May 10) abolishing the Market Department—that same ought not to pass.

Laid on the table, on motion of Coun. GUILD.

3. Report on ordinance (referred May 10) abolishing Registry Department—that same ought not to pass.

Laid on the table, on motion of Coun. GUILD.

OPPOSITION TO PARKING FEES.

On motion of Coun. KEENE, the following was taken from the table:

4. Resolved, That the Boston City Council go on record as opposed to the proposed parking fee to be collected from automobile owners for the privilege of parking their cars in regularly provided parking spaces in the City of Boston.

Coun. KEENE—Mr. President, Coun. Ward introduced that resolution, and I took the matter up with him today. Inasmuch as the proposed plan did not go through it was agreeable to him to remove this from the table and place it on file or indefinitely postpone it. I would move, therefore, that item No. 4 be taken from the table and indefinitely postponed.

The Council voted to take the resolution from the table and indefinitely postpone it.

GENERAL RECONSIDERATION.

On motion of Coun. McGRATH, a general reconsideration of all action taken today was refused.

Adjourned at 5.15, on motion of Coun. KEENE, to meet on Monday, November 8, at 2 p. m.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

The Massachusetts Civil Service Commission announce examinations for desirable positions open in the Boston and Metropolitan districts as follows:

SEALERS, DEPUTY SEALERS OF WEIGHTS AND MEASURES, NOVEMBER 19, 1926.

This examination is for the service of all cities in the state, and such towns as are classified under civil service. The salaries range from \$800 to \$1,600 per year.

The sealer of weights and measures is required to enforce the laws pertaining to weighing and measuring devices and to the giving of false or insufficient weight or measure; to the licensing of hawkers, peddlers and transient vendors; to wholesale milk containers, ice cream cans and molds, cranberry barrels and crates, standard boxes for farm produce, berry baskets and other containers used as measures; to the weights of bread and to the labeling of loaves of other than standard unit weight.

It is also his duty to test all weighing or measuring devices used for buying or selling, for public weighing, or for hire or reward, and to seal or condemn them in accordance with the results of his tests; also to investigate complaints and to prosecute violations of law when the evidence warrants such action. Pamphlets, including the General Laws relating to weights, measures, licenses, etc., and a Sealer's Manual, containing instructions for the inspection, testing and sealing of weighing and measuring devices, may be obtained upon request to the Director of Standards, 194 State House, after application for examination has been filed.

The subjects of examination with their respective weights will be as follows: Training and experience, 4; simple arithmetic, including simple percentage, decimals and the metric system, 2; report, 1; technical questions aimed to test applicants' knowledge of (a) the law governing the inspection of weights and measures; (b) the construction and types of mechanical weighing and measuring apparatus; (c) ability to present cases in court; (d) general knowledge of the duties of the position, 3; total, 10.

Successful applicants will also be required to file a certificate from a reputable physician as to their physical fitness for the position.

Preference granted under the law to disabled veterans is applicable to both examinations.

CLERICAL SERVICE, STATE AND CITIES, NOVEMBER 20, 1926.

This is the regular examination for the clerical service of the state and of all cities and of such towns in the state as are classified under civil service. On November 6 the examination will be held in various centrally located cities. On November 20 the examination will be held in Boston, and all persons who reside within commuting distance will be notified for examination on this day. Certification may be made from the eligible lists established by this examination for office, institutional, or other positions of a similar nature at the discretion of the Commissioner of Civil Service. Special qualifications in bookkeeping, stenography, typewriting, cataloguing, filing, etc., and in foreign languages may be recognized by the commissioner in certifying persons for positions demanding such qualifications. Persons qualifying in the examination may have their names

placed on the state list as well as on the list for the city or town in which they reside.

This examination will be given to fill positions in all grades of the Clerical Service except Grade V (chief clerk, secretary). Positions for office boy at \$600 a year are also filled as a result of this examination. There are usually several positions open for office boys, and young men who are interested are urged to apply. All applicants will be given the same examination, and will be placed on the list in the order of marks received, and will be certified for any and all clerical positions in the order of standing on the list, unless in the opinion of the Commissioner of Civil Service the mark attained is lower than is proper for the particular position to be filled.

Applicants must be not less than sixteen years of age at the time of filing application.

All applicants will be marked on each subject of the examination, and will be given a general average on such marks according to the following schedule: Training and experience, 5 points; spelling, 2; letter writing, 2; arithmetic (multiplication, division and decimals), 1; arithmetic (problems), 1; word knowledge, 1; sentence meaning, 1; grammar, 1; reasoning, 1; total, 15.

Each applicant will be sent an "experience sheet" with proper instructions for stating his education, training and experience.

The passing mark for clerical examinations will be 65 per cent in general average.

The usual entrance salary for clerks ranges from \$720 to \$1,200 per year. For positions paying \$1,200 or more, only clerks who receive a mark of at least 65 per cent in experience will be certified.

Sample questions for clerks available.

REPORT OF TRIAL BOARD.

A communication was received from the Trial Board, under date of Oct. 4, 1926, to whom was referred at the meeting of Sept. 20, 1926, a communication from the Schoolhouse Custodian reporting that he had suspended Neil J. Doherty, custodian, Lucretia Crocker School-house, for violation of paragraph 3 of section 3 of the regulations for custodians and matrons, reporting that a hearing was held on Saturday, Oct. 2, 1926, which was attended by the custodian concerned and the Schoolhouse Custodian.

The Trial Board finds that the charges of the Schoolhouse Custodian are sustained on the statement of the custodian. The custodian claims, however, that he has never taken liquor on school premises and Mr. Mulvey asserts that at no time has Mr. Doherty's condition been such as to affect his work as custodian.

The principal of the district certifies that Mr. Doherty has been willing and capable in the performance of his duties.

Mr. Doherty has given the Trial Board assurance that if leniency may be extended this time, there will be no further cause for complaint.

In view of the circumstances, the Trial Board respectfully reports as follows:

FINDING—That the custodian is guilty of the charges preferred against him in violating paragraph 3 of section 3 of the regulations for custodians and matrons.

RECOMMENDATION—(a) That the custodian be severely censured by the School Committee for the violation of section 3; (b) that he be notified that a second offense will cause the Trial Board to recommend to the School Committee his immediate dismissal; (c) that the Schoolhouse Custodian be requested to transfer the custodian at once to a building in another section of the city; and (d) that he be denied promotion for a period of one year.

The report was accepted and the recommendation adopted.

RE-ELECTIONS TO BOARD OF TRUSTEES, TEACHERS RE- TIREMENT FUND.

The terms of Mr. Gray and Mr. Sullivan, as members of the Board of Trustees of the Teachers Retirement Fund having expired, the Board proceeded to fill the vacancies.

The members, as their names were called, respectively stated that they voted to fill the first vacancy, as follows:

For FRANCIS C. GRAY—Mrs. Barron, Messrs. Bogan, O'Hare and Sullivan—4.

For WILLIAM G. O'HARE—Mr. Gray—1.

PROPOSALS FOR PAINTING FERRY HEAD HOUSES.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for painting interiors of ferry head houses. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of eight hundred (800) dollars, to secure the full performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Painting Head Houses," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Tuesday, November 16, 1926, with a certified check for one hundred (100) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor, previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

WEALTH AND TAXATION.

Total assessed valuation of real estate on April 1, 1924, in the 39 cities and 316 towns of Mass., \$5,249,628,907 (\$283,567,249 more than in 1923) of which 60.85 per cent applied to buildings and 39.15 per cent to land; of personalty, \$1,046,215,516; aggregate valuation, \$6,295,844,423 (5.44 per cent increase over 1923) on which the total tax levy was \$176,859,926, showing an average tax rate of \$27.71 per \$1,000. Boston's valuation (\$1,808,569,298) equal to more than 40 per cent of all other valuations in Mass.

Massachusetts ranks fourth in amount of Federal income tax paid, this total being \$109,857,344 in year ended June 30, 1924. N. Y., Penn. and Ill. rank first, second, and third.

Total taxes assessed by Mass. (exclusive of \$10,000,000 State Tax on municipalities) in year 1924, \$44,068,996, divided thus: Income tax, \$15,211,192; business tax on domestic corporations, \$11,448,89; same on foreign corporations, \$2,528,470; inheritance tax, \$6,484,110; franchise tax on 252 out of 403 public-service companies making returns, \$2,447,692; on insurance premiums, etc., \$2,558,523; on savings bank deposits (incl. Trust Co. Savings Depts.) \$2,194,323; on national banks, \$935,408; all other, \$261,189. Additional 10 per cent assessment of \$3,382,976 under Chap. 487 of 1923, to pay refunds to national banks for excess taxation.

Number of Mass. income tax returns received in 1924, 327,354, of which 213,221 were found taxable. Total taxable income reported for 1923 and assessed in 1924, \$467,320,201, divided thus: Business income, \$268,793,704; interest and dividends, \$167,053,669; gains, \$29,787,328; annuities, \$1,685,500.

Total distribution of income tax to Mass. cities and towns in 1924, \$13,972,422 (\$1,215,238 more than in 1923) of which Boston's share was \$3,554,002; distribution of business, public-service, etc., taxes, \$14,073,870, of which Boston received \$3,110,115. Number of business corporations taxed, 22,104, of which 2,755 were foreign.

Total property in Mass. exempted from taxation in 1924, \$1,138,209,926 (mostly real estate) divided thus: Public property of cities and towns, \$488,136,195; of literary and scientific institutions, \$196,737,667; of United States, \$141,772,499; of churches, \$108,583,064; of charitable and benevolent institutions, etc., \$80,795,278; of State, \$85,371,327; of counties, \$15,940,439; cemeteries, etc., \$12,641,996; all other, \$8,231,411. In Boston, the total exempt property in 1924 was \$355,485,100 or 31.23 per cent of all in Mass.

The total wealth in the United States on Jan. 1, 1923 as ascertained by the Federal Census Bureau, was \$320,803,862,000 or \$2,913 per capita. This is an apparent increase of 72.2 per cent in the 10 years since 1913. The value of real estate, with improvements, amounted to \$155,908,625,000, not including public, ecclesiastical and institutional property exempt from taxation, which amounted to \$20,505,819,000.

The increase in money value of other classes of property is largely due to the price inflation of recent years and should not be represented as a permanent increase in the quantity of wealth.

In Massachusetts the total wealth increased 106.7 per cent or from \$6,279,-

266,000 in 1913 to \$12,980,839,000 in 1923, the latter averaging \$3,243 per capita.

On June 30, 1924 the 8,085 national banks in U. S. had aggregate capital of \$1,334,011,000; deposits, \$18,347,837,000; total resources, \$22,565,919,000.

PORT OF BOSTON.

Boston comprises an area of about 47 square miles, (exclusive of the islands) including all the expanse of tidewater within a straight line from Point Allerton to Point Shirley and extending therefrom to the mainland. It is the best of natural harbors, near open sea, sheltered and spacious for anchorage; main ship channel 35 feet in depth at mean low water, increasing to 40 feet from President Roads to open sea; new dredging operations in charge of U. S. engineers are under way for increasing depth of said main channel to 40 feet; waterfront (i. e., lineal pier space) 40 miles, 6 miles fronting on 30 feet depth at low water.

Commonwealth Pier No. 5, South Boston 1,200 feet long, 400 feet wide, accommodating five 600-foot ships at one time, 40 feet depth at mean low water on both sides, with three 2-story fire-proof buildings of steel and concrete construction, containing 900,000 square feet of floor space, total cost of this enterprise to State, \$4,500,000. Commonwealth Pier No. 6, South Boston, (Fish Pier), buildings on same erected by lessee, Boston Fish Market Corporation, cost to State, \$1,487,361. Commonwealth Pier, No. 1, East Boston, 900 feet long, costing State \$764,600 for site and \$426,674 for construction. New dry dock at South Boston (probably the largest in the world), completed in 1919, 1,200 feet long and 120 wide, costing \$3,169,651 and taken by U. S. Government at total cost.

Islands in Boston Harbor over 3 acres in area, 17, with total area of 965 acres; Long Island the largest, or 215.5 acres. Owned by United States, 392 acres; by City of Boston, 334 acres. Number of wharves, 143, of which 8 are owned by the City.

There are 32 foreign steamship lines with regular sailings to and from Boston and 18 coastwise lines (5 to Pacific ports). In 1915 a revision of the harbor lines was made and the project undertaken whereby 600 acres of flats between Governor's Island and Jeffries Pt. will be filled in and used for extensive commercial developments under State control. About 175 acres of flats have recently been filled in and added to the land area of East Boston and 160 acres to that of South Boston.

In April, 1918, the Government decided to establish its Army Supply Base on a portion of the Commonwealth lands in South Boston. About 57.6 acres were purchased from the State, the price being \$1,317,510, soon followed by the construction of two pier sheds, each 920 feet long, a wharf shed and other buildings, including one of the largest storehouses in the world, built of reinforced concrete, eight stories high, 1,638 feet long, 126 feet wide and with floor space of over 1,650,000 square feet. The total outlay for the plant was \$26,000,000.

Total expenditure by State for improvement of Boston Harbor \$21,968,003, from 1859 to 1924, inclusive; total Federal expenditure from 1790 to June 30, 1924, \$13,148,538.

BOSTON PARK DEPARTMENT.

Number of large parks, 24; separate playgrounds, 50, with total of 354.82 acres, also 13 playgrounds in parks with area of 156 acres; small parks and squares, 69.72 acres; total area, 2,647.68 acres. Cost of Main Park System, i. e., 1,389.40 acres (incl. Common and Public Garden, 72.65 acres) land and construction (since 1877 when begun) \$12,781,042; of Marine Park System, i. e., 457.9 acres (since 1883), \$5,509,388; of all other parks, playgrounds, etc., \$7,647,051. Total cost, \$25,937,481, of which \$10,192,754 is for land and \$15,744,727 for construction.

The leading attraction of the main park system is Franklin Park (named for Benjamin Franklin), acquired in 1883-84, and containing 527 acres, about 80 of which are occupied by the Zoological Gardens, also 15 miles of walks, 8 miles of driveways, etc., the entire cost up to 1925 being \$4,935,920. There are also within the City limits 964 acres of Metropolitan parks and parkways under State control, chief of which is Stony Brook Reservation in West Roxbury and Hyde Park districts, containing 464 acres of wild forested hill and dale with many rocky knolls and an extensive view of the Charles River valley and beyond.

Number of public indoor baths open all the year, 14; indoor gymnasia, 11; summer beach baths, 9.

Park Department maintenance for 1924 (including Cemetery Div., \$163,908) \$1,646,541 or \$9,661 less than in 1923. Outlay for playground improvements, \$374,246; for park improvements, \$429,743, of which \$233,902 was from Parkman Fund income.

Gross debt for parks, public grounds, etc., outstanding Feb. 1, 1925, \$6,190,800; for playgrounds, \$2,653,500; total \$8,844,300 or \$1,902,000 less than in 1924.

Including the State assessments of \$1,020,907 for Metropolitan parks, boulevards, etc., and \$230,083 for Charles River Basin, also the City's outlay for permanent park and playground improvements, or \$803,989, the total expended for public recreation purposes in 1924 was \$3,537,616.

BOSTON EXPORTS AND IMPORTS, 1924.

For Mass. Customs District (Boston and eight minor ports) in calendar year, 1924, the total value of exports was \$57,355,646 or \$5,197,538 more than in 1923; of imports, \$253,851,533 or \$53,436,899 less than in 1923; total foreign trade, \$311,207,179 or \$48,240,061 less than in 1923. Boston's total foreign trade for year 1924 ranked sixth among American ports, New York, Galveston, New Orleans, Seattle and San Francisco exceeding the former in value. As to imports alone, Boston ranked third, Seattle taking second place, and as to exports alone, 18th (the unusual decline in exports due largely to discrimination against Boston in through railroad freight rates). Tonnage of vessels in foreign trade in year 1924, entered 3,927,437; cleared, 2,347,385; number of vessels entered, 1,553; number cleared, 1,046.

For the fiscal year ending June 30, 1925, the total imports at Boston reached \$301,447,000 in value, restoring this port to its accustomed rank of second.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Fire Department Headquarters, 60 Bristol street, for all information relative to the erection of poles, the building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 906, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

DAMAGES ASSESSED.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That in the matter of Adelaide J. Sargent *et al.*, trustees, petitioners for damages occasioned their estate on Kneeland street by the taking of 814 square feet of land for the widening, relocation and construction of Kneeland street, under the order of the Board of Street Commissioners and Mayor, of October 26, 1925, after consultation with the Law Department, and on its advice, the Board assesses the petitioners' damages in the sum of \$29,000 flat; and consents that the Corporation Counsel agree to judgment in said case on the terms herein stated.

ARMISTICE DAY ADDRESS BY MAYOR NICHOLS.

On the evening of November 11, at a dinner tendered the Armistice Day Committee for the City of Boston, Mayor Malcolm E. Nichols delivered the following address:

This day eight years ago the world was thrilled by the magic news that the great war had ended. It passed as abruptly as it came. It brought problems of which the world had little dreamed. Its cost in human suffering and treasure is beyond comprehension, and yet I think that, despite the years of suffering and distress, the world is better.

There can never be a tragedy like that attending war without a compensation, which we may all have if we will but grasp it. It is not the Divine Plan to relieve men of their troubles, but to teach men how they may bravely bear them.

There is one trait of character that I have often noticed among my friends whose privilege it was to serve overseas, and that is, their fine sense of obligation, their high conception of that which is true and honorable. Those are among the qualities which make a great soldier, but they are in no less degree among the qualities which make a fine and upright citizen. The lessons which have come to us in the upbuilding of character are more impressive to me than a recital of the costs of armament.

I do not so much think of it as a war which cost the United States forty billions of dollars and created a national debt of nearly twenty-seven billions of dollars; I think of it as a great tragedy which purified the minds of men, which broadened their sympathies and sharpened their perception of the rights and duties of citizenship.

No man who ever went through a great struggle can fail to recognize the trials and burdens of his fellow man. That is one reason why the friendship existing between comrades is one of the most beautiful and impressive things in the world. Those who have not suffered never can understand the bond of friendship which binds men together when they have suffered together. This is one of the compensations of the war, and it is one of the factors in a powerful public opinion which followed the war. It is a public opinion which exercises a profound reaction upon every-day life. It is the kind of opinion which makes us ready to protect our rights and respect the rights of others.

At the bottom of all peace proposals there must be this principle, or there can never be a peace proposal which has even a reasonable hope of success. This is the test of character in all our affairs.

TO RAZE BUILDINGS.

The Mayor has approved the following communication from the Building Department.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—In re 28-30 Dock square, Ward 3.

In the widening of Dock square, approximately half of the above described building is being taken in the widening. I have been informed that the contract has been let by the city to the City Building Wrecking Company.

Our inspector reports as follows: "As result of tearing down of city's part of building, rest of building is unsafe and dangerous."

I have been informed that the owner refuses to take any action on tearing down the remaining portion of the building, and I respectfully request your permission to take down same in accordance with the provisions of sections 4 and 5, chapter 550, Acts of 1907 as amended.

Respectfully yours,

L. K. ROURKE,
Building Commissioner.

ARMISTICE DAY SPEECH.*(Continued from page 1781.)*

We are, in my opinion, in danger of becoming involved in strife only when we forget either to defend our own rights or respect the rights of others. Since the war mighty America has grown into a mightier America. Not mightier because of her lust for conquest, but because hers is an empire founded upon the enduring principle of mutual respect.

MAYOR NICHOLS' STATEMENT ON ARMISTICE DAY.

Thursday, November 11, marks the eighth anniversary of the signing of the Armistice, when, at eleven o'clock in the morning, the roar of guns was stilled as serried ranks stood fast, and the rivers of blood were stopped as the most destructive war in history dragged its weary close.

At that hour the whole world with eyes and hearts raised to the Almighty offered fervent prayers of profound thanksgiving. So again, in concurrence with the proclamation of the President of the United States, inviting a general participation in the appropriate observance of Armistice Day, I recommend that the people of Boston display the national colors on high, throughout the day and that all join in fitting exercises expressive of our gratitude for peace and our desire for the continuance of friendly relations with all other people.

I also recommend that those at home take from its domestic shrine the precious service flag and again place it proudly in the window, in joyful thanksgiving and tender remembrance. It is further recommended that at eleven o'clock a pause of two minutes be taken in the day's occupations in prayerful gratitude to those who fought the fight and kept the faith.

MALCOLM E. NICHOLS, Mayor.

POLICE DEPARTMENT ORDERS.

General Order No. 981 (Two Copies to All Divisions and Units).

The Department of Civil Service and Registration will hold a competitive examination for promotion to the grade of lieutenant in the Boston Police Department, according to the following notice received at this office on November 3:

This examination will be held on November 26, 1926.

This examination is to be open to the sergeants in the Boston Police Department who have served in that rank, in accordance with civil service rules, at least three years immediately preceding the date of the examination.

The subjects of examination with their respective weights will be as follows: Training and experience, 9; report writing, 3; practical questions on police law, practice and procedure, 8; total, 20.

Application blanks may be secured at the office of the Department of Civil Service and Registration, Division of Civil Service, Rooms 148-152, State House, Boston, Mass.

The vouchers on this blank need not be filled out.

When completed, applications should be returned to the Civil Service office not later than Friday, November 19.

Experience sheets will be mailed to applicants about a week in advance of the examination and they will then be notified of the precise time and place of examination.

Persons concerned will notice particularly that applications when filled out are to be returned to the office of the Civil Service Commission, State House, Boston, not later than Friday, November 19, 1926, a week before the date set for the examination.

Commanding officers will promulgate this order not only by reading it at roll call, but by posting a copy thereof in a conspicuous and accessible place in each Station House, where it may be easily read; and it shall remain posted until after the date of the examination.

Commanding officers will secure a fresh copy from the superintendent if the posted copy becomes mutilated or destroyed.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

General Order No. 982.

A trial board consisting of Captains Goodwin, Dailey and Patterson, having heard by reference a complaint against Patrolman Albert E. Martel of Division 9, charging him with neglect of duty and conduct unbecoming an officer, reported to the commissioner a finding of guilty. In accordance with which, the said Patrolman Albert E. Martel was on October 28, 1926, dismissed from the Police Department.

Due written notice of such dismissal with the reasons therefor was duly and specifically given in hand on October 28, 1926, to the said Albert E. Martel.

On the twenty-ninth day of October, 1926, the said Albert E. Martel requested in writing a public hearing as provided by law, and the Police Commissioner set down Thursday, November 4, 1926, at eleven o'clock a. m., at the office of the Police Commissioner as the time and place of the hearing and duly notified the said Albert E. Martel.

The said Albert E. Martel was present at said time and place with counsel and was heard with his witnesses. Whereupon, after hearing the case, the Police Commissioner finds the said Albert E. Martel guilty as charged and further finds that the said Albert E. Martel shall stand dismissed from the Police Department.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

General Order No. 983.

Rule 55 of the Rules and Regulations for the Government of the Police Department, relating to "Revolver Licenses," is hereby amended by adding after section 1, as set out in General Order No. 782, promulgated October 8, 1925, the following new matter which shall be known as Section 1A:

PERMITS TO PURCHASE, RENT OR LEASE CERTAIN FIREARMS.

SECTION 1A. The Police Commissioner, upon the application of a person qualified to be granted a license by him

to carry a pistol or revolver, may grant to such a person, other than a minor, a permit to purchase, rent or lease a pistol or revolver if it appears that such purchase, rental or lease is for a proper purpose. (Acts of 1926, chapter 395, section 3.)

The Police Commissioner may revoke such permit at will. (Acts of 1926, chapter 395, section 3.)

Such permits shall be issued on forms furnished by the Commissioner of Public Safety, shall be valid for not more than ten days after issue, and a copy of every such permit so issued shall, within one week thereafter, be sent to said Commissioner of Public Safety. (Acts of 1926, chapter 395, section 3.)

Whoever issues a permit in violation of this section shall be punished by imprisonment for not less than six months nor more than two years in a jail or house of correction. (Acts of 1926, chapter 395, section 3.)

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

General Order No. 984.

A trial board consisting of Captains Goodwin, Dailey and Patterson, having heard by reference a complaint against Patrolman John M. TO RAZE BUILDING.

The Mayor has approved the following communication from the Building Department.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—In re 41 Station street, Roxbury.

The above building was damaged by fire and it is in such a condition that in my opinion it is necessary to shore the walls at each story at once.

The owner has been ordered to do this work and up to date has not shown any inclination to comply with our order.

We respectfully request your permission to do the shoring and tie in the walls as per sections 4 and 5, chapter 550, Acts of 1907, as amended.

Respectfully yours,

L. K. ROURKE,
Building Commissioner.

PETITIONS ALLOWED.

The Mayor has approved the following petitions received from the Board of Street Commissioners:

Sam Bornstein, 1395 Columbus avenue, Ward 11, acetylene and oxygen.

First National Welding Company, 17 Lewis street, Ward 1, acetylene and oxygen.

Irwin Motors, Inc., 491 Saratoga street, Ward 1, acetylene and oxygen.

E. N. Wyner, 15 Arlington street, Ward 5, 4,230 gallons of fuel oil.

Gertrude P. Golub, 812 and 814 Huntington avenue, Ward 10, 1,000 gallons of gasolene.

St. Catherine's Church, 49 Vine street, Ward 2, 3,000 gallons of fuel oil.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendation of department heads, has been approved by the Mayor.

FIRE DEPARTMENT.

Upon November 8 the Mayor approved a contract with Frank J. Gallagher & Co. for repairs and renewals to the third floor of the headquarters building, Bristol street. Bids, opened Wednesday, November 3, were as follows:

Frank J. Gallagher & Co., \$4,695; Raymond A. Murray, \$4,790; Dell Construction Company, \$4,800; John Bowen Company, \$5,225; M. S. Kelliher Company, \$5,800; John P. Curley, \$5,826; George Gonia Company, \$6,567.

PARK DEPARTMENT.

Upon November 9 the Mayor approved a contract with the Maplewood Construction Company for concrete walks around Monkey House, Franklin Park. Bids, opened November 4, were as follows:

M. F. Gaddis, \$1,820; Charles Capone, \$1,557.50; Frank J. Gallagher & Co., \$1,536.50; A. G. Tomasello & Son, Inc., \$1,330; Miller Contracting Company, \$1,190; John McCourt Company, \$1,130.50; Samuel J. Tomasello, \$1,120; J. G. Coleman & Sons Company, \$875; Maplewood Construction Company, \$745.50.

The lowest bidder, Maplewood Construction Company, failed to deposit a duplicate proposal with the City Auditor as required by law.

In view of this irregularity, the Board of Park Commissioners voted to reject all bids and to award this contract, without advertising, to the Maplewood Construction Company, 47 Waite street extension, Malden.

SCHOOLHOUSE DEPARTMENT.

Upon November 8 the Mayor approved a contract with P. J. Cantwell for additional framing for No. 10 Scotia street (Mechanics Arts High School Annex). Bids, opened November 1, were as follows:

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do the work with the department forces without advertising; additions to and deductions from contracts.

PARK DEPARTMENT.

Upon November 1 the Mayor approved a contract with the Warren Brothers Company for pavement of Commonwealth avenue, between Washington street and Leamington road. A communication from William P. Long of the Park Department was as follows:

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Your authority is respectfully requested to charge the approximate sum of \$2,800 to the Public Works Department special appropriation, Reconstructing and Repairing Streets by Contract, said charge to be made on the contract with Warren Brothers Company for pavement on Commonwealth avenue, between Washington street and Leamington road, signed August 25, 1926.

The reason for this request is that Washington street, as it crosses Commonwealth avenue, is now under the control and custody of the Public Works Department.

This cross street, where it crosses Commonwealth avenue, had to be resurfaced in order to do a satisfactory job on Commonwealth avenue.

The cost of the entire improvement is now to be charged, with your approval, to the following appropriations and in the following estimated amounts:

Park Department, special appropriation, Reconstructing and Repairing Parks and Roadways by Contract, \$22,764 (estimated).

Public Works Department, special appropriation, Reconstructing and Repairing Streets by Contract, \$2,800 (estimated).

Yours respectfully,

WILLIAM P. LONG,
Chairman.

PUBLIC WORKS DEPARTMENT (Paving Service).

Upon October 29 the Mayor approved a contract with Rich Brothers for the construction of artificial sidewalks. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, October 28, 1926.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks

in the public streets, without advertising, to Rich Brothers, 60 Scollay square, Boston, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

Upon November 3 the Mayor approved a contract with James McCusker, for the construction of artificial sidewalks. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, November 1, 1926.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to James McCusker, 175 Falcon street, East Boston, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

Upon November 8 the Mayor approved a contract with Antonio Pasquand for the construction of artificial stone sidewalks. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, November 5, 1926.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Antonio Pasquand, 37 Rexford street, Mattapan, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

J. H. SULLIVAN,
Commissioner of Public Works.

PUBLIC WORKS DEPARTMENT (Sewer Service.)

Upon November 8 the Mayor approved a contract with John J. Loonie for cleaning catch-basins. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, November 4, 1926.

To the Mayor of Boston.

On March 16, 1926, a contract between the City and John J. Loonie was signed by his Honor the Mayor for cleaning approximately 1,050 catch-basins and the removal therefrom of 3,500 cubic yards of material in the South Boston district. Mr. Loonie completed his contract on October 22, 1926, but due to fall rains there still remains about 150 catch-basins that require cleaning, and as each basin contains about 3.5 cubic yards of material it would mean the removal and disposal of

approximately 525 cubic yards. In the original contract a bid of \$1.80 per cubic yard was paid.

As the money is available, your approval is respectfully requested to the award of a contract to Mr. Loonie, without advertising, at his bid price of \$1.80 per cubic yard or a total of about \$950.

This is considered a fair price, and it is estimated that no saving can be effected by advertising for proposals.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

Upon November 8 the Mayor approved a contract with P. J. Healey for the cleaning of catch-basins. A communication from James H. Sullivan of the Public Works Department was as follows:

Boston, November 4, 1926.

To the Mayor of Boston.

On March 16, 1926, a contract between the city and P. J. Healey was signed by his Honor the Mayor for cleaning approximately 1,000 catch-basins and for the removal therefrom of about 3,500 cubic yards of material in the Charlestown and East Boston districts. Mr. Healey completed his contract, but there still remains about 175 catch-basins that require cleaning, and as each basin contains about 3.5 cubic yards of material, it would mean the removal and disposal of 612 cubic yards. In the original contract a bid of \$1.80 per cubic yard was paid.

As the money is available, your approval is respectfully requested to the award of a contract to Mr. Healey, without advertising, at his bid price of \$1.80 per cubic yard or a total of \$1,100.

This is considered a fair price, and it is estimated that no saving can be effected by advertising for proposals.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

Yours respectfully,

JAMES H. SULLIVAN,
Commissioner of Public Works.

METROPOLITAN AREA AND POPULATION.

Area of Northern Division, 150.8 sq. miles and population in 1920, 699,685, or a density of 4,619 per sq. m.; Southern Division, 214.8 sq. miles and 211,191 population, or density of only 983 per sq. m.; in the whole Metropolitan District, 4,051 per sq. m. In percentages Boston shows 10.5 p. c. of District's area and 45.09 p. c. of population; Northern Division, 36.2 of area and 42.18 of population; Southern Division, 58.3 of area and 12.73 of population. In the period 1915-1920, increase of population 34,798 larger in Northern than in Southern Division.

Total land area of District, 409.3 square miles; population by census of 1920, 1,713,744 (as corrected) or 7.52 per cent increase over that of 1915. Of the total population of the State in 1920 "Greater Boston" had 43.86 per cent.

In 1925, as ordered by the new census law (Chap. 453, Acts of 1924) each municipality of the District undertook its own enumeration, the total population counted being 1,808,845 as of March 31. Boston's proportion of said total was 43.10 per cent. By the more reliable State Census of 1915 that proportion was 46.77 per cent.

FIRE DEPARTMENT ORDERS.

General Order No. 76.

I. INSTRUCTIONS TO TELEGRAPHERS.

1. In order to make more brief the messages between telegraphers at boxes and the operators in the fire alarm office and to define the duties of telegraphers so that same may be clearly understood, the following instructions are hereby issued to be put into effect immediately, superseding Appendix II of the present Rules and Regulations of the department or other any instructions heretofore in force contrary to the following:

1. In these instructions the word "office" shall mean the fire alarm office.

2. On both still and box alarms report at box *without delay*. Give series of taps on the Morse key followed by signature. This must be a preliminary to all messages. (See instructions regarding high pressure zone.)

3. When operator answers call by his signature, proceed thus "at—" tap box number followed by signature, operator will reply by giving his signature. If the operator is not prepared to receive message he will give wait signal. No answer is required.

4. Answer OK and give signature to messages received and clearly understood.

5. If directed to test box, write TST (no pause between letters) and receive GA before pulling hook. When box completes its signal, give signature. Close inside door to box before pulling hook.

6. Write all out signal thus: "all out—", tapping box number and sign.

7. If obliged to wait at box after all out signal is given, give "wait" signal, then, when leaving, reverse the "wait" signal and sign.

8. To notify of other alarms transmitted the operator will write "Box —", tapping box number. Answer by repeating box number and sign.

For boxes received but not transmitted, "recd—."

Upon receipt of first message notify officer in command; but upon receipt of latter message inform office of action which should be taken, that is, whether or not the alarm should be struck.

9. When requesting information regarding alarms write "any" and sign.

10. The telephone code signal when given or received means "use phone" at box or elsewhere.

11. When signal "BK" (break) is received depress key and keep it depressed for about one half minute.

12. Write "RR" (repeat) to messages not clearly understood.

13. If armature of sounder magnet fails to operate properly, write "tap" and then endeavor, by adjusting armature, to restore communication. Failing in this after reasonable effort proceed to the nearest box (or telephone if need be) and report.

14. Never break in on a circuit that is being operated; stop writing if there is any interference, and never answer a call intended for another telegrapher, as indicated by the signature.

15. Accept no verbal message from any person unknown to you until he has fully identified himself by name, rank or grade, etc.

16. In damp or stormy weather take every precaution to protect the inside mechanism of the box from wet or moisture, and if a box be found out of order report the fact at once to the office.

17. After reporting to the office from a succession box, wind the box, and on

return to quarters report such winding to headquarters on the card provided therefor.

18. When one telegrapher replaces another at the box he shall at once report the fact to the office.

19. As soon as possible after reporting at a box tell the operator whether the fire is a "working" fire or small fire, whether in dwelling, store, automobile, etc., and the approximate location.

20. Make messages brief, otherwise an alarm from a succession box on the same circuit might not be received. For matters requiring considerable detail use the telephone.

21. Make sure that both doors to box are locked before leaving. If the lock is defective push door in flush and report defect to office at once.

22. After the all out signal has been ordered struck, restore or "set" auxiliary if the auxiliary system has not been damaged by fire or otherwise. Report to the office whether or not auxiliary was set.

By order of Fire Commissioner Eugene C. Hultman.

DANIEL F. SENNOTT,
Chief of Department.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Hazleton street, bounded:

Southeasterly by easement taken by the City of Boston for sewerage purposes September 17, 1915, six feet; southwesterly by another part of Hazleton street, sixty feet; northwesterly by the same, sixty feet; and northeasterly by the same, sixty-five feet, containing three hundred and ninety square feet, more or less.

The sewerage works to be constructed are as follows: 60 linear feet of 8-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Hazleton street, leading northwesterly from easement taken in said street for sewerage works September 17, 1915, for a distance of approximately sixty-five feet.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to

the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's in-

tention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Manchester street, bounded:

Northeasterly by easement taken by the City of Boston for sewerage purposes May 27, 1917, six feet; southeasterly by another part of Manchester street, sixty-five feet; southwesterly by the same, six feet; and northwesterly by the same, sixty-five feet; containing three hundred and ninety square feet, more or less.

The sewerage works to be constructed are as follows: 60 linear feet of 10-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Manchester street, between Standard street and easement taken in said Manchester street, May 22, 1917.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lot of abutting land on the southerly side of Manchester street, situated about fifty feet east of Standard street, now or formerly owned by Rachel S. Doherty, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter mentioned; said lot and the supposed owner thereof being shown on a plan marked "City of Boston, Plan No. 718, Sewerage Works, Manchester Street, Dorchester, October 14, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

PROCEEDINGS OF SCHOOL COMMITTEE.

Oct. 18, 1926.

A regular meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 6.53 o'clock P. M., the Chairman presiding.

Present: Mrs. Barron, Messrs. Bogan, Gray, O'Hare and Sullivan.

AMENDMENT AND APPROVAL OF MINUTES.

On motion, the minutes of previous meetings were amended as follows:

June 28, 1926, on page 167, to provide that the three orders authorize "course of study" instead of syllabus, for Grade IV, revised syllabus for Grade V, and revised syllabus for Grade VI, shall in each case read "course of study" instead of syllabus.

Oct. 4, 1926, on page 219, to provide that the appointments from the eligible list of Edward F. Fogarty, Walter J. Kelliher and Walter J. Shea as junior masters, Dorchester High School for Boys, to take effect Oct. 11, 1926, shall read "Sept. 1, 1926."

The reading of the minutes of the two previous meetings was omitted, the Board approving them as printed, as amended.

USE OF SCHOOL YARDS FOR PLAY PURPOSES.

The following communication was received:

City of Boston
Office of the City Clerk
City Hall

October 5, 1926.

To the School Committee:

Gentlemen:—
I transmit herewith an order passed by the City Council at its meeting on October 4, 1926.

Yours respectfully,

W. J. Doyle,
Asst. City Clerk.

Accompanying the communication was the following preamble and order:

City of Boston
In City Council

WHEREAS, the increasing number of auto accidents involving children, especially on Saturdays, is reaching alarming proportions, and

WHEREAS, the establishing of new community playgrounds would serve to decrease the number of such accidents by keeping children off the streets during play hours, be it therefore

ORDERED: That the School Committee of the City of Boston be requested to consider the advisability of keeping open, for play purposes, the yards of all available schoolhouses in Boston, after school hours until sun-down, and all day on Saturday.

In City Council October 4, 1926.

Passed.

Attest:

W. J. Doyle,
Asst. City Clerk.

Referred to the Superintendent for consideration and early report.

PUBLIC SCHOOL MEMBERSHIP, SEPT. 30, 1926.

A communication was received from the Superintendent, under date of Oct. 18, 1926, submitting a statement of the number of pupils belonging to the Boston public day schools, exclusive of the Continuation School, on September 30, 1926, together with a comparative statement of the number belonging on September 30, 1925, as follows:

The total number belonging in the Boston public day schools on September 30, 1926, was 128,472, which is 1,241 more pupils than were enrolled in the schools on September 30, 1925. The Teachers College of the City of Boston shows an increase of 54 pupils; high and Latin, an increase of 18 pupils; in the ninth grade intermediate schools, there is an increase of 504 pupils, in grades one to eight there is an increase of 478 pupils; in the kindergartens there is an increase of 107 pupils; and in the special schools an increase of 80 pupils. Were the figures for the ninth grade intermediate schools included in the membership of the day high schools, the high schools would show an increase of 522 pupils.

In the Continuation School the membership on September 30, 1926, was 333 more than on September 30, 1925. On September 30, 1926, it was 3,598 as against 3,265 on September 30, 1925.

In the Training School for Teachers of Mechanic Arts there was a

membership of 18 pupils on September 30, 1926, which was the same as on September 30, 1925.

A distribution of the increases in membership for 1925 and 1926 is shown by the following table:

NAMING OF NEW SCHOOL

Mrs. Barron offered the following:

ORDERED, That the eight-room school on Corey Road in the Bennett District is hereby named the Harriet A. Baldwin School in memory of Harriet A. Baldwin, wife of the late Judge Henry Baldwin of the Municipal Court of Brighton. Harriet A. Baldwin was the second President of the Brighthelmstone Club (from 1898 to 1901), and it was during her term of office, and largely through her leadership, that the first vacation schools in Boston were established and maintained. She worked for the improvement of the public schools and was instrumental, as President of the Brighthelmstone Club, in obtaining better school accommodations for the Brighton district. Mrs. Baldwin was actively interested in all that affected the community and stands out as the pioneer among Brighton women who worked for the development of education and for public welfare measures.

Passed under a suspension of the rules.

UNFINISHED BUSINESS

The four orders laid over at the meeting of Oct. 4, 1926, making changes in and additions to the Authorized List of Text Books, were taken up and passed unanimously.

The Board adjourned.

Attest:

ELLEN M. CRONIN,
Secretary

Oct. 25, 1926.

Placed on file and the transfer of Albert L. O'Brien approved, to take effect on the date stated.

APPOINTMENT OF SANITARY INSPECTOR.

The Chairman stated that the next order of business was the communication from the Finance Commission to His Honor the Mayor, under date

of Oct. 15, 1926, with reference to the creation of the position of Sanitary Inspector, and the appointment to this position by transfer from the Health Department of John M. Sullivan.

In connection with the said communication, the members of the Committee made the following statements:

Mr. O'Hare: May I state my reactions as to the charges made against the School Committee concerning the selection of John M. Sullivan as Sanitary Inspector.

1. The legality of the appointment. I am not a lawyer and therefore in matters of legality I must proceed from a layman's viewpoint.

The School Committee, acting in good faith under its regulations (Chapter XII., Section 241) and under Chapter 71, Section 54 of the General Laws of the Commonwealth, applied for the transfer of John M. Sullivan.

This transfer was assented to both by the Health Commissioner and the Mayor of the City of Boston, the Massachusetts Civil Service Commission, our check on legality of transfers, and a majority of the School Committee.

Surely I went as far as a layman could go to see to it that legal procedure was followed.

2. The necessity of the appointment. The Director of School Hygiene outlined the need of Sanitary Inspector in his department, because the public school buildings were the only buildings not subject to inspection by a duly qualified sanitary inspector.

If other buildings need inspection, surely buildings housing our children for five hours a day must be inspected most carefully as to their sanitary condition.

The custodians of schools are skilled in the mechanics of heating, ventilating, and cleaning of the schools from a physical point of view. They are not qualified as health inspectors.

The school physicians are but part-time employees and cannot give their time to properly investigate insanitary conditions which might cause disease.

Because of these facts—(a) the fact that all buildings, both public and private, were and are inspected with the sole exception of public school buildings, and (b) because of the fact that schools cannot be cared for from a health standpoint either by custodians or school physicians, I felt the absolute need of creating the position of Sanitary Inspector.

Furthermore, I believe that the position should be under the control of the School Committee rather than under the control of the Schoolhouse Commission, because to me it is solely a health question and not a mechanical inspection question.

3. The nepotism aspect of the question. I am indebted in no way to John M. Sullivan, appointed to the position of Sanitary Inspector or to his brother, Edward M. Sullivan, my School Committee colleague.

In the matter of John M. Sullivan's transfer I acted solely on the basis of his exceptional ability as outlined to me. I have acted on other transfers to the School Committee with the same good faith, ever hoping to better our school service.

Surely no one can believe that both the Health Commissioner and

the Mayor of the City of Boston, with the aid of the Massachusetts Civil Service Commission, would aid a majority of the School Committee in placing a man in the public school system as a Sanitary Inspector solely because of his relationship to one member of a Committee of five members.

Mr. Gray: I am on record as opposed to the creation of the position, under the School Committee, of Sanitary Inspector, as appears by the minutes of the meeting held June 21, 1926. The Committee, however, voted to create the position and this being so it became necessary to fill it.

The Director of the Department involved recommended the appointment of the present incumbent and in the discussion thereon I stated, among other things, that I would have no objection to Mr. Sullivan's appointment provided he was at the top of the Civil Service list. I was informed that Mr. Sullivan had received the appointment as Sanitary Inspector in the Boston Health Department as a result of having led a field of 90 in the Civil Service examination for that position and that the increase in salary under the new position would be negligible. That being so it appeared to me that if the Civil Service Commission deemed—as it did—that it was proper to approve the transfer without a new examination, there was no occasion for further objection.

Mrs. Barron: I voted for the creation of the position of Sanitary Inspector because I believed that it was absolutely necessary for the preservation of the health of the pupils in our schools.

Although I had been a member of the School Committee for the short period of six months, after visiting schools, I felt that deficiencies existing in our schools pertaining to sanitation needed correction and that the appointment of a sanitary expert under our Director of School Hygiene would be a progressive step in the right direction.

The creation of the position was given the fullest consideration. It had the recommendation not only of the Director of School Hygiene, but it had the approval of the Business Manager, and the Board of Apportionment, which is made up of the Superintendent and six Assistant Superintendents, all of whom are recognized as experts.

The creation of this position also has the hearty endorsement of the Advisory Council to the Director of School Hygiene, which Council believes that you cannot divorce sanitation from health.

When men like Timothy Leary, Medical Examiner, Suffolk County and Professor of Pathology, Tufts Medical School; John B. Hawes, 2nd, President, Boston Tuberculosis Association; Edwin H. Place, Clinical Professor of Pediatrics, Harvard Medical School; John A. Foley, Assistant Professor, Boston University School of Medicine; Clair E. Turner, Professor of Public Health, Massachusetts Institute of Technology; Milton J. Rosneau, Professor of Preventive Medicine and Hygiene, Harvard University; James S. Stone, President, Massachusetts Medical Society; Henry M. Pollock, Superintendent, Massachusetts Homeopathic Hospital, endorse and recommend the creation of such a position for the preservation of the health of the pupil, we certainly are justified in our position.

If we hold our Director of School Hygiene responsible for the sanitation

tion of our schools as we do, we must give that Director the means with which to carry out his work.

In voting for the creation of the position, I believe that the School Committee acted legally. For legality as to our act, I refer to Section 241, paragraph 1 of the Rules and Regulations of the Boston Public Schools:

"The director of school hygiene shall have general supervision and control of all matters affecting..... ventilation and sanitation....."

Also to Chapter 318 of the Acts of 1906, as amended by Chapter 140 of the Acts of 1926:

"The committee may also elect and remove such other subordinate officers not specifically provided for by law, as they may deem expedient."

And to the General Laws, Chapter 71, Section 54:

"Every school physician shall make a prompt examination and diagnosis of all children referred to him as hereinafter provided, and such further examination of teachers, janitors and school buildings as, in his opinion, the protection of the health of the pupils may require..."

Of course, we all bow to the final tribunal as to the legality of the position—the Supreme Court of Massachusetts.

We need a sanitary expert for the purpose of fixing responsibility.

I believe that it is a most unfair and unfounded accusation to say that the School Committee of Boston, the members of which are of unquestioned integrity and honor, have committed an act of nepotism.

Believing as I do that the creation of the position was absolutely necessary for the preservation of the health of our pupils, the appointment was made as all appointments are made, through the regular channels, through the regular procedure, with the approval of the Division of Civil Service, the approval of the Health Department, the approval of the Mayor, and the appointment went to a man who had been at the head of a civil service list of ninety. That man happened to be John Sullivan, brother of Edward Sullivan, a member of the School Committee. Are we to penalize persons who happen to be relatives of members of the School Committee, even if they are appointed through proper channels? Are we to scrap our civil service system, because the head of a civil service list happens to be a relative of a member of the School Committee?

I still maintain and believe today, Mr. Chairman and gentlemen, as I believed then, that the position was an absolutely necessary one, that it was not an act of nepotism, and I believe that, according to the statutes and our rules and regulations, we were justified in making the appointment and that it was legal.

Dr. Bogan: I believe that the School Committee acted legally in appointing a Sanitary Inspector. In a school system the necessity for such a position is apparent. The question with me from the beginning was where the sanitary inspector could function to the best advantage to the schools.

It seemed that the Schoolhouse Commission was the place so that prompt attention could be given to sanitary conditions in the public schools caused by worn out or defective equipment.

I believed at the same time that the Schoolhouse Custodian should

handle insanitary conditions caused through neglect of individual custodians.

These remarks set forth my position in the matter of the employment of a Sanitary Inspector, now and when the matter was first under consideration.

The majority of the members of the School Committee thought differently and believed that the position belonged under the School Committee rather than the Schoolhouse Commission.

On request of Mr. Sullivan, the Secretary read the following communication from the Finance Commission in response to invitation from this Committee to attend this evening's meeting:

The Finance Commission
of
The City of Boston
11 Beacon Street
Boston, Mass.

October 25, 1926.

To the Honorable, the School Committee:

The Finance Commission is in receipt of a letter dated October 23, 1926, signed by your secretary, of which the following is a copy:

"October 23, 1926.

"Mr. Charles L. Carr, Chairman, Finance Commission, 11 Beacon Street, Boston, Mass.

Dear Sir:—I am directed by the Chairman to inform you that there will be a special meeting of the School Committee in this building on Monday afternoon, October 25, at six o'clock P. M., at which meeting the Committee will discuss the report of the Finance Commission to His Honor, the Mayor, under date of October 15, with reference to the creation of the position of Sanitary Inspector and the appointment by transfer from the Health Department to this position of John M. Sullivan.

"The members of the School Committee will be pleased to have the Finance Commission present at the meeting. Yours very truly, (signed) Ellen M. Cronin, Secretary."

The Commission appreciates the courtesy of this invitation, but it does not see how it can add anything to what it has already said in its report of October 15 which may be helpful to the School Committee in its deliberations with regard to the office of Sanitary Inspector.

It begs, however, to call again to the attention of the School Committee this insurmountable fact that the office of Sanitary Inspector is illegal, the Commission having been advised to this effect by the City of Boston Law Department.

Very truly yours,

Charles L. Carr,
Chairman.

Mr. Sullivan: Mr. Chairman, I am going to first take up an aspect of the situation presented in your statement. You said there was some doubt in your mind as to the proper place for this official, Sanitary Inspector, and I think, if I am quoting you correctly, you leaned to the opinion that he might function more efficiently, more effectively, in the personnel of the Schoolhouse Commission. I want to answer that, first, as it appears to me. I think one of the best arguments showing the reason why the object to be attained can best be served by the creation and filling of the position under the School Committee is that the School Committee is charged with the conservation of the health of the children and in carrying that duty out,

of course, a due regard for the problems of sanitation forms a vital part. The School Committee now has in its own employ a person qualified in sanitary science, to discover and report to us things that need attention, and to recommend a remedy, thereby serving to strengthen and assist the School Committee in the consideration and determination of problems affecting this important phase. His presence in the School Committee employ serves as a very necessary check on the work of the Schoolhouse Commission.

I was not exactly prepared to state at this time or at this meeting that, in my opinion, perhaps the inspiration for all this affair, these allegations, is the order that I introduced, perhaps not so innocently, but it appears now effectively, to abolish the Schoolhouse Commission. I understand that the chairman of the Schoolhouse Commission only today called up, or at least was in communication with a member of this committee and told the member that he already has in his employ in the Schoolhouse Commission seven sanitary inspectors. I know that he has not, and he knows that he has not. I have here the payroll book of the City of Boston, and there is no mention anywhere in the personnel of the Schoolhouse Commission of a sanitary inspector. He has several inspectors, but they are merely inspectors of repair, such as plumbing, and so forth. He has no sanitary inspector in his department, and if Mr. Slattery has suddenly discovered the presence of one I know that I, for one, as a member of this committee, will be very grateful to him if he will enlighten us at his earliest convenience. There isn't any sanitary inspector in the Schoolhouse Commission. There wasn't anybody in the employ of the City of Boston, in the employ of any of these varied departments, who had the right and the qualifications to go into our school buildings and inspect them from a sanitary viewpoint. The law specifically excludes Boston from the communities in the Commonwealth whose schools shall be visited and inspected by public health or sanitary inspectors, and the Legislature did that and did it wisely, because it knew its law. It knew that it had placed solely and exclusively in the hands of the School Committee the power, jurisdiction, obligation and right to inquire into, determine and recommend immediate correction of all insanitary conditions existent in our public schools. Therefore, with that in mind, with that intent, the Legislature specifically excluded Boston from the mandatory section which compelled sanitary examination of all public schools in the Commonwealth.

Permit me to quote from the communication of the Finance Commission dated October 15, 1926 to His Honor, the Mayor of Boston, concerning the appointment of a Sanitary Inspector in the Department of School Hygiene. The first paragraph of said communication:

"On June 21st, 1926, the School Committee created the office of Sanitary Inspector under its Director of School Hygiene, and on September 20, 1926, approved the appointment by transfer from the Health Department to this position of John M. Sullivan, brother of a member of the School Committee."

The above is the only correct statement of fact in the said communication. The communication continues:

"The Finance Commission finds that this office was illegally created, that it was unnecessary, and that the choice of the incumbent was an act of nepotism."

Let me say concerning the alleged illegality that the only tribunal which may with finality adjudicate legality is the Court. This dictum of the Finance Commission is merely guess, and no more deserving of credence and faith than a mere side walk opinion. The office was created by the School Committee, the appointment of John M. Sullivan was effected legally by the School Committee, and his transfer from the Public Health Department, where he was employed as a Sanitary Inspector, to the employ of the School Committee, was approved by the Mayor and Civil Service Commission.

It is not my purpose here to discuss the legality because such discussion, in my opinion, is irrelevant, since legality comes within the exclusive province of the Court for which I have the highest regard and in which I have abiding faith, other than to refer to the public statutes, the rules and regulations of the School Committee, and to the rules of the Massachusetts Civil Service Commission.

The Finance Commission alleges that the office of Sanitary Inspector is unnecessary. This allegation involves simply and solely a question of fact. Is the position necessary or unnecessary?

Educators and public health authorities unanimously agree that sanitation is of paramount importance in the conservation and development of the health of the school children. By statute law, all public and private buildings are subject to sanitary inspection with the exception of the Boston public schools, so that until September 1, 1926, when the Sanitary Inspector in the Department of School Hygiene began his work, there was no sanitary inspection of our public schools.

Who may best determine the necessity of this position? Whom may we look to as authority on this public health question? Certainly no one is more entitled to a hearing in this respect than our leading public health and medical authority.

Dr. John A. Ceconi, Director of School Hygiene, whose excellent public health work needs no introduction, in a communication to the Boston School Committee under date of October 18, 1926, says the following:

"My attention was directed this morning to the communication sent to His Honor, the Mayor, by the Finance Commission in reference to the appointment of a Sanitary Inspector in the Department of School Hygiene of the Boston Public Schools.

"Inasmuch as this statement involved directly the Department of which I am the Director, I beg leave to offer to you a statement of the facts at issue.

"I took office as Director of the Department on May 11, 1925. Section 241, Chapter XII., paragraph 1 of the Rules and Regulations of the Boston Public Schools, provides that 'the Director of Medical Inspection (now School Hygiene) shall have general supervision and control of all matters affecting the physical welfare of pupils, teachers, and members of the supervising staff; of the observance of the regulations of the

Board with respect to room temperature, humidity, ventilation, and SANITATION."

"There were then, in May, 1925, on file in the office numerous complaints in writing from school physicians and principals in regard to insanitary conditions many of which had existed for years without correction, and the number of these reports so increased in the next succeeding three school months, that the Director felt constrained to bring this matter to the attention of the Board of Superintendents and the School Committee. This was done December 7th, 1925.

"This communication to the Board of Superintendents contained some recommendations concerning which Assistant Superintendent William B. Snow reported to the full Board in a letter which has been only partly quoted by the Finance Commission, and the remainder of which is now offered.

"The need of a competent sanitary expert does, however, appear when we try to determine the best way to correct wrong conditions. Efficient procedure here requires a person who can accurately locate the source of the trouble and tell how to correct it in the quickest and most economical manner. In difficult cases, the layman in sanitation, whether teacher or school physician, cannot be expected to possess the necessary professional knowledge.

"More difficult in most cases than either the perception of the trouble or the prescription of the proper remedy, is the power to get things done."

I just want to break in for a moment and talk to that, because that is apparently what was in the Chairman's mind when he read his statement. Not only will the Sanitary Inspector serve as a check on the activity or inactivity of the Schoolhouse Commission, but he will function, in that the Schoolhouse Commission will function to meet his recommendations as they have done since he has been in office. I don't think there is any more logic to the theory, "What can a sanitary inspector in the employ of the School Committee do to hasten or to effect repairs by the Schoolhouse Commission?" than there is to the query, "How can the School Committee insist upon and effect the building of school buildings if the Schoolhouse Commission does not care to build?" If they refuse to build, we cannot do a thing. If they refuse to give us our school buildings on time, we can simply sit back and wait with a hoping smile.

"A wide-awake principal or school custodian should be able to get a thermometer within a reasonable time from the supply department. When, however, it comes to repairing heating and ventilating apparatus, putting in new drainage, correcting plumbing defects, moving, remodeling, or replacing objectionable machinery, the only help is in some power that can move the Schoolhouse Department to prompt and efficient action."

I would like to know wherein that power lies or where it is, so that we can get hold of it or borrow some of it.

"In theory we must be in full sympathy with the desire of the Director of School Hygiene for an expert in his department who shall be trained professionally to recognize and remedy every kind of insanitary condition, and we must agree that the removal of such conditions is second in importance to no feature of school administration; in

practice, the actual value of such an official will depend in part on his ability to discover and define measures of relief that would elude the teacher or the ordinary school physician, but most of all on the extent to which his recommendations would be followed by the Schoolhouse Department."

"The date of this communication was January 7th, 1926.

"It was believed to be altogether desirable that there should be within the jurisdiction of the Department which functions solely for the conservation of the health of the school child, a person of such established and recognized ability as would enable him not only to determine the presence of insanitary conditions but also to indicate the best methods for their speedy correction.

"This view, namely, that it was essentially a health problem was shared by the Board of Apportionment which voted the acceptance of the recommendation and the creation of the position. Based on these findings, the report of the Board of Apportionment was presented to the School Committee which voted its acceptance in June, 1926.

"Mr. John M. Sullivan, Sanitary Inspector in the Boston Health Department, was an applicant for this position. It appeared that Mr. Sullivan had secured his position in the Health Department through a competitive Civil Service examination in which he led a list of ninety candidates. From this it could readily be inferred that his capability left nothing to be desired. It was understood that this position could be filled by transfer or from a Civil Service eligible list and that it was not necessary to request a competitive examination if the applicant for the position holding a similar position in another Department of the City and rated as a Civil Service employee, made application for the position by transfer. There was to be no change in his rating, duties, or salary.

"These facts having been established, a request was made for the transfer of the applicant from the Health Department to the School Committee, and this was approved by the Health Commissioner and the Mayor. The transfer was authorized by Civil Service, effective September 1st, 1926.

"The foregoing is a statement of the facts in regard to this appointment. As Director of the Department of School Hygiene charged with the supervision and control of the sanitation of the schools as affecting the physical welfare of school children, and with the view solely to their interest, it is difficult to understand the great concern now manifested by those who have shown such indifference to insanitary conditions, some of which have been existent for many years. It would seem to be utterly impossible to divorce the health of the child from his satisfactory educational progress and one is disposed to marvel somewhat at the willingness to jeopardize it in the least by studiously involved interdepartmental red tape.

"Perhaps it depends on the point of view whether two uncorrelated departments which function solely with the view to school buildings, land, etc., should take precedence over those whose function it is to establish and maintain the health of school children who must necessarily remain five hours each day in a school environment for their entire educational life."

I now present a signed statement

by the distinguished Advisory Council to the Director of School Hygiene in this matter:

"As the Advisory Council to the Director of School Hygiene of the Boston Public Schools, the undersigned have had called to their attention the controversy which has arisen with reference to the appointment of a sanitary inspector to the department. The Advisory Committee has been formed from men active and interested in medical education and hygiene, who have gladly accepted the opportunity to aid in perfecting the health work in the public schools.

"In the opinion of this committee, school sanitation cannot be divorced from school hygiene. Moreover, according to paragraph 1 of Section 241, Chapter XII of the Rules and Regulations of the Boston Public Schools, specific responsibility for the sanitation of the schools is placed upon the Director of School Hygiene. We look upon this responsibility as a very vital one. Children who spend five hours daily in the schools are influenced in forming health habits by their environment. Although it is the duty of the city to provide sanitary surroundings favorable to the health, comfort and safety of the children, actually the sanitary conditions of many schools have been deplorable. The remedy for these conditions has been lacking because of the divided responsibility. The appointment, as an aide to the Medical Director, of a man competent to determine, analyse and prescribe for these defects, is the rational procedure in such a situation. The unusual activity in improving sanitary conditions in the schools this summer, following the action of the Medical Director in recommending such an appointment is an indication of the wisdom of this movement.

"As to the selection of the appointee, we can see no basis for criticism in the nomination of a man who was listed No. 1 in a group of ninety candidates for appointment as sanitary inspector by the Civil Service Commission. When this is added to an experience of four years of practical work in sanitation in the Boston Health Department, the selection seems particularly fitting. This appointment was made in the usual manner, by interdepartmental transfer, with the approval of the Mayor, the Health Commissioner, the School Committee and the Civil Service Commission.

"We trust that this effort to promote the welfare of the children in the schools will be carried through to a successful issue, because the principles upon which it is based are vital to progress in school sanitation.

"We desire to express our enthusiastic support of the Director of School Hygiene, who has enlisted in the progressive work of his department all of the available agencies, medical and sanitary, of the community. The activities already carried out include a cardiac survey by experts in cardiology of the highest standing; application of recently established principles in rest and nutrition; the use of vacation camps for undernourished and undeveloped children; the practice of more thorough physical examinations, and the establishment of required courses in health education. In cooperation with the State Department of Health a tuberculosis survey has been carried out in the schools;

practical courses in health nursing have been given in connection with Simmons College, and cooperation with the Forsyth Dental Infirmary in its efforts toward dental prophylaxis has been secured.

"Furthermore, two health surveys of the Boston Public Schools, made independently of the department, by Professor C. E. A. Winslow, of Yale University, and Professor Murray Horwood of Technology, showed the highest achievements of the Department of School Hygiene.

"The character and quality of the work done by the department merits the hearty approbation of the citizens of Boston.

Need I say more! I pass over the awful situation that existed in one of our in-town elementary schools due to insanitary conditions where more than a score of cases of social disease due to contact infection from insanitary toilet seats were discovered.

A year and a half ago, the Principal of the Washington Irving School in Roslindale, protested to the Schoolhouse Commission the presence of insanitary drinking facilities. A year and a half passed and nothing was done. Not even an inspection. I have here a sample of the drinking water from that school, and mark you, it is a new school recently built. Analysis shows the presence of fungi and dirt. Apropos of drinking facilities in our schools, perhaps 40 per cent. of our schools are equipped with insanitary drinking facilities where there is direct contact between lips of the pupils and the bubbler, and it is a recognized fact that bubbling fountains require direct contact with the lips and are a prolific source in contracting infections and a potential factor in the transmission of disease. In none but a few of our new schools have we sanitary washing facilities. How can we expect our teachers to impress upon pupils the necessity and importance of health habits when we deny them sanitary facilities? How can we expect the children to learn health habits unless we permit and enable them to live in healthy and sanitary surroundings.

I have here a few of the reports of the new Sanitary Inspector in regard to sanitary conditions in our schools. Let me read from one or two. (Referred to several specific reports).

On July the 7th, 1926, I presented an order to the School Committee to abolish the Schoolhouse Commission and to place their present function where it rightly belongs, in the School Committee, and I said at that time that our school children have an inalienable right to habitable schools, and so they have; and the appointment of a sanitary inspec-

tor is the first constructive step in that direction. Who was in our system prior to this appointment qualified in the science of sanitation to discover, analyse and prescribe the remedy for insanitary conditions in the schools? No one! Certainly not the already over-worked and under-paid part-time school physician. Surely not the nurse; most certainly not the custodian (custodians are not sanitarians), nor the teacher, nor the principal. If sanitation is a health problem, and it is admittedly so, how can it be divorced from the Department of School Hygiene?

The sole incentive for this appointment was to insure and assure to the school child as liveable and habitable environment as possible. Public education is mandatory and compulsory, and as a member of the Boston School Committee, charged with the education of the children, I would indeed be remiss and derelict in my duty were I to stand in the way of the progress, growth and expansion of school health activities.

The allegation by the Finance Commission that the appointment was an act of nepotism is merely a resort to the old-fashioned trick of drawing a "red herring across the trail." The test of a person's fitness in America is not and has never been the blood test. That was discarded almost three centuries ago. A person's racial, religious or family affiliations have no proper place in the matter of appointment to public office in a free country. I sincerely trust that the time will never come in our Boston school administration when the "Who's Who" idea prevails.

Let me refer the Finance Commission in respect to its garbled quotation from Assistant Superintendent Snow's declaration in the matter of this appointment to the words of Tennyson, "A lie that is half of the truth is ever the blackest of lies."

I take my stand with the leading medical and public health men of this part of the country in the matter of this appointment without a single doubt or concern as to its wisdom.

The several statements of the members of the Committee were accepted and ordered spread upon the records, and the Secretary was instructed to send a copy of the minutes of this meeting to the Finance Commission as the Committee's reply to the communication of the Finance Commission to His Honor the Mayor of Oct. 15, 1926.

The Board adjourned.

MASSACHUSETTS CIVIL SERVICE
EXAMINATIONS.

The Massachusetts Civil Service Commission announce examinations for desirable positions open in the Boston and Metropolitan districts as follows:

SEALERS, DEPUTY SEALERS OF WEIGHTS
AND MEASURES, NOVEMBER 19, 1926.

This examination is for the service of all cities in the state, and such towns as are classified under civil service. The salaries range from \$800 to \$1,600 per year.

The sealer of weights and measures is required to enforce the laws pertaining to weighing and measuring devices and to the giving of false or insufficient weight or measure; to the licensing of hawkers, peddlers and transient vendors; to wholesale milk containers, ice cream cans and molds, cranberry barrels and crates, standard boxes for farm produce, berry baskets and other containers used as measures; to the weights of bread and to the labeling of loaves of other than standard unit weight.

It is also his duty to test all weighing or measuring devices used for buying or selling, for public weighing, or for hire or reward, and to seal or condemn them in accordance with the results of his tests; also to investigate complaints and to prosecute violations of law when the evidence warrants such action. Pamphlets, including the General Laws relating to weights, measures, licenses, etc., and a Sealer's Manual, containing instructions for the inspection, testing and sealing of weighing and measuring devices, may be obtained upon request to the Director of Standards, 194 State House, after application for examination has been filed.

The subjects of examination with their respective weights will be as follows: Training and experience, 4; simple arithmetic, including simple percentage, decimals and the metric system, 2; report, 1; technical questions aimed to test applicants' knowledge of (a) the law governing the inspection of weights and measures; (b) the construction and types of mechanical weighing and measuring apparatus; (c) ability to present cases in court; (d) general knowledge of the duties of the position, 3; total, 10.

Successful applicants will also be required to file a certificate from a reputable physician as to their physical fitness for the position.

Preference granted under the law to disabled veterans is applicable to both examinations.

CLERICAL SERVICE, STATE AND CITIES,
NOVEMBER 20, 1926.

This is the regular examination for the clerical service of the state and of all cities and of such towns in the state as are classified under civil service. On November 6 the examination will be held in various centrally located cities. On November 20 the examination will be held in Boston, and all persons who reside within commuting distance will be notified for examination on this day. Certification may be made from the eligible lists established by this examination for office, institutional, or other positions of a similar nature at the discretion of the Commissioner of Civil Service. Special qualifications in bookkeeping, stenography, typewriting, cataloguing, filing, etc., and in foreign languages may be recognized by the commissioner in certifying persons for positions demanding such qualifications. Persons qualifying

in the examination may have their names placed on the state list as well as on the list for the city or town in which they reside.

This examination will be given to fill positions in all grades of the Clerical Service except Grade V (chief clerk, secretary). Positions for office boy at \$600 a year are also filled as a result of this examination. There are usually several positions open for office boys, and young men who are interested are urged to apply. All applicants will be given the same examination, and will be placed on the list in the order of marks received, and will be certified for any and all clerical positions in the order of standing on the list, unless in the opinion of the Commissioner of Civil Service the mark attained is lower than is proper for the particular position to be filled.

Applicants must be not less than sixteen years of age at the time of filing application.

All applicants will be marked on each subject of the examination, and will be given a general average on such marks according to the following schedule: Training and experience, 5 points; spelling, 2; letter writing, 2; arithmetic (multiplication, division and decimals), 1; arithmetic (problems), 1; word knowledge, 1; sentence meaning, 1; grammar, 1; reasoning, 1; total, 15.

Each applicant will be sent an "experience sheet" with proper instructions for stating his education, training and experience.

The passing mark for clerical examinations will be 65 per cent in general average.

The usual entrance salary for clerks ranges from \$720 to \$1,200 per year. For positions paying \$1,200 or more, only clerks who receive a mark of at least 65 per cent in experience will be certified.

Sample questions for clerks available.

LABORATORY TECHNICIAN, DEPARTMENT
OF MENTAL DISEASES, WORCESTER
STATE HOSPITAL, NOVEMBER 23,
1926.

(Requisition is for a female but the examination is open to both males and females.)

The salary is \$1,200 per year with maintenance.

The duties of this position are to be responsible for the laboratory and for the supervision of the morgue and autopsy work, including note-taking and assistance to the physician who does the autopsy; to assume supervision of the animal house; to do tissue work, preparing specimens for microscopic study; to do all clinical bacteriologic work; to do basal metabolisms, clinical blood chemistry, urinalysis, including sediments and nitrogen partitions; to secure blood specimens from the patients, and to do the colloid gold reactions.

The subjects of examination with their respective weights will be as follows: Training and experience, 2; practical questions on the duties of the position, 3; total, 5.

Applicants are required to obtain a mark of at least 50 per cent in practical questions and at least 65 per cent in experience and in general average in order to become eligible.

Successful applicants will be required to file a certificate from a reputable physician as to their physical fitness for the position.

LABORATORY ASSISTANT, DEPARTMENT OF PUBLIC HEALTH, NOVEMBER 23, 1926.

(Requisition is for a male but the examination is open to both males and females.)

The salary is \$1,020 per year.

The duties of this position consists of general work about the laboratory, including minor chemical operations; shipping out and receiving from 500 to 800 sample bottles monthly; keeping records of samples received and bottles damaged in transit.

The subjects of examination with their respective weights will be as follows: Training and experience, 2; practical questions on the duties of the position, 3; total, 5.

Applicants will be required to obtain a mark of at least 50 per cent in practical questions and at least 65 per cent in experience and in general average in order to become eligible.

Successful applicants will be required to file a certificate from a reputable physician as to their physical fitness for the position.

MASTER AND DEPUTY MASTER, HOUSE OF CORRECTION, DEER ISLAND, BOSTON PENAL INSTITUTIONS DEPARTMENT, NOVEMBER 23, 1926.

The salary for Master is \$2,600 per year and maintenance. The salary for Deputy Master is \$2,100 per year and maintenance.

Applicants for these positions must be not less than 30 years of age at the time of filing application. A certificate of date of birth must be filed with the application.

The duties of the Master consist of the appointment and discharge of officers, the establishment of rules for the administration of the institution, and direct responsibility for the conduct of the island. The duties of the Deputy Master are to enforce the rules under the direction of the Master and to take charge in the absence of the Master.

The subjects of examination with their respective weights will be as follows: Training and experience, 4; practical questions, 3; personality and fitness, as determined by an oral interview, 3; total, 10.

Applicants are required to obtain a mark of at least 50 per cent in practical questions and at least 65 per cent in experience, oral interview, and general average in order to become eligible.

Physical examination required.

This examination is open to all residents of Massachusetts.

FOREMEN OF WATER, SEWER, AND HIGHWAYS, ETC., DECEMBER 10, 1926.

This examination is for foremen of water, sewer, and highways (or streets) in the service of the state and of all cities and of such towns in the state as are classified under civil service; and of sanitary and street cleaning in the service of Boston.

There are several vacancies in different cities which will be filled from the list established as a result of this examination.

(A.) Highway (or Street) foremen in the service of the state, or cities in the state, except Boston, and of the towns classified under civil service: Training and experience, 14; arithmetic, 4; report, 2; practical questions on street and road construction, grading, repairing, etc., 10; total, 30. The subjects and weights for

Boston foremen are: Training and experience, 14; arithmetic, 4; report, 2; practical questions, 9; questions on the care of horses, 1; total, 30.

(B.) Sewer: The subjects and weights are the same as for (A), State Highway, except that the practical questions will concern the quality of materials, bracing and refilling of trenches, general maintenance and repair of sewers, catch-basins, etc.

(C.) Water: The subjects and weights are the same as for (A) State Highway, except that the practical questions will concern the laying and maintenance of water mains and service pipes, time-keeping, accounting for material, etc.

(D.) Sanitary and Street Cleaning (in the service of Boston): The subjects and weights are the same as for (A) Boston Street foremen, except that the practical questions will concern the handling of ashes, garbage, etc., and the watering, oiling and cleaning of streets.

NOTE.—Applicants for all services may, if they wish, take an additional paper on the use of explosives, and if successful in passing it will have it so noted as a special qualification.

Applicants are required to obtain a mark of at least 65 per cent in experience and at least 50 per cent in practical questions.

Physical examination required. Sample questions available.

DRAWTENDERS AND ASSISTANT DRAWTENDERS, DECEMBER 10, 1926.

This examination will be held for the service of the state, Boston, Cambridge and New Bedford. The subjects of examination with their respective weights will be as follows: Training and experience, 4; report, 1; arithmetic, 1; practical questions, 4; total, 10.

Physical examination required.

PLAYGROUND WORKERS, SUPERVISORS, AND ASSISTANT SUPERVISORS, CITIES, DECEMBER 28, 1926.

This examination will be for the service of all the cities and towns in the state where these positions are under civil service.

The playgrounds ordinarily are open from April to November. During the school year sessions are usually held after school hours and on Saturdays, and on all days except Sundays during the summer. In the summer the usual salary is from \$15 to \$25 a week. The examination is open to both men and women.

The general duties of playground workers require a knowledge of the interests of children, ability to organize and conduct playground activities and adult recreation. It is desirable that applicants have education, training or experience in physical culture, playground work and physical training of juveniles.

Applicants must be high school graduates.

The subjects of examination with their respective weights will be as follows: Training and experience, 1; practical questions, 1; total, 2. There will be one set of special questions for applicants interested in boys' work, another set for those interested in girls' work, and a combination set for those wishing to qualify for both boys' and girls' work. There will probably also be a supplementary paper for those wishing to qualify as swimming instructor in playgrounds having a pool.

Successful applicants will be required to file a certificate from a reputable physician as to their physical fitness for the position.

Applicants who wish to be certified to positions as playground supervisors should have at least two years' actual experience in playground work.

CIVIL ENGINEERS, DECEMBER 13-18, 1926.

These examinations are for the service of the state, all cities, and such towns as are classified under civil service.

Warning.—Many men fail in the civil engineering examination because they apply for grades for which they are not qualified. It is advisable, therefore, if there is any doubt about the quantity or quality of your experience, to take both the grade for which you think you are qualified and the next lower grade. If you should be found ineligible for the higher grade, you will still have an opportunity to be placed on the next lower grade.

Grade A (1).

Engineering assistants, drafting assistants and rodmen who perform, under instructions and supervision, elementary or apprentice work in the field or office.

It is *prima facie* evidence that a position in Class 27 is not in Grade A if the salary is less than \$900 a year or more than \$1,440 a year.

Qualifications.—Applicants must have completed a high school course of not less than three years or must have had not less than one year of practical experience in field engineering or office work.

Subjects and Weights.—Rodmen.—Experience, 4; mathematics, 6; penmanship, 1; tracing, 3; questions on the duties of the position, 6; total, 20. Assistant Draftsmen.—Experience, 4; mathematics, 6; penmanship, 1; drawing, 9; total, 20.

Grade B (2).

Senior engineering assistants, instrumentmen, and draftsmen (a) who assume responsibility for the execution of definite instructions in a minor division or section of engineering activity; or (b) who direct, under supervision, the operation of minor engineering projects.

It is *prima facie* evidence that a position in Class 27 is not in Grade B if the salary is more than \$1,980 a year.

Qualifications.—If appointed by promotion, not less than one year of service in Grade A. If appointed otherwise than by promotion from Grade A, at least two years of practical experience in engineering work of Grade A character and standard; or such training in civil engineering as is evidenced by a professional degree granted on the completion of a standard course of instruction at an institution or college of recognized standing; or the successful completion of not less than two years' study in such institution plus one year's practical experience in engineering work.

Subjects and Weights.—Instrumentmen.—Experience, 16; penmanship, 2; plotting, 6; questions on duties, 8; mathematics, 8; total, 40. Draftsmen.—Experience, 16; drawing, 10; mathematics, 6; duties, 4; plotting, 4; total, 40.

Grade C (3).

Assistant engineers, assistant civil engineers, and designing engineers (a) who assume responsibility for the direction

of surveys, the preparation and examination of, or advice upon, plans, designs and specifications for a minor section of a large engineering or a major section of a small engineering project; or (b) who supervise or inspect the construction or the operation of work on such a project; or (c) who make investigations of, and reports upon, such engineering projects as a basis for a report by an engineering superior.

It is *prima facie* evidence that a position in Class 27 is not in Grade C if the salary is more than \$2,580 a year.

Qualifications.—If appointed by promotion within a department or major division thereof, not less than two years of service in Grade B, or, if appointed otherwise than by promotion from Grade B, within a department or major division thereof, at least five years of practical experience in engineering work, at least one half of which shall have been appropriate to the particular branch of engineering work covered by the position, provided that a degree granted on the completion of a standard course of instruction by an engineering school of recognized standing shall be accepted as the equivalent of three years' practical experience.

Subjects and Weights.—Experience, 10; design 2; mathematics, 2; questions on materials and methods of construction, 3; engineering theory, 3; total, 20.

Grade D (4).

Senior assistant engineers, senior assistant civil engineers, and senior designing engineers (a) who supervise and assume complete responsibility for the work of a main division of an engineering organization involving the direction of surveys and design and construction; or (b) who maintain and operate the the major section of a large engineering project; or (c) who make independent investigations of and reports upon engineering projects as a basis for executive administrative, or judicial action; or (d) who take charge of a large engineering department in the absence of the chief engineer; or (e) who give advice on large or complicate engineering projects which may involve the preparation of plans.

It is *prima facie* evidence that a position in Class 27 is not in Grade D if the salary is more than \$3,600 a year.

Qualifications.—If appointed by promotion within a department or major division thereof, not less than three years of service in Grade C. If appointed otherwise than by promotion, within a department or major division thereof, at least eight years of practical experience in engineering work, at least one half of which shall have been appropriate to the particular branch covered by the position, and two years of which shall have been in an executive capacity; provided, that a degree granted on the completion of a standard course of instruction by an engineering school of recognized standing shall be accepted as the equivalent of four years of practical experience.

Subjects and Weights.—Experience, 24; questions on materials and methods of construction, 5; engineering theory, 5; design, 6; total 40.

An applicant must specify the grade for which he applies. Specimen examinations available.

STATE EXAMINERS OF ELECTRICIANS—EXAMINATIONS, 1926.

Examinations will be held at the following points and on following dates: Fall River, Tuesday, November 9; Boston, Thursday, November 11; New Bedford, Tuesday, December 7; Worcester, Thursday, December 9.

Rules for Examination.

All examinations shall be given in English.

Applicants for Class B or journeyman's certificate must be at least eighteen years of age and have had two years' practical experience, or the equivalent, in the installation of wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Applicants for Class A or master's certificate must be at least twenty-one years of age and have had at least two years' experience in the business of installing wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Examinations shall consist of applicant's knowledge of the national electrical code and practical electrical work.

All persons desiring to be examined, either for a master or journeyman certificate shall have application on file at least ten days previous to the date of such examination.

Applicants for examination will be required to obtain at least 70 per cent in order to obtain a certificate.

Applicants who fail to obtain the required 70 per cent will not be entitled to re-examination until a period of three months has elapsed, and those who received less than 50 per cent, or who failed on the practical demonstration, will not be re-examined for a period of six months.

Any person found referring to notes or books, or misbehaving during an examination, will be debarred from that examination.

Notice will be sent to applicants for certificates when and where examination will be held, and only those so notified will be examined on that day.

PROCEEDINGS OF SCHOOL COMMITTEE.

Nov. 1, 1926.

A regular meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 6.47 o'clock p. m., the Chairman presiding.

Present: Mrs. Barron, Messrs. Bogan, Gray, O'Hare and Sullivan.

APPROVAL OF MINUTES.

Mr. Sullivan made the following statement:

There appears in the minutes of the previous meeting, in connection with the discussion concerning the appointment of John M. Sullivan as Sanitary Inspector in the Boston public schools, and of the specific criticism thereof by the Finance Commission, a statement by me which reads in part as follows:

"I understand that the Chairman of the Schoolhouse Commission only today called up, or at least was in communication with a member of this committee, and told the member that he already has in his employ in the Schoolhouse Commission seven sanitary inspectors."

Mr. Slattery appeared before the School Committee in conference this evening and stated that he did not use the words "sanitary inspectors" in the talk referred to. If he did not use the words "sanitary inspectors," of course I want the defect in the minutes cured.

The reading of the minutes of the previous meeting was omitted, the Board approving them as printed, with Mr. Sullivan's statement appended.

On motion, the minutes of previous meetings were amended as follows:

June 21, 1926, on page 144, to provide that the appointment from the eligible list of Grace L. Eyrick, as assistant, Boston Clerical School, to take effect Sept. 1, 1926, shall read "third year."

Sept. 20, 1926, on page 191, to provide that the appointment from the eligible list of Marion S. Williams as assistant, Memorial High School (Girls), to take effect Oct. 4, 1926, shall read "fifth year."

Sept. 20, 1926, on page 202, to provide that the appointment of Katherine H. Creighton, as clerical assistant, Washington Allston District, to take effect Oct. 1, 1926, shall read "third year."

Sept. 20, 1926, on page 203, to provide that the tuition rate for non-resident pupils in speech improvement classes shall read twenty-two cents per hour of instruction, instead of "eleven cents."

NOTICE OF LAND-TAKING.

IN BOARD OF STREET COMMISSIONERS OF THE CITY OF BOSTON, November 11, 1926.

Ordered, That due notice be given that this Board is of the opinion that public necessity requires the taking of land on the northwesterly side of land of the City of Boston (William Lloyd Garrison School) on Hutchings street, Roxbury district, now or formerly owned by Max Franklin, containing 7,371 square feet, more or less, for school purposes, substantially as shown on a plan on file in the office of this Board, that it intends to pass an order to make said taking, and that it appoints 12 o'clock m. of November 30, 1926, and the office of this Board as the time and place for a public hearing in the matter.

A true copy of an order passed by said Board on said day.

Attest:
JOSEPH F. SULLIVAN,
(Nov. 13-20.) Secretary.

MAYORS OF BOSTON.

In its 103 years of existence as a city Boston has had 36 elected Mayors and five *ex-officio* Acting Mayors. Of the 36 men who have held the office for one year or more, six were elected for other than consecutive terms and 25 were re-elected one or more times. Those born within the present limits of Boston numbered 21; in towns near Boston, 8; in neighboring New England States, 5; in Ireland, 2. The Mayor longest in office was Mayor Curley who served 4 years ending Feb., 1918 and 3 years and 11 months, ending 1925. Next in length of service was Mayor Lincoln, serving 3 years ending 1860 and 4 years ending 1866. The first Mayor Quincy had the distinction of serving through six successive one-year terms ending 1828, and Mayor Fitzgerald also served six years but in two separated terms. Those who served 4 years were Mayors Prince, O'Brien, Matthews, (third) Quincy, Hart and Peters. Mayor Collins was in office nearly 4 years, his death occurring 3½ months before his second term expired. Those serving 3 years were Mayors Otis, Eliot, Chapman (second) Quincy, Bigelow, Shurtleff and Cobb; 2 years, Mayors Wells, Lyman, Brimmer, Seaver, Smith, Rice, Wightman, Gaston, Pierce (22 months) and Hibbard; 1 year, Mayors Phillips, Armstrong, Davis, Norcross, Green, Palmer, Martin and Curtis. The five Acting Mayors were Chairmen (Board of Aldermen) Parker, Leavitt, Allen, Cutter and Whelton.

Mayor Otis was Speaker of Massachusetts House of Representatives, President of Senate, Representative in Congress also Senator before becoming Mayor. Mayor Armstrong was Lieutenant-Governor and at times Acting Governor before serving as Mayor. Mayors Rice and Gaston served 3 years and 1 year (respectively) as Governor after their terms as Mayor. Mayors Collins, Curley, Fitzgerald, Peters, Pierce and Rice have represented Boston in the lower house of Congress, Mayor Peters having also served as Assistant Secretary of the Treasury.

Ex-Mayor Curtis was appointed Police Commissioner in 1919 for term of five years but his service was terminated by his death in 1922. Ex-Mayor Quincy died in 1919, and Ex-Mayor Green in 1918. (See annual City Doc., *Municipal Register*, for full list of Mayors from 1822 to 1925, with place and date of birth, years of service and date of death.)

BOSTON CHARTER CHANGES.

In 1854, 1885, 1909 and 1924 important changes in the original City Charter of 1821 were effected for the purpose of improving the methods and efficiency of the City Government. The revision of 1854 (Chap. 448, Stat. 1854) referred to the voters for acceptance, gave the Mayor a qualified veto over the action of the City Council, also the power of removal of appointed officials, besides providing for his election by a plurality instead of a majority vote. The amendments of 1885 (Chap. 266, Stat. 1885) were not submitted to the voters for approval. They transferred all the executive powers to the Mayor, prohibiting the City Council from interference with the executive and administrative business of the City. This was done in order to end the inefficiency resulting from an excessive number of joint committees, a municipal development conforming to the traditions of the outgrown town government.

The amendments of 1909 (Chap. 486, Stat. 1909) cut down the number and powers of the legislative branch of the government to a minimum, the Board of Aldermen (13 members) and the Common Council (75 members) being abolished. For these was substituted a single City Council of nine members to be elected at large for 3-year term. The Mayor's position was further strengthened by giving him a 4-year term, subject to recall at end of two years, but requiring a majority vote of the registered voters to make the recall effective. The Mayor's power over appointments was no longer subject to check by aldermen but by a State board, the Civil Service Commission and City elections were removed from all connection with national and State politics, no primaries nor caucuses being permitted, all candidates for office to be selected by means of nomination papers. The only

question in this Act of 1909 which was submitted to the voters was contained in section 35, *i. e.*, whether Plan 1 or Plan 2 should be adopted, the first providing for a term of two years for Mayor and a City Council of 36 members to be chosen in primaries. Plan 2, providing for City Council of 9 members, was adopted by a majority of 3,894.

Charter of 1909 amended later as follows: (1) By Chap. 437, Acts of 1910, exempting loans issued for Rapid Transit construction from the prohibition of the establishing of sinking funds, as contained in sec. 26. (2) Chap. 730, Acts of 1914, fixing date of annual municipal election on the sixth Tuesday after the state election instead of in the following January, as in sec. 32; changing the requirements as to signatures on nomination papers to 3,000 for Mayor and 2,000 for City Council and School Committee instead of 5,000 for all, as in sec. 53, also limiting the number of nomination papers issued to 300 for a candidate for Mayor and 200 for other candidates, referring to sec. 54. (3) Chap. 37, Special Acts of 1918, annulling the jurat at end of nomination papers. (4) Chap. 94, Special Acts of 1918, abolishing recall of Mayor and making him ineligible for re-election, *i. e.*, establishing a single term of four years, but not prohibiting the election of any Mayor for other than consecutive terms. (5) Chap. 288, Acts of 1921, fixing date of the annual municipal election on the first Tuesday after the second Monday in December, also making slight changes as to nominations. (6) Chap. 133, Acts of 1922, changing publication of list of City officials and employees to every second year from 1923. (7) Chap. 479, Acts of 1924, providing for biennial City elections (dating from Nov. 3, 1925); for borough or ward representation in City Council; for a fiscal year dating from Jan. 1 to Dec. 31, beginning in 1926, also a municipal year dating from the first Monday in January, to begin in 1926; for election of the five members of School Committee in 1925, the candidates receiving the two largest votes to hold office four years, the other three for two years and at the election in 1927 and thereafter the term for all to be four years.

The only amendment of 1924 subject to a referendum was the alternative of Plan 1 or Plan 2 as to the City Council. At the State election on Nov. 4 Plan 2 was adopted, providing for the election by each ward in 1925 and every second year thereafter of one councillor for 2-year term.

SETTLEMENT OF BOSTON, 1630.

Effected by Puritan colonists under Governor John Winthrop in the latter part of August, 1630. The name of the original settlement was changed to Boston from Trimountaine by order of the Court of Assistants on September 7 (O. S.), 1630. This date was moved forward by the New Style calendar in 1752 to Sept. 17, the recognized date of the founding of Boston. The name, Trimountaine, had been given because of the three peaks of the most prominent hill, afterward called Beacon Hill, much higher then than now. By the Indians the place was called Shawmut. The name, Boston, was derived from the English town of Boston in Lincolnshire, the home of some of the leading colonists and promoters of the enterprise.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for informa-

tion as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts; also information relative to Mt. Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Fire Department Headquarters, 60 Bristol street, for all information relative to the erection of poles, the building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 906, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

ROUMANIAN QUEEN NOT TO VISIT BOSTON.

Mayor Nichols on November 18 announced that he had received the following telegram from Simone Lahovary, Lady-in-Waiting, to Her Majesty Queen Marie:

"We were just preparing to fix a day for Boston when not quite satisfactory news of the King's health decided Her Majesty to cancel all further programs. Her Majesty specially regrets to miss your interesting city where so much intelligence would have greeted her. Please convey her disappointments to everybody."

OVERSEERS OF PUBLIC WELFARE TRUSTEES ARE RENAMED BY MAYOR.

Mayor Nichols has announced the reappointments of Simon E. Hecht and Franklin P. Daly, members of the Overseers of Public Welfare; also the appointment of Edward H. Willey, member of the same Board, to fill the place made vacant by the resignation of Mrs. Gevalt.

Mr. Willey was born in Hartford Conn., in 1883, coming to Boston at the age of four years, and has been a resident of Boston ever since. He attended the public schools of Boston. Has been in the retail drug business at City Point for twenty-six years. He is a member of the Republican State Committee, also of many local social organizations.

STREET REPAIRS.

The Mayor has approved the following vote of the Board of Street Commissioners:

Ordered, That this Board, having passed the order of notice relating to the public improvements hereinafter described, and having caused a copy of said order to be published October 29, 30, November 1, 2, 1926, in the *Boston Globe* and the *Boston Transcript*, two daily newspapers published in the City of Boston, and having given the public hearing, notice of which was given in said order, and being of the opinion that public convenience and necessity so require, does hereby order that specific repairs be made on the following streets:

Columbus avenue and Park square, from south of Arlington street to Boylston street, by laying smooth pavement, on concrete base, in place of the existing granite block and wood block pavements.

Stuart street, from Columbus avenue to Broadway, by laying smooth pavement, on concrete base, in place of the existing macadam pavement.

Church street, from Stuart street to Columbus avenue by laying smooth pavement, on concrete base, in place of the existing macadam pavement.

Broadway, from Stuart street to Park square, by laying smooth pavement, on concrete base, in place of the existing wood block pavement.

Medford street, Charlestown district, from Lexington street to Bunker Hill street, by laying a concrete pavement in place of the existing granite block pavement.

Crawford street, Roxbury district, from Warren street to Walnut avenue, by laying smooth pavement in place of the existing macadam pavement.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKELL DOLE.]

POLICE DEPARTMENT ORDERS.

General Order No. 985.

A trial board consisting of Captains Goodwin, Dailey and Patterson, having heard by reference a complaint against Patrolman Lawrence F. Oliver of Division 12, charging him with neglect of duty and conduct unbecoming an officer, reported to the commissioner a finding of guilty on the first charge and not guilty on the second charge. In accordance with which, the said Patrolman Lawrence F. Oliver was on October 28, 1926, dismissed from the Police Department.

Due written notice of such dismissal with the reasons therefor was duly and specifically given in hand on October 28, 1926, to the said Lawrence F. Oliver.

On the thirtieth day of October, 1926, the said Lawrence F. Oliver requested in writing a public hearing as provided by law, and the Police Commissioner set

down Friday, November 5, 1926, at eleven o'clock a. m., at the office of the Police Commissioner as the time and place of the hearing and duly notified the said Lawrence F. Oliver, said hearing being at request of counsel for the said Lawrence F. Oliver, continued and set down for hearing at eleven o'clock a. m. on Monday, November 8, 1926, at the office of the Police Commissioner.

The said Lawrence F. Oliver was present at said time and place with counsel and was heard with his witnesses. Whereupon, after hearing the case, the Police Commissioner finds the said Lawrence F. Oliver guilty as charged and further finds that the said Lawrence F. Oliver shall stand dismissed from the Police Department.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do the work with the department forces without advertising; additions to and deductions from contracts.

PUBLIC BUILDINGS DEPARTMENT.

Upon November 16 the Mayor approved a contract with the Thomas O'Connor Company for lighting fixtures for the Brighton Courthouse. A communication from John P. Englert of the Public Buildings Department was as follows:

Boston, October 22, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—When the original specifications for the erection and completion of the Brighton Courthouse were formulated it expressly stipulated on page 115, section 28, that the "lighting fixtures and the installation of same are not a part of this contract." In the general form of contracts it is usually specified that an allowance will be made in a certain sum for furnishing lighting fixtures for a building in process of erection. In this case, however, it was entirely omitted and the building was erected with this understanding. It appears that there was not much thought

given to this feature until the building was practically erected and when the question arose, the architect declined to accept the responsibility by stating that it was not part of the contract.

Quite a little time elapsed, when the judge of the court expressed a desire to have the use of the building at the earliest possible moment. I accordingly called a conference of the architects, contractor, judge and myself to endeavor to clarify the situation and it was the consensus of opinion that it would be entirely unethical to put another contractor in this building before same was accepted by the city, as it would give the general contractor a just claim for declining responsibility as far as his maintenance bonds are concerned, as called for in the general contract. The question of time also entered into the problem and at least a month would be consumed if the department were to go into the open market and call for bids. I was also informed by the lighting fixture contractors that it would take anywhere from ten to twelve weeks to make up these fixtures. It must also be taken into consideration the fact that there is no heat on in the building at the present time and the possible damage is unestimable. This feature alone is of sufficient importance to require immediate action.

As a result of this conference, the architect agreed to submit drawings, feeling that the artistic scheme of the building would be completely destroyed if some lighting fixture concern were to draw same. I therefore instructed the contractor of the building to call for estimates for doing this work, which he did, and he received the following figures:

Wetmore-Savage Electric Supply Company, \$2,48.75; Stanton Electric Company, \$2,700; Edwin C. Lewis, \$2,838.20; Dalton Lighting Fixture Company, \$2,850.

You will observe that the figure received from the Wetmore-Savage Company was the lowest, and Thomas O'Connor & Co., contractors, also Messrs. O'Connell and Shaw, architects, in order to have the fixtures installed at the earliest possible moment, have agreed to supervise the work without any added cost to the City of Boston.

I also wish to state that inasmuch as there was no provision made in the general contract for lighting fixtures there was a sum sufficient to meet this expenditure reserved out of the general appropriation and it will not be necessary to provide any additional funds.

In consideration of the foregoing, I feel that the best interests of the city would be conserved if the contract were awarded to Messrs. Thomas O'Connor & Co., and I respectfully request permission to award the lighting fixture contract for the Brighton Courthouse to Thomas O'Connor & Co. in the sum of \$2,486.75, without the usual form of advertising.

Respectfully yours,

JOHN P. ENGLERT,
Superintendent of Public Buildings.

SUPPLY DEPARTMENT.

Upon November 12 the Mayor approved a contract with the Eastern Tractors Company for furnishing tractors to the Park Department. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, November 10, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the Eastern Tractors Company for furnishing to the Park Department the following:

Two five-ton Holt tractors, with cab lights and grousers, at \$3,675, \$7,350; two ploughs (Sargent wing plough, 20 feet spread, at \$1,100, \$2,200; two two-ton Holt tractors, with cab lights and grousers, at \$2,260, \$4,520; two ploughs (Sargent wing plough, at \$525, \$1,050; above prices F.O.B. Boston. Total, \$15,120.

The Park Department has already in service one two-ton Holt tractor which has given complete satisfaction, and the Park Commissioner feels that it is the one best suited for his needs.

In view of this fact, I respectfully request that the permission asked for above be granted.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

Upon November 13 the Mayor approved a contract with Richardson, Wright & Co. for furnishing instrument cabinets to the City Hospital. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, November 12, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to Richardson, Wright & Co., Boston, Mass., for furnishing to the Boston City Hospital (new maternity building) six (6) instrument cabinets 72 by 40 by 18 inches, as per attached cut at a price of \$254.50 each.

The hospital authorities have investigated the matter of instrument cabinets thoroughly and Doctor Dowling feels that the cabinets made by Richardson, Wright & Co. are the ones best suited for his needs.

In view of these facts I request that permission be granted me to award this contract as indicated above.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

Upon November 17 the Mayor approved a contract with the Linscott Motor Company for the delivery of one Reo coupe to the Cemetery Division. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, November 16, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is requested to award a contract, without publicly advertising for same, to the Linscott Motor Company to deliver to the Cemetery Division, Park Department, the following:

One 1927 Reo coupe, with full factory equipment, delivered, \$1,620; less allowance on 1923 Bay State roadster, \$270; net amount of contract, \$1,350.

As this concern is the manufacturer,

no advantage would be gained by publicly advertising.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

Upon November 17 the Mayor approved a contract with the Linscott Motor Company for one two-ton Reo truck for the Water Service, Public Works Department. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, November 16, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the Linscott Motor Company to deliver the following to the Water Service, Public Works Department:

One Reo two-ton truck, heavy construction, dual rear tires, closed cab, platform body with removable low stake sections, with solid bottom panels on side and end about 12 inches high for retaining loose material. The truck should be equipped with a Mead-Morrison light crane No. 916-943 for hoisting and lowering material, \$3,958.

As this concern is the manufacturer, no advantage would be gained by publicly advertising.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

LAND-TAKING IN EAST BOSTON.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston known as East Boston and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Lubec street, bounded:

Southwesterly by Maverick street, eight and 13-100 feet; northwesterly by another part of said Lubec street, one hundred twenty-five and 36-100 feet; northeasterly by the northeasterly line of said Lubec street, eight and 7-100 feet; and southeasterly by another part of said Lubec street, one hundred twenty-four and 97-100 feet, containing one thousand and one square feet, more or less.

The sewerage works to be constructed are as follows: 125 linear feet of 10-inch sanitary sewer, in the above described premises, being part of the private way known as Lubec street, leading northeasterly from Maverick street for a distance of about 125 feet.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lot of abutting land on the northwesterly side of Lubec street, designated as Lot 2 on the plan hereinafter referred to, and the lot of abutting land on the southeasterly side of Lubec street, designated as Lot 4 on said plan, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 715, Sewerage Works, Lubec Street, East Boston, October 7, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

Number of Mass. income tax returns received in 1924, 327,354, of which 213,221 were found taxable. Total taxable income reported for 1923 and assessed in 1924, \$467,320,201, divided thus: Business income, \$268,793,704; interest and dividends, \$167,053,669; gains, \$29,787,328; annuities, \$1,685,500.

Total distribution of income tax to Mass. cities and towns in 1924, \$13,972,422 (\$1,215,238 more than in 1923) of which Boston's share was \$3,554,002; distribution of business, public-service, etc., taxes, \$14,073,870, of which Boston received \$3,110,115. Number of business corporations taxed, 22,104, of which 2,755 were foreign.

Total property in Mass. exempted from taxation in 1924, \$1,138,209,926 (mostly real estate) divided thus: Public property of cities and towns, \$488,136,195; of literary and scientific institutions, \$196,737,667; of United States, \$141,772,499; of churches, \$108,583,064; of charitable and benevolent institutions, etc., \$80,795,278; of State, \$85,371,327; of counties, \$15,940,439; cemeteries, etc., \$12,641,996; all other, \$8,231,411. In Boston, the total exempt property in 1924 was \$355,485,100 or 31.23 per cent of all in Mass.

The total wealth in the United States on Jan. 1, 1923 as ascertained by the Federal Census Bureau, was \$320,803,862,000 or \$2,918 per capita. This is an apparent increase of 72.2 per cent in the 10 years since 1913. The value of real estate, with improvements, amounted to \$155,908,625,000, not including public, ecclesiastical and institutional property exempt from taxation, which amounted to \$20,505,819,000.

The increase in money value of other classes of property is largely due to the price inflation of recent years and should not be represented as a permanent increase in the quantity of wealth.

In Massachusetts the total wealth increased 106.7 per cent or from \$6,279,-

266,000 in 1913 to \$12,980,839,000 in 1923, the latter averaging \$3,243 per capita.

On June 30, 1924 the 8,085 national banks in U. S. had aggregate capital of \$1,334,011,000; deposits, \$18,347,837,000; total resources, \$22,565,919,000.

PORT OF BOSTON.

Boston comprises an area of about 47 square miles, (exclusive of the islands) including all the expanse of tidewater within a straight line from Point Allerton to Point Shirley and extending therefrom to the mainland. It is the best of natural harbors, near open sea, sheltered and spacious for anchorage; main ship channel 35 feet in depth at mean low water, increasing to 40 feet from President Roads to open sea; new dredging operations in charge of U. S. engineers are under way for increasing depth of said main channel to 40 feet; waterfront (i. e., lineal pier space) 40 miles, 6 miles fronting on 30 feet depth at low water.

Commonwealth Pier No. 5, South Boston 1,200 feet long, 400 feet wide, accommodating five 600-foot ships at one time, 40 feet depth at mean low water on both sides, with three 2-story fire-proof buildings of steel and concrete construction, containing 900,000 square feet of floor space, total cost of this enterprise to State, \$4,500,000. Commonwealth Pier No. 6, South Boston, (Fish Pier), buildings on same erected by lessee, Boston Fish Market Corporation, cost to State, \$1,487,361. Commonwealth Pier, No. 1, East Boston, 900 feet long, costing State \$764,600 for site and \$426,674 for construction. New dry dock at South Boston (probably the largest in the world), completed in 1919, 1,200 feet long and 120 wide, costing \$3,169,651 and taken by U. S. Government at total cost.

Islands in Boston Harbor over 3 acres in area, 17, with total area of 965 acres; Long Island the largest, or 215.5 acres. Owned by United States, 392 acres; by City of Boston, 334 acres. Number of wharves, 143, of which 8 are owned by the City.

There are 32 foreign steamship lines with regular sailings to and from Boston and 18 coastwise lines (5 to Pacific ports). In 1915 a revision of the harbor lines was made and the project undertaken whereby 600 acres of flats between Governor's Island and Jeffries Pt. will be filled in and used for extensive commercial developments under State control. About 175 acres of flats have recently been filled in and added to the land area of East Boston and 160 acres to that of South Boston.

In April, 1918, the Government decided to establish its Army Supply Base on a portion of the Commonwealth lands in South Boston. About 57.6 acres were purchased from the State, the price being \$1,317,510, soon followed by the construction of two pier sheds, each 920 feet long, a wharf shed and other buildings, including one of the largest storehouses in the world, built of reinforced concrete, eight stories high, 1,638 feet long, 126 feet wide and with floor space of over 1,650,000 square feet. The total outlay for the plant was \$26,000,000.

Total expenditure by State for improvement of Boston Harbor \$21,968,003, from 1859 to 1924, inclusive; total Federal expenditure from 1790 to June 30, 1924, \$13,148,538.

BOSTON PARK DEPARTMENT.

Number of large parks, 24; separate playgrounds, 50, with total of 354.82 acres, also 13 playgrounds in parks with area of 156 acres; small parks and squares, 69.72 acres; total area, 2,647.68 acres. Cost of Main Park System, i. e., 1,389.40 acres (incl. Common and Public Garden, 72.65 acres) land and construction (since 1877 when begun) \$12,781,042; of Marine Park System, i. e., 457.9 acres (since 1883), \$5,509,388; of all other parks, playgrounds, etc., \$7,647,051. Total cost, \$25,937,481, of which \$10,192,754 is for land and \$15,744,727 for construction.

The leading attraction of the main park system is Franklin Park (named for Benjamin Franklin), acquired in 1883-84, and containing 527 acres, about 80 of which are occupied by the Zoological Gardens, also 15 miles of walks, 8 miles of driveways, etc., the entire cost up to 1925 being \$4,935,920. There are also within the City limits 964 acres of Metropolitan parks and parkways under State control, chief of which is Stony Brook Reservation in West Roxbury and Hyde Park districts, containing 464 acres of wild forested hill and dale with many rocky knolls and an extensive view of the Charles River valley and beyond.

Number of public indoor baths open all the year, 14; indoor gymnasia, 11; summer beach baths, 9.

Park Department maintenance for 1924 (including Cemetery Div., \$163,908) \$1,646,541 or \$9,661 less than in 1923. Outlay for playground improvements, \$374,246; for park improvements, \$429,743, of which \$233,902 was from Parkman Fund income.

Gross debt for parks, public grounds, etc., outstanding Feb. 1, 1925, \$6,190,800; for playgrounds, \$2,653,500; total \$8,844,300 or \$1,902,000 less than in 1924.

Including the State assessments of \$1,020,907 for Metropolitan parks, boulevards, etc., and \$230,088 for Charles River Basin, also the City's outlay for permanent park and playground improvements, or \$803,989, the total expended for public recreation purposes in 1924 was \$3,537,616.

BOSTON EXPORTS AND IMPORTS, 1924.

For Mass. Customs District (Boston and eight minor ports) in calendar year, 1924, the total value of exports was \$57,355,646 or \$5,197,538 more than in 1923; of imports, \$253,851,533 or \$53,436,899 less than in 1923; total foreign trade, \$311,207,179 or \$48,240,061 less than in 1923. Boston's total foreign trade for year 1924 ranked sixth among American ports, New York, Galveston, New Orleans, Seattle and San Francisco exceeding the former in value. As to imports alone, Boston ranked third, Seattle taking second place, and as to exports alone, 18th (the unusual decline in exports due largely to discrimination against Boston in through railroad freight rates). Tonnage of vessels in foreign trade in year 1924, entered 3,927,437; cleared, 2,347,385; number of vessels entered, 1,553; number cleared, 1,046.

For the fiscal year ending June 30, 1925, the total imports at Boston reached \$301,447,000 in value, restoring this port to its accustomed rank of second.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Lenoxdale avenue, bounded:

Northerly by easement taken by the City of Boston for sewerage purposes September 29, 1925, six feet; easterly by another part of Lenoxdale avenue, forty-six and 77-100 feet; southerly by the same, six feet; and westerly by the same, forty-six and 77-100 feet, containing two hundred and eighty-one square feet, more or less.

The sewerage works to be constructed are as follows: 45 linear feet of 10-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Lenoxdale avenue, leading southerly from easement taken September 29, 1925, for a distance of about 46 feet.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on the easterly side of Lenoxdale avenue, designated as Lots 1 and 2 on the plan hereinafter referred to, and the lot of abutting land on the westerly side of Lenoxdale avenue, designated as Lot 3 on said plan, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 716, Sewerage Works, Lenoxdale Avenue, Dorchester, October 13, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the land for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said City; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Stratford street, bounded:

Northeasterly by Woodward road, twelve and 25-100 feet; southeasterly by another part of Stratford street, sixteen and 64-100 feet; northeasterly by the same, by five measurements, two hundred and 32-100 feet, two hundred feet, two hundred sixty and 91-100 feet, forty-eight feet and one hundred and seventy-five feet; southeasterly by another part of said street, ten feet; southwesterly by the same, by four measurements, one hundred seventy-five and 92-100 feet, two hundred sixty-one and 77-100 feet, one hundred ninety-nine and 63-100 feet and two hundred four and 86-100 feet; and northwesterly by another of said street, twenty-eight and 56-100 feet, containing eighty-six hundred and eighteen square feet, more or less.

A parcel of land, owners unknown, being part of the private way known as Woodward road, bounded:

Southwesterly by Stratford street, twelve and 25-100 feet; northwesterly by another part of Woodward road, by three measurements, forty-nine and 18-100 feet, one hundred twenty-four and 12-100 feet and one hundred fourteen and 99-100 feet; northeasterly by West Roxbury Parkway, fourteen feet; and southeasterly by another part of Woodward road, by four measurements, twenty-six and 91-100 feet, eighty-two and 38-100 feet, one hundred twenty-three and 50-100 feet and fifty-three and 97-100 feet; containing twenty-nine hundred and nineteen square feet, more or less.

The sewerage works to be constructed are as follows: In Woodward road, 325 linear feet of 10-inch pipe sanitary sewer and 325 linear feet of 10-inch pipe surface drain; and in Stratford street, 810 linear feet of 10-inch pipe sanitary sewer and 815 linear feet of 10-inch pipe surface drain.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of butting land on both sides of Woodward road and the lots of abutting land on both sides of Stratford street, between Woodward road and West Roxbury Parkway, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 713, Sewerage Works, Woodward Road, Stratford Street, West Roxbury, September 22, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

POLICEMEN'S AND FIREMEN'S SALARIES.

The following was received:
City of Boston,
Office of the Mayor, November 8, 1926.
To the City Council.

Gentlemen,—I transmit herewith a communication from the Budget Department in reply to your order of October 25, 1926, requesting certain information concerning policemen and firemen in the ten largest cities of the United States.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Budget Department, November 5, 1926.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—I submit herewith a schedule in response to an order passed by the City Council under date of October 25, 1926, requesting certain information concerning policemen and firemen in the ten largest cities of the United States:

SALARY SCHEDULE OF POLICEMEN AND FIREMEN.

CITY.	Popula- tion.	Mini- mum.	Maxi- mum.

Pittsburgh, Pa.	588,000	1,800	2,040

CLOTHING ALLOWANCE.

Boston is the only large city in the county which furnishes uniforms to patrolmen and privates. Philadelphia makes a cash grant of \$50 a year for both patrolmen and firemen. St. Louis furnishes uniforms, caps and leggings to its motorcycle, mounted and traffic officers of the police force. Cleveland conducts a tailoring shop in which patrolmen can have their uniforms made without charge for the work but they must pay for the material.

CHARLES J. FOX,
Budget Commissioner.

LICENSE TO GULF REFINING COMPANY.

The following was received:

City of Boston,
Office of the Mayor, November 1, 1926.
To the Honorable the City Council.
Gentlemen,—Inclosed find an order licensing the Gulf Refining Company to build a structure over certain land which the Board of Aldermen took for sewerage purposes by an order approved by the Mayor of the City of Boston, June 13, 1895. The Gulf Refining Company was granted a license by an order of the City Council to build over a piece of land taken for sewerage purposes. Said order of the City Council was approved by the Mayor March 26, 1918. The said corporation is now desirous of putting up a new building, having taken the old building down, but the construction of the new building will be somewhat different from that of the older building. The consideration paid for the license granted in 1918 was \$350. It is the opinion of the Commissioner of Public Works that \$350 would be an adequate price.

I recommend the passage of the accompanying order.

MALCOLM E. NICHOLS, Mayor.

Ordered. That his Honor the Mayor be and he hereby is authorized and empowered in the name and behalf of the city, for the consideration of three hundred and fifty dollars, and in form satisfactory to the Law Department to execute and deliver to the Gulf Refining Company, a corporation and owner of the land on the westerly side of Washington street, near Forest Hills Station, conveyed to it by deed recorded with Suffolk Deeds, Lib. 4063, page 605, a license to build a structure over a certain parcel of land taken for sewer purposes by a Resolve and Order of the Board of Aldermen of the City of Boston, approved by the Mayor of said City of Boston, June 13, 1895, all as shown upon a plan on which the proposed structure and its position relative to the land taken for sewerage works are shown, the said plan being dated April 28, 1926, and approved by the Commissioner of Public Works of the City of Boston; reserving to the City of Boston without any liability for damages therefor the right by its officers, agents and contractors at any and all times to enter upon said land taken for sewerage purposes as above stated, to repair and maintain said sewerage works now therein and to construct such new works as said Commissioner of Public Works may from time to time deem proper.

Referred to the Committee on Public Lands.

COST OF INCINERATOR.

The following was received:

City of Boston,
Office of the Mayor, November 8, 1926.
To the City Council.
Gentlemen,—I transmit herewith a communication from the Public Works Department in reply to your order of August 2 in relation to the cost of an incinerator, which will eliminate the dump system of rubbish disposal.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

PENSION SYSTEMS.

All of the cities mentioned in the above list operate pension systems either for the members of the Police Department or the members of the Fire Department or for both departments. While the contributory plan is the prevailing one in these cities, there is no uniformity in the amount and dues paid into the pension funds. The following table indicates briefly the character of the pension systems in the ten cities:

At the present time these sections get better service than any other part of the city.

TRANSFER FOR DORCHESTER COURT.

The following was received:

City of Boston,
Office of the Mayor, November 8, 1926.
To the City Council.

Gentlemen,—I am in receipt of the attached request for a transfer within the appropriations of the County Buildings division of the Public Buildings Department. Under the provisions of this transfer, an additional allowance of \$10,000 is made in the furnishings and fittings item of the budget of this division. This additional allowance is to provide an adequate amount for the furnishing of the new Dorchester Courthouse. At the time of the submission of the Supplementary County budget to your honorable body, it was felt, from information then available, that \$10,000 would be an adequate sum and this amount was included in the budget. Since the passage of this document, however, it has developed that the requirements of the court, as determined by the court officers, will be \$10,000 in excess of the original appropriation. Since it is desirable that a building of the type of the new Dorchester Courthouse should be furnished in a fitting and satisfactory manner, I respectfully recommend adoption of the accompanying transfer order.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to make the following transfer in the appropriations for Public Buildings Department, County Buildings:

From the appropriation for B-39, General Plant, \$7,000; A-1, Permanent Employees, Janitors, Watchmen and Laborers, 23 at \$1.50-\$5 per day, \$3,000, to the appropriation for C-7, Furniture and Fittings, \$10,000.

From the appropriation for A-1, Permanent Employees, Firemen, 8 at \$6 per day, \$800, to the appropriation for D-3, Fuel, \$800.

Referred to the Executive Committee.

ADDITIONAL SUM FOR NURSES' HOME.

The following was received:

City of Boston,
Office of the Mayor, November 8, 1926.
To the City Council.

Gentlemen,—I am in receipt of the attached communication from the trustees of the City Hospital, in which it is pointed out that an additional appropriation of \$15,000 will be necessary to provide for unforeseen contingencies which have developed in the excavation work in connection with the construction of the new Nurses' Home. The appropriation voted by the Council early in the year for the construction of this building was just sufficient to permit the awarding of the contract for construction. When the excavation work in connection with the construction of the building was started, certain conditions were found underground which were not anticipated when the original specifications for the work were prepared. Because of these conditions the contractor was required to perform extra work and the additional appropriation requested by the trustees is intended to meet the additional expense occasioned by these unforeseen conditions. Since this was a condition which could not be foreseen in advance, I submit herewith an order providing the necessary sum from the funds received from the sales of city property, and I respectfully recommend adoption of the accompanying order by your honorable body.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Hospital Department, October 28, 1926.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Mr. Mayor,—In connection with the building of the Nurses' Home certain conditions have arisen which unfortunately could not be foreseen, and which will necessitate the appropriation of a further sum of money.

The engineers employed to do the borings, the Charles Gow Company, is one of the most competent engineering firms in the city. When the covered walk leading to the Vose House was removed, it was found that underneath were old concrete walls and foundations which were not shown on any plan of the hospital, and neither the engineers nor the architects understand for what purpose they were originally installed. To go on with the work, it became necessary to blast out these old concrete walls and foundations, and the architects have arrived at the figure of \$2,716 for doing the work, this valuation being established by the unit price named in the contract.

The series of test borings made by the Gow Company indicated the character of the general soil strata under the buildings, but could not define definitely the condition at each point of boring

To the Honorable the Mayor.

I return order of the City Council, as follows: "That the Commissioner of Public Works be requested through his Honor the Mayor, to submit to the City Council the estimated cost of an incinerator which will eliminate the present antiquated and unsanitary dump system of rubbish disposal."

A study of the situation, since the receipt of this order, based on the cost of recent installations in New York City and several other large cities of the country, shows that it would cost about \$4,000,000 to install incinerators in Boston to properly solve the problem. Plants would have to be constructed in the various sections, the costs of which, by districts, would be as follows:

East Boston.....	\$335,000
Charlestown, North and West Ends.....	715,000
South Boston, Back Bay and South End.....	875,000
Brighton.....	335,000
Dorchester.....	715,000
West Roxbury and Hyde Park.....	335,000
Roxbury.....	715,000

Yours respectfully,
J. H. SULLIVAN,
Commissioner of Public Works.

DAILY COLLECTION OF ASHES AND GARBAGE.

The following was received:

City of Boston,
Office of the Mayor, November 8, 1926.
To the City Council.

Gentlemen,—I transmit herewith a communication from the Public Works Department in reply to your order of September 20 in relation to the daily collection of ashes and garbage in the North and West End sections of Boston.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Public Works Department,
November 4, 1926.

To the Honorable the Mayor.

I return order of the City Council "That the Commissioner of Public Works be requested, through his Honor the Mayor, to provide for the daily collection of ashes and garbage in the North and West End sections of Boston."

Garbage from the hotels and restaurants in these districts is collected six days each week, and paper and ordinary rubbish from the large stores are collected twice a week. Household and store collections are made three times a week; that is, in the North End on Mondays, Wednesdays and Fridays, and in the West End on Tuesdays, Thursdays and Saturdays.

The total cost of collection and disposal of rubbish, garbage and ashes in the North and West Ends at the present time is \$157,000, and to give daily collections, as requested by the City Council, would require an expenditure of \$75,000 additional to cover the cost of force and equipment.

required by the structural plans. As the excavation progressed, it was found that the shelving sandy beaches to which we are required to go by the Building Department of the City of Boston, varied in depth, and in some cases were as much as eight feet below the depth given in the boring plans. In other instances suitable soil was found at a slightly higher level than required, but the average was from one foot to three more than indicated, so that it became necessary to add that amount to the caisson piles. The cost for this additional concrete work is \$2,500. This price was established by the unit figure in the contract.

This new building connects with the two existing Nurses' Homes, one built over forty years ago, and the other, the Vose House, twenty years ago. When the foundation of the older of the two Nurses' Homes was uncovered, a heavy, rough rubble stone foundation wall was exposed. This extended into the basement of the new building, so that it became necessary to move the elevator shaft out, offset caissons Nos. 4, 5, 6 and 7, build extra brick walls and steel reinforced concrete columns and brackets, at a total cost of \$3,790. This figure was in part established by the unit price in the contract, and the remainder as the result of a conference of the architects and the builders; and the trustees believe that the sum arrived at is a fair one.

These three items total \$9,006, and the trustees respectfully request that the sum of \$15,000 be appropriated, to provide for this work and for such unforeseen contingencies as may arise in the further development of this work. The trustees hope that it may not be necessary to use any part of this additional sum, but believe that this amount should be appropriated so that it may not be necessary to apply to your Honor again in the immediate future. This sum (\$15,000) was arrived at as the result of a conference of the president of the trustees, Mr. Ritchie and the City Auditor.

On behalf of the trustees I would again like to make clear that it was wholly impossible for any person to foresee these difficulties which have arisen in the furtherance of this project, but this is not unusual in work of this kind where additions are made to old buildings.

Yours respectfully,
JOSEPH P. MANNING,
President, Board of Trustees.

Ordered, That the sum of \$15,000 be and hereby is appropriated from Special Fund, Sales of City Property for Nurses' Home, Additions and Alterations.

Referred to the Executive Committee.

APPROPRIATION FOR PARK IN PARK SQUARE.

The following was received:

City of Boston,
Office of the Mayor, November 8, 1926.
To the City Council.

Gentlemen,—I am advised by the chairman of the Park Commissioners that of the original appropriation of \$300,000 for the purpose of providing a park in the Park square section of the city, that approximately \$292,000 was expended for the purchase of the necessary land, thus leaving only \$8,000 for the construction and development of the park area. This latter amount has proved insufficient to provide for the necessary grading, planting, etc., and in the opinion of the chairman of the Park Commissioners, a further appropriation of \$7,500 will be necessary to complete the work. I therefore submit an order appropriating \$7,500 from the funds received from the sales of city property and I respectfully recommend adoption of this order by your honorable body.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Park Department, October 25, 1926.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—You are respectfully asked to request the City Council to approve of the transfer of the sum of \$7,500 from Sales of City Property, Special Fund, to the special loan appropriation "Park, Park Square District."

The reason for this request is that of the appropriation of \$300,000 made for the purpose of providing a park in Park square the sum of \$292,050 was awarded for the purchase of land, leaving a balance of \$7,950 for the development of same. We are anxious to have this work completed as soon as possible and the approximate sum of \$15,500 will be necessary for grading, planting, etc.

Yours respectfully,
WILLIAM P. LONG, Chairman.

Ordered, That the sum of \$7,500 be and hereby is appropriated from Special Fund, Sales of City Property, for Park, Park Square District.

Referred to the Executive Committee.

PENALTY CLAUSE IN STREET CONTRACTS.

The following was received:

City of Boston,
Law Department, October 29, 1926.
To the Honorable the City Council.
Gentlemen,—In accordance with the following order, passed October 25, 1926, it was ordered:

"That the Corporation Counsel of the City of Boston advise the City Council with reference to street contracts let out by the Public Works Department, what if any valid, legal, objection there may be to the inclusion of a penalty provision in such contracts which will insure completion of work by the contractor in each case within reasonable time limits."

I advise you that there could not legally be included in said contracts a penalty provision but there could be a provision for the completion of the contract within a stated time and there could be a further provision that in the event of the non-completion of the contract within the time stated the contractor should be obliged to pay as liquidated damages a certain specified amount. Whether any such stipulation should be included in the contract is a matter for the Public Works Commissioner with the approval of the Mayor to determine.

Yours very truly,
FRANK S. DELAND,
Corporation Counsel.

Coun. DOWLING—Mr. President, in connection with that matter, I desire to make a very brief statement. The contracts awarded by the Public Works Department at the present time do have in them a clause requiring the work to be completed within a certain time, and that does not always operate to the advantage of the city or to the advantage of members of the body who may be interested in orders for the laying out of streets in their particular district. I have in mind a street in my own district, which I asked to have accepted and laid out as a public way, which was the first street, I believe, passed upon by the Street Commissioners. It went through the ordinary channels,—the Mayor's office, Law Department, and so on,—consuming a lot of time. A great deal of time was wasted, in my judgment, in carrying out the final provisions of the order, and I asked Saturday in regard to the time when the street might possibly be completed. The street has been torn up and the underground work has been done, leaving the street in worse condition than ever for the time being. At present, the street is in worse condition than it was when I asked that it be accepted. Teams cannot get through the street, and those occupying houses on the street, some of whom have been there for thirty-five years, have great difficulty in getting in and out of the street. They have the joy of having an underground drain that they cannot see, which may be carrying off some of the excess water, but the street is in deplorable condition today. The contract for putting in the macadam or bitulitic pavement on the street has been awarded, I believe, to a man named Matteo, and the provisions of the contract call for the completion of the work by June 30, 1927. Matteo, I am told, has so much work that he cannot complete the job this year. I saw by the *City Record* this past week that, although Matteo was the lowest bidder on another piece of work, the Public Works Department decided not to give him the contract because it had already appeared that he would be unable to do work he has already undertaken. In other words, he has in hand too much work. That does not conflict a great deal with the opinion rendered by the Law Department, but it does show that, no matter what the conditions of the contract may be, the contractor will still act according to his own sweet will, frequently to the great disadvantage of people interested in these street improvements.

REPORT ON STREET CONSTRUCTION.

The following was received:

City of Boston,
Office of the Mayor, November 8, 1926.
To the City Council.

Gentlemen,—I transmit herewith a communication from the Public Works Department in reply to your order of October 25, 1926, relative to streets filed with that department, etc.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Public Works Department, November 6, 1926.
To the Honorable the Mayor.

Herewith list of streets as per order of the City Council dated October 25, 1926. Of the thirty-one streets laid out in 1925, these are now under construction and eleven have been completed this season, 1926.

In addition, Cambridge street and Court street, have been completed and Tremont street, Stuart street, to Arlington square, will be open to the public very soon.

The present year, up to date, the Board of Street Commissioners have ordered the laying-out and construction of thirty-three streets. Of this list fifteen are under contract and in process of construction and contracts have been awarded for sewerage works in twenty-one, ten of which have been completed and eleven nearing completion. Service drains were also built this year in Lorna road and Maple avenue, two streets laid out in 1924.

The Board of Street Commissioners are holding hearings in numerous petitions for new streets which will result in further laying out of streets during the next few months.

Yours respectfully,
J. H. SULLIVAN,
Commissioner of Public Works.

REQUEST FOR DATA ON BUDGET.

Coun. HEFFERNAN offered an order—That his Honor the Mayor and all department heads through his Honor the Mayor, be requested, at the same time they submit estimates for the 1927 budget to the Budget Commissioner, to forward twenty-two copies of such estimates to the Boston City Council; and also to submit to the Boston City Council, at the same time as they are submitted to the Budget Commissioner, twenty-two copies of all schedules of proposed increases in salaries, showing the names of each employee, their present wage, amount of proposed increase, and when they last received an increase in salary.

Referred to the Executive Committee.

DAY LABOR ON STREETS.

Coun. HEFFERNAN offered an order—That his Honor the Mayor be requested to appoint an unpaid commission of five members to conduct a study of the advisability of the City of Boston discontinuing the cleaning and repairing of streets, and the removal of garbage and refuse, by contract award, and instead, having this work done by employees of the Public Works Department; said commission to submit a report in the premises to the Boston City Council on or before January 15, 1927, and to consist of one member nominated by the Boston Chamber of Commerce, one member nominated by the United Improvement Association, one member nominated by the Boston Central Labor Union, and two members of the Boston City Council.

Referred to the Executive Committee.

EMPLOYMENT OF TEMPORARY MEN.

The following was received:

City of Boston,
Office of the Mayor, November 8, 1926.
To the City Council.

Gentlemen,—I transmit herewith communication from the Public Works Department in reply to your order of October 18 in relation to various questions relative to employment of 150 men for period of sixty days, etc.

Yours very respectfully,
MALCOLM E. NICHOLS, Mayor.

November 3, 1926.

To the Honorable the Mayor.

I return herewith order of the City Council dated October 18, 1926, requesting the Mayor of Boston to attend a meeting of the Council for the purpose of answering several questions:

(1). Q. Has the request of the City Council under date of October 4, 1926, relative to employment of 150 men for a period of sixty days been acted on?

A. No. For the reason that it is not considered expedient. The division engineer of the Sanitary and Street Cleaning and the Paving Services, also the several foremen of these respective services, report conditions, with the exception of leaves, as satisfactory. The reports covering the city proper are that the streets are receiving daily attention in some sections, and from one to three cleanings per week in others. In addition patrolmen and stationmen are located to care for special locations. In the Dorchester, West Roxbury and Brighton districts, where the cleaning is an activity of the Paving Service, cleaning is not so frequent, but is given attention as often as the foreman, in his opinion, considers it necessary. However, the consensus of opinion is that the streets are in better condition as regards cleanliness than they have been in previous years. There might be some areas in these sections that, owing to leaves and litter, do appear somewhat objectionable, but even these do not warrant the employment of 150 men inasmuch as the present force has the matter well in hand, and the conditions will be cared for as in the past with the force now employed in these several districts.

(3). Q. State what funds are available under this year's budget for employment of laborers in Public Works Department for the balance of this year.

A. Highway Division:

Estimate deficit..... \$17,000
A-1. Estimate balance..... 42,000
A-2. Temporary estimate balance..... 24,000

In connection with this item, there are fifty chauffeur-teamsters and fifty laborers to be selected from a list submitted by the Civil Service Commission.

(4). Q. State the number of employees in the Street Cleaning Department, and Paving Divisions on January 1, 1926; on October 1, 1926, and January 1, 1926, also showing what districts said men are assigned to.

Comparing the situation as to the employment of help with other years, I might state for information that in October, 1925, 80 temporary men were employed; in November, 1925, 18 men; January, 1926, 40 men and in March, 1926, 12 men were employed making a total of 150 temporary men put on the pay roll within a period of five months. The bulk of this number of men ceased their employment with the city during the first week of March, 1926. Since March, 1926, we have employed temporary help in connection with draw-tenders in the Ferry Service for vacations, etc., and the same thing applies to some men employed in the Engineering Force of the Public Works Department. No great number of laborers have been employed this summer or fall.

It is probable that we may be asking for some additional help during the present month inasmuch as the ashes and garbage are increasing in quantity and the new trucks will have been delivered before the end of the month, and I feel that it will be necessary to have some additional help to man the trucks used in the collections in the several districts. Furthermore, in connection with the street cleaning proposition, there is an order for four pick-up street sweeping machines, one each to be located in the outlying districts such as Dorchester, West Roxbury, Brighton and South Boston. The addition of these machines will add materially to the cleanliness of the streets inasmuch as they will remove the material and carry same to the dump without rehandling or the employment of additional help.

Respectfully,
J. H. SULLIVAN,
Commissioner of Public Works.

Assigned to the next meeting, on motion of Coun. HEFFERNAN.

HOLIDAY FOR VETERANS ON ARMISTICE DAY.

Coun. MAHONEY offered an order—That the heads of departments be authorized to allow all employees of the City of Boston and County of Suffolk, who served in the armed forces of the United States in any war, and who participate in the parade and celebration Armistice Day, November 11, 1926, a holiday without loss of pay.

Passed under suspension of the rule.

SIDEWALK, MASSACHUSETTS AVENUE.

Coun. DOWD offered an order—That the Commissioner of Public Works make a sidewalk along 983 to 1003 Massachusetts avenue, Ward 8, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

REPAVING WEST SELDEN STREET.

Coun. WRAGG offered an order—That the Commissioner of Public Works be requested through his Honor the Mayor to repave West Selden street, Ward 18, from Morton street to Crossman street with a smooth pavement.

Passed under suspension of the rule.

INCREASED WAGES FOR WARD PORTERS.

Coun. WARD offered an order—That the Board of Trustees of the Boston City Hospital, through his Honor the Mayor, be requested to include in the budget for the year 1927 a provision for an increase in the wages of ward porters at the Boston City Hospital from \$19.50 weekly to \$25 weekly.

Referred to the Executive Committee.

PROPOSED STATUE TO THOMAS JEFFERSON.

Coun. WARD offered the following—Whereas, The City of Boston never has honored Thomas Jefferson, author of those enduring challenges to tyranny and oppression of every ilk, namely, the Declaration of Independence and the Bill of Rights with a suitable memorial, and

Whereas, Alexander Hamilton, whose ceaseless striving at the founding of our republic to exalt eternally in our national life mere dollar power above human rights has been so honored with a statue in Commonwealth avenue among those he loved, and

Whereas, To honor Hamilton thus without paying adequate tribute to Jefferson is an omission which no sincere American who loves true human freedom and just government can view with other than humiliation and chagrin, therefore

Be It Resolved, That the Boston City Council most strongly recommends to his Honor Mayor M. E. Nichols that Boston proceed at once to honor herself by honoring Jefferson with a bronze statue, to be erected in Commonwealth avenue, so that residents there, and indeed all our citizenry, may be inspired to reflect upon the lesson of, and stimulated to strive to emulate in kind, Jefferson's noble, immortally glorious effort for improvement of the lot of not only one group of people, but of all Americans and the entire human race.

Referred to the Executive Committee.

INCREASED WAGES FOR SUPERVISORS.

Coun. DONOVAN offered an order—That the Board of Trustees of the Boston City Hospital, through his Honor the Mayor, be requested to include in the budget for the year 1927 a provision for an increase in the wages of supervisors, from \$27 to \$30 weekly with meals provided, or an increase from \$27 to \$35 weekly without meals being provided.

Referred to the Executive Committee.

RECESS.

The Council voted at 3.10 p. m. on motion of Coun. BUSH, to take a recess subject to the call of the President. The members reassembled in the Council Chamber and were called to order by President KEENE at 5.05 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. DOWLING, for the Executive Committee, submitted the following:

1. Report recommending that leave be granted on the following petitions (referred today) for children under fifteen years of age to appear at places of public amusement, viz.:

Florence E. Dolan, Repertory Hall, December 3.

M. Theresa Connell, Recital Hall, November 4. Report accepted; leave granted under the usual conditions.

2. Reports recommending that notices received from the Street Commissioners of hearings on petitions for storage and sale of gasoline (severally referred September 20, October 4, 11 and 18) be severally placed on file.

Reports accepted; said notices placed on file.

3. Report on notice from the Department of Public Utilities of hearing at Room 166, State House, November 17, at 10.30 a. m. on petition of the Edison Electric Illuminating Company of Boston for approval of an issue of additional capital stock—that the same be placed on file.

Report accepted; said notice placed on file.

4. Report on message from the Mayor and order (referred October 18) for appropriation of \$15,000 for courthouse, Dorchester,—that the same ought to pass.

Coun. WILSON—Mr. President, I simply wish to state that I asked several weeks ago that that item be held up until a further order was forthcoming, and I understand that we are to have before us today such an order, providing \$10,000 to ensure necessary furniture and equipment, so that when the courthouse is opened we will have a complete building out there.

Coun. GILBODY—Mr. President, I would like to say further, in view of the fact that the Dorchester councilors are particularly interested in this matter, that I asked the Budget Commissioner about it, and he informed me that the figures submitted by Judge Merritt had been taken.

Report accepted; order passed, yeas 17, nays 0.

5. Report on message from the Mayor and order (referred today) for transfers in the appropriation for County Buildings—that the same ought to pass.

Report accepted, said order passed, yeas 18, nays 0.

6. Report on message of the Mayor and order (referred October 25) appropriating from the Reserve Fund not exceeding \$3,500, to be expended by the Municipal Employment Bureau under direction of the Mayor in the prosecution of its duties—that the same ought to pass.

Report accepted; said order passed, yeas 16, nay, Coun. Dowling, 1.

7. Report on message of the Mayor and order (referred today) appropriating from special fund, sales of city property, \$7,500 for park, Park square district—that the same ought to pass.

Report accepted; said order passed, yeas 17, nay, Coun. Dowling, 1.

8. Report on message from the Mayor and order (referred today) appropriating \$15,000 from special fund, sales of city property, for nurses' home, additions and alterations—that the same ought to pass.

Report accepted; said order passed, yeas 18 nays 0.

9. Report on order (referred today) that his Honor the Mayor be requested to appoint an unpaid commission of five members to conduct a study of the advisability of the City of Boston discontinuing the cleaning and repairing of streets and the removal of garbage and refuse by contract—that the same ought to pass.

Report accepted; said order passed.

JITNEY LICENSE REPORTS.

Coun. WRAGG for the Committee on jitney Licenses submitted reports as follows:

1. Report recommending leave to withdraw on the following petitions:

Boston Elevated Railway Company (referred September 20) to operate motor vehicles for passengers between the junction of Trenton street and White street and Maverick square, East Boston.

Boston Elevated Railway Company (referred September 20) to operate motor vehicles for passengers between the junction of Eagle and Lexington streets and Maverick square.

Boston Elevated Railway Company (referred September 20) to operate motor vehicles for passengers between Maverick square, at Sumner street, and the junction of Chelsea and Putnam streets.

Boston Elevated Railway Company (referred October 11) for license to operate motor vehicles for passengers between Prescott square and Maverick square, East Boston.

The question came on accepting the reports and giving the petitioner leave to withdraw.

Coun. WRAGG—Mr. President, in connection with the report on these four petitions I will say that the committee held a hearing in the large hearing room on the 20th of October, at which there was present a large representative body of East Boston citizens, who protested vigorously against the use of jitney buses in the East Boston district and remonstrated against the tearing up of certain tracks on Lexington street, and so forth. In view of the condition of unrest in East Boston at the present time over the transportation situation, it was the opinion of the committee, at least of those present, that no petition should be granted at least until such time as the trustees of the Elevated and the citizens of East Boston might get together on something in the interest of all concerned. So we have reported as you see.

The report was accepted, and the petitioner was given leave to withdraw.

LOWERING OF ELEVATED TRACKS, EAST BOSTON.

Coun. DONOVAN offered an order—That the Boston Elevated Trustees be requested, through his Honor the Mayor, to lower the tracks of the location of the company in the Bennington boulevard and pave between them, from Day square to Breed square, in order that some of the former beauty of the boulevard, which cost \$800,000, may be restored.

Passed under suspension of the rule.

STATEMENT OF REAL ESTATE ABATEMENTS.

Coun. DOWLING offered an order—That the Board of Assessors, through his Honor the Mayor, be requested to furnish the City Council with a detailed statement of all abatements made on real estate in this city during the current year, such statement to include in every instance the location, by street and ward, the amount originally assessed on each parcel of property where abatements have been made, and the amount abated.

Coun. DOWLING—Mr. President, I have been advised that there has been a wholesale abatement of taxes in some sections of the city, and I personally represent one part of the city on which the burden falls a great deal harder than it does upon other sections. Ward 21, which I have the honor to represent, has a real estate valuation of \$79,176,800. There are only four other wards in the entire city, and those in the business section of Boston where land and real estate values are supposed to be and are extremely high, where this valuation is exceeded. So the ward I represent is the fifth largest tax-paying ward in Boston. I am advised by attachés of the Assessing Department that a house erected in my ward at a cost of \$12,000, and assessed for that amount, would be assessed in your ward, Mr. President,—and I don't want to be personal in this matter,—for \$8,000. If that is true, of course, it is an unfair burden on the people of my district, I have had similar illustrations brought to my attention that do not apply to your ward. There has been no general demand for abatement in Ward 21. We pay our toll there, pay the freight, in larger proportion than is the case in other sections of the city. But if there have been wholesale abatements on real estate and personal property in other sections of the city, I want to know it. I hope, therefore, that the order will pass, and I move a suspension of the rule and passage of the order.

Coun. DOWD—Mr. President, after a comparison of the situation in Brighton and West Roxbury, I must very much disagree with Coun. Dowling. I think West Roxbury has been taxed to the utmost. I know of several instances where the valuation of houses has been raised in amounts varying from \$2,500 to \$7,500 and I don't believe, with all due deference to the President, that he played politics when—

Coun. DOWLING—Mr. President, I did not say and did not mean to imply that the President had played politics, and I hesitated, Mr. President, to use your ward as an illustration. But that happened to be a striking example.

Coun. DOWD—I disagree with what has been said by Coun. Dowling. I say that the President played very poor politics in allowing them to go in there and raise valuations as they did. I believe the assessments show that the valuations in West Roxbury are the highest of any section of the city. I think the proposed action here is ill-advised. I think there are a great many cases where people are entitled to abatements, and I certainly do not think that this order should go through.

President KEENE—The Chair will say, in answer to Coun. Dowling, that in Ward 20 they raised the valuations generally from \$500 to \$1,000 on each house, and we had two or three instances where the valuations were raised more than \$1,500. We have in West Roxbury the one ward in the city where there are more people who own their own homes than rent them. So this action affects a greater number of resident house owners.

The question came on the motion to suspend the rules. The motion was declared lost. Coun. Dowling doubted the vote and asked for the yeas and nays. The Council refused to suspend the rules, yeas 4, nays 13.

Yeas—Coun. Bush, Dowling, Guild, Heffernan—4.

Nays—Coun. Arnold, Donovan, Dowd, Englert, Fitzgerald, Green, Keene, Mahoney, McGrath, McMahon, Ruby, Wilson, Wragg—13.

Coun. DOWLING—Mr. President, I desire to serve notice now that I will ask for reconsideration of the vote at the next meeting.

President KEENE—The Chair must rule that you have no right to do that, that you must move reconsideration now if you intend to do so.

Coun. DOWLING—Mr. President, I move reconsideration and ask that the matter be assigned for one week.

President KEENE—The Chair would state that if no motion is made the order will be referred to the Executive Committee under the rules, as the matter now stands.

Coun. DOWLING—All right, Mr. President, I withdraw the motion. Thank you.

The order was referred to the Executive Committee.

INFORMATION AS TO SCHOOLS ERECTED.

Coun. GREEN offered the following:
Ordered, That the Schoolhouse Commission be requested, through his Honor the Mayor, to furnish the City Council with information as to the number of schools erected this year, the locations of same, and the proposed building program for the year 1927.

Passed under suspension of the rule.

ATTENDANCE AT EDISON STOCK HEARING.

Coun. McGRATH offered the following:
Ordered, That the City Council appoint its president to attend the hearing on the petition of the Edison Electric Illuminating Company of Boston to issue additional capital stock, to be held at Room 166, State House, on Wednesday, November 17, 1926, at 10.30 a. m.

PLAYGROUND WORKERS, SUPERVISORS, AND ASSISTANT SUPERVISORS, CITIES, DECEMBER 28, 1926.

This examination will be for the service of all the cities and towns in the state where these positions are under civil service.

The playgrounds ordinarily are open from April to November. During the school year sessions are usually held after school hours and on Saturdays, and on all days except Sundays during the summer. In the summer the usual salary is from \$15 to \$25 a week. The examination is open to both men and women.

The general duties of playground workers require a knowledge of the interests of children, ability to organize and conduct playground activities and adult recreation. It is desirable that applicants have education, training or experience in physical culture, playground work and physical training of juveniles.

Applicants must be high school graduates.

The subjects of examination with their respective weights will be as follows: Training and experience, 1; practical questions, 1; total, 2. There will be one set of special questions for applicants interested in boys' work, another set for those interested in girls' work, and a combination set for those wishing to qualify for both boys' and girls' work. There will probably also be a supplementary paper for those wishing to qualify as swimming instructor in playgrounds having a pool.

Successful applicants will be required to file a certificate from a reputable physician as to their physical fitness for the position.

Applicants who wish to be certified to positions as playground supervisors should have at least two years' actual experience in playground work.

CIVIL ENGINEERS, DECEMBER 13-18, 1926.

These examinations are for the service of the state, all cities, and such towns as are classified under civil service.

Warning.—Many men fail in the civil engineering examination because they apply for grades for which they are not qualified. It is advisable, therefore, if there is any doubt about the quantity or quality of your experience, to take both the grade for which you think you are qualified and the next lower grade. If you should be found ineligible for the higher grade, you will still have an opportunity to be placed on the next lower grade.

Grade A (1).

Engineering assistants, drafting assistants and rodmen who perform, under instructions and supervision, elementary or apprentice work in the field or office.

It is *prima facie* evidence that a position in Class 27 is not in Grade A if the salary is less than \$900 a year or more than \$1,440 a year.

Qualifications.—Applicants must have completed a high school course of not less than three years or must have had not less than one year of practical experience in field engineering or office work.

Subjects and Weights.—Rodmen.—Experience, 4; mathematics, 6; penmanship, 1; tracing, 3; questions on the duties of the position, 6; total, 20. Assistant Draftsmen.—Experience, 4; mathematics, 6; penmanship, 1; drawing, 9; total, 20.

Grade B (2).

Senior engineering assistants, instrumentmen, and draftsmen (a) who assume responsibility for the execution of definite instructions in a minor division or section of engineering activity; or (b) who direct, under supervision, the operation of minor engineering projects.

It is *prima facie* evidence that a position in Class 27 is not in Grade B if the salary is more than \$1,980 a year.

Qualifications.—If appointed by promotion, not less than one year of service in Grade A. If appointed otherwise than by promotion from Grade A, at least two years of practical experience in engineering work of Grade A character and standard; or such training in civil engineering as is evidenced by a professional degree granted on the completion of a standard course of instruction at an institution or college of recognized standing; or the successful completion of not less than two years' study in such institution plus one year's practical experience in engineering work.

Subjects and Weights.—Instrumentmen.—Experience, 16; penmanship, 2; plotting, 6; questions on duties, 8; mathematics, 8; total, 40. Draftsmen.—Experience, 16; drawing, 10; mathematics, 6; duties, 4; plotting, 4; total, 40.

Grade C (3).

Assistant engineers, assistant civil engineers, and designing engineers (a) who assume responsibility for the direction of surveys, the preparation and examination of, or advice upon, plans, designs and specifications for a minor section of a large engineering or a major section of a small engineering project; or (b) who supervise or inspect the construction or the operation of work on such a project; or (c) who make investigations of, and reports upon, such engineering projects as a basis for a report by an engineering superior.

It is *prima facie* evidence that a position in Class 27 is not in Grade C if the salary is more than \$2,580 a year.

Qualifications.—If appointed by promotion within a department or major division thereof, not less than two years of service in Grade B, or, if appointed otherwise than by promotion from Grade B, within a department or major division thereof, at least five years of practical experience in engineering work, at least one half of which shall have been appropriate to the particular branch of engineering work covered by the position, provided that a degree granted on the completion of a standard course of instruction by an engineering school of recognized standing shall be accepted as the equivalent of three years' practical experience.

Subjects and Weights.—Experience, 10; design 2; mathematics, 2; questions on materials and methods of construction, 3; engineering theory, 3; total, 20.

Grade D (4).

Senior assistant engineers, senior assistant civil engineers, and senior designing engineers (a) who supervise and assume complete responsibility for the work of a main division of an engineering organization involving the direction of surveys and design and construction; or (b) who maintain and operate the major section of a large engineering project; or (c) who make independent investigations of and reports upon engineering projects as a basis for executive administrative, or judicial action; or (d) who take charge of a large engineering department in the absence of the chief engineer; or (e) who give advice on large or complicate engineering projects which may involve the preparation of plans.

It is *prima facie* evidence that a position in Class 27 is not in Grade D if the salary is more than \$3,600 a year.

Qualifications.—If appointed by promotion within a department or major division thereof, not less than three years of service in Grade C. If appointed otherwise than by promotion, within a department or major division thereof, at least eight years of practical experience in engineering work, at least one half of which shall have been appropriate to the particular branch covered by the position, and two years of which shall have been in an executive capacity; provided, that a degree granted on the completion of a standard course of instruction by an engineering school of recognized standing shall be accepted as the equivalent of four years of practical experience.

Subjects and Weights.—Experience, 24; questions on materials and methods of construction, 5; engineering theory, 5; design, 6; total 40.

An applicant must specify the grade for which he applies. Specimen examinations available.

STATE EXAMINERS OF ELECTRICIANS—EXAMINATIONS, 1926.

Examinations will be held at the following points and on following dates:

New Bedford, Tuesday, December 7;
Worcester, Thursday, December 9.

Rules for Examination.

All examinations shall be given in English.

Applicants for Class B or journeyman's certificate must be at least eighteen years of age and have had two years' practical experience, or the equivalent, in the installation of wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Applicants for Class A or master's certificate must be at least twenty-one years of age and have had at least two years' experience in the business of installing wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Examinations shall consist of applicant's knowledge of the national electrical code and practical electrical work.

All persons desiring to be examined, either for a master or journeyman certificate shall have application on file at least ten days previous to the date of such examination.

Applicants for examination will be required to obtain at least 70 per cent in order to obtain a certificate.

Applicants who fail to obtain the required 70 per cent will not be entitled to re-examination until a period of three months has elapsed, and those who received less than 50 per cent, or who failed on the practical demonstration, will not be re-examined for a period of six months.

Any person found referring to notes or books, or misbehaving during an examination, will be debarred from that examination.

Notice will be sent to applicants for certificates when and where examination will be held, and only those so notified will be examined on that day.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for removing manure from the stables and yards in the various divisions of the Public Works Department, between January 1, 1927, and December 31, 1927, and giving bond therefor of a surety company approved by the Commissioner in the sum of two hundred dollars (\$200), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Removing Manure," and left at Room 508, fifth floor, City Hall Annex, Boston, before 12 m. on Wednesday, December 1, 1926, with a certified check for one hundred (100) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price bid appears to the Commissioner to be abnormally high or low, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interest of the city so to do.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common,

Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts; also information relative to Mt. Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Fire Department Headquarters, 60 Bristol street, for all information relative to the erection of poles, the building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. TO Room 906, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

A surface drain of 10-inch earthen pipe and two catch-basins in Pierpont road, between Church street and Theodore Parker road, in the West Roxbury district, at an estimated cost of \$1,500.

A surface drain of 10-inch, 12-inch and 15-inch earthen pipe and nine catch-basins in Russett road, between Weld street and a point 275 feet southeast of Pierpont road, in the West Roxbury district, at an estimated cost of \$8,850.

A sanitary sewer of 10-inch earthen pipe in Realtown road, between Weld street and Willowdean avenue, in the West Roxbury district, at an estimated cost of \$2,140.

SPECIAL PARKING PERMITS REVOKED.

The Board of Street Commissioners, under date of November 12, passed the following vote:

Voted, That all outstanding permits for the standing of vehicles in any highway of the City of Boston, issued by the Board of Street Commissioners, be and the same hereby are revoked, the said revocation to take effect on December 31 of the current year."

With the making of the traffic regulations in the year 1908, the Board, from time to time, issued special parking permits for various purposes, mostly in the interest of private business operations. Government officials in the service of the Nation, the Commonwealth, and the City of Boston, were recipients of permits where they had shown that their duties required the use of automobiles and the standing of the same in public highways for a period of time greater than the traffic regulations permitted. Public service corporations were also given permits for specific purposes, in connection with work which they had to do in public highways.

In eighteen years that the traffic regulations have been in force the Board has issued a total of about 2,300 such permits, an average of about 128 permits a year. Somehow the impression has got abroad that there are many thousands of permits in active use, allowing parking as such, and because of this belief the Board has been subject to criticism. Doubtless there has been abuse of the use of these permits by some individuals. In every case of such abuse, when called to the attention of the Board, the permit has been revoked.

It is the Board's intention still to grant such permits but under different and stricter terms than those heretofore existing. A new form of permit is to be prepared. A definite purpose will be set forth in the permit, and a definite time and place for its use designated. There will also be a definite time fixed in the permit for its expiration.

It has been urged on the Board that permits should not be issued at all. This would not be fair to many business interests. Concessions must be made in proven cases of necessity. The Board has no desire to drive business from the city, and needless harassing of business in traffic matters would have a tendency to this end.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

In the East Boston district I recommend that the award be made to the second lowest bidder, John J. Ward Company, whose bid is \$4,228.78 per month. The Ward Company have been making collections for the past year and the service has been entirely satisfactory.

In the Brighton district I recommend that the award be made to the second lowest bidder, Joseph P. McCabe, at \$6,290 per month. Mr. McCabe has been doing the work for the past year, and his work in this district has been satisfactory.

In the West Roxbury district I recommend that the award be made to the third lowest bidder, John J. Moore, whose bid is \$3,991.50 per month. Mr. Moore has had the contract this year and his work has been entirely satisfactory not only to the officials of the Public Works Department but to the public in general in the district.

In the Dorchester district I recommend that the contract be awarded to D. M. Biggs & Co., the second lowest bidder, at \$18,800 per month. Biggs is

well equipped to do the work. At present he owns seven large trucks, and he proposes to add eight more, and this equipment will be sufficient to take care of the district.

In the Hyde Park district I recommend that the award be made to the second lowest bidder, Thomas E. Bryan, who has had the contract for the past year. His bid of \$925 per month is only \$25 a month higher than the lowest bidder. Mr. Bryan's work has received the commendation of the people of Hyde Park and it has been entirely satisfactory to our district foreman.

SUPPLY DEPARTMENT.

Upon November 19 the Mayor approved a contract as indicated for furnishing snow plows to the Paving Service. A communication from Herbert S. Frost of the Supply Department was as follows:

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Attached please find list of bids on proposals for furnishing fifty (50) blade plows for snow removal use to be delivered to the Paving Service, which were publicly opened and read at this office under date of November 2, 1926.

I respectfully request that permission be granted me to award a contract to the Dyar Sales and Machinery Company, the lowest bidder, for forty-five (45) blade plows at a price of \$185 each, and would also request permission to award a contract for five (5) blade plows to the High Speed Traction Snow Plows at a price of \$325 each, less 1 per cent for payment in ten days.

The Public Works Department has some of the high speed traction plows in operation now which have given a satisfactory performance; and the Commissioner of Public Works feels that he would like to secure a few more, but owing to the great difference in price I am of the opinion that five (5) of these plows are all we should purchase.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

Dyar Sales and Machinery Company, \$185 each*; awarded forty-five blade plows; High Speed Traction Snow Plows, Model E, \$325 each*; Model X, \$190 each; discount, ten days, 1 per cent; awarded five blade plows; the Good Roads Machinery Company, Model 10A, \$225 each; Model 10B, \$265 each; New England Road Machinery Company, \$275 each; discount, ten days, 1 per cent.

*Awarded contract.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do the work with the department forces without advertising; additions to and deductions from contracts.

FIRE DEPARTMENT.

Upon November 22 the Mayor approved a contract with James F. Kavanaugh for repairs and renewals at Engine Company 42 and Ladder 30. A communication from Eugene C. Hultman of the Fire Department was as follows:

BOSTON, November 17, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—I request an extension of the time for the completion of the contract of James F. Kavanaugh for completing repairs and renewals at the quarters of Engine Company 42 and Ladder Company 30, dated August 19, 1926, from November 19, 1926, to December 29, 1926, for the following reasons:

1. Seven days loss of time on account of rainy weather.
2. Fourteen days loss of time on account of labor troubles for which the contractor was not entirely accountable.
3. Apparent error in judgment in naming eighty days, as it would be next to impossible to do the work within that time.

Yours very truly,

EUGENE C. HULTMAN,
Fire Commissioner.

PENAL INSTITUTIONS DEPARTMENT.

Upon November 18 the Mayor approved a contract with the Beaver Construction Company for work on the Old Prison Building, Deer Island. A communication from Philip A. Chapman of the Penal Institutions Department was as follows:

BOSTON, November 17, 1926.
HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Funds having been provided for the work on the Old Prison Building at Deer Island, your approval is respectfully asked to award a contract to the Beaver Construction Company in the sum of twenty-one hundred (2,100) dollars, as per bid opened at this office on October 25, 1926. This was the only bid received.

Yours respectfully,

PHILIP A. CHAPMAN,
Penal Institutions Commissioner.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Upon November 24 the Mayor approved a contract with the Petroleum Heat and Power Company for nine mechanical oil burners at Calf Pasture pumping station. A communication from J. H. Sullivan of the Public Works Department was as follows:

BOSTON, November 23, 1926.
To the Mayor of Boston.

Your approval is respectfully requested to the award of a contract, without advertising, to the Petroleum Heat and Power Company for installing nine mechanical oil burners (three on each of the three boilers) at the Calf Pasture pumping station for the sum of \$3,300.

About three years ago an oil-burning system and new boilers were installed at this station, but on account of the type of burners adopted at the time, considerable trouble and expense have been caused during the past two years. Officials of the Sewer Service and representatives of the Petroleum Heat and Power Company made an investigation last spring, and the Petroleum Heat and Power Company made a proposition to install three mechanical burners, on one boiler, in place of those in use. These burners were to be on trial for six months, from April 22, 1926, free of charge, and if found satisfactory were

to be installed permanently at a price of \$1,100 per boiler.

The burners have proven satisfactory, and your approval is requested for the purchase and installation of the three now attached and three each for the other two boilers, a total of nine burners.

Yours respectfully,

JAMES H. SULLIVAN,
Commissioner of Public Works.

SCHOOLHOUSE DEPARTMENT.

Upon November 20 the Mayor approved a contract with E. Van Noorden Company for repairs to the roof of the South Boston High School. A communication from F. E. Slattery of the Schoolhouse Department was as follows:

BOSTON, November 19, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—The Board of Schoolhouse Commissioners respectfully requests the approval of your honor, under the provisions of section 30, chapter 486 of the Acts of 1909, to awarding a contract, without advertising, to E. Van Noorden Company, 100 Magazine street, in a sum not to exceed \$2,000, for repairs to the roof of the South Boston High School.

The high wind of the night of Tuesday, November 16, blew off a large section of the copper roof over the assembly hall, leaving the building exposed to the weather. This work is of a real emergency character, and should be attended to immediately.

We trust this will meet with your approval.

Respectfully yours,

FRANCIS E. SLATTERY,
Chairman.

SUPPLY DEPARTMENT.

Upon November 20 the Mayor approved a contract with the Henshaw Motor Company for three Dodge cars. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, November 17, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the Henshaw Motor Company for furnishing the following:

One five passenger special Dodge sedan, with full equipment, to be delivered to the Street Cleaning and Oiling Service, delivered \$1,040; less the following cars offered in exchange: one 1925 Ford tudor, \$40; one 1921 Ford roadster, \$20; one 1925 Ford roadster, \$50; one 1923 Buick touring car, \$40—\$150; total, \$890; one Dodge special coupe, with full equipment, to be delivered to the Sewer Service, \$990; one five passenger special Dodge sedan, with full equipment, to be delivered to the Paving Service, \$1,040; less allowance on one 1925 Bay State sedan, \$150—\$890. Net amount of contract, \$2,770.

As this concern is the manufacturer no advantage would be gained by publicly advertising.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

Upon November 23 the Mayor approved a contract with the Boston Buick Company for one Buick Sedan for the Building Department. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, November 19, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is requested to award a contract, without publicly advertising for same, to the Boston Buick Company, Inc., to deliver to the Building Department the following:

One Buick sedan, 1927, five passenger, will full factory equipment, delivered, \$1,712; less allowance on 1926 Buick sedan, \$1,212.—Net amount of contract, \$500.

As this concern is the manufacturer no advantage would be gained by publicly advertising.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

POLICE DEPARTMENT ORDERS.

General Order No. 987.

(Two Copies to all Divisions and Units.)

The Department of Civil Service and registration will hold a competitive examination for promotion to the grade of sergeant in the Boston Police Department, according to the following notice received at this office on November 17:

This examination will be held on December 4, 1926.

1. This examination will be open to the regular patrolmen in the Boston Police Department who have served as such, in accordance with civil service rules, at least five years immediately preceding the date of examination.

2. The subjects of examination with their respective weights will be as follows: Training and experience, 9; report, 3; practical questions on police law, practice and procedure, 8, total, 20.

3. Application blanks may be secured from the Department of Civil Service and Registration Division of Civil Service, Rooms 148-152, State House, Boston. The vouchers on these blanks need not be filled out. When completed, applications should be returned to the civil service office to be placed on file not later than November 27, 1926.

4. Experience sheets will be mailed to applicants about a week in advance of the examination and they will then be notified of the precise time and place of examination.

Persons concerned will notice particularly that applications when filled out are to be returned to the office of the Civil Service Commissioner, State House, Boston, not later than Saturday, November 27, 1926, a week before the date set for the examination.

Commanding officers will promulgate this order not only by reading it at roll call but by posting a copy thereof in a conspicuous and accessible place in each station house, where it may be easily read; and it shall remain posted until after the date of the examination.

Commanding officers will secure a fresh copy from the superintendent, if the posted copy becomes mutilated or destroyed.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

General Order No. 988.

Patrolman John H. Laughlin of Division 4 having arrived at the age of seventy years, and having performed faithful service in the Police Department for forty-five and one-twelfth years, it is hereby

Ordered, His Honor the Mayor having approved the same, that the said Patrolman John H. Laughlin be retired from active service and that his name be placed upon the department pension roll with pay at the rate of one thousand (1,000) dollars per annum, said sum being one half of the amount of compensation received by him in the office from which he is retired, to take effect Friday, November 19, 1926, at 7.45 o'clock a. m.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

General Order No. 989.

Commencing Sunday, November 21, 1926, at 12 o'clock noon, in addition to their responsibility in the covering and maintaining traffic posts on week days, Captain Hoppe, Division 20, and Captain Laffey, Division 21, will be responsible for the covering of traffic posts on Sundays holidays and nights, from 12 o'clock noon until 12 o'clock, midnight, according to the following schedule:

Captain Hoppe, Divisions 1, 2, 4 and 15.

Captain Laffey, Divisions 3, 5, 9, 10 and 16.

Captains commanding Divisions 6, 7, 11, 12, 13, 14, 17, 18 and 19, will assume, take care of and be responsible for the covering of traffic posts on Sundays, holidays and nights, in addition to the covering of said posts on week days.

For assignments on short details, consisting of from one to two hours, either on fixed or temporary posts, captains of respective divisions will assume the responsibility, after having consulted with the traffic division commander whose officers cover other regular fixed posts for longer periods on their respective divisions.

For the present Traffic Divisions 20 and 21 will not be kept open on Sundays, holidays or nights.

The captain of traffic divisions will equalize the work of traffic officers on night duty. The first group doing this duty will be kept on Sunday, holiday and night duty for a period of one month. All members will be treated equally in receiving one day of relief in seven, and when they perform duty on a holiday they will be entitled to one extra day of relief, either before or after the holiday upon which they work.

Traffic men, while on duty, will report at the station to which they are assigned at least one half hour before going on duty. When their tour of duty is finished, they will again report at their respective stations, to be checked on the detail book, which will be kept by the commanders of the divisions to which they are temporarily assigned, and in red ink, so that they will not be carried as part of the regular number of officers to be accounted for in the particular division to which they have been so temporarily assigned.

All assignments to special duty Sundays, holidays and nights will be kept as a matter of record in the detail book of the respective traffic divisions. Men assigned to this particular duty will make arrangements so that their "rubbers" may be kept in a safe place in the station house to which they are assigned or in some building nearby their respective posts, to be used in case of storm.

Captains of traffic divisions will each assign a lieutenant and a sergeant to visit each man on is post during his tour of duty, as often as practicable, from 12 o'clock noon to 12 o'clock midnight, the hours of each to be fixed by the captains.

For the use of the lieutenant and sergeant, the Ford touring car of each traffic division will be provided.

Commencing Monday, November 22, 1926, and thereafter, the commanding officers of Divisions 20 and 21 will call

the roll at 7.45 a. m., at which time all officers will be present and after roll call will promptly proceed to their traffic posts.

Division commanders will see that all traffic officers are properly relieved at the expiration of their tour of duty, and in ample season, so that there will be no period of time when a traffic post is uncovered.

Thus, the flow of traffic may be continuous.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

FORMER RESIDENCE FOR PARK HEAD TO BE RAZED.

Mayor Nichols announced on November 22 that he had directed the Park Commissioners to demolish the house in Franklin Park, formerly used as a residence for the superintendent. This house has been standing for about seventy-five years and has reached such a state of dilapidation that it would cost about \$9,000 to put it in shape and under the circumstances, His Honor the Mayor did not think that the property warranted such an expenditure.

ADDITIONS TO CONTRACTS.

LIBRARY DEPARTMENT.

Ingalls and Kendrickken, Inc., have been allowed the following additions to the contract for additional sections to be installed in boiler at Brighton Branch Library in the sum of \$815, as follows:

Give all notices, and take out all permits required by law, paying all charges therefor; take out all insurance required, and be responsible for injury to persons or property during progress of the work.

Increase present boiler from ten to fourteen sections, with all necessary changes in construction as specified; provide and install new 2½-inch Massachusetts District Police pop safety valve. Furnish new set of firing tools. Make all piping connections, and properly cover boiler and piping after proper cleaning and testing of work; the certificates of inspection and approval of work from the state and city authorities are to be secured.

Preliminary work is to be begun at once, but interference with use of the boiler is to be deferred until the last moment possible, actual work on the boiler to be done between noon of a Saturday and 9 a. m. of the Monday following if so directed; entire job, including all tests, to be completed within eighteen days from receipt of acceptance of proposal.

On completion of the work the contractor shall furnish bonds, with sureties satisfactory to the city, in the sum of \$300, guaranteeing the work against poor material and workmanship. The policy shall date from the date of acceptance of the work and be for two years.

PENAL INSTITUTIONS DEPARTMENT.

Roy B. Rendle & Co., Inc., have been ordered to perform the following work in addition to contract: Additional shoes to the approximate amount of \$2,000 in addition to contract for bulkhead at Deer Island, making the contract as follows: Contract price, \$6,610; total additions, \$3,000; amount of contract, \$28,610.

FIRE DEPARTMENT ORDERS.

General Order No. 80.

I. MEAL PERIODS.

His Honor the Mayor having approved the request of the Fire Commissioner, members of the department who are performing a 24-hour tour of duty on Thanksgiving and Christmas Days will be granted one meal period of two hours. Company commanders will arrange these meal periods as conveniently as possible for the men, but the strength and efficiency of the company must be maintained.

Members who are on duty from 8 a. m. to 6 p. m. may be granted meal periods on condition that members working opposite them on the 6 p. m. to 8 a. m. shift substitute for them while they are absent.

By order of Fire Commissioner Eugene C. Hultman.

DANIEL F. SENNOTT,
Chief of Department.

DAMAGES AWARDED.

The Mayor has approved the following vote of the Board of Street Commissioners:

Whereas, An award of \$20,900 for the taking of an easement for highway purposes in 579 square feet of land from Shepard Brown *et al.* for the widening and relocation of Kneeland street, was made to said Shepard Brown *et al.* under the order for said improvement dated October 26, 1925; and

Whereas, Said sum (\$20,900) was accepted by said Shepard Brown *et al.* not in full satisfaction of all damages so sustained but as payment *pro tanto* without prejudice to any right to have the remainder of said damages, if any, assessed by the appropriate tribunal; and

Whereas, Said Shepard Brown *et al.* petitioned the Superior Court for a jury to determine said damages in excess of the amount (\$20,900) so awarded, accepted and paid; now, therefore, it is

Voted, After consultation with the Law Department and on its advice, that additional damages in the amount of \$4,100 flat be and the same hereby is awarded to Shepard Brown *et al.*, and it is further ordered that the Corporation Counsel agree to judgment in said case on the terms herein stated.

ACKNOWLEDGES SWORD GIFT.

Mayor Nichols received the following letter on November 19 from G. O. Noville, of the Byrd Arctic Expedition, in acknowledgment of the sword presented to him.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

MY DEAR SIR,—Words fail me in my appreciation of the sword so generously presented to me by the citizens of Boston. It is a gift which I shall treasure highly for the remainder of my life as commemorative of the patriotic and generous spirit of the people of Boston.

It is a fitting decoration for the uniform to which it belongs, and an expression of interest of Boston in any endeavor which tends to make "America First." It seems to me my small part in the success of the Byrd Expedition does not merit any such great appreciation. Nevertheless, I am proud to be the recipient of the honor you have so graciously conferred upon me.

Again I thank you, personally, and your fellow citizens.

Very sincerely yours,

G. O. NOVILLE,
Flight Engineer,
Byrd Arctic Expedition.

EXTRA WORK UNDER CONTRACT.

Central Construction Company have been directed to perform the following extra work under contract for repairing bituminous pavement in any street upon which the maintenance guaranty has expired. Items ordered: Excavate and grade the existing macadam roadway on Cliff street, Roxbury, between Washington street and Warren street, to the sub-grade for a 3-inch asphalt pavement, where directed. To be paid for by force account. Although this is in addition to the work contemplated in the original contract, it is incidental thereto. Estimated cost of extra work, \$400.

Henry F. Malley has been directed to perform the following extra work under contract for constructing artificial stone sidewalks in Aldie street, Farrington avenue, Louis Prang, St. John and Elton streets. Items ordered: Construct artificial stone sidewalks in Aldie street (north side), from Franklin street to Everett street, Ward 22. Prices to be paid the same as those bid for similar work in the contract. Although this is in addition to the work contemplated in the original contract, it is incidental thereto. Estimated cost of extra work, \$2,000.

BETTERMENTS DECISION.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That in the matter of the Walton Lunch Company, petitioner for abatement of betterment assessments determined by an order of the Board of Street Commissioners of January 30, 1924 (Lot 13, \$2,500; Lot 14, \$2,500), after consultation with the Law Department, and on its advice, the Board agrees to the payment of \$5,000 without interest in settlement of said betterment assessments; and consents that the Corporation Counsel agree to judgment in said case on the terms herein stated.

CLAIMS ALLOWED.

The Mayor, upon recommendation of the Corporation Counsel, has approved the following claims:

Adams Pond Company, 568 Columbia road, in the sum of \$30, as refund of fee deposited with the Building Department with plans for alteration of 26 Museum road, said plans not being used, as contract was awarded to someone else.

Norris Drug Company, 291 Huntington avenue, in the sum of \$2, as refund for overpayment to the Licensing Board for liquor license, and fee having been paid twice through error.

LAMP FOR FULDA AND HIGHLAND STREETS.

The following was received:

City of Boston,
Office of the Mayor, November 11, 1926.
To the City Council.

Gentlemen,—I transmit herewith a communication from the Public Works Department in reply to your order of November 9 in relation to the installation of an arc lamp at the corner of Fulda and Highland streets, Roxbury.

Very truly yours,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Public Works Department, November 9, 1926.
To the Honorable the Mayor.

I return order of the City Council relative to the installation of an arc lamp at the corner of Fulda and Highland streets, Roxbury, and report that this section is outside of the arc lamp district. However, as the section is covered by gas lamps, we have ordered one located at the corner of these streets.

Yours very truly,
JAMES H. SULLIVAN,
Commissioner of Public Works.

Placed on file.

APPROPRIATION FOR HOUSE OF CORRECTION.

The following was received:

City of Boston,
Office of the Mayor, November 15, 1926.
To the City Council.

Gentlemen,—The population at the Deer Island House of Correction has exceeded for practically the entire year the estimates under which the original allowances for this institution were made. For this reason it appears that the unexpended balance remaining in the food item of the institution's budget will not be sufficient to meet the demands for the balance of the year. In the opinion of the Penal Institutions Commissioner approximately \$7,500 additional will be required and I respectfully recommend that this sum be appropriated from the income secured from the various industries conducted at the island. I submit herewith an appropriation order for this purpose.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

Ordered, That the sum of \$7,500 be and hereby is appropriated from the income of item for Machinery and Materials for Manufacturing, House of Correction, to Item D-2, Food and Ice, House of Correction.

Referred to the Executive Committee.

TRANSFER, CONSERVATION BUREAU.

The following was received:

City of Boston,
Office of the Mayor, November 15, 1926.
To the City Council.

Gentlemen,—Under date of October 25, 1926, your honorable body passed an order providing for the transfer of the activities of the Conservation Bureau from the Institutions Department to the Health Department. In order that the unexpended balance remaining in the original appropriation for the Conservation Bureau might be made available for expenditures under the appropriations of the Health Department, I respectfully recommend adoption of the accompanying order providing for the transfer of this balance.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Institutions Department, Conservation Bureau, G-2, Special Investigations, \$7,797.46, to the appropriation for Health Department, G-2, Special Investigations, \$7,797.46. Referred to the Executive Committee.

TRANSFERS FOR PUBLIC WELFARE DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, November 15, 1926.
To the City Council.

Gentlemen,—I am in receipt of the attached request for additional appropriations under two items in the budget of the Public Welfare Department. According to the opinion expressed by the Board of Overseers in this communication, the disbursement policy of this department for the balance of the year will require approximately \$200,000 in excess of the funds now available.

The current budget allowances of the Public Welfare Department under Items F-9, Care of Dependents, and F-10, Mothers' Aid, were arrived at only after an intensive study of the disbursements of the department under these items for the past three years. The average monthly expenditures under the two items involved for the past three years is indicated in the following table:

	1923-24.	1924-25.	1925.
F-9, Care of Dependents.....	\$14,842 12	\$61,885 58	\$72,864 82
F-10, Mothers' Aid.....	60,133 47	58,151 16	57,703 96

Feeling that the disbursements for 1925, which represented the highest figures in the history of the department, might reasonably be expected to represent the peak load, it was estimated by the Budget Commissioner and myself at the beginning of this financial year that an allowance based on an average monthly expenditure of \$75,000 under Item F-9, and \$60,000 under Item F-10, would be sufficient to meet the disbursement demands of the department. Based on these figures, the total allowance of \$1,625,000, an amount \$67,000 under the total departmental estimate, was provided in the budget. The additional amount now requested is thus \$133,000 in excess of the original estimate of the department.

Relief of the needy is an economic obligation of the city. It is evident that under the disbursement policies now in effect the available funds will not be sufficient to meet the requirements for the balance of the year. The overseers admit that it may be possible to keep the deficit in their department under the amount requested. For this reason I feel that at this time the total amount requested should not be provided. I accordingly submit herewith two orders providing for the transfer from available sources of \$150,000 to the budget of the Public Welfare Department. I respectfully recommend adoption of these orders.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Overseers of the Public Welfare,
November 8, 1926.

Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—In accordance with your circular letter No. 3 the Board of Overseers of the Public Welfare respectfully submits the following information.

We have a balance of \$35,744.82 available under F-9, Dependent Aid, November 1, 1926. We will have a probable deficit of \$190,000 under this item.

We have a balance of \$118,472.13 available under

F-10, Mothers' Aid, November 1, 1926, and will have a probable deficit of \$10,000 under this item total deficit under both items of \$200,000.

The demands upon the department for relief work have been this year exceedingly heavy due, in some measure, to unemployment but more particularly because of the fact that there is a tendency for private charitable organizations to refer more families to us for public relief than in past years. We have noted this tendency for the last two or three years but, apparently, it is a burden that the city must accept.

It has also been the policy of the Board of Overseers, during the past three years, to allow larger grants to our aged applicants and in a great number of these cases the Board is now allowing \$5 and \$6 a week in place of \$3 a week, which was allowed prior to three years ago.

The Board will, of course, make every effort to keep the deficit for this year as low as possible. Will you kindly make provision to supply the funds necessary to carry on the work for the remainder of the year.

Very truly yours,
SIMON E. HECHT,
Chairman.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Reserve Fund, \$100,000, to the appropriation for Public Welfare Department, Central Office, F-9, Care of Dependents, \$100,000.

Ordered, That under authority of chapter 261 of the Acts of 1893, the City Auditor be and hereby is authorized to transfer:

From the appropriation for Soldiers' Relief Department, F-8, State and Military Aid, Soldiers' Relief and Burials, \$50,000, to the appropriation for Public Welfare Department, Central Office, F-9, Care of Dependents, \$50,000.

Referred to the Executive Committee.

CONFIRMATION OF EXECUTIVE APPOINTMENTS.

Chairman GILBODY called up, under unfinished business, the following:

Action on appointments submitted by the Mayor, November 8, 1926, viz.:

1. Louis Cohen, Arthur E. Connor, Marcus Witkowsky, George F. Oliver, Isadore Samosteur and Harry A. Bixby, to be Constables.
2. Max Milder and B. M. Longhead to be Weighers of Coal.
3. Charles Creteau, Louis W. Boyer, Michael Mangiortodi, James Mattaccia, Nicholas Progenti, Damino Grieco, Benjamin Waldman, William L. Nason, George M. Kincaid and Joseph H. Griffin, to be Weighers of Goods.

The question came on confirmation. Committee, Coun. Freely and Englert. Whole number of ballots 17, yeas 17, and the appointments were confirmed.

EMPLOYMENT OF TEMPORARY MEN.

On motion of Coun. HEFFERNAN, the Council took up assignment, No. 4 on the calendar, viz.:

4. Message and communication relative to employment of temporary men in the Public Works Department, with statistics as to street cleaning.

Coun. HEFFERNAN—Mr. President, the more orders that go through this body and the more replies that come back from the Mayor's office, the more I realize that, so far as securing accomplishment is concerned, efforts originating in this Council are more or less hopeless. But I cannot help answering the reply sent in to the Council last week by the Mayor, under this order. He furnishes certain very interesting information as to street cleaning conditions in this city. Under question No. 1 he says that the streets of Boston are in good condition, and that there is no need of putting on 150 men to clean the streets of this city. He points out that in Dorchester, West Roxbury and Brighton there are no regular street cleaning forces but that the paving and street cleaning are handled by the one force, and it is left entirely to the foreman of the district, where he has any leisure time, to clean the streets. I notice, in the figures quoted for men in the different sections, that the table shows for the Brighton section on January 1, 1925, a total of fifty-six men, and on October 1 of this year, with a growth of streets to the extent probably of at least 15 per cent, a total of fifty-seven men, or an increase of one man in two years. I have checked up on the actual figures of men in the Brighton district at the present time, and I find that today, in the district, for both paving and street cleaning, there are thirty-nine laborers, nine mechanics and two engineers. Of those thirty-nine laborers, six are drivers, two teamsters, three stablemen, and one yardman, and four are used on crossings. So we finally get down to but twenty-three men left for the actual paving and street cleaning in a section that has about seventy to seventy-five miles of streets at the present time. In addition to taking care of streets, that same crew this year laid out Sutherland road, Foster street, Lanark road, and Wallingford road in that section, and while those crews were working on those streets they had no men available for work in other parts of the district. I do not question the amounts that other sections receive, but I do notice that in downtown Boston, the business district, the total appropriation for street cleaning alone was \$464,000, or close to half a million simply for street cleaning in the city proper, while in Brighton for street cleaning and paving we got but \$17,000. I have no grievance with the business man of Boston who probably lives out in one of the suburbs and has the street in front of his place cleaned every day; but I do say that the taxpayers of Brighton, South Boston, West Roxbury and Dorchester, have as much right to have their streets cleaned as do the business men in downtown Boston. And I say that when the Mayor says the streets of Boston today are in proper condition, somebody has been misrepresenting the facts to him, because I know in my own section, after the dropping of the leaves in the fall, the streets have not been cleaned for over a year, except in one or two instances, and the fact that many of the streets are in no worse condition than they are is because the people who live on them do everything in their power to keep them as clean as possible. I cannot help, either, calling attention to the fact that under this administration anybody who even casually observes the situation must see that there have been only three accomplishments to date, first, an increase in the tax rate; second, an increase in assessments; and third, an increase in the Mayor's salary.

The message and communication were placed on file.

CONTROL OF BUDGET EXPENDITURES.

Coun. PARKMAN offered the following:
Ordered, That the Chair appoint two members of the Council as a committee to confer with his

Honor the Mayor, the City Auditor, the Budget Commissioner, and the Superintendent of Supplies with a view to providing by ordinance or otherwise for an effective control of expenditures in all city and county departments, in accordance with the intent and terms of the annual budget and appropriation bill, and

That the said committee report the result of such conference, together with its findings and recommendations, not later than the first meeting of the Council in the year 1927.

Coun. PARKMAN—Mr. President, from my brief acquaintance with the workings of the city budget under the present city charter and the existing ordinances, it strikes me that there are two very serious defects. One, to which Coun. Heffernan's order of last week was directed, is that the Council has no opportunity under the charter to participate in the making up of the budget, and does not in fact see the budget until several months after the beginning of the city's fiscal year. At that time the Council is annually rushed into a hurried passage of the budget and appropriation bills under a real or fancied pressure of a stringency of funds in the various departments with which to carry on the daily work, and we are told every year that we cannot give the consideration to the budget which is expected of us because otherwise we will tie up and hamstring the most essential functions of the city. This condition is now more aggravated than ever before, owing to the advancing of the date of beginning the city's fiscal year from February 1 to January 1, since under existing legislation we must wait for the Legislature to fix our tax limit for us, and as it does not meet until January it is of necessity many weeks before we are handed the cloth cut to the size to which we must make the city's services conform. The obvious remedy, to my mind, for this state of affairs is for the Mayor and City Council to fix the city's tax limit, placing the responsibility where it really belongs and taking it away from a committee of the Legislature which is confessedly ignorant of the details of Boston's finances and whose decision must be either a rough, unreasoned compromise between the claims of the Mayor and the Finance Commission, or a blind reliance on one or the other. If this change were made the tax limit would depend upon the budget and not the budget upon the tax limit, as is now the case. The Mayor would be compelled to submit his detailed budget, as contemplated by the charter, within thirty days from January 1, and the Council would have ample time to consider it. Short of this remedy, which is logical and complete, there is that suggested by Coun. Heffernan's order of last week requesting that the Council have access to the budget sheets in course of preparation. With the spirit of this suggestion I am thoroughly in sympathy, but, of course, the preparation of the budget in any view is a purely executive function and the Council cannot of right ask to be included in it. The other defect in the working of the budget is that to which my order today is directed, and that is a defect for which the remedy lies ready to our hand. While the one arises in the course of the preparation and submission of the budget, the other arises afterwards in the operation of the budget, and reaches its most aggravated and noticeable stage about this time of year. I refer to the defect of lack of any budget control,—that is, the control of expenditures to the purposes and the amounts set out in the budget, and to its manipulation in the number of transfers which the Council is called upon to authorize, and which after November 15 are annually made within departments by the hundreds upon the auditor's and Mayor's OK. One of the underlying causes of this condition, I believe, is the over-segregation of the budget, and another and most important one is the lack of any effective control of expenditures before they are made. A segregated budget undoubtedly has certain advantages, which are obvious enough, and up to a certain extent it serves to keep down expenditures to the actual necessities. But beyond some point it fails in this purpose, and on the other hand serves as a smoke screen for the obtaining of funds for purposes not mentioned in the budget. I believe it was quite clear to the Committee on Appropriations last year, even in the cursory examination of the budget which we were allowed time to make, that we were so lost in the trees that we could not see the forest. With a department divided into subdivisions, the requirements of these subdivisions again subdivided into six or seven main subheads of budget classification, and these subheads once more subdivided into still further and almost countless sub-subheads, the detail becomes so enormous and the amounts asked for so small that it is not only an irksome and almost impossible task, but it is a difficult matter to question the necessity of each individual item. Plausible reasons can easily be given, for example, and reasons that it is hard to question, why an additional typewriter desk or what not may be required, while as a matter of fact there may be no need whatever for the item requested and the department head requesting it may simply be doing so as a screen for the obtaining of something else. Where you have this situation, coupled with a complete lack of budget control and an almost unlimited right of transfer, the way is clear for a breakdown of the budget principle. A department head puts in items for things which he does not need but which are easily defended; makes his expenditures for the purposes which he really desires without fear of hindrance or check, and

then afterwards, after the horse is out of the barn, gets his transfer allowed to make the expenditure good. This, of course, does not always occur, but it can occur, and I think that the large number of transfers from a purpose contemplated by the budget to a purpose not mentioned is evidence that it does occur frequently enough to call for measures of relief. The most adequate remedy, I believe, and one which it is within our power to adopt, subject to the Mayor's approval, is by ordinance amending the sections relating to the Budget Commissioner's duties so as to give him supervision and control of all expenditures not included in the budget before they are made, and so co-ordinating his duties with those of the Superintendent of Supplies as to effect that result. I have not attempted to frame such an ordinance, and it may be that the same result can be reached in some other way. But I do think that there is in this situation a material defect, and one for which a cure can be found. I have phrased the order so as to require a conference with those officials of the city who have the most practical experience of and the closest contact with the working of the budget, and I believe that a conference with those officials should produce results.

Coun. GUILD—Mr. President, the only question that arises in my mind in connection with the order that Coun. Parkman has introduced is, whether or not it might be more appropriate to refer this matter to the Committee on Legislative Affairs of this Council and go to the Legislature on Beacon Hill for such an amendment to the charter as will accomplish the results which Coun. Parkman has so ably pointed out as needed. Having gone into the subject with any such careful study as Coun. Parkman has undoubtedly given to it, it seems to me that that is the more logical way of grasping the situation if the Council really wants to put into effect the things that Coun. Parkman recommends, rather than going into conference with the executive heads of the various city departments who are now working upon and putting before us this budget every year for us to act upon in the hasty and cursory way that Coun. Parkman has referred to. I should be inclined to recommend that the matter go to the Legislative Committee of the Council rather than having a conference of the heads as named by Coun. Parkman.

Coun. PARKMAN—Mr. President, I may not have made the matter clear. It seems to me there are two branches to this matter. One has reference to what was aimed at by Coun. Heffernan in his order of last week—which has to do with action by the Council during the preparation of the budget, and that is a matter for legislative relief. That depends on the Council and the Mayor having the power to fix the city's tax limit. But after the tax limit is fixed and after the budget is submitted, the administrative operation of the budget, as far as I can see, is purely within the control of the city's executive and can be regulated by ordinance or possibly by executive order without the necessity of an ordinance. I can see no need whatever for going to the Legislature for the relief which action here might bring and, in fact, I don't see how the Legislature can act on that branch of the subject.

The order was passed under suspension of the rule, on motion of Coun. Parkman.

LEXINGTON STREET CAR SERVICE, EAST BOSTON.

Coun. DONOVAN offered the following:
Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to proceed to compel the trustees of the Boston Elevated Railway Company to restore the Lexington Street Tunnel service in East Boston, which they have interrupted to the inconvenience and the impairment of the health of thousands of people.

Passed under suspension of the rule.

LEGAL MEASURES IN RE TRUSTEES OF BOSTON ELEVATED RAILWAY.

Coun. DONOVAN offered the following:
Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to take such legal measures as may be necessary to compel the trustees of the Boston Elevated Railway Company to perform their duties in a manner consistent with the convenience and health of the people of Boston, and upon their failure to do so that he present an information to his Excellency the Governor setting forth their incompetency and requesting their removal as trustees.

Passed under suspension of the rule.

RETURN OF EAST BOSTON TUNNEL TOLLS.

Coun. DONOVAN offered the following:
Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to take such measures as may be necessary to secure the return to the people of East Boston of the sum amounting to more than \$1,500,000 which was collected from them as tolls to meet the interest and sinking fund requirements that should have

been met by the Boston Elevated Railway Company and that provision be made for the funding of this sum for the higher education of the children living in East Boston.

Coun. DONOVAN—Mr. President, my reason for introducing these several orders at this time is to call to the direct attention of the Mayor and the City Council of Boston the drastic plan of procedure attempted by the trustees of the Boston Elevated Railway. It is perfectly evident to me, in connection with the passage of the Public Control Bill of 1918, whereby the power of maintenance and regulation of service was vested in this so-called commission, that it was not the intention of the Legislature to allow the commission to have such power. It was the intention of the Legislature that the people should receive some consideration from the commission. To date the people of Boston have not received any consideration whatever. There is not a member of this body which represents taxpayers of Boston and represents the car riders of Boston, who has not some grievance, or the members of whose constituency have not some grievance, with this so-called commission. It is high time that the Mayor of Boston should call into executive session the different department heads—the Transit Commissioners, the Street Commissioners and the Commissioner of Public Works, and deliver an ultimatum to the trustees of the Elevated, stating that unless the people of Boston receive better and proper consideration, they will give no further consideration to the trustees of the Elevated Railway.

The order was referred to the Executive Committee.

TRAFFIC TOWERS FOR BLUE HILL AVENUE.

Coun. RUBY offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to install two traffic control signal towers on Blue Hill avenue, one at Columbia road and one at Mattapan square, said towers to control traffic at all intersecting streets on Blue Hill avenue, between Columbia road and Mattapan square.

Passed under suspension of the rule.

PROPOSED STATUTE FOR HUGH O'BRIEN.

Coun. FITZGERALD offered the following:

Whereas, Hugh O'Brien, a native of Ireland, served Boston, the city of his adoption, with conspicuous credit and honor, rising from humble circumstances to a position of eminence in affairs, and

Whereas, Hugh O'Brien gave devoted service to the people of Boston as a trustee of our Public Library, as a member of the Board of Aldermen, and as Mayor, and

Whereas, Hugh O'Brien's splendid record of public service is best attested by his devotion to the free Public Library and as father of our unsurpassed park system, therefore be it

Resolved, That the Boston City Council respectfully recommends to his Honor the Mayor that measures be taken to erect a suitable monument in honor of Hugh O'Brien, member of the Board of Aldermen, Mayor, and sterling citizen in constant sympathy with every movement for the general welfare.

Referred to the Executive Committee.

POLICE AMBULANCE FOR DIVISION 6.

Coun. MAHONEY offered the following:

Ordered, That the Police Commissioner be requested, through his Honor the Mayor, to have a police ambulance assigned permanently to Police Division 6, South Boston.

Coun. MAHONEY—Mr. President, I desire to state briefly my reason for presenting this order, and I think Coun. Donovan can verify my statement. A few months ago we went to the commissioner and he openly admitted that the people of East Boston, Charlestown and South Boston should have a police ambulance; that, in the case of the people of South Boston, there was the large army base over on Commonwealth Pier, employing thousands of people, who were subject to injury at any time, and that in the vicinity of the finest bathing beach in the country it was also an absolute necessity that a police ambulance be conveniently situated.

The order was passed under suspension of the rule.

CONSTRUCTION OF MAY STREET, WARD 12.

Coun. BUSH offered an order—That the Board of Street Commissioners be requested, through his Honor the Mayor, to lay out and construct as a public highway the private way now known as May street, Roxbury, Ward 12.

Passed under suspension of the rule.

ESTIMATES ON BOULEVARD OVER SHAWMUT BRANCH EXTENSION.

Coun. WILSON offered the following:

Ordered, That the Transit Commission be requested to furnish the City Council with estimates of cost of construction and time required to make a boulevard street for pleasure vehicles over the tunnel and area way of the Shawmut Branch Extension of the Cambridge Tunnel, between Park street, Dorchester, and Centre street, Dorchester.

Coun. WILSON—Mr. President, I introduce this order at this time to ascertain the approximate cost of a boulevard or street in that district, on the site of the old so-called Shawmut Branch. For some distance on this Shawmut Branch road I understand that the tunnel trains on the extension of the Cambridge Tunnel are to run on the surface, but that for a substantial distance, particularly from Park street to Centre street, the plan provides, if I am correctly informed, for the sinking of a 20-foot trench, constructing therein not a subway over which there may be travel, but simply a depression for the trains to run through. The plan apparently is to build neither a covered subway, nor to have the trains run on the surface, but to dig this trench and have the trains flying back and forth in it, and then simply use the space on both sides, on the surface of the ground, for vehicular traffic. In order not only to remove such an ugly scar from that residential district, but to relieve the traffic of Dorchester avenue and Washington street, Dorchester, I see no reason why an out and out subway cannot be built from Park street to beyond Centre street, leaving the surface to be used for vehicular traffic.

The order was passed under a suspension of the rule.

RECESS.

A recess was declared at 2.56 p. m., subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by Chairman GILBODY, at 4.23 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. DOWLING, for the Executive Committee, submitted the following reports:

1. Report on message of Mayor and orders (referred today) that the City Auditor be authorized to transfer to the Public Welfare Department, Central Office, F-9, Care of Dependents, \$100,000, from the Reserve Fund, and \$50,000 from Soldiers' Relief Department, F-8, State and Military Aid, Soldiers' Relief and Burials,—that same ought to pass.

The report was accepted, and the question came on the passage of the orders.

Coun. GUILD—Mr. Chairman, I cannot let this opportunity go by without expressing a protest against a practice that I understand has been in vogue for a number of years of running in transfer orders of considerable importance to the City Council on virtually the last day that transfers can be made by us. It is the same practice with which we were confronted with respect to the budget when we were asked to consider a \$43,000,000 budget in practically a week, on the story that people would be thrown out of work and the administration of the city seriously hampered, if not altogether stopped, unless we took immediate action. We are now on the last day on which transfer orders can be acted upon by us, and we are confronted with the same arguments now, that unless we immediately pass the transfers, widows and orphans, will be left without proper attention. It is far from my intention to deprive widows and orphans from proper care by the city authorities, but it seems to me an imposition on the Council to ask them to choose between the recommendation of his Honor the Mayor or \$150,000 and the recommendation of the department head, \$200,000, out of hand, and that it is a further imposition to come in at the very last minute and ask for transfers of this sort to be made. I haven't the least doubt that the Council is going to pass this order, because none of us are willing to see the widows and orphans who need the care of the City of Boston deprived of that care; but I cannot let this opportunity pass without expressing a protest against this practice of relegating the members of the Council to the status of rubber stamps.

Coun. WILSON—Mr. President, I want also to go on record as heartily in accord with Coun. Guild in his expression of opinion upon this matter. I thoroughly agree with him in objecting to the way in which items of this kind are, as we have seen it in the Executive Committee today, shot at members of the Council at the last minute, we being asked to pass them because somebody is going to starve to death, or because some number of employees in some of the departments will not get their wages unless we vote on such measures within twenty-four hours. I go even farther than Coun. Guild. I feel very strongly in regard to this matter, Mr. President. I am given to understand that I might as well vote for the transfer of the money in this and other cases, because if we do not vote affirmatively the Mayor has the right tomorrow morning to make the transfers, anyway. But I am so strongly of the opinion that the City Council should not be asked in this way to vote for this and other trans-

fers without having an opportunity to give proper consideration to the matter, and I feel so strongly that it is an imposition on members of the Council to vote away without an opportunity for consideration \$100,000, \$200,000, or half a million dollars, merely because it is the last chance for us to do it that I personally shall vote against the report of the Executive Committee, having given expression to my reason for doing so.

Chairman GILBODY—If you will pardon the Chair, I would like to say a brief word. I cannot subscribe to the thought given expression by the previous speakers as their reason for not voting for these transfers. The time for them to take a position on this matter, if they are sober and serious in their desire to act in the interests of the taxpayers of the City of Boston was when the budget was under consideration. When the budget came in here, there was involved a large increase in the tax rate, to meet the money that would have to be raised, and we were told that unless we passed the budget immediately the activities of the city would suffer. The horse has since been out of the barn, and we cannot put it back in this way. I think it is a poor way now to try to shut off the work of the department that furnishes relief to widows and orphans, by opposing an order now introduced into the Council in line with the provisions of the charter. If we don't pass the order today, the Mayor of Boston, by authority of the charter, can transfer the money tomorrow, and if we are going to try to be reformers, as suggested here, let us not be reformers at the expense of the unfortunates of the city. We have gone along through the year making transfers in the interest of others who could have stood some delay, and let us not now do something that will injure the unfortunates of the City of Boston who need relief during the winter months.

Coun. WILSON—Mr. President, I want to say that I am unable to follow the logic of the Chair, remembering that he earlier in the year thought a budget of \$43,000,000 was too much money, and he now is willing to vote for an additional quarter of a million dollars in spite of the fact that earlier he felt that we were spending too much. I still feel that, so long as tomorrow morning the Mayor can make the transfers whether we do so or not, he having gone into the question and then having the power to do so if he so desires, it should be left to him. I—knowing not the first thing about the question, although being no duller than the Chair—refuse to be jockeyed into now voting for this amount, under the circumstances, realizing that if we do not so vote the Mayor can put the thing into effect tomorrow morning.

Chairman GILBODY—I wish to simply make a brief remark in view of what has been said by the speaker. The Chair appreciates that the gentleman is the smartest man who ever came into the Council, that he has had ten months to learn the procedure of this body, and that he now wants to do this to a department that serves the unfortunate people of the City of Boston.

Coun. KEENE—Mr. President, I would simply like to have it appear, as a matter of record, with reference to the transfers requested today, that none of them are what we could term odd, but are simply matters coming to us in the usual routine, having recently been signed by the Budget Commissioner. I quite agree with the remarks of the Chair that it is the duty or one of the duties of each member of the Council not only to study but to follow the budget, and during the first part of the year I spent approximately forty-five days in doing so, considering it my duty to do so. I looked into the requests of the various departments, the amounts deducted from the requests by the Mayor, and by the Mayor through the Budget Commissioner. Of course, we have to realize that the budget cannot come to this Council as a complete budget until such time as the Legislature of this Commonwealth fixes a limit upon our tax rate. I think it is folly for this Council to expect that we should wait until the budget is completed and then take the necessary time to examine it, because I venture to say that were any man here to spend sixty days upon it he would then only have scratched the surface. The transfers that have come up here have been almost entirely transfers within the department, not asking the transfer of funds from one department to another, with one possible exception, which was the Department of Public Welfare, where they asked for \$100,000 out of the Reserve Fund. I think we should take it upon ourselves to follow the budget. We know that on a certain day, the 15th of November, the Mayor is authorized to make transfers without the consent of this Council. I do feel that where the Mayor, with the aid of the Budget Commissioner, makes a careful study of every item, I should rely to a considerable extent upon his judgment; and I want it to appear, as a matter of record, that these items requesting transfers were not transfers that have been waiting until the last day but that they came to us in the natural course of business and in the usual order. No business concern would make a transfer from one budget item to another until the time had arrived for the transfer and until they had had sufficient length of time to analyze it, to see that it was warranted.

Coun. GUILD—Mr. President, in order that it may appear correctly on the record, let me say that the particular transfer order before us at the present time is entirely extra departmental and is not within the department. It involves a transfer from the Reserve Fund of \$100,000 and a transfer from some other department to the amount of \$50,000. So far as the President's reliance on the

Budget Commissioner and his judgment is concerned, I take it that the President of this body is satisfied to go before the general public and say that he relies entirely on the judgment of the Budget Commissioner and declines to let his own judgment function in any way, shape or manner, being satisfied to be merely a rubber stamp and to sign on the dotted line.

Coun. KEENE—Mr. Chairman, I desire to take exception to my brother's remarks, not that they were intended to be personal, but simply from this point of view. I do not intend to be a rubber stamp, but I think I know enough about various matters that come to us through the various departments to know this, that I have not sufficient length of time at my command to analyze the details of every department in this city. There are men appointed and selected for that purpose. I think it is our duty to examine into items we find that arouse our suspicions; if they do not conform with our judgment then we should investigate and analyze. But I cannot see that it is the duty of a councilor, or that he is expected, to analyze and go into every item, because there is not time enough within the year to do it.

The orders were passed, yeas 18; nays (Coun. Wilson), 1.

2. Report on message from the Mayor and order (referred today) appropriations \$7,500 from the item for machinery and materials for manufacturing, House of Correction, to Item D-2, Food and Ice, House of Correction—that the same ought to pass.

Report accepted; said order passed, yeas 19, nays 0.

3. Report on message of the Mayor and order (referred today) authorizing the City Auditor to transfer \$7,797.46 from Institutions Department, Conservation Bureau, G-2, Special Investigations to Health Department, G-2, Special Investigations—that the same ought to pass.

Report accepted; said order passed, yeas 19, nays 0.

4. Report on message of Mayor and order (referred today) recommending transfers within department appropriations—that the same ought to pass.

Report accepted; said orders passed, yeas 16, nays 3.

Yeas—Coun. Arnold, Donovan, Dowd, Dowling, Englert, Fitzgerald, Freeley, Gilbody, Green, Keene, Lynch, Mahoney, McGrath, McMahon, Parkman, Ruby—16.

Nays—Coun. Guild, Heffernan, Wilson—3.

5. Report on petition of Mrs. James Bridge (referred today) for children to appear at Music Box on November 19—that leave be granted.

Report accepted; leave granted on usual conditions.

6. Report on preambles and resolutions (referred today) recommending to the Mayor that measures be taken to erect a suitable monument in honor of former Mayor Hugh O'Brien—that the same ought to pass.

Report accepted; preambles and resolution passed.

PUBLIC LANDS.

Coun. McGRATH, for the Committee on Public Lands, submitted the following:

1. Report on order (referred October 11) that the premises belonging to the City of Boston situated on the southwesterly side of Plympton street, at the corner of Harrison avenue in said Boston, and containing about 3,789 square feet of land, now in the custody and care of the Park Department of the city, be and hereby is transferred to the care and custody of the Fire Department of the city—that no further action is necessary.

Report accepted.

2. Report on order (referred November 8) authorizing the Mayor, for consideration of \$350, to execute and deliver to the Gulf Refining Company a license to build a structure over a parcel of land taken for sewer purposes, etc.—that the same ought to pass.

The report was accepted, and the question came on the passage of the order.

Coun. HEFFERNAN—Mr. President, before the roll is called I would like to have the chairman of the committee explain what we are voting upon.

Coun. McGRATH—Mr. President, this is a message sent to the Council by the Mayor, and we called upon Mr. Lyons of the Law Department, having a meeting last week and a further meeting today, and asked him about the rule governing this particular order. It seems that in 1918 the Gulf Refining Company who own a big station at Forest Hills, were given a right to build over a sewer easement that the city has, providing the city had the right at any time to enter the building if the sewer needed repair. At that time they had a wooden building. Some two or three weeks ago they tore down the wooden building and wanted to build over the sewer a brick building. This merely gives them authority, upon the payment of \$350 to the city and carrying out the terms of the arrangement with the city in 1918, to construct a brick building rather than the wooden building that has been there for some eight years.

Coun. DONOVAN—Mr. President, may I ask how long that restriction is for?

Coun. McGRATH—Pardon me, it is not a lease but an easement that the Gulf Refining Company has from the city of Boston, running along indefinitely. I might say that when the City of Boston wants to place a sewer through private property

it takes what is called an easement in that property and that may run along through ten or fifteen adjacent properties. They then lay a sewer and cover it up, and have no further use for the land unless they want to get at the sewer. This particular order gives the city authority to enter there at any time, tearing up the concrete floor if necessary, and repair the sewer without any liability to the City of Boston. I might say that there is a big monument concern out there, a concern that builds headstones, which has a similar lease, and throughout the section there are hundreds and hundreds of properties where the city has done this sort of thing, taking an easement for a sewer. That easement merely gives to the city the right to enter when it becomes necessary and repair the sewer. That is provided for in the lease.

Chairman GILBODY—Any further questions of Coun. McGrath, or does the councilor desire to add anything?

Coun. McGRATH—No, Mr. President. As I say, the building that has been there was erected in 1918. It was of wood construction, and they have torn it down. They wish to erect a new brick building. The easement attaches, whether we give them the right to build it or not. This simply gives them the right to build a brick building, the same rights that the city has under the easement still applying.

Coun. GREEN—Mr. President, I move that this be placed on the table until the next meeting.

Coun. GUILD—Mr. President, is that motion debatable?

Chairman GILBODY—The motion to lay on the table is not debatable, Coun. Guild. Coun. Guild may be permitted to speak by unanimous consent.

Coun. GUILD—Then, Mr. President, I ask for unanimous consent.

Chairman GILBODY—If there is no objection, the councilor will proceed.

Coun. GUILD—Mr. President, the process of building the brick structure has already been held up for a period of about three weeks, and if it is held up any further at this time of the year it will mean further inconvenience to the company, not allowing them to proceed with their work. The workmen are waiting to go ahead.

The motion to lay on the table was rejected by a show of hands.

The report was accepted, and the order passed, yeas 19, nays 0.

3. Report on order (referred October 11) authorizing the Mayor to execute and deliver to Marion W. Smith a deed to land on Wallingford road, Brighton—that the same ought to pass.

Coun. McGRATH—Mr. President, I will make this explanation in regard to that piece of land which, I think, is out in either Coun. Dowling's or Coun. Heffernan's district. The City of Boston has a paving department yard out there that covers about 500,000 feet of land, the majority of which is covered by a very high ledge. In order to enter from Chestnut Hill avenue into this yard they have been going across a driveway that has been in existence over fifty years, as shown by the records. It seems that the major part of this driveway is owned by a woman by the name of Smith. If they are made to abandon this highway they will have to make a way through a ledge twenty feet in height, which would mean a very expensive job. In the rear of the property, the 500,000 feet of land owned by the city, there is on a particular piece in back of this woman's house, for which the city has no use, and this involves a transfer of about 6,000 feet there for about 1,000 feet in front. But the 1,000 feet in front is absolutely necessary for city use. The 6,000 feet in back can never have a cellar dug in it, on account of the ledge. This woman wants to construct a garage over the top of that ground. We sent for Mr. Lyons of the Law Department and for the city real estate expert and they both said that the city, although they were giving a larger a for smaller piece, would greatly benefit by the transfer. The gentlemen representing the district in the Council were sent for, and they said all right, that they thought the order ought to pass.

Coun. FREELEY—Mr. President, as a member of the Committee on Public Lands, I desire to go on record as voting against the transfer.

Coun. FITZGERALD—Mr. President, I would like to ask the councilor his reasons.

Coun. McGRATH—Mr. President, I will say for the gentleman on my left (Coun. Freeley) that he did record himself as dissenting at the time and was so recorded by the Clerk.

Coun. FREELEY—With regard to the piece of land that the city is giving away for the piece they are getting?

The order was passed, yeas 18, nays (Coun. Freeley) 1.

CLEANING WEST AND NORTH END STREETS.

Coun. FITZGERALD offered the following: Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to assign four additional men with hokey pokey carts to clean the streets of the West End, and also to assign four additional men with hokey pokey carts to clean the streets of the North End.

Passed under suspension of the rule.

ARC LAMPS FOR WARD 22.

Coun. HEFFERNAN offered the following: Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to provide an adequate number of electric arc lamps on Faneuil street, from Oak square to Market street; on Raymond street, from Everett street to Franklin street; and on Murdock street, from Cambridge street to Mapleton street; all in Ward 22.

Passed under suspension of the rule.

SMOOTH PAVING FOR WARD 22 STREET S

Coun. HEFFERNAN offered the following: Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to have the following streets in Ward 22 repaved with smooth paving: Mapleton, Murdock and Sparhawk streets.

Passed under suspension of the rule.

CONSTRUCTION OF STREETS IN WARD 22.

Coun. HEFFERNAN offered the following: Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to lay out and construct as public highways the following streets in Ward 22:

Hunnewell avenue, from Atkins street to the Newton line; Ranelegh road, from Riverview road to Hobart street; Riverview road, from Ranelegh road to Parsons street; Bagnal street, from Holton street to Aldie street.

Passed under suspension of the rule.

RESIDENCES OF CITY EMPLOYEES.

Coun. FREELEY offered the following: Ordered, That a committee of five members of the City Council be appointed by the President to investigate the actual residences of employees of the City of Boston, said committee to report back to the City Council with such recommendations as in their opinion the results of the investigation may warrant.

Referred, on motion of Coun. GUILD, to the Executive Committee.

RECONSIDERATION.

On motion of Coun. DONOVAN, a general reconsideration of all action taken today was refused.

Adjourned, at 4.56 p. m., on motion of Coun. ARNOLD, to meet on Monday, November 29, at 2 p. m.

BOSTON TRUST FUNDS AND BEQUESTS.

Number of permanent funds and bequests held by the City, Feb. 1, 1925, for various purposes, 146, representing a total value of \$19,049,281. The earliest dates back to 1674, viz., Gibson School Fund. The largest fund is the bequest of the late George F. Parkman, consisting of various parcels of real estate now sold and reinvested in bonds, all valued at \$5,455,653, the income from which is used for the upkeep and improvement of the older parks.

Nearly as large a bequest is that of the late George Robert White, consisting of first-class realty valued at \$4,922,400, also an invested fund amounting to \$330,000. Revenue in 1924 from White bequest, \$426,671, of which \$265,027 was expended for new Health Unit building in North End. (3) 3 Boston Retirement System funds, \$2,671,428; (4) 17 funds in charge of Public Welfare Overseers, amounting to \$1,015,063; (5) 10 Cemetery funds, \$957,247; (6) Public School Teachers' Retirement, \$887,182; (7) 3 Franklin and Franklin Union, \$839,710; (8) 43 Public Library funds, \$715,981; (9) Permanent School Pension, \$586,390; (10) Police Charitable, \$207,550; (11) 22 School funds, \$172,383; (12) 23 City Hospital funds, \$117,780; 20 others, \$170,514. Average annual income from all invested funds, nearly 4 per cent.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

The Massachusetts Civil Service Commission announce examinations for desirable positions open in the Boston and Metropolitan districts as follows:

ELECTRICIAN, BOSTON CITY HOSPITAL, DECEMBER 3, 1926.

Salary, \$33 per week.

In addition to general electrician's work, applicants must have a knowledge of hospital appliances, such as electrocardiograph machines, physical therapeutic apparatus (galvanic, faradic, high frequency, static machines and ultra violet lights), X-ray machines, centrifuge machines, automatic kelinator, electric elevators, watch clocks, Telephone call system, silent signal system, and general trouble hunting. The electrician is required to do work in contagious wards when necessary.

Subjects and weights: Training and experience, 2; practical questions, 3; total, 5.

Applicants will be required to obtain at least 50 per cent in practical questions, and at least 65 per cent in experience, and in general average in order to become eligible.

Successful applicants will be required to file a certificate from a reputable physician as to their physical fitness for the position.

BOXING INSTRUCTOR, BOSTON PARK DEPARTMENT, DECEMBER 6, 1926.

Salary, \$1,900 per year.

Applicants are required to have at least two years' experience as a boxing instructor.

The duties of this position are to conduct classes in the municipal gymnasiums of Boston.

Subjects and weights: Training and experience, 3; practical test, 4; personality and fitness as determined by an oral interview, 3; total, 10.

Applicants will be required to obtain at least 65 per cent in each subject of the examination in order to become eligible.

Physical examination required.

The date given above is not the actual examination date, but the date on or before which application blanks must be filed.

FOREMEN OF WATER, SEWER, AND HIGHWAYS, ETC., DECEMBER 10, 1926.

This examination is for foremen of water, sewer, and highways (or streets) in the service of the state and of all cities and of such towns in the state as are classified under civil service; and of sanitary and street cleaning in the service of Boston.

There are several vacancies in different cities which will be filled from the list established as a result of this examination.

(A.) Highway (or Street) foremen in the service of the state, or cities in the state, except Boston, and of the towns classified under civil service: Training and experience, 14; arithmetic, 4; report, 2; practical questions on street and road construction, grading, repairing, etc., 10; total, 30. The subjects and weights for Boston foremen are: Training and experience, 14; arithmetic, 4; report, 2; practical questions, 9; questions on the care of horses, 1; total, 30.

(B.) Sewer: The subjects and weights are the same as for (A), State Highway, except that the practical questions will concern the quality of materials, bracing and refilling of trenches, general maintenance and repair of sewers, catch-basins, etc.

(C.) Water: The subjects and weights are the same as for (A) State Highway, except that the practical questions will concern the laying and maintenance of water mains and service pipes, time-keeping, accounting for material, etc.

(D.) Sanitary and Street Cleaning (in the service of Boston): The subjects and weights are the same as for (A) Boston Street foremen, except that the practical questions will concern the handling of ashes, garbage, etc., and the watering, oiling and cleaning of streets.

NOTE.—Applicants for all services may, if they wish, take an additional paper on the use of explosives, and if successful in passing it will have it so noted as a special qualification.

Applicants are required to obtain a mark of at least 65 per cent in experience and at least 50 per cent in practical questions.

Physical examination required. Sample questions available.

DRAWTENDERS AND ASSISTANT DRAWTENDERS, DECEMBER 10, 1926.

This examination will be held for the service of the state, Boston, Cambridge and New Bedford. The subjects of examination with their respective weights will be, as follows: Training and experience, 4; report, 1; arithmetic, 1; practical questions, 4; total, 10.

Physical examination required.

CIVIL ENGINEERS, DECEMBER 13-18, 1926.

These examinations are for the service of the state, all cities, and such towns as are classified under civil service.

Warning.—Many men fail in the civil engineering examination because they apply for grades for which they are not qualified. It is advisable, therefore, if there is any doubt about the quantity or quality of your experience, to take both the grade for which you think you are qualified and the next lower grade. If you should be found ineligible for the higher grade, you will still have an opportunity to be placed on the next lower grade.

Grade A (1).

Engineering assistants, drafting assistants and rodmen who perform, under instructions and supervision, elementary or apprentice work in the field or office.

It is *prima facie* evidence that a position in Class 27 is not in Grade A if the salary is less than \$900 a year or more than \$1,440 a year.

Qualifications.—Applicants must have completed a high school course of not less than three years or must have had not less than one year of practical experience in field engineering or office work.

Subjects and Weights.—Rodmen.—Experience, 4; mathematics, 6; penmanship, 1; tracing, 3; questions on the duties of the position, 6; total, 20. Assistant Draftsmen.—Experience, 4; mathematics, 6; penmanship, 1; drawing, 9; total, 20.

Grade B (2).

Senior engineering assistants, instrumentmen, and draftsmen (a) who assume responsibility for the execution of

definite instructions in a minor division or section of engineering activity; or (b) who direct, under supervision, the operation of minor engineering projects.

It is *prima facie* evidence that a position in Class 27 is not in Grade B if the salary is more than \$1,980 a year.

Qualifications.—If appointed by promotion, not less than one year of service in Grade A. If appointed otherwise than by promotion from Grade A, at least two years of practical experience in engineering work of Grade A character and standard; or such training in civil engineering as is evidenced by a professional degree granted on the completion of a standard course of instruction at an institution or college of recognized standing; or the successful completion of not less than two years' study in such institution plus one year's practical experience in engineering work.

Subjects and Weights.—Instrumentmen.—Experience, 16; penmanship, 2; plotting, 6; questions on duties, 8; mathematics, 8; total, 40. Draftsmen.—Experience, 16; drawing, 10; mathematics, 6; duties, 4; plotting, 4; total, 40.

Grade C (3).

Assistant engineers, assistant civil engineers, and designing engineers (a) who assume responsibility for the direction of surveys, the preparation and examination of, or advice upon, plans, designs and specifications for a minor section of a large engineering or a major section of a small engineering project; or (b) who supervise or inspect the construction or the operation of work on such a project; or (c) who make investigations of, and reports upon, such engineering projects as a basis for a report by an engineering superior.

It is *prima facie* evidence that a position in Class 27 is not in Grade C if the salary is more than \$2,580 a year.

Qualifications.—If appointed by promotion within a department or major division thereof, not less than two years of service in Grade B, or, if appointed otherwise than by promotion from Grade B, within a department or major division thereof, at least five years of practical experience in engineering work, at least one half of which shall have been appropriate to the particular branch of engineering work covered by the position, provided that a degree granted on the completion of a standard course of instruction by an engineering school of recognized standing shall be accepted as the equivalent of three years' practical experience.

Subjects and Weights.—Experience, 10; design 2; mathematics, 2; questions on materials and methods of construction, 3; engineering theory, 3; total, 20.

Grade D (4).

Senior assistant engineers, senior assistant civil engineers, and senior designing engineers (a) who supervise and assume complete responsibility for the work of a main division of an engineering organization involving the direction of surveys and design and construction; or (b) who maintain and operate the major section of a large engineering project; or (c) who make independent investigations of and reports upon engineering projects as a basis for executive administrative, or judicial action; or (d) who take charge of a large engineering department in the absence of the chief engineer; or (e) who give advice on

large or complicate engineering projects which may involve the preparation of plans.

It is *prima facie* evidence that a position in Class 27 is not in Grade D if the salary is more than \$3,600 a year.

Qualifications.—If appointed by promotion within a department or major division thereof, not less than three years of service in Grade C. If appointed otherwise than by promotion, within a department or major division thereof, at least eight years of practical experience in engineering work, at least one half of which shall have been appropriate to the particular branch covered by the position, and two years of which shall have been in an executive capacity; provided, that a degree granted on the completion of a standard course of instruction by an engineering school of recognized standing shall be accepted as the equivalent of four years of practical experience.

Subjects and Weights.—Experience, 24; questions on materials and methods of construction, 5; engineering theory, 5; design, 6; total 40.

An applicant must specify the grade for which he applies. Specimen examinations available.

ORDERS OF ADDITIONS.

SCHOOLHOUSE DEPARTMENT.

The Mayor has approved the following orders of additions to contract:

Issuance of an order of addition, in the sum of \$1,826.10, to the contract of Hodge Boiler Works for repairing and retubing boilers in various schools.

This work of repairing and retubing boilers is done each year, and the amount of repair work called for in the contract is always an approximation, since conditions are shown, on opening up the boilers, that are not evident on a superficial examination.

Issuance of an order of addition, in the sum of \$3,941, to the contract of Paul Caputo for the erection and completion of the addition to the Washington Irving School, Roslindale District. This amount is required in order to install a passenger elevator in this building.

Issuance of an order of addition, in the sum of \$6,559, to the contract of the Phandor Company for erecting an elementary school in the Bennett District.

CITY OF BOSTON.

PUBLIC BUILDINGS DEPARTMENT.

TO STEEL FURNITURE CONTRACTORS.

The Superintendent of Public Buildings of the City of Boston invites sealed proposals to furnish and install steel equipment in courthouse, Dorchester, Mass., giving bond of a surety company satisfactory to the Superintendent of Public Buildings therefor in the sum of 45 per cent of the entire contract price. Only proposals obtained at the office of the Superintendent of Public Buildings, 802 City Hall Annex, signed by the bidder and left before 12 o'clock m. of Wednesday, December 1, 1926, at said office, with a certified check for \$500 on a Boston bank, payable to the City of Boston if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made out in duplicate, the one with the check to be submitted as indicated above, the other to be deposited with the City Auditor, City Hall, before the time of opening of bids. The Superintendent reserves the right to reject any or all proposals.

JOHN P. ENGLERT,
Superintendent of Public Buildings.
(Nov. 27.)

MUNICIPAL YEAR.

From 1926 the municipal year begins on the first Monday in January, which falls on Jan. 4 in said year. This change is in accordance with the City Charter amendments of 1924.

PROPOSALS FOR SHEET ASPHALT OR BITULITHIC PAVEMENT IN HILLSDALE STREET, WARD 16, FROM ADAMS STREET ABOUT 802 FEET NORTHWESTERLY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt or bitulithic pavement in Hillsdale street, Ward 16, from Adams street about 802 feet northwesterly. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of seven thousand (7,000) dollars, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt or Bitulithic Pavement, Hillsdale Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Friday, December 3, 1926, with a certified check for seven hundred (700) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in private land, between Roslindale avenue and Metropolitan avenue, and in Pheasant street, West Roxbury. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of twenty-seven hundred (2,700) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Private Land, etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Tuesday, December 14, 1926, with a certified check for three hundred (300) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Fire Department Headquarters, 60 Bristol street, for all information relative to the erection of poles, the building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. TO ROOM 906, CITY HALL ANNEX, for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

A surface drain of 10-inch earthen pipe and two catch-basins in Pierpont road, between Church street and Theodore Parker road, in the West Roxbury district, at an estimated cost of \$1,500.

A surface drain of 10-inch and 12-inch earthen pipe and nine catch-basins in Russell road, between Schirmer road and a point 744 feet southeasterly, in the West Roxbury district, at an estimated cost of \$5,850.

KNEELAND STREET DAMAGES SETTLED.

Mayor Nichols on November 24 approved a settlement of the claim of Charles H. W. Foster *et al.*, for damages occasioned by the widening, relocation and construction of Kneeland street. The settlement was recommended by Corporation Counsel Deland who set forth in considerable detail a number of appraisals covering the property in question. The settlement agreed upon is in the sum of \$338,000, together with interest for one year at 4 per cent in the sum of \$13,520, or a total of \$351,520.

The damages claimed were in excess of \$400,000, and the owners presented several appraisals, one of which was \$494,149.

The property in question is a brick building of six stories and located at Nos. 694 to 700, inclusive, Washington street, and covered practically the entire area of land involved in the taking of 11,754 square feet. Of this area 3,453 square feet were taken by the City on October 25, 1925, leaving 8,301 square feet of land. About forty per cent of the building was taken by the city.

The three net estimates of the city experts were Warren F. Freeman, \$346,880; Gerald G. E. Street, \$331,622; and Nathan Matthews, \$325,000. Interest at four per cent would bring these figures to Freeman, \$361,515, Street, \$345,646, and Matthews, \$338,000.

The Corporation Counsel in his report gave very careful consideration to the variance of the many appraisals submitted, extending as they did from \$325,000 to nearly \$500,000, and believed that the best interests of the city would be served by the settlement recommended. The settlement is \$26,000 in excess of the lowest and \$143,000 less than the highest estimate.

RED CROSS APPEAL.

OFFICE OF THE MAYOR,
BOSTON, December 1, 1926.

To Heads of all Departments.

GENTLEMEN,—The American Red Cross presents its annual invitation to join its ranks.

In the recognized service rendered to humanity by this great organization it receives no financial support from the government, but depends upon membership dues.

I have designated George H. Johnson, City Collector, to take charge of the roll call among city employees. He will be prepared, upon request, to supply you with membership blanks, buttons, flags and posters.

I should appreciate it if you would distribute these cards among the employees of your department and when prepared to make a report, submit it to Mr. Johnson.

Very truly yours,

MALCOLM E. NICHOLS, Mayor.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

TRANSFER OF APPROPRIATIONS.

City Auditor Rupert S. Carven announces the following transfers in appropriations in departments of the City of Boston and County of Suffolk, indorsed by Budget Commissioner Charles J. Fox and approved by his Honor the Mayor:

COLLECTING DEPARTMENT.

BOSTON, November 22, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer to and within the appropriations of the Collecting Department:

From the appropriation for A-1, Permanent Employees, \$167.29, to the appropriation for B-12, Surety on Bonds, \$167.29.

From A-1, Permanent Employees, \$780.87, to B-39, General Plant, \$780.87.

From A-1, Permanent Employees, \$115.50, to C-9, Equipment, \$115.50.

From A-1, Permanent Employees, \$127.16, to D-2, Food and Ice, \$127.16.

From A-1, Permanent Employees, \$2,937.01; B-4 Transportation of Persons, \$314.45; B-29, Stenography, Copying, etc., \$548.70; from City Debt Requirements, Interest, \$7,867.84, to B-3, Advertising and Posting, \$11,668.

From City Debt Requirements, Interest, \$4,344.70, to B-35, Fees, Services of Venires, etc., \$4,344.70.

NOTE.—For A-1 transfers, see attached schedule.

B-12, caused by unusual number of changes in personnel of the department.

B-39, caused by additional changes in dies of receipting machines, the name of the department head being altered twice.

C-9, a new cash register had to be purchased, the old one being unfit for further use.

B-3, the *City Record* bills for advertising were unusually heavy, caused by the large number of estates going to sale for unpaid taxes.

D-2, the clerks were obliged to work nights and noon hours for a longer period during the annual tax rush of September and November.

B-35, the fees due the Registry of Deeds were similarly affected by the increase in number of estates sold for unpaid taxes.

Respectfully,

GEORGE H. JOHNSON,
City Collector.

The above transfers were made by the City Auditor with the approval of the Mayor.

Transfers from A-1, Permanent Employees:

From 1 Cashier at \$3,000 per year, \$13.77; 1 Teller at \$2,800-2,900 per year, \$15.89; 1 Auditing Clerk at \$2,200-2,300 per year, \$485.23; 6 Clerks at \$1,900 per year, \$535.47; 1 Clerk at \$1,800-1,900 per year, \$147.83; 5 Clerks at \$1,800 per year, \$142.14; 4 Clerks at \$1,700 per year, \$2.47; 2 Clerks at \$1,500 per year, \$17.41; 3 Clerks at \$1,400-1,500 per year, \$125.80; 1 Clerk at \$1,200-1,300 per year, \$4.86; 22 Deputy Collectors at \$2,100 per year, \$747.50; 2 Constables at \$1,500 per year, \$494.37, \$2,937.01, to B-3, Advertising and Posting, \$2,937.01.

From 5 Constables at \$1,600 per year, \$167.29, to B-12, Surety on Bonds, \$167.29.

From 5 Constables at \$1,600 per year, \$780.87, to B-39, General Plant, \$780.87.

From 5 Constables at \$1,600 per year, \$115.50, to C-9, Equipment, \$115.50.

From 5 Constables at \$1,600 per year, \$127.16, to D-9, Food and Ice, \$127.16. \$4,127.83, total transfer from A-1.

FINANCE COMMISSION.

BOSTON, November 18, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

SIR,—On account of the continuous use of the dictaphone the bills for light and power have increased to such an extent that they have exceeded the amount appropriated in B-8. The commission therefore desires a transfer of \$100 from B-5, Cartage and Freight, to B-8, Light and Power.

Yours very truly,

CHARLES L. CARR,
Chairman.

The above transfers were made by the City Auditor with the approval of the Mayor.

MARKET DEPARTMENT.

BOSTON, November 18, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Market Department:

From the appropriation for B-4, Transportation, \$15, to the appropriation for B-13, Communication, \$15.

From E-10, Electrical, \$10, to D-8, Laundry and Cleaning, \$10.

The reason for the transfer to Communication is caused by the demand made by the people concerning the operation of public markets and the prices of produce in the Faneuil Hall Market.

The reason for the transfer to Laundry, Cleaning and Toilet is caused by the furnishing of paper towels in the ladies' room. This has been done for the first time in 1926.

Respectfully,

DANIEL H. ROSE,
Superintendent.

The above transfers were made by the City Auditor with the approval of the Mayor.

PRINTING DEPARTMENT.

BOSTON, November 22, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Printing Department:

From the appropriation for A-1, Permanent Employees, 27 Compositors, \$57,044.25, \$935; 1 Linotype Operator, \$1,887.83, \$1,500; 1 Clerk, \$1,200, \$500; 1 Apprentice, \$722.67, \$400, \$3,335, to the appropriation for B-18, Cleaning, \$135; B-39, General Plant, \$400; C-17, General Plant, \$150; D-16, General Plant, \$300; E-9, Machinery, \$350; G-4, Postage, \$2,000, \$3,335.

It is estimated that the above transfers within the Printing Department appropriation will be necessary to complete payments until the end of the current fiscal year. As conditions vary from year to year in a department like this, it is impossible to estimate in advance an exact budget for these items.

Respectfully,

WILLIAM J. CASEY,
Superintendent.

The above transfers were made by the City Auditor with the approval of the Mayor.

SUPPLY DEPARTMENT.

BOSTON, November 19, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Supply Department:

From the appropriation for B-28, Expert, \$200, to the appropriation for B-14, Motor Vehicles, Repair, \$200.

The car in use in the Supply Department at the present time is a 1923 Bay State sedan, and owing to the constant use made of it for inspections, it was found necessary to have same completely overhauled. This resulted in an expenditure of \$150 in excess of the amount estimated under Item B-14 for the year 1926.

Respectfully,

HERBERT S. FROST,
Superintendent.

The above transfer was made by the City Auditor with the approval of the Mayor.

BOSTON JUVENILE COURT.

BOSTON, November 16, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—Will you kindly approve of the transfer from our account C-9 to our account C-10 of \$10.50, and also the transfer from our account B-4 to our account D-1 of \$14.29 to cover the deficits in those accounts.

Yours truly,

CHARLES W. M. WILLIAMS,
Clerk.

The above transfers were made by the City Auditor with the approval of the Mayor.

MEDICAL EXAMINER (NORTHERN DIVISION).

BOSTON, November 18, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Medical Examiner (Northern Division):

From the appropriation for A-2, Temporary Employees, \$150, to the appropriation for D-1, Office Supplies, \$150.

From B-28, Expert, \$200, to C-12, Medical, Surgical, Laboratory Equipment, \$200.

These transfers are requested to meet

expenses necessarily incurred and for which balances unexpended are insufficient.

Respectfully,

GEORGE BURGESS MAGRATH, M. D.,
Medical Examiner, Suffolk County.

The above transfers were made by the City Auditor with the approval of the Mayor.

MUNICIPAL COURT, CHARLESTOWN DISTRICT.

BOSTON, November 20, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Municipal Court of the Charlestown District:

From the appropriation for A-1, Permanent Employees, Court Officers, \$19.74, to the appropriation for A-2, Temporary Employees, Court Officers, \$19.74.

Court Officer John F. Sullivan died January 6, 1926. He was paid for six days, \$33.33, on January 31, 1926, pay roll, charged to A-1.

January 7, 1926, James A. Cunniff was appointed temporary court officer and served as such January 7, 8 and 9, and was paid for three days, \$19.74, on January 31 draft. This was debited to A-2 in accordance with instructions from the auditor's office.

January 11, 1926, James A. Cunniff was duly appointed and began duties as court officer. His salary January 11-31, \$111.11, was paid on January 31, pay roll, charged to A-1.

Edward J. Kirby served as temporary court officer July 7, 8, 9, 10, 12, 13, 1926, in the absence of Court Officer Cunniff, and was paid \$39.48 on July 31 draft. He also served August 5, 6, 7, 9, 10, 11, and was paid \$39.48 on August 31 draft. He also so served August 12, 13 and 14 and bill for \$19.74 is submitted with November 30 draft.

Respectfully,

CHARLES S. SULLIVAN,
Judge.

At the end of the year there will be \$22.22 unexpended on account of A-1, Permanent Employees, Court Officers.

This request is to transfer \$19.74 of that amount to A-2, Temporary Employees, Court Officers, to meet the bill of Edward J. Kirby, submitted for payment on November 30 draft.

The above transfers were made by the City Auditor with the approval of the Mayor.

MUNICIPAL COURT, WEST ROXBURY DISTRICT.

BOSTON, November 20, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Municipal Court, West Roxbury District:

From the appropriation for A-2, \$300, to the appropriation for B-4, \$300.

\$300 is necessary to complete the year in Item B-4, only \$49 being left in B-4 at present.

B-4 covers transportation of prisoners to jail, Deer Island boat, and other institutions, such as State Farm, Lyman School at Westboro, Industrial Schools at Lancaster and Shirley.

Respectfully,

GEORGE B. STEBBINS,
Clerk.

The above transfers were made by the City Auditor with the approval of the Mayor.

CLAIMS ALLOWED.

Upon recommendation of the Corporation Counsel, the Mayor has approved the following claims:

Charles Gossman, Room 22, 110 Summer street, in the sum of \$3, as refund on twenty unused ash tickets.

The E. B. Nelson Grocery Company, Park and Corey streets, West Roxbury, in the sum of \$7.50, as refund on fifty unused refuse tickets.

The New England Screw Company, 44 Farnsworth street, in the sum of \$16.05, as refund on 107 unused refuse tickets.

S. J. Sheinfeld, 1861 Dorchester avenue, in the sum of 60 cents, as refund on four unused ash tickets.

L. C. Smith & Brothers Typewriter Company, 80 Federal street, in the sum of \$1.35, as refund on nine unused ash tickets.

Mrs. Fanny Rosenberg, 165 Harvard street, Dorchester, in the sum of \$125, as compensation for personal injuries received February 2, 1925, by cement block not level with rest of sidewalk, in front of premises 41 Bicknell street, Dorchester.

Mary E. Hubert, in the sum of \$100, as compensation for personal injuries caused by depression in street at Tremont and Boylston streets, December 30, 1925.

Domenico Spinale, 29 Hale street, in the sum of \$1.54, as refund on fourteen unused refuse tickets.

Henry Abrams, 31 Hazleton street, Mattapan, in the sum of \$75, as compensation for personal injuries and damage to automobile January 22, 1926, by depression in street at corner of Tremont street and Broadway.

DAMAGES AWARDED.

The Mayor has approved the following vote of the Board of Street Commissioners:

That in the matter of Charles H. W. Foster *et al.*, petitioners for damages occasioned their estate by the widening, relocation and construction of Kneeland street, under the order of the Board of Street Commissioners and Mayor of October 26, 1925, after consultation with the Law Department, and on its advice, the Board assesses the petitioners' damages in the sum of \$338,000, together with interest for one year at 4 per cent of \$13,520, a total of \$351,520, together with the assumption by the city of any betterment assessments that may be assessed upon the property in question; and consents to the Corporation Counsel agreeing to judgment in said case on the terms herein stated.

ADDITIONS TO CONTRACTS.

BOSTON SANATORIUM.

P. J. Sullivan & Co. have been ordered to make an addition to the contract for replacing cold water pipes in Ward F, amounting to \$128.94. This is necessary because in making figure for the contract the contractor was told to measure the amount of pipe underground from a certain point to Ward P. He found that this point was not the point where the pipe began, and an additional pipe, etc., of about 25 feet had to be put in.

Joseph P. O'Hearn & Co. have been ordered to make an addition to the contract for renewing cold water pipes in parts of the basements in the domestic building and Ward F, amounting to \$140.54. This is necessary for putting in a new large gate valve, etc.

Joseph P. O'Hearn has been ordered to add to the contract for renewing cold water supply in administration building, etc., the sum of \$859.54 for the following: Materials needed at the Boston Sanatorium to replace defective valves, etc.:

Administration Building.—Two flushometers in second and third floor toilets north side, and one in second floor south side; one pair pantry cocks nurses' dining room, second floor; one pair pantry cocks kitchen, first floor; two faucets in basement sink.

Children, Ward F.—One flushometer basement, one flushometer bathroom second floor; two Leonard thermostatic control valves, No. B40, on hot water supplies in basement; two faucets soapstone sink in bathroom; two faucets in laboratory.

Cost of material and installing the above, \$719; 4-inch gate valve, \$140.54. Total, \$859.54. The above addition makes the contract stand as follows: Amount of contract at signing, \$7,795; addition as above, \$859.54; amount of contract to date, \$8,654.54.

EXTRA WORK UNDER CONTRACT.

Samuel J. Tomasello has been directed to perform the following extra work under contract for laying artificial stone sidewalks in Rossmore road, Sunset street and Ellington street. Items ordered: Lay granite block gutters in Sunset street with cement grout joints. Price to be paid, the sum of 65 cents in addition to price bid in contract, viz.: Items 5a and 5b respectively \$1.25 and \$1 will be \$1.90 and \$1.65. Although this is in addition to the work contemplated in the original contract, it is incidental thereto. Estimated increased cost, \$300.

B. E. Grant Company have been directed to perform the following extra work under contract for laying recut granite block pavement in Washington streets, Ward 8 and 9, from Massachusetts avenue to Williams street, dated August 3, 1926. Items ordered: Use Ferrocement cement instead of Portland cement for grout joints where directed in the laying of recut granite blocks under Items 5e and 5f. An additional sum of fifty cents (\$0.50) per square yard is to be paid where Ferrocement is used, i. e., Item 5e, \$3.40 per square yard, and Item 5f, \$3 per square yard. Although this is in addition to the work contemplated in the original contract, it is incidental thereto. Estimated cost of extra work, \$400.

LAND-TAKING IN HYDE PARK.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston, formerly Hyde Park, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Ruskin road, bounded:

Southeasterly by Radcliffe road, six feet; southwesterly by another part of Ruskin road, one hundred and ten feet; northeasterly by the same, six feet; and northeasterly by the same, one hundred and ten feet, containing six hundred and sixty square feet, more or less.

The sewerage works to be constructed are as follows: 125 linear feet of 8-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Ruskin road, leading northwesterly from Radcliffe street for a distance of about 110 feet.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on the northeasterly side of Ruskin road for a distance of approximately one hundred and twenty feet northwesterly from Radcliffe road, excluding the lot at the northerly corner of Radcliffe road and Ruskin road, and the lot of abutting land on the southwesterly side of Ruskin road, designated as Lot 5 on the plan hereinafter mentioned, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 719, Sewerage Works, Ruskin Road, Hyde Park, October 13, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

The Massachusetts Civil Service Commission announce examinations for desirable positions open in the Boston and Metropolitan districts as follows:

BOXING INSTRUCTOR, BOSTON PARK DEPARTMENT, DECEMBER 6, 1926.

Salary, \$1,900 per year.

Applicants are required to have at least two years' experience as a boxing instructor.

The duties of this position are to conduct classes in the municipal gymnasiums of Boston.

Subjects and weights: Training and experience, 3; practical test, 4; personality and fitness as determined by an oral interview, 3; total, 10.

Applicants will be required to obtain at least 65 per cent in each subject of the examination in order to become eligible.

Physical examination required.

The date given above is not the actual examination date, but the date on or before which application blanks must be filed.

FOREMEN OF WATER, SEWER, AND HIGHWAYS, ETC., DECEMBER 10, 1926.

This examination is for foremen of water, sewer, and highways (or streets) in the service of the state and of all cities and of such towns in the state as are classified under civil service; and of sanitary and street cleaning in the service of Boston.

There are several vacancies in different cities which will be filled from the list established as a result of this examination.

(A.) Highway (or Street) foremen in the service of the state, or cities in the state, except Boston, and of the towns classified under civil service: Training and experience, 14; arithmetic, 4; report, 2; practical questions on street and road construction, grading, repairing, etc., 10; total, 30. The subjects and weights for Boston foremen are: Training and experience, 14; arithmetic, 4; report, 2; practical questions, 9; questions on the care of horses, 1; total, 30.

(B.) Sewer: The subjects and weights are the same as for (A), State Highway, except that the practical questions will concern the quality of materials, bracing and refilling of trenches, general maintenance and repair of sewers, catch-basins, etc.

(C.) Water: The subjects and weights are the same as for (A) State Highway, except that the practical questions will concern the laying and maintenance of water mains and service pipes, time-keeping, accounting for material, etc.

(D.) Sanitary and Street Cleaning (in the service of Boston): The subjects and weights are the same as for (A) Boston Street foremen, except that the practical questions will concern the handling of ashes, garbage, etc., and the watering, oiling and cleaning of streets.

NOTE.—Applicants for all services may, if they wish, take an additional paper on the use of explosives, and if successful in passing it will have it so noted as a special qualification.

Applicants are required to obtain a mark of at least 65 per cent in experience and at least 50 per cent in practical questions.

Physical examination required. Sample questions available.

DRAWTENDERS AND ASSISTANT DRAWTENDERS, DECEMBER 10, 1926.

This examination will be held for the service of the state, Boston, Cambridge and New Bedford. The subjects of examination with their respective weights will be as follows: Training and experience, 4; report, 1; arithmetic, 1; practical questions, 4; total, 10.

Physical examination required.

CIVIL ENGINEERS, DECEMBER 13-18, 1926.

These examinations are for the service of the state, all cities, and such towns as are classified under civil service.

Warning.—Many men fail in the civil engineering examination because they apply for grades for which they are not qualified. It is advisable, therefore, if there is any doubt about the quantity or quality of your experience, to take both the grade for which you think you are qualified and the next lower grade. If you should be found ineligible for the

higher grade, you will still have an opportunity to be placed on the next lower grade.

Grade A (1).

Engineering assistants, drafting assistants and rodmen who perform, under instructions and supervision, elementary or apprentice work in the field or office.

It is *prima facie* evidence that a position in Class 27 is not in Grade A if the salary is less than \$900 a year or more than \$1,440 a year.

Qualifications.—Applicants must have completed a high school course of not less than three years or must have had not less than one year of practical experience in field engineering or office work.

Subjects and Weights.—Rodmen.—Experience, 4; mathematics, 6; penmanship, 1; tracing, 3; questions on the duties of the position, 6; total, 20. Assistant Draftsmen.—Experience, 4; mathematics, 6; penmanship, 1; drawing, 9; total, 20.

Grade B (2).

Senior engineering assistants, instrumentmen, and draftsmen (a) who assume responsibility for the execution of definite instructions in a minor division or section of engineering activity; or (b) who direct, under supervision, the operation of minor engineering projects.

It is *prima facie* evidence that a position in Class 27 is not in Grade B if the salary is more than \$1,980 a year.

Qualifications.—If appointed by promotion, not less than one year of service in Grade A. If appointed otherwise than by promotion from Grade A, at least two years of practical experience in engineering work of Grade A character and standard; or such training in civil engineering as is evidenced by a professional degree granted on the completion of a standard course of instruction at an institution or college of recognized standing; or the successful completion of not less than two years' study in such institution plus one year's practical experience in engineering work.

Subjects and Weights.—Instrumentmen.—Experience, 16; penmanship, 2; plotting, 6; questions on duties, 8; mathematics, 8; total, 40. Draftsmen.—Experience, 16; drawing, 10; mathematics, 6; duties, 4; plotting, 4; total, 40.

Grade C (3).

Assistant engineers, assistant civil engineers, and designing engineers (a) who assume responsibility for the direction of surveys, the preparation and examination of, or advice upon, plans, designs and specifications for a minor section of a large engineering or a major section of a small engineering project; or (b) who supervise or inspect the construction or the operation of work on such a project; or (c) who make investigations of, and reports upon, such engineering projects as a basis for a report by an engineering superior.

It is *prima facie* evidence that a position in Class 27 is not in Grade C if the salary is more than \$2,580 a year.

Qualifications.—If appointed by promotion within a department or major division thereof, not less than two years of service in Grade B, or, if appointed otherwise than by promotion from Grade B, within a department or major division thereof, at least five years of practical experience in engineering work, at least one half of which shall have been ap-

propriate to the particular branch of engineering work covered by the position, provided that a degree granted on the completion of a standard course of instruction by an engineering school of recognized standing shall be accepted as the equivalent of three years' practical experience.

Subjects and Weights.—Experience, 10; design 2; mathematics, 2; questions on materials and methods of construction, 3; engineering theory, 3; total, 20.

Grade D (4).

Senior assistant engineers, senior assistant civil engineers, and senior designing engineers (a) who supervise and assume complete responsibility for the work of a main division of an engineering organization involving the direction of surveys and design and construction; or (b) who maintain and operate the major section of a large engineering project; or (c) who make independent investigations of and reports upon engineering projects as a basis for executive administrative, or judicial action; or (d) who take charge of a large engineering department in the absence of the chief engineer; or (e) who give advice on large or complicate engineering projects which may involve the preparation of plans.

It is *prima facie* evidence that a position in Class 27 is not in Grade D if the salary is more than \$3,600 a year.

Qualifications.—If appointed by promotion within a department or major division thereof, not less than three years of service in Grade C. If appointed otherwise than by promotion, within a department or major division thereof, at least eight years of practical experience in engineering work, at least one half of which shall have been appropriate to the particular branch covered by the position, and two years of which shall have been in an executive capacity; provided, that a degree granted on the completion of a standard course of instruction by an engineering school of recognized standing shall be accepted as the equivalent of four years of practical experience.

Subjects and Weights.—Experience, 24; questions on materials and methods of construction, 5; engineering theory, 5; design, 6; total 40.

An applicant must specify the grade for which he applies. Specimen examinations available.

AREA OF BOSTON TO WARD LINES.

Total, 30,598 acres (*i. e.*, 47.81 square miles), 2,944 acres being filled land, 1,143 acres water area and 1,436 acres flats. land area only, 28,019 acres (*i. e.*, 43.78 square miles). Included in the latter are 160 acres of filled flats recently added to the land area of South Boston and 175 acres to that of East Boston.

Original Boston contained about 780 acres of land. Of the twelve leading American cities, eight are larger in land area than Boston, *viz.*, Los Angeles (364 sq. miles), New York (318), Chicago (199.4), Philadelphia (129), Baltimore (91.9), Detroit (80), Cleveland (56.6), and St. Louis (61.25). The only city in Massachusetts with larger land area is Taunton (50 sq. mi.).

If Boston should expand by annexations as New York, Chicago, Philadelphia, Los Angeles and others have

expanded, its total area, in case of including the 39 cities and towns within the 15-mile radius, would exceed the largest, *viz.*, Los Angeles, the present land area of "Greater Boston" being 409.3 square miles.

LOCATIONS OF STREETS.

The Mayor has approved the following votes of the Board of Street Commissioners:

That the location, direction, width and grade of the private way, in the Dorchester district, designated as Wilder road, from Blue Hill avenue to Normandy street, as shown on a plan approved in writing by the Board of Street Commissioners, and on file in the office of the Street Laying-Out Department, be and the same hereby are approved.

That the location, direction, width and grade of the private way, in the Brighton district, designated as Duncklee street, from Harriet street to Board of Survey street No. 1935, as shown on a plan approved in writing by the Board of Street Commissioners and on file in the office of the Street Laying-Out Department, be and the same hereby are approved.

That the location, direction, width and grade of the private way, in the Dorchester district, designated as Violante street, from River street to Rockdale street, as shown on a plan approved in writing by the Board of Street Commissioners, and on file in the office of the Street Laying-Out Department, be and the same hereby are approved.

POLICE AMBULANCE, SOUTH BOSTON.

The following was received:
City of Boston,
Office of the Mayor, November 22, 1926.
To the City Council.

Gentlemen,—I transmit herewith a communication from the Police Department in reply to your order of November 15, in relation to the assigning of a police ambulance permanently to Division 6, South Boston.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Police Department,
November 19, 1926.

Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Mayor Nichols,—I am in receipt of your communication of the 17th inst., together with an inclosure of an order of the City Council, that the Police Commissioner be requested, through his Honor the Mayor, to have a police ambulance assigned permanently to Division 6, South Boston.

I wish to state that this department is in need of six or seven ambulances and I took the matter up with the Mayor's Emergency Committee and I am in hopes that next year some of these ambulances may be available, and if so, I shall be glad to assign one to Division 6, South Boston, as I appreciate the need not only in this, but in other localities in the city.

Yours respectfully,
HERBERT A. WILSON,
Police Commissioner.

BOULEVARD OVER SHAWMUT BRANCH EXTENSION.

The following was received:
City of Boston,
Office of the Mayor, November 22, 1926.
To the City Council.

Gentlemen,—I transmit herewith a communication from the Transit Department in reply to your order of November 19, relative to furnishing estimates of cost of construction and time required to make a boulevard street for pleasure vehicles over the tunnel and areaway of the Shawmut Branch Extension of the Cambridge Tunnel, between Park street and Center street, Dorchester.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Transit Department, November 19, 1926.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—I return herewith order of the City Council as follows:

"Ordered, That the Transit Commission be requested to furnish the City Council with estimates of cost of construction and time required to make a boulevard street for pleasure vehicles over the tunnel and areaway of the Shawmut Branch Extension of the Cambridge Tunnel, between Park street, Dorchester, and Centre street, Dorchester."

The plans under which this department is working on the Shawmut Branch between Park and Centre streets, Dorchester, provide for a covered section similar to a subway, but the roof is not designed to carry traffic. A contract for construction has been let and is now in progress in accordance with the plans finally agreed upon by the Boston Elevated Railway Company, the lessee of the Dorchester Rapid Transit Line, and any changes such as would be necessary in the design of this structure to carry traffic on its roof would not only nullify our present contracts, but would seriously delay the entire rapid transit extension.

There are ample streets paralleling the Shawmut Branch and within a short distance therefrom to take care of all of the traffic in this vicinity as long

as the district remains a residential section. We can see no advantage, even if some method were found to finance this project, in providing a "boulevard street" with nothing but rear yards abutting thereon. Unless additional property was taken there are many places within the area specified where the width of the "boulevard," including sidewalks, would not be 40 feet.

If traffic conditions in that vicinity should reach a stage where additional traffic ways are necessary, it would be a comparatively simple proposition to construct a real thoroughfare paralleling the Shawmut Branch through existing public ways and private property at much less expense.

Yours very truly,
T. F. SULLIVAN,
Chairman.

Placed on file.

PETITIONS RECEIVED.

Petitions were received and referred to the committee named, viz.:

Claims.

Sidney W. Ball, for compensation for damage to automobile by city truck.

Elizabeth I. Barrett, for compensation for injuries caused by an alleged defect in Newland and Fabin streets.

Checker Taxi Company, for refund on refuse tickets.

Alexander Chisholm, for compensation for damage to automobile, caused by an alleged defect in School street, Jamaica Plain.

Benjamin Cohen, for compensation for damage to property at 213 Hanover street, caused by backing up of sewage.

Ellen Conley, for compensation for injuries caused by an alleged defect in Academy Hill road.

Patsey Contestable, for compensation for damage to automobile by city cart.

John A. Cummings, for compensation for loss of fowls killed by dogs.

CONFIRMATION OF EXECUTIVE APPOINTMENTS.

President KEENE, under unfinished business, called up No. 1 on the calendar, viz.:

1. Action on appointments submitted by the Mayor, November 15, 1926, of John D. Maguire and William S. Casey, to be Constables.

The question came on confirmation. Committee, Coun. Englert. Whole number of ballots 12, yeas 12, and the appointments were confirmed.

DEED TO LAND ON WALLINGFORD ROAD.

President KEENE called up, under unfinished business, No. 2 on the calendar, viz.:

2. Ordered, That his Honor the Mayor be and he hereby is authorized in the name and behalf of the City of Boston to execute and deliver a deed to Marion W. Smith, her heirs and assigns, of the following described parcel of land situated on Wallingford road, in that part of Boston called Brighton, and bounded and described as follows:

Westerly by other land of the City of Boston, one hundred seventy-four (174) feet; northerly by other land of said City of Boston, sixty-eight (68) feet; easterly by land of said Marion W. Smith by three measurements, four and 60-100 (4.60) feet; thirty-nine and 80-100 (39.80) feet; and one hundred thirty-six and 31-100 (136.31) feet respectively, containing 6,258 square feet of land, more or less, as shown on a plan marked "plan of land on Wallingford road, Boston, Mass., Mrs. Marions Smith, owner," in exchange for the following described parcel of land situated on said Wallingford road and bounded and described as follows:

A certain triangular shaped parcel of land bounded southerly by land of said Marion W. Smith, twenty-one (21) feet; westerly by other land of the City of Boston one hundred two and 50-100 (102.50) feet, and easterly by Wallingford road one hundred (100) feet, containing 1,050 square feet of land, more or less, as shown on said plan which the said Marion W. Smith shall convey unto the said City of Boston simultaneously upon the conveyance by the city to the said Marion W. Smith of the parcel of land hereinbefore authorized to be conveyed to her. The deeds of the said conveyances by the City of Boston and the said Marion W. Smith are to be in form satisfactory to the Law Department.

On November 15, 1926, the foregoing order was read once and passed, yeas 18, nays 1.

The order was given its second and final reading and passage, yeas 16, nays, Coun. Freeley, 1.

BONDS FOR JITNEY LICENSES.

Coun. GUILD offered the following:

Ordered, That section 96 of chapter 39 of the Revised Ordinances of 1925 be and the same hereby is repealed and in place thereof the following section is inserted:

"Section 96. No such license shall be issued or become operative until the licensee shall have filed with the City Clerk a bond in the penal sum of five thousand (5,000) dollars conditioned to pay any final judgment against the principal named therein for any injury to property by reason of any negligence or unlawful act on the part of the principal or his or its agents, employees or drivers in the use or operation of any such vehicle; and a bond in the penal sum of one hundred (100) dollars conditioned to pay any final judgment against the principal named therein for any injury to persons or damage for causing the death of any person by reason of any negligence or unlawful act on the part of the principal or his or its agents, employees or drivers in the use or operation of any such vehicle."

And be it further ordered that this ordinance shall take effect at 12.01 a. m., January 1, 1927.

Coun. GUILD—Mr. Chairman, in introducing this ordinance probably a word of explanation is necessary, because otherwise it will be blind to the Council. The chapter and section of the Revised Ordinances referred to is that which requires jitney bus operators to file with the City Clerk a bond in form satisfactory to the City Treasurer in certain sums conditioned to pay any final judgment that may be recovered in the event of personal injuries, damages to property or death of a person. The so-called compulsory Automobile Insurance Act passed by the State Legislature goes into effect at 12.01 a. m., January 1, 1927. The standard form of policies to be issued under that act contains a provision to the effect that:

"No statement made by the assured or on his behalf and no violation of the terms of this policy shall operate to defeat or void this policy so as to bar recovery within the limit provided in this policy by a judgment creditor proceeding under the provisions of section 113 of chapter 175 and clause 10 of section 3 of chapter 214 of the General Laws."

The compulsory Automobile Insurance Act apparently takes care of the injuries to persons, so that there is no longer need of jitney bus companies filing a bond in the sum of \$25,000 with the City of Boston to provide against loss of life or injury to persons. The liability of injury to property apparently continues, although insurance companies will issue policies in the same form applying to injury to property. For that reason it would seem to me superfluous for the City of Boston to carry on its ordinance books a requirement that the jitney bus companies shall go to the expense of filing bonds in the sum of \$25,000 to provide against personal injuries, when the State of Massachusetts compels them to take out compulsory state automobile insurance providing against that very thing, thereby eliminating the objection that has sometimes been raised that the insurance

companies duck, because I understand that, with the form of policy now permitted by the Massachusetts authorities, the insurance companies cannot duck a claim by a creditor.

The ordinance was referred to the Committee on Ordinances.

OPINION OF CORPORATION COUNSEL IN RE TRANSFER OF CITY BUILDING.

Coun. FITZGERALD offered the following:
Ordered, That the Corporation Counsel be requested to furnish the City Council with an opinion in regard to the following situation:

A loan is authorized by the City Council and approved by the Mayor for the construction of a building for a specific purpose stated in the loan.

The loan is issued and the building constructed by the Public Buildings Department.

Whether or not, without further action by the City Council, the building can be turned over to another department and used for a purpose other than that designated in the loan.

Passed, under suspension of the rule.

AMENDMENT OF ORDINANCE CONCERNING PARK FRONTAGES.

Coun. DOWLING submitted the following:

An Ordinance Concerning Park Frontages.
Be it ordained by the City Council of Boston, as follows:

Chapter five of the Ordinances of 1922, as amended by chapters two and eight of the Ordinances of 1923, is hereby further amended in section one by inserting after the words "Commonwealth avenue, from Arlington street to Kenmore street," the words "and from Washington street to the Newton line."

Referred to the Committee on Ordinances.

TELEPHONE RATE INVESTIGATION.

Coun. DOWD offered the following:

Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to inform the City Council as to what progress has been made in, and the present status of, the telephone rate investigation which is now in progress.

Coun. DOWD—Mr. President, in introducing that order, I will simply say that I am prompted to do so because of the fact that in last Tuesday's *Traveler* there was this Washington news from their correspondent:

"Hub to blame on Phone Rates. Commerce Board can't act until city files long-overdue data."

The article goes on to tell us that the Commerce Board in Washington has been waiting for more than two months for the officials of the City of Boston to act. I feel that there is a sufficient amount of money appropriated by the City of Boston for attorneys to have that case presented, and presented properly to the Board at Washington, without the papers coming out openly and saying that the Hub is to blame. I believe also we have a Law Department with attorneys enough to properly present such a case, and I cannot understand why the Commerce Board in Washington now comes out openly in the Press and says that the City of Boston, which started the investigation, is absolutely to blame for the delay in said investigation.

The order was passed under suspension of the rule.

LEAVE OF ABSENCE FOR WORLD WAR VETERANS.

Coun. DOWD offered the following:

Ordered, that the heads of departments be authorized, through his Honor the Mayor, to allow all employees of the City of Boston and County of Suffolk who served in the armed forces of the United States during the World War, and who desire to attend the Convention of the American Legion in Paris, France, in September, 1927, a leave of absence for thirty days without loss of pay for the purpose of attending this convention; and that his Honor the Mayor appoint a committee to verify the war service of those employees who apply for such leave of absence.

Coun. DOWD—Mr. President, it may seem rather early at this time, eight months previous to the convention, to present such an order, but I do so in view of the fact that Boston, I believe, gave more men per capita to the country in the World War than any other large city, and should at least lead the way in this matter of allowing its veteran employees leave of absence on such an important occasion. We should give enough time for the necessary preparation and provision for the expense of going to that convention. I also introduce the order so that the Budget Commissioner, if he feels that it is necessary, feels that the city service will be impaired in any way by allowing a number of the veterans off for such a length of time, will be able to include sufficient money in the budget to cover such an item.

Coun. GUILD—Mr. President, some time ago I introduced an order which permitted the members of the American Legion, if I remember right, to give notice in writing to their department heads

that they would forego a portion of their vacation this past year and add it to their vacation next year, thereby being able to have the thirty days leave of absence that this order calls for to attend the convention in France. Now, such men may find themselves in this position, that they have foregone a considerable portion of their vacation period this year in order to be able to have extra time next year, and may therefore be placed at a disadvantage compared with others who might avail themselves of such a provision as is contemplated in the present order. I would recommend that we hear from department heads as to the situation these men are to be left in before passing an order to give these employees a blanket thirty days leave of absence. I should be in favor of their having a thirty days leave of absence, but that is not in accordance with the action that the Council has previously taken upon this matter.

Coun. DOWD—Mr. President, I would like to ask Coun. Guild, through the Chair, whether it is his attention that their vacation should be subtracted from the thirty days?

President KEENE.—The Chair will state that the purpose of the prior order was to make the vacation periods of 1926 and 1927 cumulative, as the Chair understands. Is the Chair correct?

Coun. GUILD—Mr. President, I think that is correct. I am not sure that I thoroughly understand Coun. Dowd's question, but I will simply say that under the previous order—and I am sorry that I cannot directly refer to it, it having been passed some months ago,—the men were given the right to notify heads of departments that they wished to forego a part of their 1926 vacation in order to have it tacked on to the vacation of 1927, with pay during the vacation period. Now, if some of the men in various departments have foregone a part of their vacation of 1926, they will, of course, be left in the position where they can say, "We have thirty days' vacation coming to us, any way, under this arrangement, and why should we have foregone some of our vacation of 1926?" That leaves us in a fine box.

Coun. DOWD—Mr. President, as I understand Coun. Guild's position in this matter, it is simply this,—if an opportunity is to be afforded to any veteran who desires to go to Paris to the convention next year, why should some of the employees of the city have been obliged to forego their vacation this year in order to participate in that convention next year? I hope the matter will be referred to the Executive Committee.

The order was referred to the Executive Committee.

MENACE TO BUNKER HILL SCHOOL CHILDREN.

Coun. GREEN offered the following:

Ordered, That the Health Commissioner be requested, through his Honor the Mayor, to consider what steps are necessary to remove the menace to the life and health of 1,200 school children caused by a soap factory in the rear of the Bunker Hill School.

Passed under suspension of the rule.

LAND-TAKING FOR CHARLESTOWN SCHOOL.

Coun. GREEN offered the following:

Ordered, That the School Committee be requested, through his Honor the Mayor, to consider the advisability of taking land at the corner of Charles street, Charles Street place and Schoolhouse court, Charlestown district, for school extension purposes.

Passed under suspension of the rule.

NEW FIRE STATION, CHARLESTOWN.

Coun. GREEN offered the following:

Ordered, That the Fire Commissioner be requested, through his Honor the Mayor, to consider the advisability of establishing a new central fire station in the Charlestown district to house all fire apparatus located in said district.

Passed under suspension of the rule.

PROPOSED PURCHASE OF GAS MASKS.

Coun. GREEN offered the following:

Ordered, That the Fire Commissioner be requested, through his Honor the Mayor, to provide in his annual budget for 1927 for the purchase of 300 of the best type gas masks in order that every fire station in the entire city may be supplied and with a view to protecting the lives of the firemen as well as those of the general public.

Passed under suspension of the rule.

WIDENING OF MEDFORD STREET.

Coun. GREEN offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to consider the advisability of widening

Medford street, Charlestown, at the corner of Bunker Hill street and Main street, in connection with the repaving of said street which is already under way.

Passed under suspension of the rule.

ARC LAMP, WARD 11.

Coun. ENGLERT offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install an electric arc lamp at the southwest corner of Boynton and Call streets, Jamaica Plain, Ward 11.

Passed under suspension of the rule.

ANNUITY TO ALBERT F. SINGLE.

Coun. DOWLING for Coun. KEENE offered the following:

Resolved, That the City Council of Boston favors the enactment of legislation authorizing the City of Boston to pay an annuity to Albert F. Single, a former member of its Fire Department, who was permanently incapacitated from injuries received while in the performance of his duty.

Referred to Executive Committee.

SIDEWALK, RICHMOND STREET, WARD 17.

Coun. WILSON offered an order—That the Commissioner of Public Works make a sidewalk along Richmond street, east side, Dorchester avenue to Washington street, Ward 17, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

SMOKE NUISANCE DORCHESTER COURT-HOUSE.

Coun. WILSON offered the following:

Ordered, That his Honor the Mayor be and he hereby is respectfully requested to instruct the Superintendent of Public Buildings for the City of Boston to abate smoke nuisance now caused by the heating plant of the new Dorchester Municipal Courthouse on Washington street, Dorchester.

Coun. WILSON—Mr. President, in reference to that order I will simply say that if the undue smoke nuisance from the new Dorchester courthouse on Washington street is a temporary proposition due to the drying out of the building, we feel that it is time that the nuisance should be abated. If, as I suspect, the smoke nuisance which is jeopardizing the health of people in the Melville avenue district is because of a mechanical defect in construction, the sooner the situation is realized and action is taken to abate the nuisance and to save the city from the annoyance and expense of a law suit that will be brought unless the situation is remedied at once, the better.

The order was passed under suspension of the rule.

EXPENSE OF ROADWAY OVER SHAWMUT BRANCH EXTENSION.

Coun. WILSON offered an order—That his Honor the Mayor be and he hereby is requested, through proper department heads, at once to make a thorough and complete investigation of the expense of constructing a roadway or street for pleasure vehicles over the tunnel and arseway of the Shawmut Branch Extension of the Cambridge Tunnel, such street to extend from Geneva avenue to Peabody square, serving as an auxiliary roadway to supplement Washington street and Dorchester avenue.

Coun. WILSON—Mr. President, two weeks ago this afternoon I introduced an order in this Council with reference to this boulevard or street along the surface of the new tube of the Dorchester rapid transit system, extending from beyond Park street to Peabody square, asking advice from the Transit Commission as to the approximate cost of constructing such a roadway. I have read the communication we have received today from the Transit Commission. Meanwhile, personal observation has shown me that the sinking of the 20-foot trench has gone merrily on.

The original plan of this rapid transit extension in Dorchester, as I understand, contemplated a surface line entirely, running in this particular part along an open trench. Then, following the heavy snowstorms of last February, some one woke up and conceived the idea that with a heavy snowstorm in this district, little would be left of the Dorchester rapid transit system when the snow drifted into the trench. Therefore, it was planned to roof over the trench. According to the present contract, as I understand it,—and there has been at least that change in the original plan,—the present plan calls for the sinking of a 20-foot trench, and the construction of a roofed

subway, but the only reinforcement of the structure to carry traffic is to be at points where streets cross the subway, and not for the length of the subway. I merely ask at this time that the Mayor be requested, through the Transit Commission and other boards that may have to do with this matter, to display a minimum amount of vision for the future. Years ago, when Mr. Charles A. Ufford of Dorchester first had the vision of a rapid transit system along the so-called Shawmut Branch, people said that the vision was a dream, but within the course of a few months we are to see that vision become a reality. When the original Cambridge Tunnel was put through Cambridge no sacrifice was made of Massachusetts avenue, nor was any sacrifice made of Dorchester avenue or of Broadway when the extension was made to South Boston; and, with the influx of population and the increased traffic congestion that the extension of this rapid transit system will undoubtedly bring to Dorchester, I now feel very strongly that the construction of an auxiliary road on top of this new tube or subway is an absolutely necessary supplement to Dorchester avenue on the one side and Washington street on the other, in Dorchester, covering the entire section from Geneva avenue in Ward 15, across Ward 17, to Peabody square in Ward 16, and beyond. With reference to the report that has come to us from the Transit Commission this afternoon, it is certainly no news to the members of the Council from Dorchester that, according to the present plans, "the roof is not designed to carry traffic." We ask that the present plans be changed. We are also advised that the present "contract for construction has been let and is now in progress in accordance with the plans finally agreed upon by the Boston Elevated Railway Company, the lessee of the Dorchester Rapid Transit line, and any changes such as would be necessary in the design of this structure to carry traffic on its roof would not only nullify our present contract but would seriously delay the entire rapid transit extension."

Of course, the contractors would not be working there unless the contract was let. It would, however, be news to me to find that a contractor who simply holds a contract to dig and cover a ditch would not be willing to get a bigger job than the one he had. They also make a statement that "there are ample streets paralleling the Shawmut Branch and within a short distance therefrom to take care of all of the traffic in this vicinity so long as the district remains a residential section." I deny, in the first place, that that is even true at the present time, and I ask how long they think this will remain a residential district after this rapid transit system gets going? I say that the attitude they should take in regard to the entire matter is similar to the attitude that was taken with reference to the situation in Cambridge and in South Boston, in connection with the Cambridge and South Boston tunnels.

They make the further point: "If traffic conditions in that vicinity should reach a stage where additional traffic ways are necessary, it would be a comparatively simple proposition to construct a real thoroughfare paralleling the Shawmut Branch through existing public ways and private property at much less expense."

I doubt whether the Transit Commission during the past two weeks has looked over the ground sufficiently to make that statement reliably and with any degree of certainty. As a resident of the district I know that it is a physical impossibility to find such another direct line. As a logical proposition, I think we can assume that the direct line through this district is the line the railroad took when they built the tracks; and it seems to me that the people of Dorchester, in view of the millions of dollars being spent out there, are entitled to have this matter looked into with some degree of thoroughness and to have the plan worked out, not simply with an eye to today, or tomorrow, but twenty years from today. We now find the Mayor of Boston and the Trustees of the Elevated engaged in a discussion as to the advisability of the city spending millions of dollars on an entirely new project at Governor square, constructing an underpass, subway, or whatever it may be called; and yet in this matter of pressing moment, a thing so vitally affecting the Dorchester district and at present actually in the course of construction, a project involving millions of dollars, I merely ask that while it is being carried out, the real demands of the situation be considered and that there be constructed over this tunnel or subway such a highway as we believe is necessary and as we feel we are entitled to.

The order was passed under suspension of the rule.

SOLDIERS' RELIEF.

Coun. RELBODY, for the Committee on Soldiers Relief, submitted a report recommending passage of order for payment of aid to soldiers and sailors and their families in City of Boston for month of November, 1926.

Passed under suspension of the rule.

RECESS.

On motion of Coun. DOWD the Council at 2.38 p. m. took a recess subject to the call of the

President. The members reassembled in the Council Chamber and were called to order by President KEENE at 3.40 p. m.

COMMITTEE ON BUDGET CONTROL.

President KEENE—The Chair will appoint as members of the committee under the order offered by Coun. Parkman relative to the question of budget control which order contained a provision for the appointment of a committee of two by the Chair to confer with the Mayor and heads of departments—Coun. Parkman and Heffernan.

EXECUTIVE COMMITTEE REPORTS.

Coun. DOWLING, for the Executive Committee, submitted the following:

1. Report on order (referred November 15) that a committee of five members of the City Council be appointed by the President to investigate the actual residences of employees of the city, that the same ought to pass.

Report accepted, said order passed.

2. Report on resolve (referred today) in favor of legislation authorizing the city to pay an annuity to Albert F. Single—that the same ought to pass.

Report accepted, said resolution passed.

3. Report on order (referred September 20) to make a transfer in the Public Works Department, Sanitary Service, from A-1, Permanent Employees, \$15,000, to B-6, Hire of Teams and Auto Trucks, \$15,000—that no further action is necessary.

Report accepted.

4. Report on petitions (referred today) for children under fifteen years of age to appear at places of public amusement—recommending that permits be granted, as follows:

Giovanni Pompeo, Symphony Hall, November 21.

Margaret MacDonnell, Elks Auditorium, December 3.

Boston Evening American, Elks Hotel Ballroom, December 12.

William Stanley Parker, Elliott Hall, December 8, 9, 10 and 11.

Reports severally accepted, leave granted under usual conditions.

SPECIAL COMMITTEE ON JITNEY LICENSES.

Coun. WRAGG, for the Special Committee on jitney licenses, submitted the following:

1. Report on petition of the Boston Elevated Railway Company (referred November 8) to operate motor vehicles from the junction of Canal and Causeway streets via Causeway, Portland and Merrimack streets, to Washington street, in substitution for the portion of the present South Station North Station route operating between the junction of Canal and Causeway streets via Causeway street to Keaney square,—that license be granted.

Report accepted, license granted on usual conditions.

2. Report on petition of the Boston Motor Tours Company (referred October 4) for license to operate five motor vehicles in the City of Boston from boundary line between Boston and Milton and Mattapan square, over Blue Hill avenue, Seaver street, Columbus avenue to 12 Park square, no local passengers within the city limits, it being part of a through route to Fall River and Newport,—that a license be granted.

The report was declared accepted, and the permit granted. Coun. DOWLING doubted the vote and asked for a show of hands.

The show of hands showed 9 in favor and 9 against.

Coun. DOWLING—Mr. President, I ask for a verification by roll call.

Coun. WRAGG—Mr. President, possibly I might enlighten the Council a little in connection with this application. This concern now operates between Fall River and Boston, and whether we grant the license or do not they will still operate as they do at the present time. This, I understand, is simply to get a stopping place, a terminus. They run between Boston limits and Newport, R. I., or Fall River, Mass. The only dissenting vote on the committee was that of Coun. Ruby.

President KEENE—The Chair would ask Coun. Wragg whether or not they hold a permit from the Public Utilities Commission?

Coun. WRAGG—I believe they do, sir.

Coun. DOWLING—Mr. President, I would like a little more definite answer than the chairman of the committee gives. "I believe they do," is not a definite answer. Furthermore, if the company is going to operate just the same without the franchise as they would with it, I see no need for our acting, any way, and I move that the franchise be not granted.

Coun. WRAGG—Mr. President, I don't know that I can say any more than I have said. We had a representative of the company at two different hearings that we gave on the matter for the sake of clearing up certain details in connection with their route, and there seemed to be no objection on anybody's part. There was no one who appeared

here for the railroad or the Elevated road in opposition. The statement we obtained from the representative of the concern who appeared before the committee was that he held a permit.

Coun. FREELEY—Mr. President, I might state, being a member of that committee, that I had it continued or postponed for another hearing, and my reason for doing so was the fact that the captain in my division had had numerous complaints about the way the buses were speeded through my district, and it was thought advisable that there should be something in the way of a warning to such drivers. The representative of the company agreed with me, and obtained the number of the bus which had so offended, and the company immediately fired the driver that speeded through the district I represent.

Coun. GUILD—Mr. President, I rise for information from the chairman of the committee. I cannot understand why it is he states that this bus company is going to operate any way whether we grant this petition or do not grant it. I do not understand that at all.

President KEENE—Will Coun. Wragg explain the difference between having a permit to go through this city, and having a permit to pick up and let off passengers?

Coun. WRAGG—Mr. President, as I have already said, the company has a right to operate, and will do so whether we grant this permit or not. As I understand, they simply run between certain points. They have to have a terminus and termini. They must have a terminus here and a terminus at the other end of the route. They go through certain intervening towns, and I understand that they have a right to do that. Boston is a terminus and, of course, they have to have Boston. They do not, however, propose to let off or pick up passengers in the Boston city limits. But they must have a terminus here, and a terminus in Fall River, we will say. They have to have the two ends, and they travel in between as the law requires. I might further say that they have an understanding with the Boston Elevated Railway Company that they will not take on or let off passengers in Boston limits.

President KEENE—The Chair will state to Coun. Dowling that we cannot prevent this company from doing an interstate business, but if they obtain a license they can take on and let off passengers between their starting place and stopping place within the Commonwealth of Massachusetts.

Coun. DOWLING—Mr. President, we are politicians before we come here, but after we get here we are supposed to be business men. We are directors of the corporation of the City of Boston, and are supposed to look after the interests of the city; and when a committee submits a report involving a valuable franchise, with no more information given to us than has been given to us by this committee, I certainly believe the matter should be referred back to the committee so that they can make another report and give us more intelligent information. I therefore so move.

Coun. WILSON—Mr. President, as a member of the Jitney Committee I strongly believe that the report of the committee, like the report that any committee makes after full and favorable consideration, should be accepted at its face value, unless there are some outstanding features that the Council wants to ask about. I do not understand that any committee of the City Council, the Jitney Committee or any other, is expected to bring in a stenographic report of its bearings. So far as the jitney situation is concerned, as a member of the Jitney Committee, I feel that these jitney lines, providing they are run by reputable people, lines which bring into our city people from outlying districts and from other towns, thereby helping the business of the City of Boston, should be encouraged. I do not believe that jitneys should be allowed to run in the downtown districts of the City of Boston by the Boston Elevated or anybody else. Unfortunately they are here; we have them. We have already licensed the Boston Elevated to run certain jitney lines in the heart of the city, and personally I voted today for a permit to the Elevated because it merely represented a change in an existing route. As for further licenses to run jitneys down Washington street or otherwise in the heart of our downtown district, to the Boston Elevated or to anybody else, I am opposed to them. But this particular license that we have under consideration now proposes to bring people from outside into Boston, people who would otherwise not have means to reach here and get back to their homes conveniently. There is no way to bring them here if the jitney does not do it, and therefore I favor granting the license.

President KEENE—The clerk will call the roll, the question being on the granting of the license. A "yes" vote is for acceptance, and "no" for denial.

The clerk commenced to call the roll. When Coun. Guild's name was reached he said:

Present and not voting, Mr. President.

Coun. DOWD—Mr. President, I believe it is the rule of the Council that a member who is present shall vote.

President KEENE—That is the rule of the Council.

The clerk completed the roll call and the report was accepted, and the permit granted on the usual conditions, yeas 13, nays 7.

Yeas—Coun. Bush, Donovan, Englert, Fitzgerald, Freeley, Green, Guild, Keene, Mahoney, McGrath, McMahon, Wilson, Wragg—13.

Nays—Coun. Arnold, Dowd, Dowling, Gilbody, Heffernan, Lynch, Parkman—7.

3. Report on petition of the New England Transportation Company (referred October 18) for revising routing on the Boston-Providence route, as follows: Inward—Dedham line, over Spring street, Centre street, South Huntington avenue, Huntington avenue, Stuart street, Columbus avenue, Park square, Providence street, to terminal at 3 Providence street; alternate inward—Dedham line, Spring street, Centre street, South Huntington avenue, Huntington avenue, Stuart street, Broadway, Tremont street, Stuart street, to terminal at 135 Stuart street; outward, from terminal at 135 Stuart street, Stuart street, Eliot street, Park square, Providence street, Arlington street, Columbus avenue, Dartmouth street, Stuart street, Huntington avenue, South Huntington avenue, Centre street, Spring street to Dedham line—that a license be granted.

The question came on accepting the report and granting the license.

Coun. HEFFERNAN—Mr. President, I move that when the vote be taken it be by a call of the yeas and nays.

The Clerk commenced calling the roll, and when Coun. Gilbody's name was reached he said:

Mr. President, I ask unanimous consent to make a statement. I appreciate that I should have done so before the call of the roll, but I was talking with my brother on the right.

President KEENE—If there is no objection Coun. Gilbody may proceed.

Coun. GILBODY—Mr. President, I am going to vote "yes" on this proposition because of the existing situation, and I think I might have said this before. The petitioners for the previous application—Boston Motor Tours Company—ran buses without any consideration whatsoever of this body. True, they may not have had to come to us for consideration, but they did not do it. Besides, they have not a single piece of property in the City of Boston. It is run by Fall River men and is a Fall River proposition, and the city of Fall River gets the taxes on the buses and whatever they may own. The New England Transportation Company, whose application we are now considering, however, is a concern that belongs here and that pays taxes on three or four millions of property. I think they should have consideration at our hands, particularly inasmuch as this only involves a minor change in route. Furthermore, even though they are a big corporation, connected with the New Haven road, and I do not defend them, before they began to operate a single bus line in Boston, regardless of the fact that they did not have to come before the Council, they were courteous enough to come and get permission to operate their buses in various parts of their interstate and intrastate transportation. I think, therefore, that they do deserve consideration at our hands because of three salient points. First, they have had the courtesy to come and ask our permission before operating buses; second, they pay taxes on at least three or four millions to the City of Boston; and third, they are asking for only a minor change in route.

The report was accepted, and the permit granted, yeas 12, nays 8.

Yeas—Coun. Freeley, Gilbody, Green, Guild, Keene, Lynch, Mahoney, McGrath, Parkman, Ruby, Wilson, Wragg—12.

Nays—Coun. Arnold, Bush, Donovan, Dowd, Dowling, Englert, Fitzgerald, Heffernan—8.

CHANGE IN BODIES OF SNOW TRUCKS.

Coun. DOWD offered an order—That the Commissioner of Public Works be requested, through his Honor the Mayor, to make such changes in the bodies of the new snow trucks as will lower the sides of the trucks sufficiently to permit of them being loaded without the extraordinary labor upon the part of the loaders which the present height of the sides makes necessary.

Coun. DOWD—Mr. President, I believe that the new snow trucks are in the Roxbury, Jamaica Plain and South End districts of Boston. I have heard several complaints by employees of the City of Boston that they are compelled in loading rubbish on the new snow trucks to get step ladders out of the stores and places of business in order to put stuff onto the trucks. I think it is an injustice to those men who are compelled to labor hard eight hours a day to expect them to do that work. I believe the Commissioner of Public Works can provide means whereby such trucks may be lowered, perhaps having a section placed on hinges and let down, so that the men can load the trucks without having to work as hard as they do at the present time.

Coun. FREELEY—Mr. President, I wish to corroborate the statement made by my colleague. I have had complaints from a number of men in my ward employed at the Marcella street city yard. They tell me that not only are the bodies of the trucks too high for them to throw the barrels on, but that in the winter time, when they are weighted down with snow or ice, the barrels will weigh between 600 and 700 pounds, with the resulting possibility of employees breaking their backs.

Coun. DOWLING—Mr. President, since criticism of the snow trucks seem to be in order, I would like to call attention to another glaring defect in them. In some cases, where residents leave barrels in alleys to be removed, there is

just room for the ordinary truck, and is not room for one of these high-class, high-brow trucks.

Coun. DOWD—Mr. President, there is an order before the house, which I have introduced, and I believe that the council is out of order, that he is not talking to the order which I have put in.

Coun. DOWLING—Mr. President, I await the decision of the Chair.

Coun. DOWD—Mr. President, I believe my order is very clear. I have asked the Commissioner of Public Works to devise ways and means whereby the men can load the trucks a little more easily than they are able to at the present time. The gentleman from Brighton is talking about backalleys.

Coun. DOWLING—Mr. President, I now move reference of the order to the Executive Committee, and on that motion I wish to say that as long as this matter of the trucks was up, I was simply calling attention to another one of the glaring defects of the trucks. I say that the alleys to which these men and trucks are sent to collect ashes barely permit of the passage of an ordinary truck, and since the new trucks have been procured the men have difficulty in forcing their way in, sometimes finding it impossible, on account of the width and height of the trucks, to drive into the alleys and then handle the ash barrels. So that is simply one of the arguments against the use of these trucks in their present state. I now withdraw my motion.

President KEENE—Coun. Dowling withdraws his motion to refer to the Executive Committee.

The order was passed under suspension of the rule.

RELEASE OF LAND ON TREMONT STREET.

Coun. McGRATH, for the Committee on Public Lands, submitted a report on message of the Mayor with accompanying preambles and order (referred October 4), authorizing a disclaimer by the city of all title to any and all premises acquired by virtue of deed executed to the city by Ira W. Shapira, trustee of the Whitehall Realty Trust, in connection with widening of Tremont street—that the same ought to pass.

Coun. DOWD—Mr. President, where is this land located, please?

President KEENE—Will Coun. McGrath answer Coun. Dowd's question?

Coun. McGRATH—Mr. President, this is the land on which the Commodore Hotel now sits, at the corner of Tremont and Warrenton streets.

Coun. FITZGERALD moved that the order be laid on the table; lost by a show of hands, 8 to 12.

Coun. PARKMAN—Mr. President, if it is not too late, I would like to have some information on this order.

Coun. McGRATH—Mr. President, some time in the last few months of the past regime there was a taking of Tremont street, beyond Stuart street, on the right-hand side, for street widening purposes, and at the corner of Tremont and Warrenton streets a hotel called the Commodore Hotel has been recently built. In back of the Commodore Hotel, at right angles, Pleasant street to Tremont street, is a little place called Warrenton place. When the city made a taking in front, that hotel had to be moved to the rear. There were some old easement rights in the alley, Warrenton place, which the owners of the Commodore Hotel deeded to the City of Boston, and when these men applied for a mortgage loan I understand that they were held up because they did not own certain pieces of land on which the building sat. Then there was a difference of opinion between the attorney for the present owner, Mr. Shapira, and the Law Department of the City of Boston. The Mayor sent the order to this Council, and we sent for the attorney of the petitioner, who explained the matter to us. We held it in committee until we could get Mr. Lyons of the Law Department, supposed to be the best qualified man in that department, I understand, on matters of this kind, to come before us. We had to wait almost two weeks before he finally appeared, and he then told us that we had no other recourse than to vote for this, as the city was very much in error. There may be some doubt in the minds of the councilors here as to whether they will vote for this or not, and I will simply say that I don't care whether every member of the Council outside of the Public Lands Committee votes against it. Mr. Lyons was of the opinion, and so told us, that that was the law. I don't feel that I am bigger than the law, and, therefore, I feel bound to vote for the proposition. I don't care how the other members vote upon the matter, sir.

President KEENE—How much land is involved?

Coun. McGRATH—Warrenton place, 10 feet frontage, and 8 feet on the other side, running diagonally. I imagine that there are in the neighborhood of 50, 60 or 70 feet of land.

Coun. FITZGERALD—Mr. President, my purpose in moving to lay on the table was that we might investigate the proposition. I remember that the Legislature passed an act for the widening of Tremont street and I almost remember that after the lines had been drawn people were waked up one morning to find that the lines had been changed for the benefit of the same hotel, the Commodore, and I believe, if I am not mistaken, that that hotel received out of the city \$300,000 or \$400,000, in damages, besides. The gentlemen interested in this proposition are very clever real estate operators in the City of Boston, and I don't think we ought to vote away any of our rights here,

but ought to investigate the matter. I think the City of Boston has given them a great deal in return already, and Mr. Lyons may be the same gentleman who authorized the city to do certain things in a former case. The Law Department is not always right, and I think the department has for a number of years past been in the habit of turning over city property without sufficient investigation. I believe action upon the matter ought to be further delayed, and if there is not a delay I, for one, do not intend to vote for the order.

Coun. HEFFERNAN—Mr. President, I believe we have already voted not to lay on the table, but I would move that the matter be referred to the Executive Committee, so that between now and the next meeting members may have an opportunity to look into it and thresh it out.

Coun. McGRATH—Mr. President, I have absolutely no objection to that motion.

Coun. GILBODY—Mr. President, I desire to say just a word on the matter. I do not wish to disagree with the members of the Committee on Public Lands on this or any other matter. I am willing to accept any report at its face value, except where there is a situation arising where a material difference of opinion is shown. In this case I cannot see the justice of this order. I have found, from my experience around the Hall, that when anything of this sort comes up here, regardless of law or no law, we are simply told that it should be passed, and we don't always get the reasons that we should get, in writing. They keep as far away from the body as possible. Now, I don't propose to jeopardize my position as a member of the body, on a matter of this kind, until the Council has a full chance to hear Mr. Lyons and the opposing side.

The order was referred to the Executive Committee.

LEGISLATIVE BILLS AFFECTING CITY.

Coun. HEFFERNAN offered an order—That the Corporation Counsel and the Finance Commission be requested, through his Honor the Mayor, to forward to the City Council copies of all bills and resolutions relating to the City of Boston which are filed with the Massachusetts Legislature of 1927, such copies to be forwarded at the same time that the originals are filed with the Legislature.

Coun. HEFFERNAN—Mr. President, I will say just a word as to my purpose in offering this order. As the members here know, bills are filed in the Legislature in the first few weeks of January. There are so filed every year a good many bills affecting the City of Boston and, as a matter of fact, most of the legislation in regard to Boston is passed on Beacon Hill rather than here. I think this Council has the very same rights in matters of legislation that the executive department has, and I think it is only fair, when any bill is filed by the Corporation Counsel, at the request of the Mayor, or when any bill is filed by the Finance Commission, that a copy of the same should be sent to this body, so that the body may take a position upon it before the Legislature if it sees fit to do so. In the past I don't think the City Council has functioned so far as legislation is concerned, except on some special matters. But we have proposed street widenings, changes in the charter, legislation affecting the tax rate, and numerous issues upon which the Council should be heard. Those are typewritten in the Law Department or in the office of the Finance Commission, and they can easily make a carbon copy and send it down to us when they send it up to Beacon Hill.

The order was passed, under suspension of the rule.

SWITCH ON LEXINGTON AVENUE.

Coun. DONOVAN offered the following:

Resolved, That we the members of the City Council earnestly urge the trustees of the Boston Elevated Railway Company to restore the switch on Lexington street and to continue service in that section.

Passed, under suspension of the rule.

DISCONTINUANCE OF SERVICE BY ELEVATED RAILWAY.

Coun. DONOVAN offered the following:

That the Corporation Counsel be requested, through his Honor the Mayor, to make a study of the Public Control Act and to petition the Supreme Court relative to the constitutional rights of the people wherein service is discontinued by the trustees of the Boston Elevated Railway Company.

Coun. DONOVAN—Mr. President, in connection with this order which I have offered I wish to direct the attention of the Council to the dire necessity of better transportation service in the City of Boston. Public welfare demands that we as members of this body protect the interests of the people of Boston. We are here confronted with a unique situation. To the utter discomfort of the car-riding public, the trustees of the Boston Elevated Railway, without consulting anybody, discontinue service. While the lightning has just struck my district, every member of this Council has had or will have more or less trouble with this board called the Boston Elevated Rail-

way Trustees. Permits for track locations and permits for the erection of poles were formerly granted by the Board of Aldermen, but at present are in the hands of the Street Commissioners of Boston. They grant these rights to the trustees of the Elevated Railway. Yet the Elevated Railway discontinues tracks or service without consulting anybody. I claim that the Elevated Railway Trustees are amenable to our municipal authorities, and it is to that end that I ask the Law Department to make an extensive study of this Public Control Act. It was not the intention of the Legislature to grant to these men unquestioned and limitless power. They should be amenable to our views, have some respect for them, and it is through the introduction of this order that I hope to be able to check and curb their powers in some respect. I am informed that once more the trustees are going to petition the Council for buses in East Boston. The people have held indignation and protest meetings, to no avail. At present, the people there have organized a people's service company and are in communication with two or three of the big bus companies of the United States, and it will be a privilege for me to come here at the opportune time and ask that they be given a permit to operate buses. At the present time we have no adequate service. Twenty-five thousand people of East Boston have no car service, in that respectable community they have not spent five cents in thirty years. Yet they force us to take what they want us to take in East Boston without any regard to public sentiment. On a line in East Boston that does not carry one hundred people they will spend \$75,000, but on a line that will accommodate thousands of people they will not spend 75 cents. I ask the Law Department to make a study of this matter, as suggested by the order, and I ask a suspension of the rule that the order may be placed upon its passage at this time. I propose to follow the order up by further orders, until we force this body of tyrants to be amenable to the wishes of the car-riding public of Boston.

The order was passed, under suspension of the rule.

FREE UNIFORMS IN FERRY SERVICE.

Coun. DONOVAN offered the following:

That the Commissioner of Public Works be requested, through his Honor the Mayor, to include in his budget for the year 1927 a sum sufficient to provide free uniforms for the captains, pilots, gatemen, tollmen and deckhands of the Ferry Service.

Passed, under suspension of the rule.

IMPROVEMENT OF FIRE STATIONS, CHARLESTOWN.

Coun. GREEN offered the following:

That the Fire Commissioner be requested, through his Honor the Mayor, to investigate the fire stations located in the Charlestown district, for the purpose of ascertaining what improvements may be necessary to place them in a sanitary and modern condition, and that the expense of making said improvements be provided for in the annual budget for 1927.

Passed, under suspension of the rule.

LIGHTING FENWOOD ROAD AND BROMLEY PARK.

Coun. FREELEY offered an order—That the Commissioner of Public Works be requested, through his Honor the Mayor, to include in the budget for 1927 a sum sufficient to provide for the adequate lighting of Fenwood road and Bromley park, Ward 10, with electric arc lamps.

Coun. FREELEY—Mr. President, I might say that the requirements here in regard to such matters have been fulfilled. I am informed that the residents signed a petition, which has the necessary number of signatures, that it was returned to the Public Works Department, and was afterwards forwarded to the Lamp Division. So the requirements have been fulfilled, and yet I find that none of those lights have been installed. I move that the order be passed, under suspension of the rule.

The order was passed under suspension of the rule.

PROPOSED ABOLITION OF REGISTRY DEPARTMENT.

On motion of Coun. GUILD the Council voted to take from the table No. 3 on the calendar, viz.: 3. Ordinance abolishing the Registry Department and transferring the powers and duties of said department to the Health Department.

On October 25, 1926, the Committee on Ordinances submitted a report that the ordinance ought not to pass.

Coun. GUILD—Mr. President, the Committee on Ordinances has filed a report on this proposed ordinance, that it ought not to pass. Some time last March this Council passed a budget calling for the expenditure of over \$43,000,000. The Council was considerably criticized at that time on account

of the manner in which it was passed. After that, tax bills went out and a good many members of the Council have been beset by various of their constituents to secure abatements of taxes levied on them this year by virtue of that \$43,000,000 budget. In May of this year I introduced this proposed ordinance, and it was referred to the Committee on Ordinances. At the time the ordinance was introduced I stated expressly on the floor of the Council that my purpose in introducing it was to endeavor to save for the City of Boston some money. The matter was heard in the Committee on Ordinances on October 21st of this year. I chanced to be in the building at the time and was politely invited by the Chairman of the Committee on Ordinances to attend the meeting of this committee at which this ordinance and the one designated as No. 4 on today's calendar were to be considered. The consideration of this ordinance by the Committee on Ordinances, which has submitted its report to the Council, is of interest to the Council as well as to the general public. At that meeting it was stated that, as far as the ordinance for the consolidation of the Registry Department with the Health Department was concerned, the Registrar of the City of Boston was a very fine gentleman, of unblemished character, universally liked, and in all respects a worthy and efficient registrar. The Budget Commissioner, the auditor, and any other financial officers of the City of Boston, were conspicuous by their absence. So far as I have been able to ascertain, the Committee on Ordinances did not hear any of the financial officers of the City of Boston and gave only cursory consideration to the question of whether or not there was any possibility of saving to the City of Boston any sum of money whatever. I contend that the passage of this order would save the City of Boston a considerable amount of money, and my conferences with the financial officers of the City of Boston bear me out in this contention. An examination of the auditor's report for the part of the year 1926 which ended October 21st—five-sixths of the year—indicates that in the Health Department this year, at the end of the year, there will be an unexpended balance of in the neighborhood of \$169,000. The auditor's report also indicates that the total cost of running the Registry Department for the current year will be about \$49,483. So it is perfectly apparent, by doing a small sum in subtraction, that it would be possible for the Health Department to carry the entire expense of the Registry Department out of this year's budget and still have a surplus of \$120,000 unexpended, in spite of the fact that the State of Massachusetts has increased by 400 per cent its charge to the City of Boston for caring for tubercular patients, which was the basis of the exceedingly large appropriation for the Health Department. Nothing of that sort was considered in debate in any way, shape or manner at the hearing by the Committee on Ordinances. An examination of the auditor's report will show further that there are now in the employ of the two departments concerned, 52 clerks at a cost of \$80,000, with salaries ranging from \$950 to \$2,300, and that there are 12 executive officers in the two departments. I contend that the work of the two departments could be done without any decrease in the efficiency of either by a force of 40 clerks and 10 executive officers and that that alone would show a saving of \$20,000 to the City of Boston. I think anybody who has been in the Health Department at almost any hour of the day will be satisfied to say with me that the clerical force in the Health Department is not now overburdened with work. The argument in favor of the registrar on his personal characteristics is one that appeals to me a good deal. I am very fond of Mr. McGlenen in so far as I have met him, and I have met him on various occasions. I recognize that he is a fine character, and nobody in the Council holds him in higher esteem than I do. The fact remains, however, that Mr. McGlenen could be given a position with larger salary and more grandiloquent title, and still save the city \$20,000 in the course of the year, by the consolidation of these two departments. It has been suggested that this change ought not to be made because the registrar of the City of Boston is a man second to none in his particular line, and that, recognizing that fact, he was specifically excepted from the operation of the Retirement Act. I do not gainsay that he is an expert second to none in his particular line, but I raise the question now, what is his particular line? As a matter of fact, my understanding of Mr. McGlenen's particular line is that he is an expert on the births, marriages and deaths of Boston prior to 1847, and neither Mr. McGlenen nor any other employee of the City of Boston is an expert far and away above all others in this country in the handling of current births, marriages and deaths. It has been suggested to me at some time that it was probably better to have the Vital Statistics Division of the Health Department consolidated with the Registry Department. The objection to this, however, is that the Vital Statistics Division of the Health Department handles other figures than those of births, marriages and deaths. That is the division that compiles the statistics in regard to contagious diseases—pneumonia, tuberculosis and kindred diseases. Those figures on morbidity are essential to the operation of the Health Department, and the Health Department only. They are not of interest to the general public in the way in which figures dealing with births, marriages and deaths are of interest. It is of essential interest to the Health

Department that the figures of morbidity, as distinguished from the figures of death alone, be kept in that department. So it is not desirable to consolidate the Vital Statistics Division of the Health Department with the Registry Department. On account of the entire neglect of the Ordinance Committee to give any consideration to the possibility of saving the city thousands of dollars, and on account of the fact that no hardship whatever could possibly be worked on Mr. McGlenen in his personal capacity, I think that report of the Committee on Ordinances, that the proposed ordinance to abolish the Registry Department and transfer the powers and duties of the department to the Health Department ought not to pass, should not be accepted, but that the proposed ordinance should be passed by this Council.

Coun. BUSH—Mr. President, I rise just to a point of information. I understand the councilor who just spoke to say that he favored the consolidation of the departments under the supervision of the Health Department, or vice versa?

President KEENE—He favors the abolition of the Registry Department and the transfer of the powers and duties of that department to the Health Department.

Coun. BUSH—I understood him the other way, that he favored transferring the duties of the Department of Vital Statistics to the Registry Department.

President KEENE—No.

Coun. GUILD—I suppose there is no need of arguing at length that the Bureau of Vital Statistics of the Health Department should not be transferred to the Registry Department, because the statistics of diphtheria, tuberculosis and other contagious diseases are necessary to the Health Department and are not of interest to the general public in the way that the figures of births, marriages and deaths are.

Coun. RUBY—Mr. President, I am very much surprised at the attitude of the councilor who has just taken his seat as stated in the remarks he has made during the course of his argument. In the first place, I need not take the time, of course, to justify the attitude of the Committee on Ordinances, because I feel that when the councilor says the Committee on Ordinances has been entirely neglectful of its duty in the matter of this proposed ordinance, he knows that he is exaggerating a little bit, at least. This ordinance was presented in the Council Chamber some time in May. Immediately thereafter a meeting of the Committee on Ordinances was called, which Mr. Guild was invited to attend. He himself, in view of the fact that we had members of the Boston Sanatorium and of the Boston Tuberculosis Association who were professional men and who desired to be heard on another matter at that Friday afternoon meeting, thought it might not be advisable to take up at that time these two matters, and we spent the entire afternoon listening to the proposed change in another ordinance, which had been suggested by the councilor in this body. At his suggestion—and I have spoken to him on the matter personally probably a dozen times or more—the Ordinance Committee has failed to consider that ordinance because he himself suggested that we wait until after a report of the investigating committee appointed by his Honor the Mayor with reference to the Boston Sanatorium. If I remember correctly, this meeting was called at the suggestion of the councilor on my right, because I told him personally that I wanted to suit his convenience, he being the originator of these proposed changes. I felt that the committee would like to accede to his wishes with reference to the time of meeting. So I am surprised that at this time he stands before this Council and tells us that we have delayed presenting this report. This particular matter has been on our calendar for five or six weeks, and after every meeting I have said to the councilor, or he has suggested to me, that because of the late hour of the closing of the meetings he felt that he was not justified in bringing the matter up before the body. For that and for no other reason these two matters have been on the calendar for this length of time. I want to say, justifying the committee as its chairman, that we did thoroughly discuss this particular matter of consolidation. I have personally spent hours in the Registry Department downstairs talking with the Registrar and some of his assistants. When one considers the vast amount of work that the Registry Department has to take care of in the matter of births, marriages and deaths, with reference to school certificates, and so on, we felt in committee, with the cost of that department being only \$49,000 as the councilor says, that the department was an independently functioning body and ought to be let alone, especially in view of the fact that it was being carried on for less than \$50,000 a year. There are in that department twenty-three persons employed. I dare say there is nobody in this Council Chamber who would say, with the Registrar getting \$5,000 a year and those twenty-two clerks getting less than \$45,000 and coupling with that the amount of work done, that it was not a properly functioning department in itself, and an important department for the city to continue to maintain. We felt that the Health Department has plenty of work to do, if it did its work properly, without taking on additional duties; and I maintain that the Health Department of the city is more important, with the possible exception of the Police and Fire departments, than any other functioning department of the city, and that we should not load a department of that kind with more work than it can possibly

take care of. The councilor agrees, I think, with all of us, that the man at the head of the Registry Department is second to none, that he is so recognized over this country and, as testified to by the councilor, he was exempted from the pension system with only one other gentleman in the entire City of Boston. I saw no reason, and the committee saw no reason, why the Registry Department should be consolidated with any other department, because if it were done it would be burdening the other department—in this case a department that has plenty of work to do—unnecessarily, and would be doing away with the services of a department that has for years been functioning well in this city.

Coun. DOWD—Mr. President, I now move that the report of the committee be accepted.

Coun. GUILD—Mr. President, I rise to point out that the record will show the extent to which I criticised, in my previous remarks, the Committee on Ordinances for having delayed action. I am not conscious of having criticised them on that score in any way, shape or manner. And yet the chairman of the committee sees fit to devote half of the time which he expended in speaking in favor of his report to a justification for the delay. I quite agree with him in what he says, that the Committee on Ordinances is not subject to criticism for having delayed. I have not so criticised the committee, and I don't wish to hear anybody so criticize it. So far as the remarks of the chairman of the committee with regard to the Registry Department and its general efficiency are concerned, I do not gainsay that statement. What I do say is that the Registry Department could be just as efficient as it is now as an adjunct of the Health Department, and it would certainly do the Health Department of the City of Boston some good to have a nice, efficient body like the Registry Department as a subdivision of it.

Coun. BUSH—Mr. President, I was interested in this matter some time ago, while this ordinance was still in the committee. I have a great deal of data in my office with regard to the Registry Department. Unfortunately, I had no idea that this matter would be taken off the table today and I am not prepared to present that data at present. I do know this, however, that the Bureau of Vital Statistics, as can be seen from these records, is composed of some six or seven employees, whereas the Registry Department is composed of some twenty-three employees. I do not want to go into the relative importance of the two bureaus. No doubt the Bureau of Vital Statistics serves a very important function in the Health Department. There is also no question that the Registry Department, in taking care of births, marriages and deaths, serves an important function as a city department, perhaps one of the most important in the city, because we have to have a record of the births, marriages and deaths, for obvious reasons. It seems to me, however, that to consolidate the Registry Department with the Bureau of Vital Statistics and place the consolidated department in charge of the Health Department would be allowing the tail to wag the dog in more ways than one. In the first place, the Registry Department is a much larger department than the Bureau of Vital Statistics of the Health Department, and is much older in point of time and in accumulation of records, the records of the Registry Department being very much more voluminous than the records of the Bureau of Vital Statistics of the Health Department. To consolidate them by placing the Registry Department under the Health Department would, to my mind, be a very grievous error, a very grave mistake. If there is to be any consolidation, to my mind the Bureau of Vital Statistics should be placed under the Registry Department. I can see, however, where that would not be the best thing to do, because the records are not quite the same. The records of the Bureau of Vital Statistics are of extreme importance and aid to the Health Department, and should be kept under the supervision of that department, which is most interested in that particular function. The registry of births, marriages and deaths is of particular importance to the public at large, and for various reasons should be kept separate and intact. Also, as we have heard, the Registrar we have at present is one of the best in the country, and his services would be lost under the consolidation if he were not given full charge of that particular bureau. I think it would be a very grave mistake to consolidate the departments as proposed, and I move that the report of the Committee on Ordinances be accepted.

The report was accepted, and the proposed ordinance was rejected.

PROPOSED ABOLITION OF MARKET DEPARTMENT.

On motion of Coun. GUILD the Council voted to take from the table No. 4 on the calendar, viz.:

4. Ordinance abolishing the Market Department and transferring the powers and duties of said department to the Public Buildings Department.

On October 25, 1926, the Committee on Ordinances submitted a report that the ordinance ought not to pass.

Coun. GUILD—Mr. President, the calendar is slightly misleading in its statement of the contents of the ordinance in question. The calendar says, "Ordinance abolishing the Market Department and transferring the powers and duties of said

department to the Public Buildings Department. In fact, the ordinance contemplates the abolition of the Market Department and transferring the powers and duties of three different departments. It happens that the power to take and destroy articles of food which are diseased, unwholesome or tainted, is in general in the Health Department of the City of Boston, and in the so-called market district, the limits of which are fixed by the ordinances, that power is in the Market Department. It would seem to me that the power to destroy tainted food was a proper function of the Health Department. The policing of the market district is in the hands of the Market Department, and I can see no real, sane, substantial reason for having one side of the street policed by one department and the other side of the street policed by a separate department. It is an anomalous situation, which I believe will be found only in the City of Boston. It is not a case exactly of overlapping jurisdiction, but of correcting in some respects a situation applying to a small territory within the heart of the much larger territory of the whole City of Boston. The question of saving money was also behind the introduction of this ordinance. The saving of money in this case would not be so striking as in connection with the ordinance which we have just disposed of. It appears from an inspection of the auditor's report that the Public Buildings Department for the year 1926 will apparently have an unexpended balance of \$15,214 and that the cost of the Market Department for the year 1926 will be \$15,381. So it is approximately true that the whole cost of operating the Market Department could have been taken care of out of the appropriation for 1926 for the Public Buildings Department, and that there would have been an entire saving of the whole appropriation for the Market Department by so doing. After the hearing before the Ordinance Committee at which this ordinance was discussed, it was pointed out that the job of acting as Superintendent of Markets was one man's all-time job. I don't gainsay that, but I don't see that it has any particular bearing, because the man could give his whole time to it as an employee of the Public Building Department just as well as, if not better than, he could as the head of a separate and distinct department. The anomalous situation of having tainted food on one side of the street destroyed by one department and on the other side of the street by a second department; of having the police functions on one side of the street performed by one department and on the other side of the street by another department, certainly puts Boston in the position of being a city of curios. It is perfectly obvious that any consolidation it is possible to effect is going to make some saving in the overhead, if nothing more than the amount saved on printing and stationery. I think this ordinance, like the one I advocated before, ought to pass.

Coun. RUBY—Mr. President, this ordinance was heard in committee some time ago and there were brought out the facts suggested by the councilor on my right. The mere fact that the department head will show an unexpended balance at the end of the year should, in my opinion, react to the commendation of that department head who is able to save the city of Boston several thousand dollars which it was thought at the time the budget was made would be needed. But I cannot see the logic of using an unexpended balance of one department to pay for the working of another department, even though that department becomes consolidated within the unexpended balance of the first department. In the Market Division there are approximately six or seven persons employed under a Superintendent of Markets who receives \$4,000 a year. That man puts in a regular working day. He is not like the head of a department such as the Public Buildings or Public Works Department. His work is confined to one segregated section. He has problems to pass upon, difficulties to consider. It is sometimes necessary for that department head to be right on the job at Faneuil Hall Market, so that when questions may arise he will be there to answer them. In my opinion, the Public Buildings Department head today is doing yeoman's work. When he was appointed to that job he stepped right into it, and up to the present time no man can question the workings of that department. I believe he has enough work to do as the head of the department. I believe that this Market Division can be kept a separate body at smaller expense to the City of Boston than would result from consolidation, because of the fact that with the consolidation there are still one or two watchmen whom it would still be necessary to employ, one or two laborers employed who would still be necessary, and a matron employed there who would still be necessary, and the fact is that that department is now conducted at an extremely small expense—less than \$15,000 a year. In view of the fact that the Public Buildings Department has enough work to do, we felt as a committee that the Market Department, conducted at this small annual expense, was a properly functioning body of the city, and ought to be left alone.

Coun. WILSON—Mr. President, I don't want to intrude in an argument between two excellent Republicans. I would say this, however. As far as I am personally concerned, I am not in favor of the abolition of the Market Department. On the other hand, I think Coun. Guild makes an excellent point in the suggestion that the seizing of tainted meat is properly a function of the

Health Department and that he also makes an excellent point when he points out the conflict of authority, in the matter of policing, between the Market Department and the Police Department in the City of Boston. Therefore, if it is in order, I would like to see this particular matter put back on the table for further discussion and proper consideration of the proposed ordinance.

Coun. DOWLING in the chair.

Chairman DOWLING—No business having intervened since the matter was taken from the table, the motion will not be in order.

Coun. GUILD—Mr. President, I would like to say a word in reply to the chairman of the Committee on Ordinances. He apparently overlooks the effect of unexpended balances on the budget for the succeeding year. Of course, the amount that the head of a department can expend for the year 1927, before the budget is passed, is predicated upon the amount of the appropriation for 1926. So if a department starts the year 1927 with an unexpended balance of \$149,000, as the Health Department apparently will do, the department will have the right to expend before we pass any budget a third of \$805,000, which makes a considerable difference in the powers of the department head prior to the passage of the budget for the year 1927.

Chairman DOWLING—The question is, on the acceptance of the report and rejection of the ordinance. Those in favor will say "aye," those opposed "no," and it appears to be lost.

Coun. RUBY—Mr. President, I doubt the vote and ask for a roll call.

The Clerk commenced to call the roll.

Coun. ARNOLD—Mr. President, I am sorry to disagree with the Chair, but I think he has stated the question incorrectly. The question is, whether or not the report of the committee shall be accepted, I understand.

Chairman DOWLING—The Chair assumed that the report of the committee was accepted.

Coun. RUBY—And the ordinance rejected?

Chairman DOWLING—And the ordinance rejected. The question came on the acceptance of the report of the committee and the rejection of the proposed ordinance.

Coun. RUBY—Your ruling was that the report of the committee was accepted, Mr. President. I now withdraw my request for a roll call. I understood the action taken was exactly opposite from what I now understand to have been the case.

Chairman DOWLING—The Chair has already ordered a roll call, and the Clerk will call the roll, the question being on the passage of the ordinance. Those in favor of the passage of the ordinance will answer "yes," and those opposed "no."

Coun. RUBY—Mr. President, I think it is important that we shall know just what we are doing. I may be the only one who does not understand the situation. Do I understand that this is just a doubting of the vote and asking for a roll call?

Chairman DOWLING—The Chair has already ruled on that. The question comes on the passage of the ordinance.

Coun. RUBY—Mr. Chairman, do I understand that if we want to uphold the report of the committee we should vote "no"? Is that right?

Chairman DOWLING—Yes.

Coun. RUBY—Thank you, Mr. President.

The ordinance was rejected, yeas 3, nays 13:

Yeas—Coun. Arnold, Guild, Parkman—3.

Nays—Coun. Bush, Donovan, Dowling, Fitzgerald, Green, Heffernan, Lynch, Mahoney, McGrath, McMahon, Ruby, Wilson, Wragg—13.

When Coun. Wilson's name was reached he said: I will vote "no" in its present form.

GENERAL RECONSIDERATION.

On motion of Coun. McGRATH, a general reconsideration of all action taken today was refused.

Adjourned, on motion of Coun. RUBY, to meet on Monday, December 6, at 2 p. m.

METROPOLITAN AREA AND POPULATION.

Area of Northern Division, 150.8 sq. miles and population in 1920, 699,685, or a density of 4,619 per sq. m.; Southern Division, 214.8 sq. miles and 211,191 population, or density of only 983 per sq. m.; in the whole Metropolitan District, 4,051 per sq. m. In percentages Boston shows 10.5 p. c. of District's area and 45.09 p. c. of population; Northern Division, 36.2 of area and 42.18 of population; Southern Division, 58.3 of area and 12.73 of population. In the period 1915-1920, increase of population 34,798 larger in Northern than in Southern Division.

Total land area of District, 409.3 square miles; population by census of 1920, 1,713,744 (as corrected) or 7.52 per cent increase over that of 1915. Of the total population of the State in 1920 "Greater Boston" had 43.86 per cent.

In 1925, as ordered by the new census law (Chap. 453, Acts of 1924) each municipality of the District undertook its own enumeration, the total population counted being 1,808,845 as of March 31. Boston's proportion of said total was 43.10 per cent. By the more reliable State Census of 1915 that proportion was 46.77 per cent.

BOSTON TRUST FUNDS AND BEQUESTS.

Number of permanent funds and bequests held by the City, Feb. 1, 1925, for various purposes, 146, representing a total value of \$19,049,281. The earliest dates back to 1674, viz., Gibson School Fund. The largest fund is the bequest of the late George F. Parkman, consisting of various parcels of real estate now sold and reinvested in bonds, all valued at \$5,455,653, the income from which is used for the upkeep and improvement of the older parks.

Nearly as large a bequest is that of the late George Robert White, consisting of first-class realty valued at \$4,922,400, also an invested fund amounting to \$330,000. Revenue in 1924 from White bequest, \$426,671, of which \$265,027 was expended for new Health Unit building in North End. (3) 3 Boston Retirement System funds, \$2,671,428; (4) 17 funds in charge of Public Welfare Overseers, amounting to \$1,015,063; (5) 10 Cemetery funds, \$957,247; (6) Public School Teachers' Retirement, \$887,182; (7) 3 Franklin and Franklin Union, \$839,710; (8) 43 Public Library funds, \$715,981; (9) Permanent School Pension, \$586,390; (10) Police Charitable, \$207,550; (11) 22 School funds, \$172,383; (12) 23 City Hospital funds, \$117,780; 20 others, \$170,514. Average annual income from all invested funds, nearly 4 per cent.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marqueses, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts; also information relative to Mt. Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Fire Department Headquarters, 60 Bristol street, for all information relative to the erection of poles, the building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 906, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

PUBLIC LIBRARY EXHIBIT.

From December 4 to December 18 there will be shown in the Exhibition Room on the third floor of the Boston Public Library in Copley square, a collection of prints made from Kodak snapshots taken by William Edward Merrill, 220 Walnut street, Brookline.

The prints comprise enlargements, soft-focus views and postcards. The subjects are mostly familiar spots in Boston and vicinity. Mr. Merrill's object is to show the artistic possibilities of photography with an ordinary Kodak in the hands of an amateur. The results which he has obtained will repay careful study and should be seen by every Kodakist who aspires to take views that have real beauty.

NEW STREET SIGNS TO BE PLACED.

Mayor Nichols announced on December 6, that regarding the matter of new street signs, the present intention is to adopt two types of signs, one to be carried on the present Edison light post known as the Boulevard type; the second one would be carried on a 4-inch iron post set in the sidewalk at corner intersections.

These two types are known as the White Way street sign "New York Type" and consist of malleable iron frames and fixtures held rigidly to the light post or a steel post set in the ground.

The enamel sign plates set down into the frames are known as "Royal Blue." The letters are white and are 4 inches in height and the enamel sign plate is double-faced.

It is proposed to advertise immediately for 500 two-wing signs and fixtures to be attached to existing Edison posts at prominent and conspicuous street intersections. At other points or intersections, where Edison posts cannot be used, it is proposed to erect a steel post in the sidewalk to carry the sign in its wing frame and fixtures. These advertisements call for bids to be opened the week of December 18.

About five hundred such posts are to be set up in the city proper.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do the work with the department forces without advertising; additions to and deductions from contracts.

BOSTON SANATORIUM.

Upon December 2 the Mayor approved a contract with the Nightingale & Childs Company for replacing magnesia coverings on the refrigeration pipes, Boston Sanatorium. A communication from Francis X. Mahoney of the Boston Sanatorium was as follows:

BOSTON, November 29, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—The magnesia coverings on the refrigeration brine pipes at Mattapan were badly in need of repairs.

There is much loss in refrigeration caused by the condition of the coverings. To make up this deficiency, it is necessary to run the refrigeration machines a longer time every day and so using more electricity to deliver the brine at the refrigerators at the proper temperature.

Because of the nature of the work, it was quite impossible to make plans and specifications. The work consists in replacing, repairing or renewing, section by section, the covering as the need may be for each section.

The trustees believing that proper repairs could be made for less than \$1,000, proceeded to have the work done. It develops that more extensive repairs are needed than were anticipated, and that the cost will be considerably in excess of \$1,000.

This work is being done by Messrs. Nightingale & Childs Company, 261 Franklin street, Boston, Mass.

Your approval for the completion of the work, without advertising, is respectfully requested.

Yours very truly,

FRANCIS X. MAHONEY,
Chairman.

Upon December 6 the Mayor approved a contract with Joseph P. O'Hearn for the installation of valves in Ward F, Boston

Sanatorium. A communication from Dr. Francis X. Mahoney of the Boston Sanatorium was as follows:

BOSTON, December 4, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR MR. MAYOR,—I respectfully ask you Honor's permission for acceptance of the proposal of Joseph P. O'Hearn & Co., 134 Bowdoin street, Dorchester, amounting to \$815. This is for the installation of new valves for the defective ones in Ward F, which is the Children's Building at the Boston Sanatorium, Mattapan.

This is an emergency matter as there is a total waste of water from these valves, and this is the only way in which it could be remedied. Messrs. J. P. O'Hearn & Co., plumbers, are at present working on this system, and no other plumbers can do work until they finish their present contract, which will be sometime next week.

I am inclosing a report from Messrs. Maginnis & Walsh, architects, with their recommendations relative to this matter.

Yours very respectfully,

FRANCIS X. MAHONEY,
Chairman, Trustees.

PUBLIC WORKS DEPARTMENT (Paving Service).

Upon December 6 the Mayor approved a contract with Coleman Brothers, Inc., for placing permanent pavement in sewer trench in Alley No. 554. A communication from J. H. Sullivan of the Public Works Department was as follows:

BOSTON, November 30, 1926.

To the Mayor of Boston.

Your permission is respectfully requested to the award of a contract, without advertising, to Coleman Brothers, Inc., 245 State street, Boston, for placing permanent pavement over sewer trench in Alley No. 554 and outlet in Appleton street, city proper, at an estimated cost of \$1,491.81.

Sewerage works were built in this alley under a contract dated July 6, 1926, and it is not customary to place the permanent pavement until after proper settlement of trench and no provision was made in this contract for such replacement.

Coleman Brothers, Inc., were ordered to do this work, as they are competent contractors, and as the price paid is the standard one for this kind of work, it was felt that no benefits would accrue to the city by advertising for bids.

Respectfully yours,

J. H. SULLIVAN,
Commissioner of Public Works.

PUBLIC WORKS DEPARTMENT (Ferry Service).

Upon December 8 the Mayor approved a contract with the Hodge Boiler Works for repairing the boilers of the ferryboat "John H. Sullivan." A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, December 9, 1926.

To the Mayor of Boston.

Your approval is respectfully requested to the award of a contract, without advertising, to the Hodge Boiler Works, 103 Sumner street East Boston, for repairing the boilers of the ferryboat "John H. Sullivan," in accordance with the requirements of the United States Steamboat Inspection Service, at an estimated cost of \$6,000.

This work is a very urgent necessity, in that the boat cannot be put in service again until the work is done, and it is necessary that we get the boat back again as soon as possible, as one more boat, the "Noddle Island," will have to be taken out of service upon the 18th of this month for the annual inspection, and the overhauling work involved will probably keep it out of service for three weeks. With both boats out we will be very short handed.

It is almost impossible to tell the amount of work that will be involved in the repairs to the boilers. These boilers are thirteen years old and have shown signs of deterioration. Cracks have developed in the tube sheets and in the furnaces, particularly at the flange collars. There is considerable furnacing of plates and forging and electric welding involved in the replacement of material, and the amount can only be determined as the work progresses.

The Hodge Boiler Works has an established reputation, has done considerable work for the ferries, does good work and does it economically and is undoubtedly the best concern of its kind locally to do it, having the necessary equipment.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

PUBLIC WORKS DEPARTMENT (Sanitary Service).

Upon December 8 the Mayor approved a contract with D. M. Biggs & Co. for the removal of snow and ice. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, December 6, 1926.

To the Mayor of Boston.

I respectfully request your permission to award a contract, without advertising, to D. M. Biggs & Co., 60 Marsh street, Dorchester, for the removal of snow and ice in such streets as may be designated by the commissioner.

The prices to be paid per hour are: For trucks, \$3; labor, 60 cents; foremen, one at \$1.25 per hour and two at \$1 per hour, plus 15 per cent on trucks and labor. This contract will amount to approximately \$7,000.

This is emergency work and no advantage would be gained by public advertisement; the prices to be paid are reasonable.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

Upon December 8 the Mayor approved a contract with Edward J. Byrne for the removal of snow and ice in the South Boston district. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, December 8, 1926.

To the Mayor of Boston.

Permission is respectfully requested for the award of a contract, without advertising, to Edward J. Byrne, 350 Athens street, South Boston, for the removal of snow and ice in the South Boston district, at a price of 60 cents per cubic yard.

This is emergency work, and no advantage would be gained by public advertisement. The price to be paid is reasonable.

Yours respectfully,

JAMES H. SULLIVAN,
Commissioner of Public Works.

Upon December 9 the Mayor approved a contract with Coleman Brothers, Inc., for removing snow and ice in Charlestown district. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, December 9, 1926.

To the Mayor of Boston.

Permission is respectfully requested for the award of a contract, without advertising, to Coleman Brothers, Inc., for removing snow and ice from the streets of Charlestown as designated by the Commissioner of Public Works, at the price of 60 cents per cubic yard.

This is emergency work and no advantage would be gained by public advertisement. The price to be paid is reasonable.

Yours respectfully,

JAMES H. SULLIVAN,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

Upon December 6 the Mayor approved a contract with the Mohawk Packing Company and the Uphams Corner Market Company for furnishing turkeys to the various city departments. Bids, opened November 18, were as noted below.

A communication from Herbert S. Frost, of the Supply Department, was as follows:

"Upon receipt of these bids a personal inspection was made by the Supply Department of the turkeys offered for sale by the five lowest bidders, and it was found that the quality of the turkeys bid upon by the Mohawk Packing Company and the Uphams Corner Market Company was superior to the ones offered by the other bidders. The Mohawk Packing Company who bid 50½ cents per pound on the publicly advertised bid agreed to cut that price to 50 cents per pound.

"I would ask that permission be given to cancel all bids received on the publicly advertised quotations, and that contracts be awarded, without advertising, to the Mohawk Packing Company for furnishing 1,800 pounds of turkeys for delivery to the Boston City Hospital at a price of 50 cents per pound, and to the Uphams Corner Market Company for furnishing 850 pounds to Deer Island, 1,200 pounds to Long Island, and 650 pounds to the Boston Sanatorium at the same price, namely, 50 cents per pound."

Upon December 7 the Mayor approved a contract with the Kinney Manufacturing Company for furnishing four motor-driven sweepers. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, November 12, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the Kinney Manufacturing Company for furnishing four (4) Kinney Springfield motor-driven sweepers, as per standard specifications shown on pages 18 and 19 of accompanying catalogue, to the Street Cleaning and Oiling Service, 650 Albany street, at a price of \$7,500 each delivered. This price includes the service of a demonstrating operator as may be required.

As the Kinney Manufacturing Company is the manufacturer of this sweeper no advantage would accrue from publicly advertising for same, and as the Street Cleaning and Oiling Service has this type of sweeper in operation at the present time and finds that it gives absolute satisfaction, I would request that the permission asked for above be granted.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

Upon December 8 the Mayor approved a contract with the General Electric Company for furnishing motors and control for the Warren Drawbridge. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, December 7, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the General Electric Company for furnishing motors and control for the Warren Drawbridge on specifications and at a price shown on the attached sheet.

Mr. John E. Carty, division engineer of the Bridge and Ferry Division, has gone into the matter of motors and control for this bridge, and recommends that the equipment furnished by the General Electric Company be accepted as the best suited for his purposes.

As the division engineer states that it is extremely urgent that this equipment should be installed at the earliest possible moment, I trust that the permission asked for above be granted.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

Latitude, North, 42° 21 minutes 29.596 seconds, Longitude, West, 71° 3 minutes 51.040 seconds (exact situation of apex of State House dome, according to United States Coast and Geodetic Survey). Boston's latitude is similar to that of Detroit and the southern boundary of Oregon, also Rome (Italy), Sofia (Bulgaria) and Mukden (Manchuria); longitude nearly that of Quebec (Canada), Bogota (Colombia) and Santiago (Chile).

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Goodale road, bounded:

Southeasterly by Goodale road (highway), eight and 3-100 feet; southwesterly by another part of Goodale road, three hundred thirty-four and 25-100 feet; northwesterly by the same, eight feet; and northeasterly by the same, three hundred and thirty-five feet, containing twenty-six hundred and seventy-seven square feet, more or less.

The sewerage works to be constructed are as follows: 209 linear feet of 10-inch pipe sanitary sewer and 209 linear feet of 10-inch pipe surface drain, in the above-described premises, being part of the private way known as Goodale road, between Washington street and Goodale road (highway).

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on the northeasterly side of Goodale road for a distance of approximately 288 feet northwesterly from Goodale road (highway) and the lots of abutting land on the southwesterly side of Goodale road for a distance of approximately 350 feet northwesterly from Goodale road (highway) will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 722, Sewerage Works, Goodale Road, Dorchester, November 1, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

ADDITIONAL DAMAGES AWARDED.

The Mayor has approved the following votes of the Board of Street Commissioners:

Whereas, An award of \$9,000 for the taking of an easement for highway purposes in 423 square feet of land from Marie F. Barry for the widening and relocation of Tremont street, was made to said Barry under the order for said improvement dated March 26, 1925;

Whereas, Said sum (\$9,000) was accepted by said Barry not in full satisfaction of all damages so sustained but as payment *pro tanto* without prejudice to any right to have the remainder of said damages, if any, assessed by the appropriate tribunal; and

Whereas, Said Barry petitioned the Superior Court for a jury to determine said damages in excess of the amount (\$9,000) so awarded, accepted and paid; now, therefore, it is

Voted, After consultation with the Law Department and on its advice, that additional damages in the amount of \$3,500 be and the name hereby is awarded to Marie F. Barry, and it is further ordered that the Corporation Counsel agree to judgment in said case on the terms herein stated.

That in the matter of Betsey Neustadt, petitioner for damages on account of the taking of her estate at 85 Lawrence avenue, Roxbury district, for school purposes, under the order of the Street Commissioners and Mayor of August 2, 1923, after consultation with the Law Department, and on its advice, the Board assesses the petitioner's damages in the sum of \$17,500 flat; and consents that the Corporation Counsel agree to judgment in said case on the terms herein stated.

That in the matter of Mary L. Proctor, petitioner for damages occasioned her estate by the widening and relocation of Tremont street, under the order of the Street Commissioners and Mayor of March 26, 1925, after consultation with the Law Department, and on its advice, the Board assesses the petitioner's damages in the sum of \$11,735 flat; and consents that the Corporation Counsel agree to judgment in said case on the terms herein stated.

CONTRACTS AMENDED.

P. J. Cantwell has been allowed to amend the contract for furnishing and installing cabinets and work benches in various schools by striking out the words and figures, "September 1, 1926," on page 1, and substituting therefor the words and figures, "October 15, 1926," so that the beginning of the paragraph of said section on page 1 shall read: "The machines under this contract are to be delivered and installed and all work completed on or before October 15, 1926."

FIRE DEPARTMENT ORDERS.

General Order No. 82.

I. DELEGATION OF AUTHORITY FROM THE STATE FIRE MARSHAL.

The following new delegation of authority from the State Fire Marshal has been received by the Fire Commissioner and is published herewith for the information of the department:

THE COMMONWEALTH OF MASSACHUSETTS,
DEPARTMENT OF PUBLIC SAFETY.
ALFRED F. FOOTE, COMMISSIONER.

Office of the Division of Fire Prevention.

A New Delegation of Powers to the Fire Commissioner of the City of Boston and a Revocation of the Delegation of Powers to the Fire Commissioner of the City of Boston made by the Fire Prevention Commissioner.

I, George C. Neal, duly appointed and qualified as the State Fire Marshal for the Commonwealth of Massachusetts, by virtue of the authority vested in me by General Laws, chapter 148, and by the Acts of 1924, chapter 478, section 86E, do hereby delegate to the Fire Commissioner of the City of Boston the following powers conferred on me by said General Laws, to be exercised by him within the said City of Boston in accordance with the rules and regulations now established or hereafter to be established by the said State Fire Marshal in reference severally to said powers. This delegation of powers shall continue in force until a revocation thereof shall have been filed with the City Clerk of the said City of Boston.

1. The right to enter at any reasonable hour any building or other premises, or any ship or vessel, to make inspection, or in furtherance of the purpose of any provision of any law, ordinance, or by-law, or of any rule or order of said State Fire Marshal, without being held, or being deemed to be guilty of trespass; provided, that there is reason to suspect the existence of circumstances dangerous to the public safety as a fire menace.

2. The right, at all reasonable hours, to enter into buildings within his jurisdiction where horses or mules are stabled, or upon premises adjacent thereto, for the purpose of enforcing sections 86A to 86D, inclusive, of the Acts of 1924, chapter 478.

3. The right to approve or disapprove solely from consideration of fire hazard licenses for the keeping, storage, use, manufacture or sale of explosives and volatile inflammable fluids issued by the Board of Street Commissioners.

4. The right to require the removal and destruction of any heap or collection of refuse or debris that in his opinion may become dangerous as a fire menace, and all other powers conferred by section 34 of said chapter 148.

5. The right to issue any permit authorized by General Laws, chapter 148, sections 30 to 51 inclusive; the carrying out of any lawful rule, order or regulation established by the Fire Marshal, and the right to make any inspection required under said sections.

6. The delegation of powers to the Fire Commissioner of the City of Boston, made on the tenth day of September, A. D. 1915, by the Fire Prevention Commissioner of the metropolitan district, is hereby revoked and replaced by the foregoing new delegation of powers.

In witness whereof, the State Fire

Marshal has signed this delegation of powers this twelfth day of November, A. D. 1926.

GEORGE C. NEAL,
State Fire Marshal.

Approved:

A. F. FOOTE,
Commissioner.

By order of Fire Commissioner Eugene C. Hultman.

DANIEL F. SENNOTT,
Chief of Department.

General Order No. 83.

I. RESPONSE OF APPARATUS TO FIRES.

1. The attention of the department is directed to chapter 306 of the Acts of 1925, which reads as follows:

Section 1. Chapter eighty-nine of the General Laws is hereby amended by inserting after section six the following new section. *Section 6A.* Every motorman of a car upon a street railway shall, upon the approach of any fire apparatus going to a fire or responding to an alarm, immediately stop such car and keep the same at a standstill until such apparatus has passed. Violation of any provision of this section shall be punished by a fine of not more than twenty-five dollars.

Sect. 2. Said chapter eighty-nine is hereby further amended by inserting after section seven the following new section. *Section 7A.* Upon the approach of any fire apparatus which is going to a fire or responding to an alarm, every person driving a vehicle on a way shall immediately drive said vehicle as far as possible toward the right-hand curb or side of said way and shall keep the same at a standstill until such fire apparatus has passed. No person shall drive a vehicle within three hundred feet of any apparatus going to a fire or responding to an alarm, nor drive said vehicle, or park or leave the same unattended within six hundred feet of a fire or within the fire lines established thereat by the fire department. Violation of any provision of this section shall be punished by a fine of not more than twenty-five dollars.

2. Officers in command of apparatus responding to alarms of fire, when interfered with or delayed by any person operating street cars or vehicles contrary to the provisions of the above act will take the number of such car or vehicle, the location, etc., and forward it to the Fire Commissioner with all particulars relating to the incident.

II. PRONE PRESSURE METHOD OF RESUSCITATION.

1. Commencing Monday, December 6, 1926, Mr. John Wallace of the American Red Cross will commence a series of instructions in the department on the prone pressure method of resuscitation. Mr. Wallace will visit every house in the department and instruct officers and members in the application of this method of respiration. The chief of department will arrange the schedule under which Mr. Wallace will operate.

By order of Fire Commissioner Eugene C. Hultman.

DANIEL F. SENNOTT,
Chief of Department.

MUNICIPAL YEAR.

From 1926 the municipal year begins on the first Monday in January, which falls on Jan. 4 in said year. This change is in accordance with the City Charter amendments of 1924.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Halborn street, bounded:

Northwesterly by Delhi street, eight and 2-100 feet; northeasterly by another part of Halborn street, one hundred seventy-four and 42-100 feet; southeasterly by the same, eight feet; and southwesterly by the same, one hundred seventy-four and 96-100 feet, containing thirteen hundred and ninety-eight square feet, more or less.

A parcel of land, owners unknown, being part of the private way known as Delhi street, bounded:

Southeasterly by land hereinbefore described as taken from owners unknown (Halborn street) eight and 2-100 feet; southwesterly by another part of Delhi street, seventeen and 4-100 feet; northwesterly by the same, eight and 2-100 feet; and northeasterly by the same,

seventeen and 4-100 feet; containing one hundred and thirty-six square feet, more or less.

The sewerage works to be constructed are as follows: 190 linear feet of 10-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Halborn street, leading southeasterly from Delhi street for a distance of approximately one hundred and seventy-five feet, and part of the private way known as Delhi street, adjoining Halborn street.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered. That this Board estimates that the lots of abutting land on both sides of Halborn street, leading southeasterly from Delhi street, and extending for a distance of approximately 200 feet, excluding the lots at the easterly and southerly corners of Halborn and Delhi streets, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 723, Sewerage Works, Halborn Street, Dorchester, November 8, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department

MASSACHUSETTS CIVIL SERVICE
EXAMINATIONS.

The Massachusetts Civil Service Commission announce examinations for desirable positions open in the Boston and Metropolitan districts as follows:

CIVIL ENGINEERS, DECEMBER 13-18, 1926.

These examinations are for the service of the state, all cities, and such towns as are classified under civil service.

Warning.—Many men fail in the civil engineering examination because they apply for grades for which they are not qualified. It is advisable, therefore, if there is any doubt about the quantity or quality of your experience, to take both the grade for which you think you are qualified and the next lower grade. If you should be found ineligible for the higher grade, you will still have an opportunity to be placed on the next lower grade.

Grade A (1).

Engineering assistants, drafting assistants and rodmen who perform, under instructions and supervision, elementary or apprentice work in the field or office.

It is *prima facie* evidence that a position in Class 27 is not in Grade A if the salary is less than \$900 a year or more than \$1,440 a year.

Qualifications.—Applicants must have completed a high school course of not less than three years or must have had not less than one year of practical experience in field engineering or office work.

Subjects and Weights.—Rodmen.—Experience, 4; mathematics, 6; penmanship, 1; tracing, 3; questions on the duties

of the position, 6; total, 20. Assistant Draftsmen.—Experience, 4; mathematics, 6; penmanship, 1; drawing, 9; total, 20.

Grade B (2).

Senior engineering assistants, instrumentmen, and draftsmen (a) who assume responsibility for the execution of definite instructions in a minor division or section of engineering activity; or (b) who direct, under supervision, the operation of minor engineering projects.

It is *prima facie* evidence that a position in Class 27 is not in Grade B if the salary is more than \$1,980 a year.

Qualifications.—If appointed by promotion, not less than one year of service in Grade A. If appointed otherwise than by promotion from Grade A, at least two years of practical experience in engineering work of Grade A character and standard; or such training in civil engineering as is evidenced by a professional degree granted on the completion of a standard course of instruction at an institution or college of recognized standing; or the successful completion of not less than two years' study in such institution plus one year's practical experience in engineering work.

Subjects and Weights.—Instrumentmen.—Experience, 16; penmanship, 2; plotting, 6; questions on duties, 8; mathematics, 8; total, 40. Draftsmen.—Experience, 16; drawing, 10; mathematics, 6; duties, 4; plotting, 4; total, 40.

Grade C (3).

Assistant engineers, assistant civil engineers, and designing engineers (a) who assume responsibility for the direction

of surveys, the preparation and examination of, or advice upon, plans, designs and specifications for a minor section of a large engineering or a major section of a small engineering project; or (b) who supervise or inspect the construction or the operation of work on such a project; or (c) who make investigations of, and reports upon, such engineering projects as a basis for a report by an engineering superior.

It is *prima facie* evidence that a position in Class 27 is not in Grade C if the salary is more than \$2,580 a year.

Qualifications.—If appointed by promotion within a department or major division thereof, not less than two years of service in Grade B, or, if appointed otherwise than by promotion from Grade B, within a department or major division thereof, at least five years of practical experience in engineering work, at least one half of which shall have been appropriate to the particular branch of engineering work covered by the position, provided that a degree granted on the completion of a standard course of instruction by an engineering school of recognized standing shall be accepted as the equivalent of three years' practical experience.

Subjects and Weights.—Experience, 10; design 2; mathematics, 2; questions on materials and methods of construction, 3; engineering theory, 3; total, 20.

Grade D (4).

Senior assistant engineers, senior assistant civil engineers, and senior designing engineers (a) who supervise and assume complete responsibility for the work of a main division of an engineering organization involving the direction of surveys and design and construction; or (b) who maintain and operate the the major section of a large engineering project; or (c) who make independent investigations of and reports upon engineering projects as a basis for executive administrative, or judicial action; or (d) who take charge of a large engineering department in the absence of the chief engineer; or (e) who give advice on large or complicate engineering projects which may involve the preparation of plans.

It is *prima facie* evidence that a position in Class 27 is not in Grade D if the salary is more than \$3,600 a year.

Qualifications.—If appointed by promotion within a department or major division thereof, not less than three years of service in Grade C. If appointed otherwise than by promotion, within a department or major division thereof, at least eight years of practical experience in engineering work, at least one half of which shall have been appropriate to the particular branch covered by the position, and two years of which shall have been in an executive capacity; provided, that a degree granted on the completion of a standard course of instruction by an engineering school of recognized standing shall be accepted as the equivalent of four years of practical experience.

Subjects and Weights.—Experience, 24; questions on materials and methods of construction, 5; engineering theory, 5; design, 6; total 40.

An applicant must specify the grade for which he applies. Specimen examinations available.

PLAYGROUND WORKERS, SUPERVISORS, AND ASSISTANT SUPERVISORS, CITIES, DECEMBER 28, 1926.

This examination will be for the service of all the cities and towns in the state where these positions are under civil service.

The playgrounds ordinarily are open from April to November. During the school year sessions are usually held after school hours and on Saturdays, and on all days except Sundays during the summer. In the summer the usual salary is from \$15 to \$25 a week. The examination is open to both men and women.

The general duties of playground workers require a knowledge of the interests of children, ability to organize and conduct playground activities and adult recreation. It is desirable that applicants have education, training or experience in physical culture, playground work and physical training of juveniles.

Applicants must be high school graduates.

The subjects of examination with their respective weights will be as follows: Training and experience, 1; practical questions, 1; total, 2. There will be one set of special questions for applicants interested in boys' work, another set for those interested in girls' work, and a combination set for those wishing to qualify for both boys' and girls' work. There will probably also be a supplementary paper for those wishing to qualify as swimming instructor in playgrounds having a pool.

Successful applicants will be required to file a certificate from a reputable physician as to their physical fitness for the position.

Applicants who wish to be certified to positions as playground supervisors should have at least two years' actual experience in playground work.

FOUNDRY FOREMAN, STATE PRISON, DEPARTMENT OF CORRECTION, JANUARY 3, 1927.

The salary is \$2,400 per year.

The duties of this position require that applicants be experienced in floor, bench and machine molding, baked and green sand core making, cleaning, snagging and tumbling castings, have a knowledge of cupola practice and mixes of iron for various purposes, knowledge of brass melting and compositions for different requirements, and be familiar with mechanical equipment incidental to a small foundry.

The subjects of examination with their respective weights will be as follows: Training and experience, 2; practical questions on the duties of the position, 3; total, 5.

Applicants will be required to obtain a mark of at least 65 per cent in each subject of the examination, in order to become eligible.

Physical examination required.

FIRE SERVICE, CITIES AND TOWNS OUTSIDE OF BOSTON AND METROPOLITAN DISTRICT, JANUARY 8, 1927, BOSTON AND METROPOLITAN DISTRICT, JANUARY 22, 1927.

Applicants for the service of Boston must be not less than twenty-two nor over thirty-five years of age at the time of filing their applications. Applicants for all other cities and towns in the metropolitan district must be not less than twenty-one nor over thirty-five years of age at the time of filing their applications. A certificate of date of birth must be filed with the application.

Applicants for the service of cities and towns outside of the metropolitan district are required to be not less than twenty-one nor over thirty-five years of age at the time of filing their applications. Applicants for Worcester fire service are required to be not less than 5 feet, 5 inches in height. Applicants for Brockton must be not less than 5 feet, 6 inches in height, and weigh no less than 135 pounds at the time of appointment.

Callmen and substitute callmen may make such deductions from their ages as are provided for in Civil Service Rule 8, Class 21.

Applicants must be grammar school graduates.

The subjects of examination with their respective weights will be as follows: Training and experience, 2; practical questions on fire apparatus, etc., 3; total, 5. Applicants will be required to obtain at least 50 per cent in practical questions.

Successful applicants will also be required to pass a physical examination and strength tests.

Educational qualifications, 1: physical qualifications, 1; total, 2.

The questions on duties will be based upon information contained in a manual known as the "Red Book." This manual may be obtained from the Secretary of State, Room 118, State House, at ten cents a copy. It is necessary that applicants obtain a copy of this manual and study it carefully.

CLEANING OF STREETS, NORTH AND WEST ENDS.

The following was received:

City of Boston,

Office of the Mayor, December 6, 1926.

To the City Council.

Gentlemen,—I transmit herewith communication from the Public Works Department in reply to your order of November 15, 1926, in relation to additional men to clean streets in the West End and North End.

Yours truly,

MALCOLM E. NICHOLS, Mayor.

City of Boston,

Public Works Department,

November 26, 1926.

To the Honorable the Mayor.

I return order of the City Council, dated November 15, requesting additional men to clean streets in the West End, and inclose report of the Division Engineer of the Sewer and Sanitary Division which has my approval.

Yours respectfully,

J. H. SULLIVAN,
Commissioner of Public Works.

November 24, 1926.

To the Commissioner of Public Works.

Replying to attached order of the City Council dated November 15 relative to the assignment of eight additional hokey-pokey men and carts to clean the streets of the West End and North End, I would report as follows:

At the present time there are two single teams with drivers and helpers on each team patrolling most of the streets in the West End each day. The hokey-pokey men are at the present time stationed in the vicinity of the Massachusetts Hospital, Eye and Ear Infirmary, and school and churches on McLean and Allen streets. There is also a patrolman at the North Station to take care of Causeway street, Portland street and Friend street. There is another man in the Canal street section, and one to cover Washington street, from Hanover street to and including Haymarket square.

This force covers the West End every day, Sundays excepted. In addition to the above-mentioned forces, the West End Street Cleaning Service cleans all of the streets in the West End and North End daily, Sundays excepted, this work being done at night.

In the North End there is one team with helper which cleans Endicott street, Cooper street, Thacher street, Cross street, North Margin street, Prince street, Parmenter street, Charter street and Fleet street. There are also three hokey-pokey men taking care of the Salem street section. Another hokey-pokey man takes care of Washington street from Court street to Hanover street.

To comply with the order of the Council, it will be necessary to assign eight men from other districts or to appoint either temporarily or permanently eight additional men to the Street Cleaning forces.

It is my opinion that this district is given the best attention of any district in the city.

Yours respectfully,

E. F. MURPHY,
Division Engineer, Sewer and Sanitary Division.

Placed on file.

1. James Kaplan, Thomas Reilly and Albert E. Martel, to be Constables.

2. Chester A. Bailey, Della Joyce, Miriam R. Cohen and Louis A. Cohen, to be Weighers of Coal.

The question came on confirmation. Committee, Coun. Heffernan and Donovan. Whole number of ballots, 16, yeas 16, and the appointments were confirmed.

SOCIAL LAW LIBRARY APPROPRIATION.

Coun. GILBODY offered the following:

Ordered, That there be allowed and paid to the proprietors of the Social Law Library the sum of \$1,000 for the maintenance and enlargement of said library; said sum to be charged to the appropriation for County of Suffolk, Social Law Library.

Coun. GILBODY—Mr. President, I move a suspension of the rule and the passage of the order.

Coun. HEFFERNAN—Mr. President, I would like to hear the reason for this before we vote on it.

Coun. GILBODY—Mr. President, I will simply say that this is the customary thing and is done annually, giving \$1,000 for the support of the Social Law Library in the courthouse. In return for that courtesy the library is open to any member of the City Council who desires to make use of it at any time.

The order was passed under suspension of the rule.

SALVAGING OF MOTOR SNOW EQUIPMENT.

Coun. WARD offered an order—That the Public Works Commissioner be requested, through his Honor the Mayor, to take such

steps as may be necessary to salvage motor snow equipment recently purchased, and be it further

Ordered, That with the money received, the Superintendent of Supplies be requested to purchase trucks not over five feet in height.

Coun. WARD—Mr. President, I see that at the last meeting of the Council the counselor from Roxbury presented an order criticising the height of the snow loaders now in use in this city. I noticed this morning, coming down town, that it was practically impossible for the men who were out on snow work to fill the trucks, because the boards were 8 feet high. I noticed an editorial printed in the Boston Traveler of December 1 in regard to this matter, and I want to read it to the members of the Council:

Those High-Sided Snow Trucks.

Certain persons who have inspected those new trucks, purchased by the city for purposes of snow removal, declare them to be "back breakers." The sides, it seems, rise mountain high. City laborers are expected to rebel at having to lift snow over the tall ramparts.

Already there have been suggestions that the sides be cut down. But of course this would be a reduction of capacity.

Think how convenient these great snow receptacles will be, for example, in clearing roofs. Just drive the truck up to the front of the building, and, in most cases, the distance the snow will have to be lifted from the roof to the top of the truck will be so trifling as to cause no complaint.

For ordinary street work, such as clearing the roads, cranes, derricks, or carrier-belts could readily be rigged on each side of the snow van.

Another possible answer to the problem presented by the snow vans, is to furnish the shovellers with long-handled shovels and stilts. Or if this isn't the solution, try ladders. Perhaps a model of one of those obsolete hods anciently used by so-called hod-carriers, could be discovered in some museum, and reproductions made for the snow handlers. In this manner three men might be enabled to do the work of one; the trio being a shoveler, a hodman and a hod emptier at the top of the ladder.

That practically answers the question as to what the snow loaders are today. I am going to move suspension of the rule and passage of the order, so that the trucks already purchased may be salvaged and new trucks not over five feet high obtained in their place.

The order was declared passed under suspension of the rule. Coun. RUBY doubted the vote, and by show of hands the Council refused to suspend the rule.

The order was referred to the Executive Committee.

CARS OPERATED IN FOREST HILLS DISTRICT.

Coun. GUILD offered the following:

Ordered, That the trustees of the Boston Elevated Railway Company be requested, through his Honor the Mayor, to arrange its schedule of cars operating between Arborway Station and points beyond the Forest Hills terminal, so as to do the waiting for time at the Forest Hills terminal instead of at the Arborway Station.

Coun. GUILD—Mr. President, in placing that order before the Council I merely wish to direct the attention of the body to the practice of the Boston Elevated Railway in the matter of handling its cars at the Arborway Station and the Forest Hills Terminal. Cars which go into West Roxbury and Hyde Park are now sent to the Arborway Station, where they connect with other cars, from which sometimes they receive five or six passengers, after waiting at Arborway Station, and they are then sent to the Forest Hills Terminal partially loaded and receive passengers to the full extent of their capacity. They are not kept at the Forest Hills Terminal for any appreciable length of time, and a mob of crowding, jostling persons is guaranteed for any car at the Forest Hills Terminal. It seems to me that a simple rearrangement might be made, allowing the cars to wait and receive passengers at the Forest Hills Terminal and having them leave the Arborway Station virtually as soon as those desiring to get on there have done so. I therefore move suspension of the rule and the passage of the order.

The order was passed under suspension of the rule.

AMBULANCE SERVICE AT POLICE STATIONS.

Coun. MAHONEY offered the following:

Ordered, That the Police Commissioner be requested to include in his budget estimates for the year 1927 a sum sufficient to provide

for ambulance service at the various police stations, especially in the industrial district, such as East Boston, Charlestown, South Boston and Roxbury.

Passed under suspension of the rule.

REMOVAL OF SNOW ON EAST BOSTON CAR TRACKS.

Coun. DONOVAN offered the following:

Ordered, That the trustees of the Boston Elevated Railway Company be requested, through his Honor the Mayor, to remove the snow from Meridian street, Lexington street, Bennington street, Maverick street, Webster street, and Summer street, thoroughfares on which they operate cars, to the end that the merchants may be permitted to transact business, that the fire hazard may be kept normal, and that the health of the people of East Boston may be conserved.

Referred to the Executive Committee.

ARC LAMP, FRANKLIN FIELD ENTRANCE.

Coun. RUBY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install an electric arc lamp at the corner of Talbot avenue and Blue Hill avenue, at the entrance to Franklin Field, Ward 14.

Passed under suspension of the rule.

ARC LAMP, WARD 14.

Coun. RUBY offered an order—That the Commissioner of Public Works be requested, through his Honor the Mayor, to install an electric arc lamp at the corner of Harvard street and Bernard street, Ward 14.

Passed under suspension of the rule.

SCHOOLBOYS' STADIUM, FRANKLIN FIELD.

Coun. RUBY offered an order—That the Park Commissioners be requested, through his Honor the Mayor, to include in the budget for the year 1927 a sum sufficient to provide for the erection of a schoolboys' stadium on Franklin Field.

Coun. RUBY—Mr. President, I was privileged to attend the football games conducted by the high schools on Braves Field on Thanksgiving Day morning. There were over 50,000 people in attendance, the amounts paid for tickets ranging from 50 cents paid by the schoolboys to \$1, the amount paid by the individual who purchased his ticket at the gate. I am informed that the management of Braves Field received 50 per cent of the total amount of money that is taken in at these school football games. I believe the City of Boston is able to erect a stadium capable of accommodating the number of schoolboys and people who would desire to witness athletic games on what they could call their own field. For that reason I am introducing this order at the present time so that his Honor the Mayor can include, if possible, in the budget for 1927 a sum sufficient to erect a proper schoolboy stadium, suggesting Franklin Field because of the fact that there is sufficient room there for such a stadium, and to erect it on such ground would mean a minimum cost.

Coun. GUILD—Mr. President, I rise for information. May I have the order read again? (The order was read.)

Coun. RUBY—Mr. President, I move a suspension of the rule, that the order may be put upon its passage.

Coun. HEFFERNAN—Mr. President, I am personally opposed to an order of this kind. I think if Boston ever reaches the stage when it has sufficient money to build a stadium, it will then be all right to undertake it. But it has been my experience with the Park Department, and I think the experience of other members of the Council, that that department of the city cannot apparently afford enough money to lay out baseball diamonds or football fields in the parks we already have. Therefore, I think it would be ridiculous for this Council to go on record in favor of a stadium that is going to cost millions of dollars, to be placed in some district where the income would not be enough, no matter what is charged, to cover the carrying expenses, when the parks of Boston today are in the dilapidated and disgraceful condition they are. If something is to be done for the schoolboys, I say the City of Boston can spend money to far better advantage in erecting grandstands

of some size in the playgrounds we have today. Last year in my district the Park Department promised numerous improvements and, as far as I can find out, all that was done was to take down a fence, move it 5 feet, and put it up again, although it did cost the City of Boston considerable money. I think if Boston wants to do something for the schoolboys it can build a lot of buildings such as are built in other cities, something that can serve for locker building and bleachers. If we had bleachers in different districts, the schoolboys and people in the community would get some benefit out of it. But to build a stadium out in Franklin Field, simply adding so much cement, so much construction to what we have in the field at the present time, taking up so much room and spending so much of the money of the city for that purpose when there are so many other purposes for which money should be spent, I think would be a serious mistake.

Coun. GUILD—Mr. President, I am opposed to this order for other reasons than those stated by my colleague from Ward 22. The very reading of the order itself shows quite plainly that the undertaking of a project of this sort should originate in the School Committee. It is a school project, as I understand the wording of the order, and it is something that has to do with the schools as distinguished from the other general interests of the citizens. It is my personal opinion that athletics in the public schools at the present day are considerably over-emphasized. It is my opinion that any step that might be taken by the City of Boston serving further to emphasize athletics in the curricula of the public schools would be a mistake. I, however, would be willing to defer my personal feeling on that subject to any move that the School Committee might make in that direction. I do think, however, that if a movement of this sort is to be originated, instead of its being done in the way suggested by the order introduced here, it is something that should emanate from the School Committee.

Coun. RUBY—Mr. President, I must take issue with the councilor who has just spoken with reference to the conduct of athletics, so far as the schools of Boston are concerned. I do not believe that enough encouragement of athletics is being given by the School Committee or any other branch of the city government of Boston. Various articles have appeared, for example, in the New York press, calling attention to the fact that there is being encouraged there the erection and equipment of school halls for gymnasium purposes so that the schoolboy and girl can properly conduct himself or herself in athletics. I believe in encouraging boys and girls to indulge in some form of athletics, and, especially in view of the fact that millions of people in this country spend many millions of dollars annually in the way of admission fees to all sorts of athletic games, not only residents of Boston, but people all over the United States, I believe it would be well to consider seriously the subject matter of this order. The universal interest shown in athletic spectacles convinces me that a recognition of the part that athletics play in the lives of our young people and our citizens is a thing to be most seriously borne in mind. There are gymnasiums in our schools today that are not used because athletics are not encouraged. I remember some years ago when I was an attendant at the high school, the athletic game of basket ball was encouraged, and sometime later stopped. It is now being encouraged in most of the schools. Proper school and athletic directors have been selected and are functioning, and I believe we ought to encourage, as a part of the governing body of the city, the indulging of our young boys and girls in athletics. I am not selfish enough to feel that if such a stadium is built it should necessarily be built in our district. I simply introduced the order in that form because I believed that we had a field there big enough for the erection of such a stadium. But I do believe a stadium should be erected, and if that section of Boston is not a sufficiently central place that a more central place should be selected. A stadium should, however, in my opinion, be built and kept up by the City of Boston, and would, I feel, be of tremendous benefit to the thousands and thousands of children who go to our schools. I cannot believe that athletics are over-emphasized in Boston. In my opinion they should be further emphasized.

Chairman WILSON—I understand that Coun. Ruby wants his motion to suspend the rule and pass the order at this time put?

Coun. RUBY—Yes, Mr. President.

The motion to suspend the rule was declared lost. Coun. Ruby doubted the vote and asked for a rising vote. The Council stood

divided and the motion to suspend the rule was lost, 3 to 10.

The order was referred to the Executive Committee.

PAYMENT OF DECEMBER PAY ROLLS.

Coun. FREELEY offered an order—That the City Auditor be authorized to allow for payment and the City Treasurer to pay the employees on monthly pay rolls on or before Friday, December 24, 1926.

Passed under suspension of the rule.

STREETS FOR COASTING.

Coun. FREELEY offered the following:
Ordered, That the Street Commissioners be requested, through his Honor the Mayor, to designate and set aside certain streets throughout the city, where convenient, for the purpose of coasting on sleds, and that police officers be assigned for the adequate protection of the coasters using said streets.
Referred to the Executive Committee.

RECESS.

On motion of Coun. BUSH, the Council voted at 3.02 p. m. to take a recess subject to the call of the Chair. The members reassembled in the Council Chamber and were called to, order by Coun. WILSON at 3.55 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. DOWLING, for the Executive Committee, submitted the following:

1. Report on petition of Marion Hennessy, for children under fifteen years of age to appear at Washington Irving school December 8, 1926, recommending that leave be granted on the usual conditions.

Report accepted, leave granted on the usual conditions.

2. Report on order (referred today) requesting the Street Commissioners, through his Honor the Mayor, to designate and set aside certain streets throughout the city for the purpose of coasting on sleds, etc.,—that the same ought to pass.

Report accepted; said order passed.

3. Report on order (referred today) requesting the trustees of the Boston Elevated Railway Company to remove snow on certain streets in East Boston,—that the same ought to pass in the following new draft:

Ordered, That the trustees of the Boston Elevated Railway Company be requested, through his Honor the Mayor, to remove the snow from the thoroughfares in East Boston on which they operate cars, to the end that the merchants may be permitted to transact business, that the fire hazard may be kept normal, and that the health of the people of Boston may be conserved, and that the trustees report back to the Council what action will be taken.

Report accepted, said order in new draft passed.

4. Report on preambles and order (referred November 29) with reference to release of rights in land on Tremont street to Ira W. Shapira, trustee of the Whitehall Realty Trust,—that the same ought to pass.

The report was accepted, but the preambles and order failed of passage on roll call (a two thirds vote of the entire membership being necessary for passage), yeas 14, nays 6:

Yeas—Coun. Arnold, Bush, Dowling, Engler, Freeley, Gilbody, Guild, Keene, McGrath, McMahon, Parkman, Ruby, Wilson, Wragg—14.

Nays—Coun. Donovan, Fitzgerald, Green, Heffernan, Lynch, Mahoney—6.

Later in the session Coun. Arnold said:

Mr. President, I move that the Council reconsider the vote whereby it rejected the land-taking order on Tremont street, on which a part of the Commodore Hotel is erected. If that motion prevails, I shall then move that the matter be assigned to the next meeting.

Reconsideration prevailed, and the matter was assigned to the next meeting, on motion of Coun. Arnold.

PUBLIC LANDS.

Coun. McGRATH, for the Committee on Public Lands, submitted a report on petition of Chester Realty Company for release of conditions at 1777-1781 Washington street, with order authorizing the Mayor, on behalf of the city, to execute to the Law Depart-

ment, such release (referred August 2),—recommending passage of the accompanying order:

Ordered, That his Honor the Mayor be and he hereby is authorized, in the name and behalf of the City of Boston, to execute an instrument satisfactory in form to the Law Department of the said City of Boston, wherein the said City of Boston shall release so far as it may lawfully do so, without affecting the legal or other equitable rights of others holding title under it, the following conditions which were contained in deeds from the City of Boston to Amos Farnsworth, recorded with Suffolk Deeds, libro 713, pages 119 and 120, wherein the said City of Boston conveyed to the said Amos Farnsworth land on the northwesterly side of Washington street, being Lots No. 116 and 117,—

"... the front line of the building which may be erected on the said lot shall be placed on a line parallel with and ten feet back from said Washington street . . ."

and
". . . no dwelling house or other building except the necessary out buildings shall be erected on the rear of the said lot."

Report accepted; said order given its first reading and passage, yeas 20, nays 0.

CLAIMS.

Coun. PARKMAN, for the Committee on Claims, submitted the following:

1. Report on petition of John O. Cummings (referred Nov. 29) for compensation for the loss of hens killed by dogs, recommending passage of the accompanying order:

Ordered, That there be allowed and paid to John O. Cummings the sum of \$18, in compensation for the loss of nine hens killed by a dog or dogs November 1, 1926, said sum to be paid from the income for dog licenses.

Report accepted; said order passed.

2. Report on petition of Joseph F. O'Connell (referred November 29, 1926) for compensation for the loss of hens killed by dogs, recommend the passage of the accompanying order:

Ordered, That there be allowed and paid to Joseph F. O'Connell the sum of \$27, in compensation for the loss of twelve hens killed by a dog or dogs November 14, 1926, said sum to be paid from the income for dog licenses.

Report accepted; said order passed.

CONVENIENCE STATION, CODMAN SQUARE.

Chairman WILSON offered the following:
Ordered, That his Honor the Mayor be and he hereby is respectfully requested in his estimates for the 1927 budget to make suitable provision for the construction of a convenience station in Codman square, Dorchester, in accordance with order referred to the Committee on Finance by the City Council at its meeting of April 26, 1926.

Passed under suspension of the rule.

MORTON STREET IMPROVEMENT.

Chairman WILSON offered the following:
Ordered, That the Board of Street Commissioners, through his Honor the Mayor, advise the City Council in detail forthwith the exact present status of the laying out, widening and extension of the second section of the so-called Morton Street Improvement, particularly with reference to the Washington street location.

Passed under suspension of the rule.

Ordered, That the Public Works Department, through his Honor the Mayor, advise the City Council in detail forthwith the exact present status of the computations, if any, to date, by the Public Works Department with reference to necessary underground work and rough grading required for the proper completion of the second section of the so-called Morton Street Improvement, particularly with reference to the Washington street section.

Passed under suspension of the rule.

Ordered, That his Honor the Mayor be and he hereby is now respectfully requested to provide in the 1927 budget for the prompt appropriation of \$10,000 from the tax levy in accordance with figures submitted in letter to the Commissioner of Public Works to the Mayor, under date of January 15, 1926, in

response to the order of the City Council, passed on January 11, 1926, such appropriation to be expended for the laying out, widening and construction of the Washington street section of the so-called Morton Street Improvement, as authorized by chapter 325 of the Acts of 1925.

Passed under suspension of the rule.

Ordered, That under authority and by virtue of chapter 325 of the Acts of 1925, the sum of \$100,000 be and the same hereby is appropriated to be expended by the Board of Street Commissioners for the Washington street or second section of the so-called Morton Street Improvement. And further ordered, that to meet said appropriation the City Treasurer be and he hereby is authorized by and directed to issue from time to time on the request of the Mayor bonds or certificates of indebtedness of the City of Boston in said amount, the same to be issued outside the limit of indebtedness.

Referred to the Committee on Finance.

Ordered, That the Board of Street Commissioners, through his Honor the Mayor, furnish the City Council forthwith with a detailed estimate of the amount of money necessary, but not yet authorized by the Massachusetts Legislature, for the completion of the so-called Morton Street Improvement in accordance with plan now on file with the Street Laying-Out Department, dated January 24, 1925, particularly with reference to letter of January 15, 1926, from the Public Works Department to the Mayor in response to the order of the City Council passed January 11, 1926.

Coun. GILBODY—Mr. President, may I inquire whether this entire proposition is the so-called Southern Artery?

Chairman WILSON—Yes, sir.

Coun. GILBODY—I was just wondering if the gentleman would be gracious enough to permit something more to be done, having in mind the entire project? I see that he only brings it down to his own ward, and part of it goes through my ward.

The order was passed under suspension of the rule.

Ordered, That his Honor the Mayor, through proper department heads or the Corporation Counsel for the City of Boston, be requested to file forthwith in time for action by the new Legislature, a proper bill authorizing the City of Boston to borrow such additional sum or sums outside the debt limit, in addition to the sum of \$325,000 authorized under chapter 325 of the Acts of 1925, as may be necessary or advisable for the proper and prompt completion of the second section of the so-called Morton Street Improvement.

Passed under suspension of the rule.

Chairman WILSON—A word of explanation may well be made at this time with reference to the six orders which have just been read. Most members of the City Council are probably familiar with the general plan of the so-called Morton Street Improvement, especially authorized under chapter 325 of the Acts of 1925, which act was passed in that year, I think I may say chiefly due to the untiring efforts of late Representative William Lancaster of Dorchester and Hyde Park. The details of this great traffic artery project may be found in the chapter and act referred to, which was approved by the Governor of the Commonwealth on April 30, 1925. A report of the progress in construction made to date may be found in the letter from the Commissioner of Public Works to his Honor the Mayor, written in response to my order of January 11, 1926, and printed in the minutes of the Boston City Council for June 7, 1926. Briefly I might state that under the provisions of chapter 325 of the Acts of 1925 there is still available for the second section of the project, viz, the work from Codman street to River street, approximately \$150,000, which is not sufficient for the purposes. As a matter of fact a loan order of \$100,000 is required to make available for the work even the amount already authorized by the Legislature; and by the provisions of chapter 325 of the Acts of 1925 an appropriation of \$10,000 from the tax levy must be made prior to the loan. I wish this \$10,000 item taken care of in the 1927 budget without fail, to be supplemented by the authorized \$100,000 loan order. An additional amount must, however, be authorized by the incoming Legislature to assure completion of this great project. The time for filing bills to be acted upon by the 1927 Legislature is now close at hand, and it is obviously essential, if this great traffic route is to go forward, that there be no slip-up in technical requirements. I am accordingly

requesting at this time such detailed information from the proper departments as will be necessary for the proper filing of the required bill in the Legislature and I am now respectfully requesting the Mayor to see to it that timely forwarding of the bill insures its consideration during 1927, without fail. Of course I realize that his Honor the Mayor undoubtedly has in mind the early and assured completion of this great civic improvement. Undoubtedly he has already formulated plans to insure its consummation during 1927. As the councilor representing Ward 17, the great central Dorchester district, so vitally affected by this part of the improvement now to be undertaken, I introduced my original order with reference to this project during the first month of my service in this body. I have furthermore endeavored to keep the matter actively under the consideration of his Honor the Mayor, and at this time would particularly call his respectful attention, with reference thereto, to my detailed communications of June 24, July 13, August 9, August 11, and November 19 during the current year, as well as to the City Council minutes for June 7, 1926. Our present Chief Executive was elected on a pledge of systematic street development, particularly in the residential districts of the city. The time has now come to take a definite stand before the Massachusetts Legislature, insuring early completion of the Morton street widening and extension as a great through artery from Boston to the South Shore.

GENERAL RECONSIDERATION.

Coun. DOWLING moved for a general reconsideration of all matters acted upon today, hoping that the same would not prevail. Lost.

Adjourned, on motion of Coun. RUBY, at 4.11 p. m., to meet on Monday, December 13, at 2 p. m.

BOSTON CHARTER CHANGES.

In 1854, 1885, 1909 and 1924 important changes in the original City Charter of 1821 were effected for the purpose of improving the methods and efficiency of the City Government. The revision of 1854 (Chap. 448, Stat. 1854) referred to the voters for acceptance, gave the Mayor a qualified veto over the action of the City Council, also the power of removal of appointed officials, besides providing for his election by a plurality instead of a majority vote. The amendments of 1885 (Chap. 266, Stat. 1885) were not submitted to the voters for approval. They transferred all the executive powers to the Mayor, prohibiting the City Council form interference with the executive and administrative business of the City. This was done in order to end the inefficiency resulting from an excessive number of joint committees, a municipal development conforming to the traditions of the outgrown town government.

The amendments of 1909 (Chap. 486, Stat. 1909) cut down the number and powers of the legislative branch of the government to a minimum, the Board of Aldermen (13 members) and the Common Council (75 members) being abolished. For these was substituted a single City Council of nine members to be elected at large for 3-year term. The Mayor's position was further strengthened by giving him a 4-year term, subject to recall at end of two years, but requiring a majority vote of the registered voters to make the recall effective. The Mayor's power over appointments was no longer subject to check by aldermen but by a State board, the Civil Service Commission and City elections were removed from all connection with national and State politics, no primaries nor caucuses being permitted, all candidates for office to be selected by means of nomination papers. The only

question in this Act of 1909 which was submitted to the voters was contained in section 35, i. e., whether Plan 1 or Plan 2 should be adopted, the first providing for a term of two years for Mayor and a City Council of 36 members to be chosen in primaries. Plan 2, providing for City Council of 9 members, was adopted by a majority of 3,894.

Charter of 1909 amended later as follows: (1) By Chap. 437, Acts of 1910, exempting loans issued for Rapid Transit construction from the prohibition of the establishing of sinking funds, as contained in sec. 26. (2) Chap. 730, Acts of 1914, fixing date of annual municipal election on the sixth Tuesday after the state election instead of in the following January, as in sec. 32; changing the requirements as to signatures on nomination papers to 3,000 for Mayor and 2,000 for City Council and School Committee instead of 5,000 for all, as in sec. 53; also limiting the number of nomination papers issued to 300 for a candidate for Mayor and 200 for other candidates, referring to sec. 54. (3) Chap. 37, Special Acts of 1918, annulling the jurat at end of nomination papers. (4) Chap. 94, Special Acts of 1918, abolishing recall of Mayor and making him ineligible for re-election, i. e., establishing a single term of four years, but not prohibiting the election of any Mayor for other than consecutive terms. (5) Chap. 288, Acts of 1921, fixing date of the annual municipal election on the first Tuesday after the second Monday in December, also making slight changes as to nominations. (6) Chap. 133, Acts of 1922, changing publication of list of City officials and employees to every second year from 1923. (7) Chap. 479, Acts of 1924, providing for biennial City elections (dating from Nov. 3, 1925); for borough or ward representation in City Council; for a fiscal year dating from Jan. 1 to Dec. 31, beginning in 1926, also a municipal year dating from the first Monday in January, to begin in 1926; for election of the five members of School Committee in 1925, the candidates receiving the two largest votes to hold office four years, the other three for two years and at the election in 1927 and thereafter the term for all to be four years.

The only amendment of 1924 subject to a referendum was the alternative of Plan 1 or Plan 2 as to the City Council. At the State election on Nov. 4 Plan 2 was adopted, providing for the election by each ward in 1925 and every second year thereafter of one councillor for 2-year term.

SETTLEMENT OF BOSTON, 1630.

Effected by Puritan colonists under Governor John Winthrop in the latter part of August, 1630. The name of the original settlement was changed to Boston from Trimountaine by order of the Court of Assistants on September 7 (O. S.), 1630. This date was moved forward by the New Style calendar in 1752 to Sept. 17, the recognized date of the founding of Boston. The name, Trimountaine, had been given because of the three peaks of the most prominent hill, afterward called Beacon Hill, much higher then than now. By the Indians the place was called Shawmut. The name, Boston, was derived from the English town of Boston in Lincolnshire, the home of some of the leading colonists and promoters of the enterprise.

UNDERGROUND RAPID TRANSIT IN BOSTON.

The Boston Transit Commission, consisting of five members, two appointed by the Governor and three by the Mayor, began its official existence, July 1, 1894, and ended it July 1, 1918, after seven extensions of the original term. It constructed, under the authority of Acts of the Legislature, the following subways and tunnels, the ownership of which is vested in the City of Boston, and all costs to be covered by revenue from same, not by taxation; Tremont Street Subway, from Broadway and Tremont St., South End, to North Station and from Boylston St., near Charles to Park St., 1.68 miles, opened to Park St. September 1, 1897, and to North Station on Sept. 3, 1898, costing with subsequent alterations, \$4,416,000, the first transportation subway in the United States; East Boston Tunnel, from Maverick square, E. Boston, under Boston Harbor and State St. to Scollay square, Boston Proper, 1.42 miles, opened December 30, 1904, costing \$3,336,000, the first all-concrete underwater transportation tunnel in the world; Washington Street Tunnel, from Ash st. opp. Nassau, South End, to Traverse st., near North Station, 1.16 miles, opened November 30, 1908, costing \$8,496,700 (including \$2,850,000 land damages; Cambridge Connection Subway, from under Park st. station of Tremont St. Subway to Grove st., near Cambridge Bridge, 0.47 miles, opened March 23, 1912, costing \$1,465,000; Boylston Street Subway from Commonwealth ave., near Kenmore st., Back Bay, to Tremont St. Subway, near Charles st., 1.5 miles, opened October 3, 1914, costing \$5,485,639; East Boston Tunnel Extension from Scollay square to North Russell st., 0.41 miles, opened March 18, 1916, approximate cost, \$2,523,000; Dorchester Tunnel, from Park st., Boston Proper, to Andrew square, South Boston, 2.26 miles, opened December 3, 1916, as far as South Station; on December 15, 1917, to Broadway, South Boston, and on June 29, 1918, to the Andrew Square terminal. Trains of four or six cars are run in the East Boston Tunnel, the Washington St. Tunnel, continuing on elevated track to Forest Hills, also in Dorchester Tunnel from Andrew sq., So. Boston, connecting with Cambridge Tunnel, to Harvard sq., Cambridge, while only single or double street-cars are run in the other tunnels and subways. Cost of Dorchester tunnel, \$11,016,700 to Jan. 31, 1925; of new Arlington Station extending under Boylston St., between Arlington and Berkeley, \$1,230,676; of East Boston Tunnel Alterations, Maverick sq., \$3,768,857.

Total gross debt on Feb. 1, 1925 for all subways and tunnels, \$42,096,700; against which a sinking fund of \$7,825,262 has been accumulated from the revenue, making the net debt \$34,271,438. The loans are payable mostly in 40 years from date of each (loans since 1911 payable in 45 years), annual interest averaging 3.8 per cent.

These underground ways, about nine miles in all with total of 19.27 miles of single track, were leased to the Boston Elevated Railway Company (which furnished the equipment) for term of 25 years (except Tremont Street 20 years) at annual rental of $4\frac{1}{2}$ to $4\frac{3}{4}$ per cent of net cost (except East Boston Tunnel which was at $\frac{3}{4}$ of one per cent of all annual gross receipts of said company).

In accordance with Chapter 741, Acts of 1911, the various leases were extended to July 1, 1936, the rental to be $4\frac{1}{2}$ per cent of net cost after expiration of the first-term leases.

By Chap. 185, Special Acts of 1918, the powers of the Transit Commission, whose term expired that year, were transferred to the Mayor, Commissioner of Public Works and City Treasurer, or such person or persons, not exceeding three, as the Mayor might appoint. By Chap. 3, Ordinances of 1918, the Transit Dept. was established as a regular City department, to be in charge of three commissioners.

By Chap. 480, Acts of 1923, the extension of the Dorchester Tunnel from Andrew Square about 1,300 feet southerly was ordered, the proposed new railway location then coming to the surface 400 feet southeast of Dorchester Ave., thence continuing to Harrison Square; thence along the Shawmut Branch railroad to its termination at Blue Hill Ave. and River St., Mattapan.

Loans issued in 1924-25 for Dorchester Tunnel extension, \$300,000 and for Dorchester Rapid Transit, \$150,000.

NATIVES AND CITIZENS OF BOSTON AND VICINITY HONORED IN HALL OF FAME.

In the American Hall of Fame, New York City, dedicated in 1901, are inscribed, on bronze tablets the names of 56 eminent men and 7 distinguished women deemed worthy of the highest honor on account of their services and attainments. Of the 63 individuals thus selected (up to 1920 inclusive) by an electorate of 100 leading Americans, 27 were natives or for some time citizens of Boston or vicinity. The names of the latter are as follows:

Chosen in 1900—John Adams, Benjamin Franklin, William Ellery Channing, Ralph Waldo Emerson, Daniel Webster, Henry Wadsworth Longfellow, Horace Mann, Nathaniel Hawthorne, George Peabody, Samuel Finley Breese Morse, Joseph Story, Asa Gray, Gilbert Stuart—total, 13.

Chosen in 1905—John Quincy Adams, James Russell Lowell, John Greenleaf Whittier—total, 3.

Chosen in 1910—Edgar Allan Poe, Oliver Wendell Holmes, George Bancroft, John Lothrop Motley, Phillips Brooks—total, 5.

Chosen in 1915—Louis Agassiz, Francis Parkman, Rufus Choate, Charlotte Cushman—total 4.

Chosen in 1920—William Thomas Green Morton, Alice Freeman Palmer. Five additional names every fifth year are to be selected and inscribed until the year 2000, when the 150 tablets in the colonnade will be complete.

If those who were natives or residents elsewhere in the State are added to the list, the following 7 names increase the total to 34 for Massachusetts or more than half the whole number, viz.: William Cullen Bryant, Jonathan Edwards, Mark Hopkins, Elias Howe, Eli Whitney, Maria Mitchell, Mary Lyon.

If all New England is included, 4 more names will bring up the total to 38 or 60.3 per cent of whole number chosen, these being Roger Williams, Henry Ward Beecher, Harriet Beecher Stowe, Emma Willard.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR REBUILDING WEST NEWTON STREET BRIDGE OVER THE NEW YORK, NEW HAVEN & HARTFORD RAILROAD.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for rebuilding West Newton Street Bridge, and giving bond therefor of a surety company approved by the Commissioner in the sum of twenty thousand (20,000) dollars, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex, after Monday, December 13, 1926. Each proposal should be inclosed in an envelope, sealed, marked "Bid for Rebuilding West Newton Street Bridge," and left at Room 508, fifth floor, City Hall Annex, before 12 o'clock m. of Tuesday, January 4, 1927, with a certified check for two thousand (2,000) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the bid containing such price. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interest of the city so to do.

JAMES H. SULLIVAN,
Commissioner of Public Works.

(Dec. 11-18-25.)

TRANSIT DEPARTMENT.

PROPOSALS FOR STEEL DROP-FORGINGS.

The Transit Department of the City of Boston, 1 Beacon street, seventh floor, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States for furnishing and delivering, freight prepaid, f. o. b., Walworth siding, East First and O streets, South Boston, Mass., about 78,800 rail clips and about 157,200 pounds of screw spikes. A bond of an approved surety company will be required for the faithful performance of the contract in the sum of \$3,000. Proposals should be filled out and signed by the bidder on forms to be obtained at this office, sealed in an envelope, indorsed "Proposal for Steel Drop-forgings," and left at the above address before 12 o'clock noon on Tuesday, December 21, 1926, at which time and place they will be publicly opened and read. A properly certified check in the sum of two thousand (2,000) dollars, payable to the city, must accompany this proposal. The check shall become the property of the city if the contract is not executed by the bidder within the time prescribed after the date of the notification by the department of the acceptance of the proposal and the readiness of the contract for signature. Proposals must be made in duplicate, the sealed duplicate, without check, is to be deposited by the bidder with the City Auditor, Room 20, City Hall, previous to the time named for opening the proposals. Specifications, blueprints and forms of contract can be obtained at this office.

By order of the CITY OF BOSTON TRANSIT DEPARTMENT.

A. D. ADAIR,
Acting Secretary.

(Dec. 11.)

SUPPLY DEPARTMENT.

PROPOSALS FOR TURKEYS.

The Supply Department of the City of Boston invites proposals for furnishing turkeys to the various city departments, as per specifications to be obtained at the office of the Superintendent of Supplies, Room 801, City Hall Annex. The successful bidder must furnish a bond for one quarter the total amount of the bid with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. Proposals, with a certified check for \$200, payable to and to become the property of the City of Boston if the proposal is not carried out, will be received at the above office until Monday, December 20, 1926, at 12 noon, at which time and place the bids will be publicly opened and read. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

HERBERT S. FROST,
Superintendent of Supplies.

(Dec. 11.)

WEALTH AND TAXATION.

Total assessed valuation of real estate on April 1, 1924, in the 39 cities and 316 towns of Mass., \$5,249,628,907 (\$283,567,249 more than in 1923) of which 60.85 per cent applied to buildings and 39.15 per cent to land; of personalty, \$1,046,215,516; aggregate valuation, \$6,295,844,423 (5.44 per cent increase over 1923) on which the total tax levy was \$176,859,926, showing an average tax rate of \$27.71 per \$1,000. Boston's valuation (\$1,808,569,298) equal to more than 40 per cent of all other valuations in Mass.

Massachusetts ranks fourth in amount of Federal income tax paid, this total being \$109,857,344 in year ended June 30, 1924. N. Y., Penn. and Ill. rank first, second, and third.

Total taxes assessed by Mass. (exclusive of \$10,000,000 State Tax on municipalities) in year 1924, \$44,068,996, divided thus: Income tax, \$15,211,192; business tax on domestic corporations, \$11,448,89; same on foreign corporations, \$2,528,470; inheritance tax, \$6,484,110; franchise tax on 252 out of 403 public-service companies making returns, \$2,447,692; on insurance premiums, etc., \$2,558,523; on savings bank deposits (incl. Trust Co. Savings Depts.) \$2,194,323; on national banks, \$935,408; all other, \$261,189. Additional 10 per cent assessment of \$3,382,976 under Chap. 487 of 1923, to pay refunds to national banks for excess taxation.

Number of Mass. income tax returns received in 1924, 327,354, of which 213,221 were found taxable. Total taxable income reported for 1923 and assessed in 1924, \$467,320,201, divided thus: Business income, \$268,793,704; interest and dividends, \$167,053,669; gains, \$29,787,328; annuities, \$1,685,500.

Total distribution of income tax to Mass. cities and towns in 1924, \$13,972,422 (\$1,215,238 more than in 1923) of which Boston's share was \$3,554,002; distribution of business, public-service, etc., taxes, \$14,073,870, of which Boston received \$3,110,115. Number of business corporations taxed, 22,104, of which 2,755 were foreign.

Total property in Mass. exempted from taxation in 1924, \$1,138,209,926 (mostly real estate) divided thus: Public property of cities and towns, \$488,136,195; of literary and scientific institutions, \$196,737,667; of United States, \$141,772,499; of churches, \$108,583,064; of charitable and benevolent institutions, etc., \$80,795,278; of State, \$85,371,327; of counties, \$15,940,489; cemeteries, etc., \$12,641,996; all other, \$8,231,411. In Boston, the total exempt property in 1924 was \$355,485,100 or 31.23 per cent of all in Mass.

The total wealth in the United States on Jan. 1, 1923 as ascertained by the Federal Census Bureau, was \$320,803,862,000 or \$2,918 per capita. This is an apparent increase of 72.2 per cent in the 10 years since 1913. The value of real estate, with improvements, amounted to \$155,908,625,000, not including public, ecclesiastical and institutional property exempt from taxation, which amounted to \$20,505,819,000.

The increase in money value of other classes of property is largely due to the price inflation of recent years and should not be represented as a permanent increase in the quantity of wealth.

In Massachusetts the total wealth increased 106.7 per cent or from \$6,279,-

266,000 in 1913 to \$12,980,839,000 in 1923, the latter averaging \$3,243 per capita.

On June 30, 1924 the 8,085 national banks in U. S. had aggregate capital of \$1,334,011,000; deposits, \$18,347,837,000; total resources, \$22,565,919,000.

PORT OF BOSTON.

Boston comprises an area of about 47 square miles, (exclusive of the islands) including all the expanse of tidewater within a straight line from Point Allerton to Point Shirley and extending therefrom to the mainland. It is the best of natural harbors, near open sea, sheltered and spacious for anchorage; main ship channel 35 feet in depth at mean low water, increasing to 40 feet from President Roads to open sea; new dredging operations in charge of U. S. engineers are under way for increasing depth of said main channel to 40 feet; waterfront (i. e., lineal pier space) 40 miles, 6 miles fronting on 30 feet depth at low water.

Commonwealth Pier No. 5, South Boston 1,200 feet long, 400 feet wide, accommodating five 600-foot ships at one time, 40 feet depth at mean low water on both sides, with three 2-story fire-proof buildings of steel and concrete construction, containing 900,000 square feet of floor space, total cost of this enterprise to State, \$4,500,000. Commonwealth Pier No. 6, South Boston, (Fish Pier), buildings on same erected by lessee, Boston Fish Market Corporation, cost to State, \$1,487,361. Commonwealth Pier, No. 1, East Boston, 900 feet long, costing State \$764,600 for site and \$426,674 for construction. New dry dock at South Boston (probably the largest in the world), completed in 1919, 1,200 feet long and 120 wide, costing \$3,169,651 and taken by U. S. Government at total cost.

Islands in Boston Harbor over 3 acres in area, 17, with total area of 965 acres; Long Island the largest, or 215.5 acres. Owned by United States, 392 acres; by City of Boston, 334 acres. Number of wharves, 143, of which 8 are owned by the City.

There are 32 foreign steamship lines with regular sailings to and from Boston and 18 coastwise lines (5 to Pacific ports). In 1915 a revision of the harbor lines was made and the project undertaken whereby 600 acres of flats between Governor's Island and Jeffries Pt. will be filled in and used for extensive commercial developments under State control. About 175 acres of flats have recently been filled in and added to the land area of East Boston and 160 acres to that of South Boston.

In April, 1918, the Government decided to establish its Army Supply Base on a portion of the Commonwealth lands in South Boston. About 57.6 acres were purchased from the State, the price being \$1,317,510, soon followed by the construction of two pier sheds, each 920 feet long, a wharf shed and other buildings, including one of the largest storehouses in the world, built of reinforced concrete, eight stories high, 1,638 feet long, 126 feet wide and with floor space of over 1,650,000 square feet. The total outlay for the plant was \$26,000,000.

Total expenditure by State for improvement of Boston Harbor \$21,968,003, from 1859 to 1924, inclusive; total Federal expenditure from 1790 to June 30, 1924, \$13,148,538.

BOSTON PARK DEPARTMENT.

Number of large parks, 24; separate playgrounds, 50, with total of 354.82 acres, also 13 playgrounds in parks with area of 156 acres; small parks and squares, 69.72 acres; total area, 2,647.68 acres. Cost of Main Park System, i. e., 1,389.40 acres (incl. Common and Public Garden, 72.65 acres) land and construction (since 1877 when begun) \$12,781,042; of Marine Park System, i. e., 457.9 acres (since 1883), \$5,509,388; of all other parks, playgrounds, etc., \$7,647,051. Total cost, \$25,937,481, of which \$10,192,754 is for land and \$15,744,727 for construction.

The leading attraction of the main park system is Franklin Park (named for Benjamin Franklin), acquired in 1883-84, and containing 527 acres, about 80 of which are occupied by the Zoological Gardens, also 15 miles of walks, 8 miles of driveways, etc., the entire cost up to 1925 being \$4,935,920. There are also within the City limits 964 acres of Metropolitan parks and parkways under State control, chief of which is Stony Brook Reservation in West Roxbury and Hyde Park districts, containing 464 acres of wild forested hill and dale with many rocky knolls and an extensive view of the Charles River valley and beyond.

Number of public indoor baths open all the year, 14; indoor gymnasia, 11; summer beach baths, 9.

Park Department maintenance for 1924 (including Cemetery Div., \$163,908) \$1,646,541 or \$9,661 less than in 1923. Outlay for playground improvements, \$374,246; for park improvements, \$429,743, of which \$233,902 was from Parkman Fund income.

Gross debt for parks, public grounds, etc., outstanding Feb. 1, 1925, \$6,190,800; for playgrounds, \$2,653,500; total \$8,844,300 or \$1,902,000 less than in 1924.

Including the State assessments of \$1,020,907 for Metropolitan parks, boulevards, etc., and \$230,088 for Charles River Basin, also the City's outlay for permanent park and playground improvements, or \$803,989, the total expended for public recreation purposes in 1924 was \$3,537,616.

BOSTON EXPORTS AND IMPORTS, 1924

For Mass. Customs District (Boston and eight minor ports) in calendar year, 1924, the total value of exports was \$57,355,646 or \$5,197,538 more than in 1923; of imports, \$253,851,533 or \$53,436,899 less than in 1923; total foreign trade, \$311,207,179 or \$48,240,061 less than in 1923. Boston's total foreign trade for year 1924 ranked sixth among American ports, New York, Galveston, New Orleans, Seattle and San Francisco exceeding the former in value. As to imports alone, Boston ranked third, Seattle taking second place, and as to exports alone, 18th (the unusual decline in exports due largely to discrimination against Boston in through railroad freight rates). Tonnage of vessels in foreign trade in year 1924, entered 3,927,437; cleared, 2,347,385; number of vessels entered, 1,553; number cleared, 1,046.

For the fiscal year ending June 30, 1925, the total imports at Boston reached \$301,447,000 in value, restoring this port to its accustomed rank of second.

CONTRACTS AMENDED.

Herbert W. Doten has been allowed to amend the contract for building typewriter tables in the Roxbury Memorial High School, by striking out the words and figures, "September 10, 1926," on page 12, section 3, and substituting therefor the words and figures, "November 30, 1926," so that the beginning of the last paragraph of said section 3, on page 12, shall read: "The work is to be commenced immediately upon the award of the contract, and is to be completed on or before November 30, 1926."

NATHAN A. HELLER REPLACES SIMON HECHT AS OVERSEER OF PUBLIC WELFARE.

The following statement has been issued relative to the Overseers of Public Welfare:

Mayor Nichols announced, on December 10, that upon reading the reports in the morning papers of the statements credited to Chairman Simon Hecht of the Overseers of Public Welfare, he called Mr. Hecht on the telephone and asked him if the papers had quoted him correctly. Mr. Hecht stated that they had, thereupon the Mayor asked him for his resignation.

Mr. Hecht stated that he would like to have the Mayor put the request in writing. The Mayor informed Mr. Hecht that he did not believe it was necessary to put the request in writing, whereupon Mr. Hecht informed the Mayor that he would not resign.

The Mayor therefore has removed Mr. Hecht from further service upon the Board of Public Welfare, and states as his reason for this action that there is no co-operation between the chairman of the Board and the administration, and the Mayor can no longer support an official who conducts important public business under two views widely at variance with each other, one official and the other personal.

Mr. Hecht signed an official communication to the Mayor under date of December 8 in which he stated that at a meeting of the Committee on Investigation and Relief the Board of Public Welfare acknowledged the responsibility in the plan, scope and amount of the distribution of the appropriation as granted to them.

In view of Mr. Hecht's acknowledged accuracy of the published accounts of his personal views of the \$1 cut which completely contradicted his official statement to the Mayor as chairman, the Mayor is unable to understand how Mr. Hecht can longer retain his office.

The Mayor has never declined to provide sufficient funds for the Board, but in view of the fact that the city had disbursed more poor relief this year than in any year in the history of the city, and also had a general statement from the chairman that \$50,000 would not be needed, the Mayor felt warranted in not granting \$50,000 at once, but leaving the question open for such further appropriations as might be necessary. The Mayor never dreamed that the chairman of the Board would place before his colleagues a plan arbitrarily cutting down by \$1 the allowances to the worthy needy families of Boston.

The Mayor has no criticisms to make of the Board, and only feels that if properly directed it would not have been committed to an unwise and indefensible act, particularly when its chairman had the advantage of a full expression of the

REPORT ON SANATORIUM.

Mayor Nichols has made public the report of Dr. Haven Emerson on the Boston Sanatorium.

As soon as he received the report the Mayor conferred with the trustees of the Boston City Hospital whom he has instructed to give careful consideration and be prepared to make a recommendation to the Mayor upon the adoption of that part of the report which places the Boston Sanatorium under the supervision of the Boston City Hospital.

A special meeting of the Boston Health League (Health Section, Council of Social Agencies) was held at 14 Beacon street, Boston, on Friday, December 17, 1926, at 3 p. m.

Dr. Haven Emerson, Professor of Public Health at Columbia University, submitted "The Report of Tuberculosis in Boston."

This report is based on the study recently made by him for the City of Boston, and with the approval of his Honor the Mayor is to be submitted at this meeting to representatives of health and welfare agencies and citizens interested in the promotion of public health.

NATHAN A. HELLER APPOINTED.*(Continued from page 1913.)*

Mayor's views which he could not have accurately quoted to the Board if his interview is to be taken as an example.

Mr. Hecht has been on the Board for many years, and the Mayor felt upon taking office that the success of so large a body would be measured by the co-operation built up between its chairman and the Mayor's office. This co-operation has not existed, and the Mayor told Mr. Hecht so long ago and expressed his belief that Mr. Hecht might wish to retire unless it was his feeling that this co-operation could be established. Mr. Hecht thought it could and the Mayor reappointed him.

The Mayor deeply regrets the action that he is compelled to take, and has no feeling whatsoever against Mr. Hecht, but is of opinion that the administration of this important office cannot be well served when the Mayor and the chairman are not in harmony.

The Mayor has designated Nathan A. Heller, Transit Commissioner, as a member of the Board of Public Welfare in the vacancy existing by Mr. Hecht's removal.

* Contract awarded.

Upon December 8 the Mayor approved a contract with bidders as indicated for furnishing hospital furniture and equipment for use in the new Maternity Building at the Boston City Hospital.

A communication from Herbert S. Frost of the Supply Department was in part as follows:

I have gone over these bids thoroughly with Doctors Dowling and Wilson of the Boston City Hospital, and they feel that the equipment offered by S. C. Landauer, M. D., would not be suitable for their uses. The Supply Department has been in touch with the representative of S. C. Landauer, M. D., and has found it difficult to secure samples or literature from which some idea could be obtained of the nature of their equipment. On the bid for hygienic enamelware Doctor Landauer is substituting another make of enamelware than the standard asked for.

In view of these circumstances, I feel that Doctor Landauer's bid should be disregarded, and that award should be made to the lowest bidders as indicated on the attached sheet. Regarding the bids on the two instrument tables, the twelve No. 30 pails, and the thirty-one No. 10 jars, where identical prices have been submitted by two or more bidders, I have endeavored to portion this in an equitable manner.

I have totalled on the attached sheet awards to each bidder, and would request that permission be granted me to award orders to the E. F. Mahady Company, Surgeons and Physicians Supply Company, Richardson, Wright & Co., and Thomas W. Reed Company for the items awarded to them without entering into formal written contract as the amounts involved are all under \$1,000. In the case of Codman & Shurtleff, Inc., and the Hospital Supply Company where the total award is over \$1,000 this will be covered by written contracts.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

SUPPLY DEPARTMENT.

Upon December 9 the Mayor approved a contract with the Mack Motor Truck Company for furnishing one Mack Service Wrecker to the Paving Service, Public Works Department. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, December 8, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the Mack Motor Truck Company for furnishing one (1) Mack Service Wrecker at a net price of \$8,694. Delivery is to be made to the Paving Service, Public Works Department.

This wrecker is to be used, in connection with the city's fleet of Mack motor trucks now in use, for the purpose of providing service in the event of accidents, breakdowns, etc.

The Commissioner of Public Works is desirous of securing delivery of this wrecker at the earliest possible moment.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of Foss road, Dorchester district, as a highway, from Beaumont street to Elm road, with the name of Fossdale road or some other distinctive name, bounded and described as follows:

A highway named Fossdale road is hereby laid out, from Beaumont street to Elm avenue, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Southeasterly by Beaumont street, forty feet; southwesterly by the southwesterly line of said Fossdale road as hereby laid out, four hundred and five feet; northwesterly by Elm avenue, forty feet; and northeasterly by the northeasterly line of

said Fossdale road as hereby laid out, four hundred five and 35-100 feet.

Trees or structures standing upon or affixed to the aforesaid described land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Fossdale road, from Beaumont street to Elm avenue, as laid out under this order, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Fossdale road, Dorchester, October 4, 1926, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

The Massachusetts Civil Service Commission announce examinations for desirable positions open in the Boston and Metropolitan districts as follows:

PLAYGROUND WORKERS, SUPERVISORS, AND ASSISTANT SUPERVISORS, CITIES, DECEMBER 28, 1926.

This examination will be for the service of all the cities and towns in the state where these positions are under civil service.

The playgrounds ordinarily are open from April to November. During the school year sessions are usually held after school hours and on Saturdays, and on all days except Sundays during the summer. In the summer the usual salary is from \$15 to \$25 a week. The examination is open to both men and women.

The general duties of playground workers require a knowledge of the interests of children, ability to organize and conduct playground activities and adult recreation. It is desirable that applicants have education, training or experience in physical culture, playground work and physical training of juveniles.

Applicants must be high school graduates.

The subjects of examination with their respective weights will be as follows: Training and experience, 1; practical questions, 1; total, 2. There will be one set of special questions for applicants interested in boys' work, another set for those interested in girls' work, and a combination set for those wishing to qualify for both boys' and girls' work. There will probably also be a supplementary paper for those wishing to qualify as swimming instructor in playgrounds having a pool.

Successful applicants will be required to file a certificate from a reputable physician as to their physical fitness for the position.

Applicants who wish to be certified to positions as playground supervisors should have at least two years' actual experience in playground work.

FOUNDRY FOREMAN, STATE PRISON, DEPARTMENT OF CORRECTION, JANUARY 3, 1927.

The salary is \$2,400 per year.

The duties of this position require that applicants be experienced in floor, bench and machine molding, baked and green sand core making, cleaning, snagging and tumbling castings, have a knowledge of cupola practice and mixes of iron for various purposes, knowledge of brass melting and compositions for different requirements, and be familiar with mechanical equipment incidental to a small foundry.

The subjects of examination with their respective weights will be as follows: Training and experience, 2; practical questions on the duties of the position, 3; total, 5.

Applicants will be required to obtain a mark of at least 65 per cent in each subject of the examination, in order to become eligible.

Physical examination required.

FIRE SERVICE, CITIES AND TOWNS OUTSIDE OF BOSTON AND METROPOLITAN DISTRICT, JANUARY 8, 1927, BOSTON AND METROPOLITAN DISTRICT, JANUARY 22, 1927.

Applicants for the service of Boston must be not less than twenty-two nor over thirty-five years of age at the time of filing their applications. Applicants for all other cities and towns in the metropolitan district must be not less than twenty-one nor over thirty-five years of age at the time of filing their applications. A certificate of date of birth must be filed with the application.

Applicants for the service of cities and towns outside of the metropolitan district are required to be not less than twenty-one nor over thirty-five years of age at the time of filing their applications. Applicants for Worcester fire service are required to be not less than 5 feet, 5 inches

in height. Applicants for Brockton must be not less than 5 feet, 11 inches in height, and weigh no less than 135 pounds at the time of appointment.

Callmen and substitute callmen may make such deductions from their ages as are provided for in Civil Service Rule 8, Class 21.

Applicants must be grammar school graduates.

The subjects of examination with their respective weights will be as follows: Training and experience, 2; practical questions on fire apparatus, etc., 3; total, 5. Applicants will be required to obtain at least 50 per cent in practical questions.

Successful applicants will also be required to pass a physical examination and strength tests.

Educational qualifications, 1; physical qualifications, 1; total, 2.

The questions on duties will be based upon information contained in a manual known as the "Red Book." This manual may be obtained from the Secretary of State, Room 118, State House, at ten cents a copy. It is necessary that applicants obtain a copy of this manual and study it carefully.

APPROVAL BY THE MAYOR OF ORDERS INVOLVING SALARY ADJUSTMENTS AND OTHER EXPENDITURES WITHIN BUDGETARY LIMITATIONS.

The following communication from the Business Manager was received:

For many years it has been customary to transmit to His Honor the Mayor of Boston, for approval, orders of the School Committee of the City of Boston increasing the salaries of teachers, members of the supervising staff, clerks, custodians and other employees; orders involving expenditure of money, and orders covering transfers within appropriations for all school purposes from one item to another.

The orders and transfers referred to in the preceding paragraph are passed by the School Committee in accordance with budgetary provisions and limitations subsequent to the appropriations made for the financial year, said appropriations having been sent to His Honor, the Mayor of Boston, for approval as provided for in Section 2 of Chapter 206 of the Special Acts of 1919.

Section 2 of Chapter 206 of the Special Acts of 1919, reads as follows:

Section 2. The votes of the school committee making appropriations as aforesaid shall have the same force and effect as orders or votes of the city council appropriating money, and shall be subject to the same provisions of law in respect to approval by the mayor, except that a vote of

four of the members of the school committee, taken by yeas and nays, shall be necessary to pass such appropriations over the veto of the mayor."

I cannot find any statutory provision obligating the School Committee of the City of Boston after its appropriations are once passed in accordance with the provisions of section 2 of chapter 206 of the Special Acts of 1919, to obtain the approval of His Honor, the Mayor, on salary adjustments of any kind, on any special or contemplated expense or on any transfers, if and when such adjustments, expense or transfers are covered by appropriations for the financial year or by funds within such appropriations.

The appended decisions of the Supreme Judicial Court of Massachusetts show conclusively that school committees have the power to make the adjustments or to pass the orders of expense mentioned, provided that such are within budgetary limitations.

I am therefore recommending that the practice of sending to His Honor, the Mayor of Boston—(a) orders of the School Committee of the City of Boston, increasing the salaries of teachers, members of the supervising staff, officers, custodians and other employees; (b) orders involving the expenditure of money for other purposes and (c) orders covering transfers within appropriations for all school purposes from one item to another, be discontinued on the following grounds:

1. The orders referred to, based on budgetary provisions and limitations, are purely and peculiarly within the jurisdiction of the School Committee of the City of Boston and so placed by statute law and decisions of the Supreme Judicial Court of Massachusetts.

2. Any other action than that recommended on matters of organization and control, within the jurisdiction of the School Committee invites controversy and possible interference in the legal rights and privileges of the School Committee of the City of Boston.

Inasmuch as the information contained in this report, and in the appended decisions of the Supreme Judicial Court of Massachusetts, is extremely important, I am recommending that the matter herein set forth be referred to the Corporation Counsel for an opinion.

This is not an attempt to deprive His Honor, the Mayor, of passing on all original appropriations made by the School Committee under its power to appropriate. The opportunity is afforded him when such original appropriations are submitted to him to veto any appropriation or any item in an appropriation which in his opinion may be objectionable or extraneous. It is simply to relieve the School Committee from sending to His Honor, the Mayor, for his approval each and every order of salary adjustment, order of transfer, or other order that may become necessary during the financial year, said orders at all times being in accordance with budgetary provisions and limitations.

It should also be distinctly understood that there is no controversy, nor has there been, with His Honor, the Mayor of Boston, over any salary adjustments, orders of expense, or transfers of appropriations; and that the School Committee of the City of Boston is proceeding in accordance with existing law and the de-

cisions of the Supreme Judicial Court of Massachusetts in accepting this recommendation of the Business Manager and transmitting copies thereof to the officials mentioned.

The orders and transfers to which reference is herein made should as heretofore, be sent to the City Auditor for auditing and record purposes in his office only.

Accompanying the communication were the following decisions of the Supreme Judicial Court referred to:

DECISIONS OF THE SUPREME JUDICIAL COURT OF THE COMMONWEALTH OF MASSACHUSETTS.

Leonard v. School Committee in the City of Springfield.

Ruggs, C. J. This is a suit in equity by the mayor and more than ten other taxpayers of the city of Springfield against the school committee, auditor and treasurer of that city. The object of the suit is to restrain the school committee from diverting money of the city from particular school purposes to which it was appropriated in the budget of 1921, as adopted by the city council, and devoting it to other school purposes included within the general headings of the budget.

The relevant facts are that, in response to requests by the mayor of Springfield, the school committee seasonably submitted estimates for expenses of the public schools, which, amongst numerous other matters, included an increase in the compensation to be paid many teachers, as well as salaries of additional teachers. The mayor in his budget as transmitted to the city council named a sum smaller than that asked by the school committee, intending to include salaries of additional teachers at the rate previously fixed by the school committee but intending not to make provision for increases in salaries beyond those arising under general rules established by the school committee. The estimate transmitted by the school committee to the mayor and the budget submitted by the mayor to the city council were arranged under fifteen main headings, so far as the present controversy is concerned. The city council failing to approve or disapprove any items in the budget within sixty days, it became operative as the city's budget under the law. Thereafter the school committee, in order to provide money for the increases in salaries upon which they had determined and for which they had asked, but which the mayor had refused to include in the budget, voted to eliminate "Summer Schools," which was one heading or item in the budget, to discontinue eleven out of a larger number of kindergarten schools, thereby diminishing by several thousand dollars the amount required to maintain "Kindergartens," another separate heading or item in the budget, and to curtail expenses in other schools constituting distinct headings or items in the budget. The result of the several votes of the school committee was not to exceed the total appropriation for schools but to change the application of some of the items in the budget.

The precise question to be decided is whether the school committee has power thus to carry out its policy as to the management of the school system or whether it is bound by the action of the Mayor and city council

to the items set forth in the budget without power to modify or change them in any substantial particular. That question concerns the relative powers and duties of the mayor and city council on the one side and of the school committee on the other side under the provisions of law relative to the budget as applied to the administration of the public school system. The governing statutes are G. L., c. 44, relating to "Municipal Finance," G. L., c. 71, relating to "Public Schools," and the city charter of Springfield concerning the school committee. The crucial provision of G. L., c. 44, is section 32, which, omitting its exceptions and quoting only parts pertinent to the form of city government established by the charter of Springfield, is in these words: "Within sixty days after the annual organization of the city government . . . the mayor . . . shall submit to the city council the annual budget of the current expenses of the city . . . The budget shall consist of an itemized and detailed statement of the money required, and the city council, by a majority vote, shall make such appropriations in detail, clearly specifying the amount to be expended for each particular purpose; but the budget shall not be in such detail as to fix specific salaries of employees under the direction of boards elected by the people, other than the city council. The city council may reduce or reject any item, but without the approval of the mayor . . . shall not increase any item in or the total of a budget, nor add any item thereto . . . the city officials, when so requested by the mayor, shall submit to him forthwith in such detail as he may require estimates for the next fiscal year of the expenditures of their departments or offices under their charge, which shall be transmitted to the city council. . . . if the council fails to approve or disapprove any item in the budget, as submitted by the mayor, . . . within sixty days after its receipt thereof, such item shall without any council action, become a part of the budget for the year, and the sum named shall be available for the purpose designated. . . ."

The charter of the city of Springfield provides that the "school committee shall have the care and superintendence of the public schools, and shall have all the powers and perform all the duties of town school committees." St. 1852, c. 94, § 11.

The school committees of cities and towns as enacted by G. L., c. 71, § 37, "shall have the general charge of all the public schools", and, by section 38, "shall elect and contract with the teachers of the public schools".

The slight verbal changes made in these sections of the general laws, as compared with corresponding sections of earlier statutes, wrought no alteration in meaning and did not modify the pre-existing law. *Main v. County of Plymouth*, 223 Mass. 66, 69; *Com. v. Kozlowsky*, 238 Mass. 379, 387.

It was said in 1845 by Chief Justice Shaw, in *Cushing v. Newburyport*, 10 Met. 508, at 511: "The establishment of schools for the education to some extent at least of all the children of the whole people is not the result of any recent enactment: it is not the growth even of our present constitutional government, or the provincial government which preceded it, but extends back two hundred years to the early settlement of the colony. Indeed the establishment of popular schools is understood to have been one of the ob-

jects for which powers were conferred on certain associations of persons living together in townships, enabling them to regulate and manage certain prudential concerns in which they had a common interest." The policy of the Commonwealth from early times has been to establish a board elected directly by the people separate from other governing boards of the several municipalities, and to place the control of the public schools within the jurisdiction of that body unhampered as to details of administration and as to acts performed in good faith not subject to review by any other board or tribunal.

The general statutory provisions as to the powers of the school committee, to which reference has been made, have been in substance the same for many years. They had been interpreted by numerous decisions and had acquired a well-settled meaning long before the enactment of the law providing for a budget. Without reviewing these decisions one by one, it is enough to state summarily their essential conclusions.

The school committee is an independent body, entrusted by law with broad powers, important duties and large discretion. The obligation to select and contract with teachers implies examination as to their fitness and of necessity carries with it the authority to fix the compensation to be paid. It would be vain to impose upon the school committee responsibility for excellence of the instruction to be afforded to pupils and to deprive them of the power to determine the salaries of teachers. There is much of self-sacrifice and devotion to the common welfare among teachers in the public schools. But, nevertheless, the character of service to be obtained depends to a considerable degree upon the compensation offered. The full and appropriate discharge of their duties by school committees requires ample power to select competent teachers. The Legislature, moved by obvious and strong reasons, has vested the school committee with the absolute and unconditional power to agree with teachers upon their salaries to the end that high standards may be secured and maintained in the education of the youth of the Commonwealth. In the exercise of their honest judgment on the question of salaries for teachers, the school committee are not restricted to the amounts appropriated. For the time during which schools must be kept by law the municipalities must pay such salaries as may be fixed by the school committee. To take this power from the school committee would break up the long-established system of our law in regard to public schools. The only supervision which the city council or towns can exercise over the school committee is to vote to close the schools after they have been kept the length of time specified by the law. The school committee may make all reasonable rules and regulations for the government, discipline and management of the schools under their charge. This includes a determination within the bounds set by the statutes of the subjects to be taught and the nature of the schools to be maintained, and the exercise of discrimination, insight and wisdom in the election of teachers and in the general supervision of the school system, with all the incidental powers essential to the discharge of their main functions. *Batchelder v. Salem*, 4 Cush. 599; *Spiller v. Woburn*, 12 Allen, 127;

Charlestown v. Gardner, 98 Mass. 587; Kimball v. Salem, 111 Mass. 87; McKenna v. Kimball, 145 Mass. 555; Morrison v. Lawrence, 181 Mass. 127; Moore v. Ashley, 193 Mass. 294; Hammond v. Hyde Park, 195 Mass. 29; Barnard v. Shelburne, 216 Mass. 19; Whittaker v. Salem, 216 Mass. 483. See Day v. Greenfield, 234 Mass. 31.

The statutory provisions under which these decisions were rendered have been substantially the same for a long time. They have been re-enacted without change in the successive revisions of the laws. The interpretation of their terms in the numerous decisions which have been cited may be presumed to have been adopted by the General Court, Welch v. Boston, 211 Mass. 178, 185; King v. Thissell, 222 Mass. 140, 141.

This body of statutory and common law regarding the matter of universal interest and profound importance to the public weal was established and widely known before the budget law came into existence. The budget law must be construed and applied in the light of this history and with reference to this background of school law. The budget law, now G. L., c. 44, § 32, already quoted, was enacted first by St. 1913, c. 719. It was entitled "An Act relative to municipal indebtedness." It was founded upon a report of a joint special committee of the General Court on municipal finance. The joint order of 1912 providing for that committee authorized an investigation of municipal indebtedness and assessment and collection of taxes and kindred matters. The report of that committee is comprehensive concerning the subject of municipal assessment and collection of taxes, and the incurring and paying of municipal indebtedness and allied subjects.

There is nothing in it directly touching the public school system.

Its words convey no express limitation of a purpose to effect any change in the powers of the school committee. If there is modification, it flows wholly from implication.

The municipal indebtedness act of 1913, with its provision for a budget, was highly important legislation. It was an innovation in the fiscal affairs of cities governed by a mayor and city council. It was calculated to cultivate municipal thrift; and to discourage current expenditures at the cost of future taxation. The payment of present charges out of the present tax levy is one obvious purpose of the act. Another manifest design was "to set rigid barriers against expenditures in excess of appropriations, to prevent the borrowing of money for current expenses, to confine the making of long-time loans strictly to the raising of money for permanent improvements, and in general to put cities upon a sound financial basis so far as these things can be achieved by legislation." Flood v. Hodges, 231 Mass. 252, 256; Shannon v. Cambridge, 231 Mass. 322. While by the municipal indebtedness act with its budget provisions, general and special laws inconsistent therewith are repealed with exceptions not here material, yet it cannot be construed as reaching outside its proper territory over into the well-recognized field of public school education equally established and retained as a separate statutory domain, and obliterating the functions of the school committee in important particulars. There are combined in the general laws the pre-existing provisions respecting public

schools and the budget system of municipal finance, both substantially in the phrases theretofore employed in the statutes. This demonstrates that there was no thought in the minds of the framers of that compilation of laws, or of the legislators in enacting it, that there was conflict between the two or that they could not stand together as practically workable statutes. To support the contention of the petitioners would put the school committee, hitherto at least for almost a century an independent body charged with duties vital to the welfare of society, wholly under the domination of the mayor and city council in essential particulars. As a matter of statutory construction, such a revolution in the management of the public school system cannot be affected merely by doubtful implication from a statute enacted to accomplish a quite different end. Dugan v. Bay State Street Railway, 230 Mass. 370, 374.

It is to be noted that no question here is raised as to an attempt by a school committee to spend more than a total appropriation made for the support of the public schools. The school committee only asserts a right to fix the salaries of teachers in conformity to their own sound discretion without being restricted in this regard to particular items specified in the budget. That contention is sound. The statutes, interpreted as an harmonious body of laws in the light of our history and traditions as to the public school system, conferred upon the school committee of Springfield power to establish the salaries of teachers within the total amounts appropriated by the budget, according to their best judgment of public needs, as set forth in G. L., c. 71, and other laws governing the conduct of the public schools.

The case at bar is distinguishable in its controlling statutory provisions from School Committee v. Mayor of Cambridge, 233 Mass. 6, and Simpson v. Marlborough, 236 Mass. 210.

The request of the school committee for fees of its solicitor to be taxed as costs against the plaintiff is denied. This is not an appropriate case under our practice for the application of that principle. Higginson v. Fall River, 226 Mass. 423. Ten taxpayers frequently invoke the aid of the court under G. L., c. 40, § 53, purely for the public welfare and not to enforce a private interest. Even taxable costs often have not been charged against defeated plaintiffs under that statute. Fuller v. Mayor of Medford, 224 Mass. 156; Lee v. Lynn, 223 Mass. 109. See in this connection Burrage v. County of Bristol, 210 Mass. 299; Sears v. Nahant, 215 Mass. 234; Frost v. Belmont, 6 Allen, 152; Stiles v. Municipal Council of Lowell, 233 Mass. 174. Petition dismissed without costs.

AVERRILL V. NEWBURYPORT

RUGG, C.J. The plaintiff for himself and as the assignee of eleven others, all school teachers in the defendant city, seeks in this action to recover pay for days during January, 1919, when they severally were absent from school for personal illness, except one absent because of illness in her immediate family, to which the plaintiff claims to be entitled under the rules of the school committee of the defendant city.

1. The certificate of qualification by the school committee required by

R. L., c. 42, § 29, was not issued to any of these teachers until September 10, 1920, when a duplicate for each was deposited with the city treasurer of the defendant. This statutory provision is directory and not mandatory as to the time of obtaining the certificate. It is mandatory only in that it must be deposited with the treasurer before a right accrues to collect compensation. That requirement was satisfied in the case at bar because so deposited prior to the bringing of the present action. Libby v. Douglas, 175 Mass. 128; Averill v. Newburyport, 236 Mass. 208.

2. It was provided by the rules of the school committee, adopted before the beginning of the school year of 1918-19, that teachers absent from school "on account of personal illness or as the result of a death in the immediate family, or for any other reason which shall be considered sufficient by the superintendent, shall receive full pay during such absence, provided the same does not aggregate more than five days in any school year." This rule was amended after the beginning of the school year, but before January, 1919, by striking out the time limitation and allowing full pay during such absences subject to the approval of the executive committee of the school committee. The amounts here in suit were so approved.

The power of the school committee to make reasonable rules and regulations concerning the government, discipline and management of the public schools under their charge and the compensation and methods of determining the amount and terms of payment of the teachers, subject to provisions established by the Legislature, is not open to question. It has been settled in numerous adjudications. Barnard v. Shelburne, 216 Mass. 19, and cases there collected; R. L. 42, §§ 27, 28; G. L., c. 73, §§ 37, 38, 40-44. This general grant of authority to have charge of the public schools and to fix the salaries of teachers includes the subsidiary power to decide within reasonable limits whether, in order to promote efficiency and insure constancy of excellent service on the part of teachers, temporary absences without loss of pay shall be afforded them. The case upon this point is governed by the principle declared in Malcolm v. Boston, 173 Mass. 312, 321, and Wood v. Haverhill, 174 Mass. 578. The rational judgment of the school committee exercised in good faith is not subject to review by the courts. Morrison v. Lawrence, 181 Mass. 127; Carr v. Dighton, 229 Mass. 304.

Eight of the teachers whose salaries here are in question were serving during the pleasure of the school committee and the remaining four for terms of one year each. Although the rule increasing the possible length of absence without loss of pay was adopted after the salaries for the year had been fixed by vote of the committee, that is not decisive against the plaintiff. In principle it stands on the same footing as an increase of salary during the period of a contract. It was not a mere gratuity. It may have been regarded as an additional incentive to superior work. There is nothing inconsistent with this conclusion in Whittaker v. Salem, 216 Mass. 483. That was an extreme case where the leave of ab-

sence covered the entire term of service.

3. There is nothing in the municipal indebtedness act and budget requirements (St. 1913, c. 719, as amended, now G. L., c. 44, §§ 32, 34), which bars recovery by the plaintiff. This point is governed by *Leonard v. School Committee of Springfield*, ante.—It is not contended that the amount approved by the school committee to be expended for salaries for January, 1919, was more than was spent for salaries during any one month of the previous year.

Judgment affirmed.

The communication with accompanying rulings was referred to the Corporation Counsel for an opinion in accordance with the recommendation of the Business Manager.

UNFINISHED BUSINESS

The two orders laid over at the meeting of Nov. 1, 1926 making changes in the Authorized List of Text Books were taken up and passed unanimously.

The Board adjourned.

TRANSFER OF APPROPRIATIONS.

City Auditor Rupert S. Carven announces the following transfers in appropriations in departments of the City of Boston and County of Suffolk, indorsed by Budget Commissioner Charles J. Fox and approved by his Honor the Mayor:

BOSTON SANATORIUM.

BOSTON, November 29, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Boston Sanatorium:

From the appropriation for A-1, Permanent Employees, Hospital Employees under \$1,000, \$905, to the appropriation for A-1, Permanent Employees, Laboratory Assistant, 1 at \$1,200 per year, \$4.73; Nurses (Out-Patient Department), 34 at \$1,600 per year, \$111.11; A-3, Unassigned, \$50; B-3, Advertising and Posting, \$18; C-9, Office, \$75; D-13, Chemicals and Disinfectants, \$46.16; F-13, Industries, \$600.

These are to cover deficiencies now existing.

Respectfully,

F. X. MAHONEY,
Health Commissioner.

The above transfers were made by the City Auditor with the approval of the Mayor December 6, 1926.

HOSPITAL DEPARTMENT.

BOSTON, December 1, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Hospital Department:

From the appropriation for A-1, Permanent Employees, 6 Physicians at \$1,000 per year, \$2,000, to the appropriation for D-8, Laundry, Cleaning and Toilet, \$2,000.

From G-2, Special Investigation, \$500, to E-10, Electrical, \$500.

Amount already transferred seemed sufficient but we find more is needed for balance of year.

Respectfully,

JOSEPH T. MANNING,
President of Trustees, Boston City Hospital.

The above transfers were made by the City Auditor with the approval of the Mayor December 6, 1926.

PUBLIC WORKS DEPARTMENT (Central Office).

BOSTON, December 8, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Central Office, Public Works Department:

To make up existing deficits.

Respectfully,

J. H. SULLIVAN, *Commissioner.*

The above transfers were made by the City Auditor with the approval of the Mayor December 10, 1926.

PUBLIC WORKS DEPARTMENT (Paving Service).

BOSTON, November 26, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Public Works Department, Paving Service:

From the appropriation for A-1, Permanent Employees, Draftsmen, Senior, 3 at \$1,960-\$2,000 per year, \$84.39, to the appropriation for A-1, Permanent Employees, Engineer, Senior, 1 at \$2,400 per year, \$46.03; Engineer, Junior, 1 at \$2,000 per year, \$38.36.

The reason for this transfer is to provide in next year's budget for two engineers whose pay was increased in 1926, and their services charged to special appropriations.

Respectfully,

J. H. SULLIVAN, *Commissioner.*

The above transfers were made by the City Auditor with the approval of the Mayor December 6, 1926.

PUBLIC WORKS DEPARTMENT (Sewer Service).

BOSTON, December 4, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Public Works Department, Sewer Service:

From the appropriation for B-18, Cleaning, \$6,565, to the appropriation for B-8, Light and Power, \$1,355; B-14, Motor Vehicle Repair and Care, \$100; B-39, General Plant, \$500; C-16, Wearing Apparel, \$125; D-3, Fuel, \$2,500; D-8, Laundry, Cleaning, Toilet, \$50; D-11, Motor Vehicles, \$1,000; D-13, Chemicals and Disinfectants, \$35; E-5, Sewer, \$900.

B-14, Motor Vehicles.—Cost of repairs to trucks exceeded the sum estimated.

B-39, General Plant.—Sum estimated to meet the cost of repairs at the pumping station was too low.

C-16, Wearing Apparel.—A larger number of oil coats and hats were purchased than was allowed for in estimate.

D-3, Fuel.—The sum deducted from gross estimate as a saving on account of the use of electric power was too high.

D-11, Motor Vehicles.—A larger amount of gasoline was purchased than was estimated for the year.

D-13, Chemicals and Disinfectants.—More disinfectant bought than was included in estimate.

Respectfully,

J. H. SULLIVAN,
Commissioner.

The above transfers were made by the City Auditor with the approval of the Mayor December 10, 1926.

BOSTON, December 4, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Public Works Department, Sewer Service:

From the appropriation for A-1, Permanent Employees, Inspectors and Sub-Foremen, 2 at \$1,900 a year, \$1,000, to the appropriation for B-1, Printing and Binding, \$30; B-4, Communication, \$25; B-6, Hire of Teams and Auto Trucks, \$300; B-8, Light and Power, \$645.

B-1, Printing and Binding.—More binding of plan books, etc., found necessary than was anticipated.

B-4, Communication.—Sum estimated for outside tolls was too small.

B-6, Hire of Teams and Auto Trucks.—A greater number of auto trucks were hired during the year than anticipated.

B-8, Light and Power.—The cost of electric power at the Pumping Station exceeded the sum estimated.

Respectfully,

J. H. SULLIVAN,
Commissioner.

The above transfers were made by the City Auditor with the approval of the Mayor December 10, 1926.

PUBLIC WORKS DEPARTMENT (Water Division).

BOSTON, December 3, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Public Works Department, Water Division:

From the appropriation for A-1, 2 Clerks at \$1,500 per year, \$265.46, to the

appropriation for A-1, 2 Clerks at \$1,400-\$1,500 per year, \$265.46.

Error in method of charging.

Respectfully,

J. H. SULLIVAN,
Commissioner.

The above transfers were made by the City Auditor with the approval of the Mayor December 6, 1926.

SUPREME JUDICIAL COURT.

BOSTON, December 3, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Supreme Judicial Court:

From the appropriation for B-1, Printing and Binding, \$100, to the appropriation for C-10, Library, \$100.

We find that we do not need this year all of the appropriation made for the Printing and Binding in this department but we do need the sum of one hundred dollars (\$100) with which to purchase several books which are very necessary in carrying on our work, and I therefore request that a transfer of this sum of one hundred dollars (\$100) be made from the Printing and Binding Item, *i. e.*, Item B-1, to the Library Item, *i. e.*, Item C-10.

Respectfully,

JOHN F. CRONIN,
Clerk.

The above transfers were made by the City Auditor with the approval of the Mayor December 6, 1926.

SUPERIOR CRIMINAL COURT.

BOSTON, December 1, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Superior Criminal Court:

From the appropriation for A-2, Temporary Employees, \$5,000, to the appropriation for B-28, Expert and Architect, \$4,000; C-10, Library, \$100; D-2, Food and Ice, \$900.

The above items are necessary for the balance of the fiscal year.

Respectfully,

JOHN P. MANNING,
Clerk.

The above transfers were made by the City Auditor with the approval of the Mayor December 6, 1926.

SUFFOLK COUNTY JAIL.

BOSTON, December 7, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Jail:

From the appropriation for B-8, Light and Power, \$50, to the appropriation for B-22, Medical, \$50.

From C-12, Medical, Surgical, \$75, to C-16, Wearing Apparel, \$75.

From C-14, Live Stock, Laboratory, \$75, to C-16, Wearing Apparel, \$75.

From B-39, General Plant, Repairs, \$100, to C-13, Tools and Instruments, \$100.

From D-3, Fuel, \$350, to D-5, Medical Supplies, \$350.

From D-3, Fuel, \$150, to D-13, Chemical and Disinfectants, \$150.

From D-3, Fuel, \$150, to D-16, General Plant Supplies, \$150.

These transfers are made necessary to provide sufficient funds in the various items for the remainder of the current year.

Respectfully,

JOHN A. KELIHER,
Sheriff.

The above transfers were made by the City Auditor with the approval of the Mayor December 10, 1926.

MUNICIPAL COURT OF THE DORCHESTER DISTRICT.

DORCHESTER, November 27, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Kindly have a transfer made in the budget of this court, first, from A-2, clerical Assistance to Probation Officer, in the sum of \$125 to B-4, Transportation of Persons. Second, from A-2, Clerical Assistance to Probation Officer, in the sum of \$25, to B-13, Communication. These two transfers are made to cover the expense that is necessary for the present year.

Very truly yours,

ALPHEUS SANFORD,
Clerk.

The above transfers were made by the City Auditor with the approval of the Mayor December 6, 1926.

MUNICIPAL COURT, SOUTH BOSTON.

BOSTON, November 29, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Municipal Court, South Boston:

From the appropriation for A-2, Court Officer *pro tem*, \$130, to the appropriation for B-4, Transportation, \$100; B-13, Communication, \$30.

Respectfully,

ADRIAN B. SMITH,
Clerk.

The above transfers were made by the City Auditor with the approval of the Mayor December 6, 1926.

DISTRICT COURT OF CHELSEA.

BOSTON, December 2, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the District Court of Chelsea:

From the appropriation for A-1, Juvenile Probation Officer, \$325, to the appropriation for D-1, Office Supplies, \$200; B-28, Expert, \$100; B-18, Cleaning, \$250.

Respectfully,

JOSEPH M. CURLEY,
Clerk.

The above transfers were made by the City Auditor with the approval of the Mayor December 26, 1926.

Hon. Malcolm E. Nichols,

Mayor of Boston.

Dear Sir,—I return herewith the following
order passed by the City Council on November
29, 1926:

"Ordered, That the Fire Commissioner be re-
quested, through his Honor the Mayor, to pro-
vide in his annual budget for 1927 for the
purchase of 300 of the best type of gas
masks in order that every fire station in the
entire city may be supplied and with a view
to protecting the lives of the firemen as well
as those of the general public."

In regard to this order I would say that I
firmly believe the department is in need of
gas masks, and it is a question now of securing
the best possible type.

I have given the matter considerable study
and attention and I hope that it will be pos-
sible for the city to provide the necessary funds
for the purchase of at least 300 gas masks.

Yours very truly,

E. C. HULTMAN,
Fire Commissioner.

WIDENING OF MEDFORD STREET.

The following was received:

City of Boston,

Office of the Mayor, December 9, 1926.

To the City Council.

Gentlemen,—I transmit herewith a communi-
cation from the Street Laying-Out Department
in reply to your order of November 29, 1926,
in relation to widening of Medford street, at
the corner of Bunker Hill and Main streets.

Yours truly,

MALCOLM E. NICHOLS, Mayor.

City of Boston,

Street Laying-Out Department.

December 6, 1926.

Hon. Malcolm E. Nichols,

Mayor of Boston.

Dear Sir,—Replying to the order of Councilor
Green with regard to the widening of Medford
street, at the corner of Bunker Hill and Main
streets.

The chief engineer of this department re-
ports that at the corner of Bunker Hill street
there is an intersecting grade which offers
some difficulty, and that the whole project as
outlined would cost in the neighborhood of
\$50,000.

Respectfully,

For the Board of Street Commissioners.

THOMAS J. HURLEY, Chairman.

Placed on file.

INCOME OF PARKMAN FUND.

The following was received:

City of Boston,

Office of the Mayor, December 13, 1926.

To the City Council.

Gentlemen,—I am in receipt of the attached
communication from the Board of Park Com-

missioners, in which is requested that the
available income of the George F. Parkman
Fund be appropriated for the improvement
and protection of the Parkman House and for
general improvements in the Fens area. This
latter section is the only undeveloped area in
the Boston park system and the appropriation
now requested will permit the development of
the section in accordance with plans now on
file in the office of the Park Commissioners.
I submit herewith an order providing for the
appropriation of the balance now available in
this fund and respectfully recommend its
adoption by your honorable body.

Respectfully,

MALCOLM E. NICHOLS, Mayor.

City of Boston,

Park Department, December 2, 1926.

Hon. Malcolm E. Nichols,

Mayor of Boston.

Dear Sir,—By vote of the Board of Park
Commissioners you are respectfully asked to
make a request on the City Council for a
transfer from the income of the George F.
Parkman Fund, the sum of \$76,309.51, same
being the final balance which is now available
for the year 1926, for the following purposes:

Parkman House Improvements..... \$25,000.00
Fens Improvements..... 51,309.51

The construction of the office building adjoin-
ing the Parkman House by the Unitarian As-
sociation has removed the uncertainty that the
Commonwealth would take the land now occu-
pied by the Parkman House for the purpose of
enlarging the State House grounds, and the
Board of Park Commissioners feel that the
house donated by the donor of the Parkman
Fund should be placed in proper condition and
used as the office of the department that con-
trols the expenditures of said fund.

Today, valuable plans, tracings and draw-
ings of every park and playground in the city
are unprotected and the records, books and
pay rolls would be lost if a fire occurred. We
desire to tear down the dilapidated structure
in the rear and construct a small fireproof
building to relieve the crowded conditions that
exist, at the present time, in the Cemetery,
the Moth and Tree and the Engineering Divi-
sions and the central office of the department,
and to have the proper facilities to protect
the valuable plans, papers, etc.

We believe the expenditure of \$25,000 for
this purpose will merit public approval.

Fens Improvement.

This money is asked for continuing the
improvements now going on in the only un-
developed section of Boston's park system,
and will be used in part for the building of a
lagoon, straightening of the road in front of
the Evans Memorial, building of bridges, and
the resurfacing of the playground area.

Very respectfully yours,

WILLIAM P. LONG, Chairman.

Ordered, That the sum of \$76,309.51 be and
the same is hereby appropriated from the in-
come of the Parkman Fund, to be expended
under the direction of the Park Commis-
sioners, for the maintenance and improvement
of the Common and parks in existence on Janu-
ary 12, 1887, as follows:

Parkman House Improvements..... \$25,000.00
Fens, Improvements..... 51,309.51

Referred to the Committee on Parkman
Fund.

BILLS PRESENTED BY FINANCE COMMISSION TO GENERAL COURT.

A communication was received from the Finance Commission inclosing copies of four bills presented by it to the General Court for action in 1927, as follows:

An act to regulate takings by eminent domain in the City of Boston.

An act relating to property exempt from taxation.

An act concerning the Overseers of the Public Welfare of the City of Boston.

An act to regulate the passage of ordinances and loan orders in the City of Boston.

Referred to the Committee on Legislative Matters.

MINORS' LICENSES.

Applications for minors' licenses from fifty-four newsboys and eight vendors were submitted and licenses granted under the usual conditions.

CONFIRMATION OF EXECUTIVE APPOINTMENTS.

President KEENE called up, under unfinished business, Nos. 1 and 2 on the calendar, viz.:

Action on appointments submitted by the Mayor December 6, 1926, viz.:

1. Daniel G. Finnerty, Dennis J. Collins, Edwin Kittredge, Ralph J. Banks and John M. Brennan, to be Constables.

2. Patsy Sanson and Charlotte Harding, to be Weighers of Coal.

The question came on confirmation. Committee, Coun. Dowling. Whole number of ballots 17, yeas, 17, and the appointments were confirmed.

SOLDIERS' AND SAILORS' RELIEF.

Coun. GILBODY, for the Committee on Soldiers' Relief, submitted an order for the payment of aid to soldiers and sailors and their families in the City of Boston for the month of December.

Passed under suspension of the rule.

ADDITIONAL APPROPRIATION, MUNICIPAL COURT.

A communication was received from Wilfred Bolster, chief justice of the Municipal Court, asking additional appropriation for clerical assistance.

Referred to the Committee on County Accounts.

PAYMENT TO EMPLOYEES OF ASSESSING DEPARTMENT.

Coun. DOWLING offered the following:
Ordered, That the Board of Assessors be requested, through his Honor the Mayor, to arrange to pay the employees of said department all the money due them for overtime work during the present year on or before December 24, 1926.

Coun. DOWLING—Mr. President, I understand that there are several clerks in the Assessing Department who about three months ago carried through some special work for which it was understood that they were to be paid at the regular overtime rate. Up to the present time they have received no compensation for their work. Of course, I assume that the city will discharge its obligations to those men, and the purport of the order is merely that the clerks may have the benefit of the money due them before the Christmas holidays.
The order was passed under suspension of the rule.

CHRISTMAS AT LONG ISLAND HOSPITAL.

Coun. WARD offered the following:

Ordered, That the Commissioner of the Institutions Department, through his Honor the Mayor, be requested to allow Mrs. Maria E. Bateman and her workers to assist in the celebration of Christmas at the Long Island Hospital as they have done for the past forty-one years.

Coun. WARD—Mr. President, for the past forty-one years Mrs. Bateman has tried to bring a little joy and sunshine into the lives of the people of the almshouse at Long Island, and every administration has granted her permission to go down there. The money she expends comes from her own pocket, and each year the old folks at Long Island have looked forward to her coming. Commissioner Kinney has refused her permission to go on the island this year. It is the first time in forty-one years that any commissioner has taken that attitude. I move the suspension of the rule, and the passage of the order.

The order was passed under suspension of the rule.

DAILY PAY ROLLS FOR EMERGENCY SNOW WORK.

Coun. WARD offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to compile daily pay rolls of emergency employees on snow removal work; and that the City Auditor and the City Treasurer be requested, through his Honor the Mayor, to immediately allow for payment and pay each day emergency employees on said rolls.

Passed under suspension of the rule.

ARC LAMP IN WARD 9.

Coun. WARD offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install an electric arc lamp in front of No. 1002 Tremont street, at the corner of Cabot street, Ward 9.

Passed under suspension of the rule.

REPAVING DANA AVENUE.

Coun. WRAGG offered an order—That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave Dana avenue, Ward 18, from Hyde Park avenue to the Milton line with a smooth pavement.

Passed under suspension of the rule.

DESIGNATION OF PARKS FOR COASTING.

Coun. RUBY offered the following:

Ordered, That the Board of Park Commissioners be requested, through his Honor the Mayor, to set aside certain parks in different sections of the city for the purpose of coasting on sleds.

Passed under suspension of the rule.

ARC LAMP, WALNUT AVENUE.

Coun. ENGLERT offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install an electric arc lamp at the corner of Walnut avenue and Seaver street, Ward 11.

Passed under suspension of the rule.

SIDEWALK ON LEYDEN STREET.

Coun. DONOVAN offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Leyden street, Bennington street to No. 231, Ward 1, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in

width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

OPPOSITION TO PETITION OF BOSTON ELEVATED RAILWAY.

Coun. DONOVAN offered the following:

Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to appear before the Public Utilities Commission at the hearing on Wednesday, December 15, in opposition to the proposed contract between the Boston Elevated Railway Company and the Eastern Massachusetts Railway Company, permitting the latter to operate cars from Revere through East Boston to the Maverick Square Terminal of the East Boston Tunnel, for the reason that the proposal would be detrimental to the convenience and safety of the people of East Boston.

Passed under suspension of the rule.

Later in the session Coun. GUILD said:

Mr. President, in connection with Coun. Donovan's order I was going to orally offer a motion, which I am now putting in writing, to the effect that the President appoint Coun. Donovan and two other members of the body a committee to appear before the Public Utilities Commission for the purpose of opposing the proposed contract, in the manner in which he has requested in his order that the Corporation Counsel oppose it. It seems to me a request to the Corporation Counsel to oppose it does not insure opposition to it, but I am very sure if Coun. Donovan were made the head of a committee in this body to go before the Department of Public Utilities to oppose it, the opposition would be there. I am putting the motion in writing.

CONCRETE INSPECTORS FOR BUILDINGS.

Coun. GREEN offered the following:

Ordered, That the Building Commissioner be requested, through his Honor the Mayor, to assign to every building in the process of construction in the City of Boston two concrete inspectors where more than one concrete mixer is in operation, said inspectors to be selected after thorough examination by the officials of the Building Department to determine their qualifications for the position.

Passed under suspension of the rule.

INSPECTORS FOR PUBLIC MEETINGS.

Coun. GREEN offered the following:

Ordered, That the Building Commissioner be requested, through his Honor the Mayor, to assign an inspector to each building in the City of Boston where dances, boxing contests and other exhibitions or meetings are held, for the purpose of preventing overcrowding, blocking of aisles, etc., the expense of same to be paid by those in charge of such exhibitions.

Passed under suspension of the rule.

ADDITIONAL WATCHMEN FOR CITY HALL.

Coun. GREEN offered the following:

Ordered, That the Superintendent of Public Buildings be requested, through his Honor the Mayor, to appoint additional watchmen to properly police the City Hall and Annex for the purpose of protecting valuable records of the various city departments.

Passed under suspension of the rule.

LAND, CRAIGIE BRIDGE.

Coun. FITZGERALD offered the following: Ordered, That the Board of Park Commissioners be requested, through his Honor the Mayor, to confer with the members of the Metropolitan District Commission for the purpose of entering into negotiations for the transfer to the City of Boston of 31,500 feet of land now owned by the Commonwealth of Massachusetts and under the jurisdiction of the Metropolitan District Commission, bounded by the Craigie Bridge, Leverett street, and land owned by the Boston & Maine Railroad, said land now being under water.

Passed under suspension of the rule.

RECESS.

The Council voted at 2.30 p. m., on motion of Coun. BUSH, to take a recess, subject to the call of the Chair.

The members reassembled in the Council Chamber and were called to order by President KEENE at 2.51 p. m.

EXECUTIVE COMMITTEE REPORT.

Coun. DOWLING, for the Executive Committee, submitted a report on petition of Marie Pentz (referred today) for children under fifteen years of age to appear at Dorchester High School on December 11,—that the permit be granted.

Report accepted; said permit granted on the usual conditions.

PROPOSED JITNEY BOND ORDINANCE REJECTED.

Coun. RUBY, for the Committee on Ordinances, submitted a report recommending that the order (referred November 29) that section 96 of chapter 39 of the Revised Ordinances of 1925 be and the same hereby is repealed and in place thereof another section inserted,—that the same ought not to pass.

Report accepted; said order rejected.

SIDEWALK ON RILL STREET.

Coun. McMAHON offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Rill street, both sides, from Ware to Hancock street, Ward 15, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

PROPOSED REMOVAL OF MUNICIPAL EMPLOYMENT BUREAU.

Coun. WARD—Mr. President, I would like to present an oral order. Some time ago Coun. Fitzgerald presented an order to move the headquarters of the Municipal Employment Bureau down to Hawkins street. I understand that Mr. Seaver, the director of the Employment Bureau, wants to use a portion of the Baldwin Street School for that purpose. Therefore, if you will accept an oral order, Mr. President, I would move that the Schoolhouse Commission be requested to allot a certain portion of the Baldwin Street School for the relocation of the Municipal Employment Bureau that is at the present time on Tyler street.

President KEENE—You should reduce your order to writing, Councilor. Cannot you do so?

Coun. WARD—Yes, Mr. President, but I would request five minutes' time to do so.

Later in the session Coun. WARD offered the following:

Ordered, That his Honor the Mayor be requested to remove the headquarters of the Municipal Employment Bureau from the Ward 3 Municipal Building at the corner of Oak and Tyler streets, and that the said headquarters be relocated in the Baldwin Street School.

Coun. DOWLING—Mr. President, before that order is passed, I think we ought to have some information as to whether the school in which it is now proposed to locate this Employment Bureau is being occupied for school purposes?

Coun. FITZGERALD—Mr. President, I was going to move that this matter be postponed until the next meeting. I think I am going to be opposed to it, on the ground that our buildings in that ward have been utilized and are being utilized now to their full capacity. Money that was appropriated for a municipal building for the West End, including a gymnasium and public hall, has been turned over for a health unit. They took the municipal building at the south end of the ward and turned it over for the purposes of the Employment Bureau. Now it is proposed to have another building in the West End taken over for the use of the Employment

Bureau. The proper place for that bureau is in the basement of City Hall, where people can know what is going on and what it is all about. I don't think the people of the West End will stand for this sort of thing. We are not getting the consideration that we should. Forty-eight cents on every dollar from taxes comes from that ward. We have a population of 80,000, a denser population to the square mile than you will find in any other part of the world, even in New York City or in London. We have there thirty-four nationalities. I suppose if his Honor the Mayor sees fit to take away from us our public buildings and use them for purposes other than those for which they were supposed to be used, we may not be able to do anything about it. It is now proposed to take away Baldwin Street School, a school that is being used. If they want to do it, I suppose no doubt it will be done, but I know that I will have a lot to say about it. That Employment Bureau belongs in the basement of City Hall, and if they undertake to remove it down our way there will be a lot of fireworks from me, Mr. President.

Coun. WARD—Mr. President, in harmony with the wishes of the councilor from the West End, I move that the matter lie on the table for a week. We can then give the chairman of the Employment Bureau an opportunity to come before us in regard to it.

President KEENE—Is there any objection to its being referred to the Executive Committee?

Coun. WARD—No.

The order was referred to the Executive Committee.

TIME FOR CLOSING THE POLLS.

Coun. WILSON—Mr. President, at the meeting of October 4, 1926, the following order was passed by the Council:

"Ordered, That the Legislative Committee of the Boston City Council present for favorable action by the Massachusetts Legislature an act which will permit the opening of the polls in the City of Boston on election and primary days at a later hour than six a. m."

Some weeks before the election we had several very hectic sessions as to whether the polls should close at four or at a later hour, and at that time all parties, however excited, agreed that one of the chief difficulties was the necessary opening of the polls when the sun rose. Due to the fact that the Legislature is coming in shortly, I would ask if the Committee on Legislative Matters are taking any steps to press the passage of a bill which will put the City of Boston in line with every other city in the Commonwealth except one.

President KEENE—Will Coun. Heffernan answer Coun. Wilson?

Coun. HEFFERNAN—Mr. President, I was under the impression that that particular matter had been referred to the Committee on Ordinances rather than to the Committee on Legislative Matters. I did not know that it was awaiting a hearing. If there are any matters concerning legislation pending before the committee, personally I am willing to call a meeting within the next week, because I think the Council should act on matters before it which should soon come up for legislative action. I did not know that that matter was in the Committee on Legislative Matters.

Coun. WILSON—It is, according to the minutes of October 4.

President KEENE—And the Chair will say that the Council received today from the Finance Commission copies of certain bills which it proposes to place before the Legislature, which copies have been referred to your committee.

Coun. HEFFERNAN—Very well, Mr. President.

HOOR OF NEXT MEETING.

Coun. ARNOLD—Mr. President, it has come to my attention that unless the Council meets at a little later hour than usual next week it will have to stay around here longer than it may wish, because of something that is coming up later in the day. Therefore, I move that when we adjourn it be to meet next Monday at three o'clock in the afternoon, instead of two.

Coun. Arnold's motion was carried.

RECONSIDERATION REFUSED.

On motion of Coun. McGRATH a reconsideration of all action taken today was refused.

Adjourned at 3 p. m., on motion of Coun. ARNOLD, to meet on Monday, December 20, at 3 p. m.

MAYOR NICHOLS EXTENDS SEASON'S GREETINGS TO CITIZENS.

Mayor Malcolm E. Nichols has made public the following Yuletide greeting to the Citizens of Boston:

I wish to express to all the people of Boston my sincere wishes for a very Happy Christmas and prosperity for the New Year.

MALCOLM E. NICHOLS, Mayor.

TRAFFIC ADVISORY BOARD NAMED FOR CITY.

Mayor Nichols announced on December 22 that he had appointed the following to serve as members of the Traffic Advisory Board. In naming this Board the Mayor stated that it would in no way interfere with the duties of any existing board or commission of the city, but will devote its efforts to a thorough study of existing rules, regulations and ordinances, and the preparation of a comprehensive plan which may be laid down for general guidance in meeting traffic conditions, to the end that a more harmonious and efficient method of treating with this serious problem can be devised.

The first meeting of the Board will be held next week, at which time, by invitation of his Honor, Professor William B. Munro of Harvard University will address the Board. The Mayor has also arranged to have Professor Miller McClintock of Harvard University meet with the members of the Board. Professor McClintock has directed the work of traffic conditions in many of the large cities of the country, such, for instance, as Chicago, and is a recognized expert in this important problem.

Day Baker, secretary, Motor Truck Club, representing the Team Owners' Association, Inc., and the Motor Truck Club of Massachusetts; Alton E. Briggs, representing Boston Fruit and Produce Exchange; Deputy Chief Albert J. Caulfield, representing the Fire Department; Edward Dana, general manager, Boston Elevated Railway, representing that company; Sidney S. Dean, chairman, Traffic Committee of Massachusetts Real Estate Exchange, representing that organization; Deputy Superintendent Thomas F. Goode, representing the Police Department; Joseph J. Hunt, representing Boston Central Labor Union; Gifford LeClear, representing the Boston Chamber of Commerce; George W. Mitten, president of Jordan Marsh Company, representing the Retail Trade Board of the Chamber of Commerce; William Stanley Parker, representing the City Planning Board; James Mason Rockwell, representing the Boston Real Estate Exchange; Frank Sawyer, 203 Bay State road; Fitz-Henry Smith, Jr., and Frank S. Deland, Corporation Counsel.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

STATEMENT RELATIVE TO BOARD OF OVERSEERS OF PUBLIC WELFARE.

The Mayor has issued the following statement relative to the Board of Overseers of Public Welfare:

There was a meeting of the Board of Overseers of Public Welfare in my office on Monday. The spirit of it appeared to be friendly and co-operative. The purpose of the conference was wholly to promote a friendly discussion of the affairs of the Board in the hope that a correct spirit of co-operation could be established. During the meeting I suggested that a temporary organization of the Board be effected and expressed the wish that Mr. Heller be elected Acting Chairman, as such a proceeding would bring about a closer relationship between the Board and the Mayor. There was no objection made to the expression of my wish, and every member of the Board who voted against Mr. Heller was present and at liberty to make objection if any existed.

It is hard for me to understand, therefore, how the Board could have immediately elected a permanent chairman, and it is a disappointment to me to find not only an absence of friendliness but continued evidence of discord.

This unexpected act of the Board is accompanied by a copy of resolutions conveying good wishes which seem to me like rich gifts that wax poor when givers prove unkind.

Foley & Sons, \$113,600; M. S. Kelliher Company, \$127,200.

SUPPLY DEPARTMENT.

Upon December 22 the Mayor approved a contract with bidders as indicated for furnishing turkeys to the various city departments. A communication from Herbert S. Frost of the Supply Department was as follows:

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Attached please find list of bids on proposals for furnishing turkeys to the various city departments for Christmas, 1926, which were publicly opened and read at this office under date of December 20, 1926.

A personal inspection was made by this department, in company with the chef of the Boston City Hospital, of all the turkeys bid upon with the following results. The turkeys submitted for purchase by Batchelder & Snyder Company, the lowest bidder, at 50.9 cents per pound were found to be of too poor a quality for use by the city. Regarding the turkeys offered by the two next lowest bidders, namely, Wattendorf & Feeney Company and the Mohawk Packing Company at 52 cents per pound, the quality of the ones offered by the Mohawk Packing Company was slightly superior to those of Wattendorf & Feeney Company and were on a par in quality with those offered by the Uphams Corner Market Company at 53 cents per pound. The

* If slag block system is used, deduct \$600.

† If slag block system is used, deduct \$900.

turkeys offered by the Uphams Corner Market Company are bought with the crops out while all the other bidders bid on turkeys with the crops in. This difference in weight would reduce the bid of the Uphams Corner Market Company, namely 53 cents, to at least 52 cents per pound.

In view of the facts outlined above, I would make the following recommendations that permission be granted me to award a contract to the Mohawk Packing Company for furnishing 200 pounds of turkeys to Deer Island, and 1,700 pounds to the Boston City Hospital at a price of 52 cents per pound, and that permission also be granted me to award a contract to the Uphams Corner Market Company for furnishing 1,200 pounds of turkeys to the Long Island Hospital and 650 pounds to the Boston Sanatorium at a price of 53 cents per pound.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

Bids, opened December 20, were as follows:

Fresh young No. 1 Tom turkeys, to weigh not less than twelve pounds each.

Boston City Hospital, 1,800 Pounds.—Wattendorf & Feeney Company, 52 cents per pound; Hicks & Smith, Inc., 54 cents per pound; Batchelder & Snyder Company, .509 cents per pound; Mohawk Packing Company, 52 cents per pound; Hamlin Richardson, 54 cents per pound; Uphams Corner Market Company, Inc., 53 cents per pound.

Deer Island, 200 Pounds.—Wattendorf & Feeney Company, 52 cents per pound; Hicks & Smith, Inc., 54 cents per pound; Batchelder & Snyder Company, .509 cents per pound; Mohawk Packing Company, 52 cents per pound; Hamlin Richardson, 54 cents per pound; Uphams Corner Market Company, Inc., 53 cents per pound.

Long Island, 1,200 Pounds.—Wattendorf & Feeney Company, 52 cents per pound; Hicks & Smith, Inc., 54 cents per pound; Batchelder & Snyder Company, .509 cents per pound; Mohawk Packing Company, 52 cents per pound; Hamlin Richardson, 54 cents per pound; Uphams Corner Market Company, Inc., 53 cents per pound.

Boston Sanatorium, 650 Pounds.—Wattendorf & Feeney Company, 52 cents per pound; Hicks & Smith, Inc., 54 cents per pound; Batchelder & Snyder Company, .509 cents per pound, discount, ten days, 2 per cent; Mohawk Packing Company, 52 cents per pound; Hamlin Richardson, 54 cents per pound; Uphams Corner Market Company, Inc., 53 cents per pound.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do the work with the department forces without advertising; additions to and deductions from contracts.

PUBLIC BUILDINGS DEPARTMENT.

Upon December 18 the Mayor approved a contract with the Thomas O'Connor & Co. for grading at the Dorchester Courthouse. A communication from John P. Englert, of the Public Buildings Department, was as follows:

BOSTON, October 18, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—On September 3, 1925, a contract was awarded to Thomas

O'Connor & Co. for the erection and completion of the Dorchester Courthouse, on a site at the junction of Washington and Tremlett streets, Dorchester. Before the actual construction of the building began, the city acquired further land in order to give the building a more commanding appearance. This resulted in the relocation of the building to conform to the new lot lines and the building was accordingly erected in the new location.

No provision was made at that time for the extra grading made necessary by the change of location and as the building is now practically completed, some action should be taken to provide the necessary grading for this building. If this work is not done very soon it will be impossible to do anything until next spring, on account of the frost which is liable to be with us at any time now.

Inasmuch as the contract for the erection of the building has been in the hands of Thomas O'Connor & Co., it would not be very ethical to put another contractor on this work, and furthermore it would take too much time to go through the usual form of advertising. It seems to me that the best interests of the city would be served if this work could be done by the present contractors, Thomas O'Connor & Co., and I respectfully request permission to award a contract to them in the sum of \$13,565, without the usual form of advertising, to do the necessary grading around the Dorchester Courthouse.

In conclusion, I wish to state that this change will provide for the entire completion of the building.

Respectfully yours,

JOHN P. ENGLERT,
Superintendent of Public Buildings.

SUPPLY DEPARTMENT.

Upon December 22 the Mayor approved a contract with John T. Benson for furnishing animals to the Park Department. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, December 14, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Under date of June 4, 1926, your approval was received for the award of a contract to John T. Benson, Nashua, N. H., for furnishing to the Park Department various animals for the Zoo to the amount of \$3,525. The Park Department has notified this department that Mr. Benson was unable to furnish all the animals as listed on the original permission, a copy of which I am attaching.

I would request that permission be granted me to award a contract to John T. Benson, Nashua, N. H., without publicly advertising for same, for the following animals which he is able to furnish:

One male Hamadryas baboon, \$200; one male Gelada baboon, \$250; one Moor macaque monkey, \$60; one male yellow baboon, \$75; four Javan monkeys at \$20, \$80; one Vervet monkey, \$35; one female llama, \$375; one white rhea, \$225; two rose pelicans, \$220; two African flamingoes, \$100; one crown pigeon, \$85; twelve Rhesus monkeys, \$150; two Stanley cranes, \$160; two yellow baboons at \$75, \$150; one male pigtail monkey, \$100; one Moor Macaque monkey, \$60; seven Javan monkeys at

\$20, \$140; one Vervet monkey, \$35; two Mangabey monkeys, \$100; one crown pigeon, \$85. Total, \$2,685.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

Upon December 22 the Mayor approved a contract with the Linscott Motor Company for one Reo sedan. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, November 29, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is requested to award a contract, without publicly advertising for same, to the Linscott Motor Company to deliver to the Park Department the following:

One 1927 five-passenger Reo sedan, with full factory equipment, \$1,690; less allowance on old Bay State touring car, \$300; net amount of contract, \$1,390.

As this concern is the manufacturer, no advantage would be gained by publicly advertising.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

Upon December 22 the Mayor approved a contract with the Chandler-Cleveland Motor Car Company for one sedan. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, December 20, 1926.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the Chandler-Cleveland Motor Car Company to deliver to the Supply Department the following:

One 1927 seven-passenger sedan, with full factory equipment, delivered, \$1,995; discount, \$489—\$1,506; less allowance on 1923 Bay State sedan offered in exchange, \$300; total, \$1,206; plus cost of installation of Lovejoy shock absorbers, \$96.25; net amount of contract, \$1,302.25.

The purchase of this new car is absolutely necessary owing to the fact that the present Bay State sedan now in use is a source of constant expense because of the numerous repairs which have to be made, and in my opinion the purchase of this car is a real economy.

As this concern is the manufacturer, no advantage would be gained by publicly advertising.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

BOSTON SANATORIUM.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Milton avenue, bounded:

Southerly by easement taken by the City of Boston for sewerage purposes August 16, 1926, six feet; westerly by another part of Milton avenue, one hundred and nineteen feet; northerly by the same, six feet; and easterly by the same, one hundred and nineteen feet containing seven hundred and fourteen square feet, more or less.

The sewerage works to be constructed are as follows: 119 linear feet of 10-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Milton avenue, northerly from Codman Hill avenue.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on the westerly side of Milton avenue, for a distance of approximately 138 feet northerly from the middle line of Codman Hill avenue extended, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 725, Sewerage Works, Milton Avenue, Dorchester, November 19, 1926, William J. Sullivan, Chief Engineer, Street Laying Out Department," and on file in the office of said department.

TRANSFER OF APPROPRIATIONS.

City Auditor Rupert S. Carven announces the following transfers in appropriations in departments of the City of Boston and County of Suffolk, indorsed by Budget Commissioner Charles J. Fox and approved by his Honor the Mayor:

INSTITUTIONS DEPARTMENT.

BOSTON, December 8, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Institutions Department:

From the appropriation for steamer "George A. Hibbard," A-1, Permanent Employees, Deckhands, 6 at \$1,100 per year, \$500, D-3, Fuel, \$500, to the appropriation for Child Welfare, C-16, Wearing Apparel, \$1,000.

The principal reason for need of transfer is increase in numbers, especially during the past few months. Also, it has gradually become necessary to provide clothing in addition to board for practically all the children, whereas a few years ago the department provided clothing only for the younger children and a few special cases. Now it is seldom possible to find a foster parent who can afford to furnish clothing.

Respectfully,

WILLIAM S. KINNEY,
Commissioner.

The above transfers were made by the City Auditor with the approval of the Mayor December 15, 1926.

BOSTON, December 8, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Institutions Department:

From the appropriation for steamer "George A. Hibbard," A-2, Temporary, \$25, to the appropriation for steamer "George A. Hibbard," B-8, Light, Heat, Power, \$25.

From A-2, Temporary, \$50, to B-13, Communication, \$50.

From A-2, Temporary, \$100, to C-11, Marine, \$100.

Small transfers required in closing accounts for year:

B-8, more required for electricity since repair of meter.

B-13, original estimate insufficient to cover necessary telephone service at Eastern avenue.

C-11, principally to cover cost of rope.

Respectfully,

WILLIAM S. KINNEY,
Commissioner.

The above transfers were made by the City Auditor with the approval of the Mayor December 15, 1926.

BOSTON, December 8, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Institutions Department:

From the appropriation for Boston Almshouse and Hospital, A-1, Permanent

Employees, Cement Worker and Plasterer' 1 at \$1,700 per year, \$400, to the appropriation for Child Welfare, B-4, Transporation of Persons, \$400.

From A-1, Permanent Employees, Cement Worker and Plasterer, 1 at \$1,700 per year, \$40, to D-8, Laundry, Cleaning and Toilet, \$40.

From A-1, General Mechanic, 1 at \$1,300 per year, \$50, to D-9, Educational and Recreational, \$50.

The principal reason for need of transfers requested above is the increase in number of children, especially during the past few months.

Respectfully,

WILLIAM S. KINNEY,
Commissioner.

The above transfers were made by the City Auditor with the approval of the Mayor December 15, 1926.

BOSTON, December 8, 1926.

RUPERT S. CARVEN,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Institutions Department:

From the appropriation for Boston Almshouse and Hospital, A-1, Permanent Employees, Cement Worker and Plasterer, 1 at \$1,700 per year, \$79; Firemen, 4 at \$36 a week, \$75; Meatcutter, 1 at \$1,300 per year, \$225; Nurses, Assistant Superintendent of, 1 at \$1,500 per year, \$475; Nurses, Supervisors of, 5 at \$1,300 per year, \$340; Nurses, Student, 45 at \$600 per year, \$806, to the appropriation for Child Welfare, C-16, Wearing Apparel, \$2,000.

The principal reason for need of transfer is increase in numbers, especially during the past few months. Also, it has gradually become necessary to provide clothing in addition to board for practically all the children, whereas a few years ago the department provided clothing only for the younger children and a few special cases. Now it is seldom possible to find a foster parent who can afford to furnish clothing.

Respectfully,

WILLIAM S. KINNEY,
Commissioner.

The above transfers were made by the City Auditor with the approval of the Mayor December 15, 1926.

LIBRARY DEPARTMENT.

BOSTON December 10, 1926.

RUPERT S. CARVEN,

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Library Department:

From the appropriation for B-39 Repairs, \$7,650, to the appropriation for B-4, Travelling Expenses, \$75; B-13, Telephone Service, \$300; B-18, Cleaning, \$80; D-1, Office Supplies, \$600; D-13, Chemicals and Disinfectants, \$70; D-16, General Supplies, \$225; E-10, Electrical Material, \$500; B-8, Light, \$2,800; A-3, Salaries, \$3,000.

To provide against certain deficiencies in the above accounts. On November 15 a transfer of \$3,000 was granted from A-1 to B-28 to meet bills for expert serv-

ice. A transfer back, of this amount to A-1 (Salaries) is now sought in order that there may be no deficit in meeting the personal service bill charges for the last week of the year.

Respectfully,

CHARLES BELDEN,
Librarian.

The above transfers were made by the City Auditor with the approval of the Mayor December 15, 1926.

PENAL INSTITUTIONS DEPARTMENT.

BOSTON, December 13, 1926.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of Rosemont road, S. E., as a highway, from Rosemont road, N. E., to Adams street, Dorchester district, with the name of Glenrose street or some other distinctive name, bounded and described as follows:

A highway named Glenrose road is hereby laid out, from Rosemont road, N. E., to Adams street, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northwesterly by Rosemont road, N. E., one hundred nineteen and 41-100 feet on a curve of one hundred fifty-seven and 63-100 feet radius; northeasterly by the northeasterly line of said Glenrose road as hereby laid out, one hundred eighty-five and 68-100 feet on a curve of seventy-eight feet radius; northerly by the northerly line of said Glenrose road as hereby laid out, four hundred twenty-nine and 3-100 feet; easterly by Adams street, by two measurements, fifty and 63-100 feet, and twelve and 57-100 feet on a curve of three hundred and seventy-five feet radius; southwesterly by the southwesterly line of said Glenrose road as hereby laid out, twenty-eight and 21-100 feet on a curve of fifteen feet radius; southerly by the southerly line of said Glenrose road as hereby laid out, three hundred ninety-three and 60-100 feet; southwesterly by the southwesterly line of said Glenrose road as hereby laid out, one hundred sixty and 12-100 feet on a curve of one hundred and eighteen feet radius; and southerly by the southerly line of said Glenrose road as hereby laid out, sixty-five and 53-100 feet on a curve of forty-eight and 29-100 feet radius.

Included in the above described land (taken hereunder) are parts of certain

parcels of land registered in the Land Court, said parcels being shown on the plan hereinbefore referred to, and said parts being the portions of said registered parcels which lie between the side lines of said Glenrose road and the middle line thereof; the owners of said portions, the number of the certificate of title and the book and page where the same is registered are as follows:

The Department of Civil Service and Registration will hold a competitive examination for promotion to the grade of sergeant in the Boston Police Department, according to the following notice received at this office on December 17, 1926. This examination will be held on January 3, 1927.

1. This examination is limited to members of the Boston Police Department who have had at least two years' experience in the management of a stable where hostlers are employed.

2. The subjects of examination with their respective weights will be as follows: Training and experience, 9; report, 3; practical questions on police law, practice and procedure 8; practical questions on horses, 10; total, 30. Applicants will be required to obtain a mark of at least 65 per cent in the questions on horses and in general average.

3. Application blanks may be secured from the office of Hon. Herbert A. Wilson, Police Commissioner, 154 Berkeley street, Boston. The vouchers on these blanks need not be filled out. When completed, applications should be returned to the Department of Civil Service and Registration, Division of Civil Service, Rooms 148-152, State House, Boston, not later than December 27.

4. Experience sheets will be mailed to applicants about a week in advance of the examination and they will then be notified of the precise time and place of examination.

Persons concerned will notice particularly that applications when filled out are to be returned to the office of the Civil Service Commission, State House, Boston, not later than Monday, December 27, 1926, a week before the date set for the examination.

Commanding officers will promulgate this order not only by reading it at roll call, but by posting a copy thereof in a conspicuous and accessible place in each Station House, where it may be easily read; and it shall remain posted until after the date of the examination.

Commanding officers will secure a fresh copy from the superintendent, if the posted copy becomes mutilated or destroyed.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

EXTRA WORK UNDER CONTRACT.

BASKETBALL TOURNAMENT IN MUNICIPAL GYMNASIA.

Mayor Nichols has instructed Chairman William P. Long of the Park Commission, to arrange for a basketball tournament to be held during the winter season in the municipal gymnasias.

The Park Commissioners, in connection with the Community Service of Boston, have arranged for what is known as the Inter-Community Basketball League, the first games of which will be played on Saturday evening, January 15, 1927, in the municipal buildings of Boston.

The recent City Wide Boys Conference, organized by Mr. Joseph Lee, president of the Community Service of Boston, will supply teams in the league and representatives on the Basketball Committee. In addition, the Y. M. H. A., Y. M. C. A., Roxbury Boys' Club, Boy Scouts, National Athletic Union, and other civic clubs will be represented. The Rotary Club and Kiwanis Club are also interested.

The league is open to any amateur basketball team in Boston whose players are not under fourteen years of age. The games will be played in the municipal buildings on Saturday evenings, but if the number of teams exceed the capacity of the gymnasiums, other arrangements will be made.

All applications for the league must be in to John A. Lane, Physical Director, Park Department, 33 Beacon street, Boston, and William D. Russell, Jr., at the Community Service office, 739 Boylston street, Boston, not later than Monday, January 10, 1927.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of an extension of St. Marks road as a highway, from Florida street to Adams street, over and including the private ways known as Rosemont road and Rosemont road, N. MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

The Massachusetts Civil Service Commission announce examinations for desirable positions open in the Boston and Metropolitan districts as follows:

PLAYGROUND WORKERS, SUPERVISORS, AND ASSISTANT SUPERVISORS, CITIES, DECEMBER 28, 1926.

This examination will be for the service of all the cities and towns in the state where these positions are under civil service.

The playgrounds ordinarily are open from April to November. During the school year sessions are usually held after school hours and on Saturdays, and on all days except Sundays during the summer. In the summer the usual salary is from \$15 to \$25 a week. The examination is open to both men and women.

The general duties of playground workers require a knowledge of the interests of children, ability to organize and conduct playground activities and adult recreation. It is desirable that applicants have education, training or experience in physical culture, playground work and physical training of juveniles.

Applicants must be high school graduates.

The subjects of examination with their respective weights will be as follows: Training and experience, 1; practical questions, 1; total, 2. There will be one set of special questions for applicants interested in boys' work, another set for those interested in girls' work, and a combination set for those wishing to qualify for both boys' and girls' work. There will probably also be a supplementary paper for those wishing to qualify as swimming instructor in playgrounds having a pool.

Successful applicants will be required to file a certificate from a reputable physician as to their physical fitness for the position.

Applicants who wish to be certified to positions as playground supervisors should have at least two years' actual experience in playground work.

FOUNDRY FOREMAN, STATE PRISON, DEPARTMENT OF CORRECTION, JANUARY 3, 1927.

The salary is \$2,400 per year.

The duties of this position require that applicants be experienced in floor, bench and machine molding, baked and green sand core making, cleaning, snagging and tumbling castings, have a knowledge of cupola practice and mixes of iron for various purposes, knowledge of brass melting and compositions for different requirements, and be familiar with mechanical equipment incidental to a small foundry.

The subjects of examination with their respective weights will be as follows: Training and experience, 2; practical questions on the duties of the position, 3; total, 5.

Applicants will be required to obtain a mark of at least 65 per cent in each subject of the examination, in order to become eligible.

Physical examination required.

LAND-TAKING IN WEST ROXBURY.

POLICE DEPARTMENT ORDERS.

General Order No. 1003.

A trial board consisting of Captains Goodwin, Dailey and Patterson, having heard by reference two complaints against Patrolman Reginald C. Millett of Division 9, charging him with conduct unbecoming an officer, has reported to the commissioner a finding of not guilty on each complaint. In accordance with which it is hereby ordered that the two complaints against Patrolman Reginald C. Millett be dismissed.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

General Order No. 1004.

The resignation of Patrolman Thomas F. Rogers of Division 9 having been presented, it is hereby accepted, to take effect Tuesday, December 21, 1926, at 5.45 o'clock p. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

EXTRA WORK UNDER CONTRACT.

John T. Shea & Co. have been directed to perform the following extra work under the contract for roof coverings on office building and stable in the Child street paving yard, Jamaica Plain. Items ordered: Remove old zinc flashing where directed and replace with new zinc flashing. Price to be paid the sum of \$60. Estimated cost of extra work, \$60.

MAYORS OF BOSTON.

In its 103 years of existence as a city Boston has had 36 elected Mayors and five *ex-officio* Acting Mayors. Of the 36 men who have held the office for one year or more, six were elected for other than consecutive terms and 25 were re-elected one or more times. Those born within the present limits of Boston numbered 21; in towns near Boston, 8; in neighboring New England States, 5; in Ireland, 2. The Mayor longest in office was Mayor Curley who served 4 years ending Feb., 1918 and 3 years and 11 months, ending 1925. Next in length of service was Mayor Lincoln, serving 3 years ending 1860 and 4 years ending 1866. The first Mayor Quincy had the distinction of serving through six successive one-year terms ending 1828, and Mayor Fitzgerald also served six years but in two separated terms. Those who served 4 years were Mayors Prince, O'Brien, Matthews, (third) Quincy, Hart and Peters. Mayor Collins was in office nearly 4 years, his death occurring 3½ months before his second term expired. Those serving 3 years were Mayors Otis, Eliot, Chapman (second) Quincy, Bigelow, Shurtleff and Cobb; 2 years, Mayors Wells, Lyman, Brimmer, Seaver, Smith, Rice, Wightman, Gaston, Pierce (22 months) and Hibbard; 1 year, Mayors Phillips, Armstrong, Davis, Norcross, Green, Palmer, Martin and Curtis. The five Acting Mayors were Chairmen (Board of Aldermen) Parker, Leavitt, Allen, Cutter and Whelton.

Mayor Otis was Speaker of Massachusetts House of Representatives, President of Senate, Representative in Congress also Senator before becoming Mayor. Mayor Armstrong was Lieutenant-Governor and at times Acting Governor before serving as Mayor. Mayors Rice and Gaston served 3 years and 1 year (respectively) as Governor after their terms as Mayor. Mayors Collins, Curley, Fitzgerald, Peters, Pierce and Rice have represented Boston in the lower house of Congress, Mayor Peters having also served as Assistant Secretary of the Treasury.

Ex-Mayor Curtis was appointed Police Commissioner in 1919 for term of five years but his service was terminated by his death in 1922. Ex-Mayor Quincy died in 1919, and Ex-Mayor Green in 1918. (See annual City Doc., *Municipal Register*, for full list of Mayors from 1822 to 1925, with place and date of birth, years of service and date of death.)

BOSTON CHARTER CHANGES.

In 1854, 1885, 1909 and 1924 important changes in the original City Charter of 1821 were effected for the purpose of improving the methods and efficiency of the City Government. The revision of 1854 (Chap. 448, Stat. 1854) referred to the voters for acceptance, gave the Mayor a qualified veto over the action of the City Council, also the power of removal of appointed officials, besides providing for his election by a plurality instead of a majority vote. The amendments of 1885 (Chap. 266, Stat. 1885) were not submitted to the voters for approval. They transferred all the executive powers to the Mayor, prohibiting the City Council form interference with the executive and administrative business of the City. This was done in order to end the inefficiency resulting from an excessive number of joint committees, a municipal development conforming to the traditions of the outgrown town government.

The amendments of 1909 (Chap. 486, Stat. 1909) cut down the number and powers of the legislative branch of the government to a minimum, the Board of Aldermen (13 members) and the Common Council (75 members) being abolished. For these was substituted a single City Council of nine members to be elected at large for 3-year term. The Mayor's position was further strengthened by giving him a 4-year term, subject to recall at end of two years, but requiring a majority vote of the registered voters to make the recall effective. The Mayor's power over appointments was no longer subject to check by aldermen but by a State board, the Civil Service Commission and City elections were removed from all connection with national and State politics, no primaries nor caucuses being permitted, all candidates for office to be selected by means of nomination papers. The only

question in this Act of 1909 which was submitted to the voters was contained in section 35, *i. e.*, whether Plan 1 or Plan 2 should be adopted, the first, providing for a term of two years for Mayor and a City Council of 36 members to be chosen in primaries. Plan 2, providing for City Council of 9 members, was adopted by a majority of 3,894.

Charter of 1909 amended later as follows: (1) By Chap. 437, Acts of 1910, exempting loans issued for Rapid Transit construction from the prohibition of the establishing of sinking funds, as contained in sec. 26. (2) Chap. 730, Acts of 1914, fixing date of annual municipal election on the sixth Tuesday after the state election instead of in the following January, as in sec. 32; changing the requirements as to signatures on nomination papers to 3,000 for Mayor and 2,000 for City Council and School Committee instead of 5,000 for all, as in sec. 53, also limiting the number of nomination papers issued to 300 for a candidate for Mayor and 200 for other candidates, referring to sec. 54. (3) Chap. 37, Special Acts of 1918, annulling the jurat at end of nomination papers. (4) Chap. 94, Special Acts of 1918, abolishing recall of Mayor and making him ineligible for re-election, *i. e.*, establishing a single term of four years, but not prohibiting the election of any Mayor for other than consecutive terms. (5) Chap. 288, Acts of 1921, fixing date of the annual municipal election on the first Tuesday after the second Monday in December, also making slight changes as to nominations. (6) Chap. 133, Acts of 1922, changing publication of list of City officials and employees to every second year from 1923. (7) Chap. 479, Acts of 1924, providing for biennial City elections (dating from Nov. 3, 1925); for borough or ward representation in City Council; for a fiscal year dating from Jan. 1 to Dec. 31, beginning in 1926, also a municipal year dating from the first Monday in January, to begin in 1926; for election of the five members of School Committee in 1925, the candidates receiving the two largest votes to hold office four years, the other three for two years and at the election in 1927 and thereafter the term for all to be four years.

The only amendment of 1924 subject to a referendum was the alternative of Plan 1 or Plan 2 as to the City Council. At the State election on Nov. 4 Plan 2 was adopted, providing for the election by each ward in 1925 and every second year thereafter of one councillor for 2-year term.

SETTLEMENT OF BOSTON, 1630.

Effected by Puritan colonists under Governor John Winthrop in the latter part of August, 1630. The name of the original settlement was changed to Boston from Trimountaine by order of the Court of Assistants on September 7 (O. S.), 1630. This date was moved forward by the New Style calendar in 1752 to Sept. 17, the recognized date of the founding of Boston. The name, Trimountaine, had been given because of the three peaks of the most prominent hill, afterward called Beacon Hill, much higher then than now. By the Indians the place was called Shawmut. The name, Boston, was derived from the English town of Boston in Lincolnshire, the home of some of the leading colonists and promoters of the enterprise.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR FURNISHING DOUBLE AND SINGLE TEAMS AND AUTO TRUCKS.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for furnishing double and single teams and auto trucks in Districts Nos. 1, 2, 3, 4, 5, 6-9, 7, 8, 10 and 11, between January 1, 1927 and December 31, 1927, and giving bond therefor of a surety company approved by the Commissioner in the sum of 50 per cent of the amount of the contract, for each district, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Furnishing Teams," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Wednesday, December 29, 1926, with a certified check for 5 per cent of the amount bid for each district payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. The attention of all bidders is called to the fact that failure to bid on furnishing auto trucks and chauffeur may lead to rejection of the entire bid. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price bid on any district appears to the Commissioner to be abnormally high or low it may lead to the rejection of the proposal for said district. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interests of the city so to do.

JAMES H. SULLIVAN,
(Dec. 25.) Commissioner of Public Works.

CITY OF BOSTON.

SCHOOLHOUSE DEPARTMENT.

TO MANUFACTURERS OF STEEL LOCKERS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for furnishing and setting up steel shelving in the Charlestown High School Annex, Cross and Cedar streets, Charlestown, Boston, Mass., and giving bond of a surety company approved by the Commissioners therefor in the sum of 45 per cent of the entire contract price. Only proposals obtained at the office of the Commissioners, Room 1009, City Hall Annex, signed by the bidder and left before 12 o'clock m. of Monday, January 3, 1927, at said office, with a certified check for \$500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The proposal shall be made in duplicate, the one with the check to be submitted as indicated above, and the other to be deposited with the City Auditor, City Hall, previous to the time named for opening proposals. The Commissioners reserve the right to reject any or all proposals. A deposit of \$10 in cash or by certified check will be required for a complete set of specifications, said sum to be refunded on return of specifications. Mutilation of the specifications will be deemed sufficient cause for the forfeiture of the said deposit.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR REBUILDING WEST NEWTON STREET BRIDGE OVER THE NEW YORK, NEW HAVEN & HARTFORD RAILROAD.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for rebuilding West Newton Street Bridge, and giving bond therefor of a surety company approved by the Commissioner in the sum of twenty thousand (20,000) dollars, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex, after Monday, December 13, 1926. Each proposal should be inclosed in an envelope, sealed, marked "Bid for Rebuilding West Newton Street Bridge," and left at Room 508, fifth floor, City Hall Annex, before 12 o'clock m. of Tuesday, January 4, 1927, with a certified check for two thousand (2,000) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the bid containing such price. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interest of the city so to do.

JAMES H. SULLIVAN,
(Dec. 25.) Commissioner of Public Works.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR REBUILDING SPANS 11 AND 12 OF BROADWAY BRIDGE OVER THE NEW YORK, NEW HAVEN & HARTFORD RAILROAD.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for rebuilding spans 11 and 12 of Broadway Bridge, and giving bond therefor of a surety company approved by the Commissioner in the sum of thirty thousand (30,000) dollars, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex, after Monday, December 13, 1926. Each proposal should be inclosed in an envelope, sealed, marked "Bid for Rebuilding Spans 11 and 12 of Broadway Bridge," and left at Room 508, fifth floor, City Hall Annex, before 12 o'clock m. of Tuesday, January 4, 1927, with a certified check for thirty-five hundred (3,500) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the bid containing such price. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interest of the city so to do.

JAMES H. SULLIVAN,
(Dec. 25.) Commissioner of Public Works.

PUBLIC BUILDINGS DEPARTMENT.

FURNITURE CONTRACTORS.

The Superintendent of Public Buildings of the City of Boston invites sealed proposals to furnish and install furniture in courthouse, Dorchester, Mass., giving bond of a surety company satisfactory to the Superintendent of Public Buildings therefor in the sum of 45 per cent of the entire contract price. Only proposals obtained at the office of the Superintendent of Public Buildings, 802 City Hall Annex, signed by the bidder and left before 12 o'clock m. of Wednesday, December 29, 1926, at said office, with a certified check for \$1,000 on a Boston bank, payable to the City of Boston if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made out in duplicate, the one with the check to be submitted as indicated above, the other to be deposited with the City Auditor, City Hall, before the time of opening of bids. The Superintendent reserves the right to reject any or all proposals.

JOHN P. ENGLERT,
(Dec. 25.) Superintendent of Public Buildings.

CITY OF BOSTON.

TRANSIT DEPARTMENT.

PROPOSALS FOR BRAID OR LEAD COVERED CABLE AND WIRE.

The Transit Department of the City of Boston, 1 Beacon street, seventh floor, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States for furnishing and delivering, freight prepaid, f. o. b. cars, Walworth siding, East First and O streets, South Boston, Mass., about 125,400 feet of braid or lead covered insulated cable and wire.

If the proposal is accepted a bond of an approved surety company will be required for the faithful performance of the contract in the sum of \$5,000. Proposals should be filled out and signed by the bidder on forms to be obtained at this office, inclosed in an envelope, sealed, indorsed "Proposal for Cable and Wire," and left at the above address before 12 o'clock noon on Tuesday, January 11, 1927, at which time and place they will be publicly opened and read. A properly certified check in the sum of \$2,000, payable to the city, should accompany this proposal. The check shall become the property of the city if the contract, within the time prescribed after the date of the notification by the department of the acceptance of the proposal and the readiness of the contract for signature, is not executed by the bidder. Proposals must be made in duplicate. The sealed duplicate, without check, is to be deposited by the bidder with the City Auditor, Room 20, City Hall, previous to the time named for opening the proposals. Specifications and forms of contract can be obtained at this office. Bids will be received for any or all items of the proposal.

By order of the CITY OF BOSTON TRANSIT DEPARTMENT.

(Dec. 25.) A. D. ADAMS, Acting Secretary.

SCHOOLHOUSE DEPARTMENT.

TO MANUFACTURERS OF STEEL LOCKERS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for furnishing and setting up steel lockers in the Charlestown High School Annex, Cross and Cedar streets, Charlestown, Boston, Mass., and giving bond of a surety company approved by the Commissioners therefor in the sum of 45 per cent of the entire contract price. Only proposals obtained at the office of the Commissioners, Room 1009, City Hall Annex, signed by the bidder and left before 12 o'clock m. of Monday, January 3, 1927, at said office, with a certified check for \$500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The proposal shall be made in duplicate, the one with the check to be submitted as indicated above, and the other to be deposited with the City Auditor, City Hall, previous to the time named for opening proposals. The Commissioners reserve the right to reject any or all proposals. A deposit of \$10 in cash or by certified check will be required for a complete set of specifications, said sum to be refunded on return of specifications. Mutilation of the specifications will be deemed sufficient cause for the forfeiture of the said deposit.

FRANCIS E. SLATTERY,
CHARLES P. NORTON,
JAMES W. H. MYRICK,
(Dec. 25.) Commissioners.

HOSPITAL DEPARTMENT.

PROPOSALS FOR THE PURCHASE OF TRIMMINGS, BONES AND GREASE.

The Trustees of the Boston City Hospital invite sealed proposals for the purchase of the following materials from the hospital proper, South Department and Haymarket Square Relief Station, between date of execution of contract and January 1, 1928.

Trimnings, 1,000 pounds per month, more or less.

Bones, 3,550 pounds per month, more or less.
Grease from kitchen, 500 pounds per month, more or less.

Suets, 200 pounds per month, more or less.
Cods, 100 pounds per month, more or less.
Grease from traps, 1,000 pounds per year, more or less.

The price offered is to be price per pound on each of the above items, which is to include removal of grease from traps. The purchaser is to provide proper receptacles and remove these materials from the kitchen daily, except Sunday, before 11 o'clock a. m., and the grease from the grease traps whenever notified by the hospital so to do. Payments for materials taken to be made monthly. A bond will be required for the faithful performance of the contract. Proposals to be addressed "The Boston City Hospital, Proposal for Trimmings, Bones and Grease," and left at the hospital, 818 Harrison avenue, not later than Tuesday, January 4, 1927, at 12 o'clock m., at which time and place said proposals will be publicly opened and read. The right is reserved to reject any or all proposals.

By order of the Trustees.
